1.0 EXECUTIVE SUMMARY

Environmental Audit, Inc. (EAI) was retained Keusder Homes, Inc. (Client) to conduct a Phase I Environmental Site Assessment (Phase I ESA) of the real property identified as 705-715 W. Fletcher Avenue, City of Orange, Orange County, California 92865 (Site) (see Figure 1). The Site (approximately 31,200 square feet) is identified by the County of Orange as Assessor's Parcel Numbers 374-261-10 and 374-261-11 and is currently a vacant lot (see Figure 2).

Aerial photographs from 1938 and 1946 depict the Site being used for agricultural purposes. An aerial photograph from 1952 depicts a structure on the southwestern portion and northeast portion of the Site. Between 1962 and 2021, the Site was occupied by Bill's Sweeping Service, LLC (BSS), a company that provided construction street sweeping services.

A prior Phase I ESA of the Site was conducted by FERO Environmental Engineering, Inc. (FERO) in 2022. FERO identified use of the Site, prior to development in the 1950s, as agricultural, with development thereafter being BSS between 1962 and 2022. FERO identified one 1,000-gallon steel underground storage tank (UST), which EAI has identified as UST-1, as being formerly located on the Site (see Figure 2). UST-1 was removed on April 28, 1987, under oversight by the City of Orange Fire Department (City Fire). FERO was unable to locate any records indicating whether soil sampling and testing was conducted in association with removal of UST-1. Records available on the GeoTracker website and contained in the FERO report indicate that UST-1 closure was issued on April 7, 1988. FERO concluded that there were no recognized environmental conditions and that no further action was required for the Site.

EAI's review of records associated with this Phase I ESA located three additional USTs at the Site that have been identified as follows (see Figure 2):

- One 500-gallon diesel (UST-2).
- One 500-gallon gasoline (UST-3).
- One 6,000-gallon double wall (split into 4,000- and 2,000-gallon compartments) gasoline/diesel (UST-4).

UST 2 and UST 3 were removed on April 28, 1987 (same time UST-1 was removed), under oversight by City Fire. Soil samples collected beneath UST-2 and UST-3 following removal indicated no soil contamination, i.e., no detectable concentrations of total hydrocarbons, benzene, toluene, ethylbenzene, or xylenes. A City Fire inspection report dated April 28, 1987, states that the 1,000-gallon UST has soil contamination (i.e., UST-1) and indicates the 500-gallon USTs (i.e., UST 2 and UST 3) did not have any signs of soil contamination. Records also indicate that soil around and beneath UST-1 was excavated to a depth of ~15 feet and spread out in a one-foot layer placed on heavy plastic sheeting in the yard and allowed to aerate for several weeks. Following completion of this work, closure for UST-1 was issued on April 7, 1988.

With respect to UST-4, records indicate UST-4 was installed in 1987, following removal of UST-1, UST-2 and UST-3. Several correspondences between BSS and City Fire in the 2002 and 2003, indicated issues with UST-4, i.e., UST-4 was out of compliance because of the failure to conduct secondary containment testing every 36 months. These records indicate BSS wanted to remove UST-4 and replace it with an aboveground storage tank (AST). Based on evaluation of records related to UST-4 and discussions with Mike Carter, a property owner representative and President of BSS, EAI suspects UST-4 was removed on January 27, 2004[1]. However, EAI was unable to locate any records for removal of UST-4. Therefore, EAI recommended soil sampling and testing at the former location of UST-4.

On May 30, 2025, three borings identified as B-1, B-2 and B-3 were advanced by Strongarm Environmental Field Services to a depth of 15 feet under the supervision of EAI staff (Brian Beltz) at the former location of UST-4 (see Figure 3). Soil samples were collected from each boring at 5, 10 and 15 feet for analytical testing. Field evidence of contamination (i.e., photoionization detector (PID) reading, visual or olfactory) was not noted at any of the sampling locations. Because soil samples were to be analyzed for volatile organic compounds (VOCs), samples were collected in accordance with the requirements of EPA Method 5035. All nine soil samples were analyzed for total petroleum hydrocarbons as gasoline (TPH-G), diesel (TPH-D) and oil (TPH-O), and VOCs. TPH-G, TPH-D, TPH-O and VOCs were not detected in the soil samples analyzed.

EAI was informed that Client is considering acquiring the Site for residential development and wanted to know whether there are any recognized environmental conditions associated with the Site. This Phase I ESA was conducted by EAI in general conformance with the scope and limitations of the American Society for Testing and Materials (ASTM) Standard E1527 – "*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*" dated December 21, 2021 (ASTM, E1527-21) and ASTM Standard E2600 – "*Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*," dated May 18, 2022 (ASTM, E2600-22) in order to determine if there are any recognized environmental conditions associated with the Site. Federal law (Comprehensive Environmental Response, Compensation, and Liability Act [CERCLA] of 1980, as amended) addresses liability and liability protections for environmental contamination. All Appropriate Inquiry (AAI) is the process for evaluating a property's environmental conditions for the purpose of qualifying for certain liability protection under CERCLA. The U.S. Environmental Protection Agency (EPA) has determined that ASTM Standard E1527 is consistent and compliant with the AAI regulations.

For purposes of this report, there are three types of recognized environmental conditions as defined below:

- **Recognized Environmental Condition (REC) means**: (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products

[1] City of Orange Permit No. 0312-289 issued for removal of an UST, dated January 27, 2004.

in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

- **Controlled Recognized Environmental Condition (C-REC) means**: a condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).

- **Historical Recognized Environmental Condition (H-REC) means**: a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

An "*environmental issue*" is defined herein as an environmental concern identified by EAI that does not qualify as a REC, but warrants further discussion.

A "*de minimis"* condition is defined herein as a condition related to a release that generally does not represent a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

A "*significant data gap*" is defined herein as a lack of or inability to obtain information required despite good faith efforts that affects the ability of the environmental professional to identify a REC.

Based on the information contained and/or referenced herein, EAI concludes the following:

- **REC**:

  - None.

- **C-REC**:

  - None.

- **H-REC**:

  - UST-1, UST-2 and UST-3 removed from the Site under oversight by City Fire with a no further action (NFA) determination issued on April 7, 1988.

- **Environmental Issue**:

  - Former UST-4 suspected to have been removed on January 27, 2004. Soil sampling and testing conducted for UST-4 on May 30, 2025, did not encounter any detectable concentrations of TPH-G, TPH-D, TPH-O or VOCs.

- **De Minimis Conditions**:

  - Former use of the Site for agricultural purposes.

- **Significant Data Gaps**:

  - None

No further action is required for the Site.

2.0 INTRODUCTION

2.1 PURPOSE

The purpose of the Phase I ESA is to determine if there are any RECs, C-RECs and/or H-RECs associated with the Site.

2.2 SCOPE OF WORK

The Phase I ESA was completed by EAI in general accordance with ASTM, E1527-21. The scope of the Phase I ESA included:

- **Records Review**: Review available public records associated with the Site and surrounding properties. Records included, but were not limited to:

  - Prior assessments of the Site;
  - Site land use and zoning maps;
  - Geologic, topographical and hydrogeologic maps;
  - Environmental database indices;
  - Aerial photographs;
  - Sanborn Fire Insurance maps; and
  - Information available at local, regional, state and federal regulatory agencies.

- **Site Reconnaissance and Interviews**: Interview appropriate personnel and conduct a detailed walk-through inspection of the Site and existing conditions to determine whether:

  - Hazardous substances are/were used on the Site;
  - Hazardous wastes are/were generated as a result of Site operations;
  - There is any evidence of Site contamination; and
  - There is the potential for Site activities to impact the environment

  An inspection of the properties neighboring the Site was also made from the property line, public right-of-way, or similar vantage point.

- **Report Preparation**: Preparation of a report presenting the findings of the Phase I ESA, including recommendations.

2.3 USER PROVIDED INFORMATION

EAI questioned Bart Hornstein of Client regarding his knowledge of the Site. A summary of the answers to the questions is provided below.

	YES	NO
● Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?		X
● Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?		X
● Do you have any specialized knowledge or experience related to the property or nearby properties?		X
● Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? *Prior Phase I ESA prepared for the Site in 2022 (see FERO, 2022)*.	X	
● Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?		X

3.0 SITE DESCRIPTION

The Site is comprised of two parcels of real property totaling approximately 0.72 acres and is presently vacant and unpaved (see Figure 2).

The Site is provided water and sewer by the City of Orange, electrical service by Southern California Edison (SCE) and gas service by the Southern California Gas Company.

3.1 ASSESSOR'S PARCEL NUMBER

The following County of Orange APNs (see Appendix A) and addresses are known to be associated with the Site:

Site	Address
APN 374-261-10 (~0.36 acres)	705-715 W. Fletcher Avenue
APN 374-261-11 (~0.36 acres)	

3.2 LAND USE AND ZONING

The Site is located within the jurisdiction of the City of Orange and is zoned R3 - Residential Multiple Family.

3.2.1 Current

Since 2021, the Site has been vacant. In 2022, all structures associated with the Site were removed.

3.2.2 Historical

Aerial photographs from 1938 and 1946 depict the Site being used for agricultural purposes. An aerial photograph from 1952 depict a structure on the southwestern portion and northeast portion of the Site. Between 1962 and 2021, the Site was occupied by BSS, a company that provided construction street sweeping services. Based on discussions with Mike Carter, the structure on the southwestern portion of the Site was a house that remained until the Site was demolished in 2021.

3.2.3 Surrounding

Land use surrounding the Site is a mixture of residential and industrial development (see Figure 4). Immediately surrounding the Site to the north, east and west are residential developments. To the south, across W. Fletcher Avenue are industrial developments such as Marathon Motors, All Proof Decks, Cundiff Steel, Fletcher Coatings Co., and United Tile.

3.3 ENVIRONMENTAL SETTING

The Site is located at an elevation of approximately 200 feet above sea level in the Peninsular Ranges geomorphic province of southern California within the dissected Orange County Coastal Plain of the Los Angeles basin. Topographically, the area slopes to the west southwest. The nearest water bodies are the Fletcher Retarding Basin located immediately south of the Site across W. Fletcher Avenue and the Santa Ana River located approximately 2,500 feet west of the Site (see Figure 1).

The coastal plain is underlain with over 10,000 feet of marine and non-marine sediments. The upper several hundred feet of sediments is composed of unconsolidated recent alluvium consisting of stream channel and over-bank deposits made up of interbedded gravel, sand, silt, and clay. The Site is bounded to the east by the Central Valley and Sierra Nevada Provinces. The coastal mountain ranges of the area are underlain by severely folded, faulted, commonly metamorphosed marine and continental sediments and form the Pacific Border and Lower Californian Physiographic Provinces.

Groundwater in the area of the Site is produced from the Coastal Basins aquifers. These aquifers occupy a number of basins in coastal areas from northern to southern California. All are in structural depressions formed by folding and faulting, filled with marine and alluvial sediments, and are drained by streams that contain water at least part of the year. The principal water-yielding units are unconsolidated continental clastic deposits of Cenozoic age that partly fill fault-created structural basins.

4.0 RECORDS REVIEW

Numerous information sources were reviewed to develop an understanding of the current and historical land use practices at the Site and surrounding properties that may impact the Site, associated with the handling, use, storage and/or disposal of hazardous substances or wastes. Specific sources of information reviewed and activities conducted included:

- Prior assessments of the Site;
- Land use and zoning maps;
- Geologic, hydrogeologic and topographic maps;
- Sanborn Maps;
- Aerial photographs;
- Environmental database indices; and
- Records available at local, regional, state and federal regulatory agencies.

It should be noted that regulatory agency records often are incomplete or inaccurate. Such records do not necessarily include information regarding all possible sources of contamination at a given site. EAI makes no claim that the agency records described herein are the only agency records that contain information regarding the Site and/or surrounding properties.

4.1 PRIOR ASSESSMENTS OF THE SITE

A prior Phase I ESA of the Site was conducted by FERO Environmental Engineering, Inc. (FERO) in 2022 (see FERO, 2022). FERO identified use of the Site, prior to development in the 1950s, as agricultural, with development thereafter being primarily BBS between 1962 and 2022. FERO identified several double-walled ASTs that stored diesel (2,000-gallons), new oil (200-gallons) and waste oil (220-gallons), and UST-1 as formerly being associated with the Site.

FERO identified a number of recordkeeping violations for the oil and waste oil ASTs. The recordkeeping violations were corrected and Site brought back into compliance. No violations related to spills or leaks were noted.

UST-1 was removed on April 28, 1987, under oversight by City Fire. FERO was unable to locate any records indicating whether soil sampling and testing was conducted; impacted soil identified; and if any remedial measures were required related to the UST. FERO reported that a NFA determination was made for UST-1 on April 7, 1988. FERO concluded that there were no recognized environmental conditions associated with the Site and that no further action was required for the Site.

4.2 ENVIRONMENTAL DATABASE INDICES

EAI retained Environmental Data Resources, Inc. (EDR) to conduct a search of available public record database indices covering the Site and properties within the area (see Appendix B). The radius search distances for the various federal, state, local and tribal database lists reviewed complies with the requirements of ASTM, E1527-21. The Site was identified on the following database lists:

Entity	Database
Bills Sweeping Service	CA RGA LUST, CA UST, UST Finder Release, CA AST, CA Sweeps UST, CA FID UST, CA Cortese, CA HIST CORTESE, CA CERS, FINDS, CA CERS HAZ WASTE, CA CERS TANKS, CA HWTS, CA HAZNET
Venture Point	ECHO, RCRA NonGen / NLR, E MANIFEST, FINDS

These database lists identify hazardous waste generation, ASTs, USTs, and a possible release(s) related to USTs at the Site. EDR identified several properties within the area of the Site that are known or suspected to be contaminated, generators of hazardous waste, contain(ed) USTs, conducted auto repair activities, etc. (see Table 1).

4.3 CITY DIRECTORY ABSTRACT REPORT

Appendix C contains a copy of the EDR City Directory Abstract report for the Site. This report provides information obtained for the Site and selected off-site properties near the Site based on review of city directories, e.g., telephone books. Directories covering the time period ranging between 1995 and 2020 were reviewed by EDR. The following entities were identified for the Site:

Address	Year	Entity
705 W. Fletcher Avenue (aka 705 Fletcher Street and 705 Fletchr)	1986	Carter M
	1980	Carter M
	1975	Corel Eugene W
	1970	Corel Eugene W
	1966	Co Ordinated Sweeping Services
715 W. Fletcher Avenue (aka 715 Fletcher Avenue, 715 Fletcher Street and 715 Fletchr)	1995	Bills Sweeping Service Inc Carter DM Carter RF
	1991	Bills Sweeping Service Inc Carter DM Carter RF Carter RHR
	1986	Bills Sweeping Service Inc Carter DM

	Carter RF
1980	Carter DM L Carter Mark N
1975	Bills Sweeping Service Carter DM
1970	Bills Sweeping Service Carter DM
1966	Bills Sweeping Service Cleansweep Maintenance Co M&M Sweeping Serv

4.4 SANBORN FIRE INSURANCE MAPS

Sanborn Maps were prepared for fire insurance underwriting purposes and describe the construction and relative fire resistance of buildings. These maps typically also depict the location of fire prevention devices, gasoline storage tanks, water lines, cisterns, and any potentially flammable materials. According to EDR, Sanborn Map coverage is not available for the Site (see Appendix D)

4.5 HISTORICAL TOPOGRAPHIC MAPS

Topographic maps covering the Site from 1896, 1896, 1901, 1902, 1932, 1935, 1942, 1949, 1950, 1964, 1965, 1972, 1974, 1981, 2012, 2015, 2018 and 2022 were reviewed as part of the assessment process. Copies of these topographic maps are contained in Appendix E, except for the 2022 map, which was used as Figure 1.

4.6 AERIAL PHOTOGRAPHS

Aerial photographs covering the Site from 1938, 1946, 1952, 1963, 1966, 1972, 1977, 1985, 1989, 1990, 2002, 2005, 2009, 2012, 2016, 2020 and 2025 were reviewed as part of the assessment process. Copies of these photographs are contained in Appendix F, except for the 2025 photograph which was used for Figure 2 through Figure 4. The following observations were noted to be visible on the photographs for the Site and immediately adjacent properties.

- **1938**

Site:	Agricultural use
North:	Agricultural use
East:	Agricultural use
South:	Mostly agricultural use with a structure to the southwest
West:	Agricultural use

- **1946**

Site:	Vacant and undeveloped
North:	Vacant and undeveloped
East:	Vacant and undeveloped
South:	Fletcher Retarding Basin has been excavated
West:	Vacant and undeveloped

- **1952**

Site:	Structures have been constructed near the southwestern and northeastern portions of the Site.
North:	Several structures have been constructed
East:	Several structures have been constructed
South:	A few structures to the southwest and southeast have been constructed
West:	Several structures have been constructed

- **1963**

Site:	Essentially the same as 1952
North:	More structures have been constructed. Further to the northeast, the residential neighborhood is under construction
East:	More structures have been constructed
South:	Essentially the same as 1952
West:	More structures have been constructed

- **1966**

Site:	Essentially the same as 1963
North:	Essentially the same as 1963
East:	Fletcher Elementary School has been constructed, as it stands today
South:	Essentially the same as 1963
West:	Essentially the same as 1963

- **1972**

Site:	Several structures have been constructed
North:	A fenced in area has been laid between the area directly north of the Site and the newly constructed residential neighborhood more north of the Site
East:	Several structures have been constructed
South:	Several structures have been constructed
West:	Several structures have been constructed

- **1977**

Site:	Essentially the same as 1972
North:	Essentially the same as 1972
East:	Essentially the same as 1972
South:	Essentially the same as 1972
West:	A residential neighborhood has been constructed

- **1985**

Site:	Essentially the same as 1977
North:	The area has been redeveloped into the residences as they stand today
East:	The area has been redeveloped into the residences as they stand today
South:	Essentially the same as 1977
West:	The area has been redeveloped into the residences as they stand today

- **1989 and 1990**

Site:	Essentially the same as 1985
North:	Essentially the same as 1985
East:	Essentially the same as 1985
South:	Fletcher Retarding Basin appears to have been re-graded
West:	Essentially the same as 1985

- **1995, 2002, 2005, 2009, 2012, 2016 and 2020**

Site:	Essentially the same as 1989 and 1990
North:	Essentially the same as 1989 and 1990
East:	Essentially the same as 1989 and 1990
South:	Essentially the same as 1989 and 1990
West:	The structures immediately to the west have been replaced by the residences as they stand today.

4.7 CITY OF ORANGE

EAI contacted the City of Orange for records regarding the Site via its freedom of information act and online public records request portal. Appendix G contains a copy of the records provided by the City of Orange to EAI for the Site. Records provided are related to primarily: USTs; ASTs; hazardous materials used at the Site; mechanical and electrical permits; demolition permits for a residential structure, sheds and workshop; inspections of the Site; and plans to redevelop the Site for residential use. Based on City of Orange inspection records, small quantities of hazardous waste were generated by BSS related to maintaining its vehicle fleet. The most recent inspection record is from October 8, 2019, where the following are stated: (1) the facility is a small quantity generated of automotive repair wastes: (2) hazardous waste containers were observed to be properly labeled and stored closed; (3) there are no signs of illegal disposal; (4) hazardous waste

manifests were available for review; (5) facility's EPA ID number is active; (6) emergency plan is maintained on-site; and (7) no hazardous waste violations were observed this date.

The prior Phase I ESA of the Site only identified one UST at the Site, which EAI identified as UST-1. It is from review of the City of Orange records that EAI identified three additional USTs at the Site, which EAI identified as UST-2, UST-3 and UST-4 (see Figure 2). Records pertaining to removal of UST-1, UST-2 and UST-3, including soil sampling and testing results are contained in Appendix G.

Records pertaining to UST-4 indicate it is a 6,000-gallon double walled tank split into two compartments (4,000-gallon gasoline; and 2,000-gallon diesel) installed on May 1, 1987. There are also correspondences between BSS and the City of Orange in 2002 and 2003 indicating UST-4 was out of compliance, i.e., must have periodic secondary containment testing every 36 months. These correspondences indicate BSS planned to remove UST-4 and replace it with an AST.

The City of Orange did not provide any records regarding removal of UST-4. The FERO Phase I ESA referenced City of Orange Permit No. 0312-289 dated January 17, 2004, for removal of an UST, size of the UST not identified. Since the other three USTs associated with the Site were removed in April 1987, the only remaining UST at the Site in 2004 was UST-4. The City of Orange did not produce Permit No. 0312-289 in its response to our request for records; therefore, on May 14, 2025, EAI emailed the City of Orange (Samara Eljaouhari) and requested it check to determine if it had a copy of Permit No. 0312-289. Ms. Eljaouhari notified EAI that it could not locate Permit No. 0312-289.

EAI discussed UST-4 with Mike Carter. Mike Carter informed EAI that UST-4 had been removed, but he did not remember the date of removal. Mike Carter confirmed the former location of UST-4 is as depicted on Figure 2. For purposes of this report, EAI used January 27, 2004, the date Permit No. 0312-289 was issued as the removal date for UST-4.

4.7.1 EAI Soil Sampling and Testing

On May 30, 2025, three borings identified as B-1, B-2 and B-3 were advanced by Strongarm Environmental Field Services to 15 feet under the supervision of EAI staff (Brian Beltz) at the former location of UST-4 (see Figure 3). Soil samples were collected from each boring at 5, 10 and 15 feet for analytical testing. Field evidence of contamination (i.e., PID reading, visual or olfactory) was not noted at any of the sampling locations. Because soil samples were to be analyzed for VOCs, samples were collected in accordance with the requirements of EPA Method 5035.

All nine soil samples were analyzed for TPH-G, TPH-D, TPH-O using EPA Method 8015B and VOCs using EPA Method 8260B (see Appendix H). Note that the chain of custody record and laboratory

report indicate that samples were collected from each boring at 15 inches; this is a mistake and the actual depth was 15 feet. The results of the testing are summarized below:

Sample ID	TPH-G (mg/kg)	TPH-D (mg/kg)	TPH-O (mg/kg)	VOCs (mg/kg)
B-1d5'	<10	<10	<50	ND
B-1d10'	<10	<10	<50	ND
B-1d15'	<10	<10	<50	ND

B-3d10'	<10	<10	<50	ND
B-3d15'	<10	<10	<50	ND

< = Not detected at laboratory reporting limit listed
ND = Not detected; detection limits ranged from 0.005 to 0.020 mg/kg

Based on the soil testing results, no further soil or soil vapor testing is warranted.

4.8 OIL AND GAS WELLS

On May 30, 2025, EAI searched the California Department of Conservation, Geologic Energy Management Division (CalGEM) Well Finder website for records regarding the Site. According to CalGEM, there are no oil or gas wells on the Site. The closest well is located approximately 3,250 feet northeast of the Site and is identified by CalGEM as follows:

1. API No.: 0405901269
   Operator: Union Oil Company of California
   Well No: 4-1
   Lease Name: Olive-Community
   Well Status: Plugged
   Well Type: Dry Hole

4.9 SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT

On May 30, 2025, EAI searched the South Coast Air Quality Management District (SCAQMD), Facility Information Detail (FIND) website for records regarding the Site. The following information was obtained:

1. BILL'S SWEEPING SERVICES, INC.
   Facility ID No. 133601
   Status: Active
   Equipment: No Equipment Listed

4.10 DEPARTMENT OF TOXIC SUBSTANCES CONTROL, HAZARDOUS WASTE TRACKING SYSTEM

On May 5, 2025, EAI searched the California Department of Toxic Substances Control (DTSC), Hazardous Waste Tracking System (HWTS) website for records regarding the Site. The following information was obtained (see Appendix I):

1. 1X BILL'S SWEEPING SERVICE CORP
   ID Number: CAC000003897
   ID Type: Temporary
   Issued Date: 04/02/1987
   Status: Inactive (expired: 10/25/2000)

   No data available o the types of wastes generated, if any.

2. BILLS SWEEPING SVC LLC
   ID Number: CAL000096437
   ID Type: Permanent
   Issued Date: 01/29/1993
   Status: Inactive (expired: 10/28/2016)

   Records identify hazardous waste generation as follows:

CA Waste Code	Description
133	Aq Sol (2<pH<12.5) w/Org Residues >= 10%
134	Aq Sol (2<pH<12.5) w/Org Residues < 10%
223	Unspecified Oil-Containing Waste

EPA Waste Code	Description
D039	Tetrachloroethylene

3. VENTURE POINT
   ID Number: CAC003175466
   ID Type: Temporary
   Issued Date: 05/10/2022
   Status: Inactive (expired: 08/10/2022)

   Records identify hazardous waste generation as follows:

CA Waste Code	Description
151	Asbestos-Containing Waste

4.11 TITLE REPORT

A Title Report was not provided to EAI for review.

4.12 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

The EDR Radius Map records (see Appendix B) did not identify the Site on any of the lien lists reviewed. On May 30, 2025, EAI also searched records on the GeoTracker database reports tab, deed restrictions/land use restrictions/covenants section, and records were not found for the Site.

5.0 SITE AND NEIGHBORING PROPERTY INSPECTION

On May 9, 2025, EAI staff (Allen Kim) conducted a walk-through and inspection of the Site and reconnaissance of the neighboring property. The off-site properties were inspected from the property line, public right-of-way, or similar vantage points. Mike Carter accompanied EAI staff during most of the inspection and currently resides at the Site in a recreational vehicle. In addition to the recreational vehicle, the following were also located on the Site: three 40-foot shipping containers that according to Mike Carter contained personal effects and furniture; a few cars; yard tools; and a trailer and flatbed truck. Appendix F contains copies of photographs taken during the Site inspection, and Figure 5 depicts photograph locations.

5.1 SITE

5.1.1 Physical Features

Summarized below are observations relative to selected Site physical features. Observations are limited to those areas of the Site that were accessible at the time of the inspection.

- **Property Boundaries**: Clearly marked by Site fencing in all directions.
- **Locations of Past On-Site Operations:** None.
- **Underground Storage Tanks:** None currently located on the Site. Four USTs identified as UST-1, UST-2, UST-3 and UST-4 were formerly located on the Site (see Figure 2).
- **Aboveground Storage Tanks:** None
- **Hydraulic Lifts:** None.
- **Equipment Known/Likely to Contain Polychlorinated Biphenyls (PCBs)**: None.
- **Unidentified Substance Containers**: None.
- **Drains, Clarifiers, Sumps**: None.
- **Pits, Ponds, Lagoons, Waste Piles**: None.
- **Wells (including dry, irrigation, injection, oil, monitoring, etc.)**: None.
- **Septic Systems**: None observed.
- **Air Emissions**: None.

- **Odors**: None.
- **Pools of Liquids**: None.
- **Surface Stains or Corrosion**: None.
- **Surface Drainage Pathways**: Via overland flow.
- **Stressed Vegetation**: None.
- **Wastewater**: None.
- **High Voltage Power Lines**: None.
- **High Pressure Gas Lines**: None.
- **Roads/Trails With No Apparent Purpose**: None.

5.1.2 Asbestos Containing Building Materials

While the use of asbestos in the manufacture of most building materials has not been fully prohibited by federal law, the use of asbestos, for the most part, has been voluntarily discontinued since the late 1970s. Some non-friable materials, e.g., wall materials and stucco, roofing material, floor tile and mastic, may have been manufactured with asbestos materials and may have been used into the early 1980s.

There are no buildings on the Site to assess for the possible presence of asbestos. However, in 2022, as part of the demolition of structures located on the Site, asbestos containing waste was removed, manifested and properly disposed. See Section 4.10.

5.1.3 Lead-Based Paint

Lead was a major ingredient in paint pigment prior to and through the 1940s. While other pigments were used in the 1950s, the use of lead in paint continued until the mid-1970s. In 1978, the Consumer Products Safety Commission banned paint and other surface coating materials that contained lead.

There are no buildings on the Site to assess for the possible presence of lead.

5.1.4 Radon

Radon is a gas that can seep into structures constructed in areas with soils containing uranium. Radon travels through soil and enters the structure through cracks and holes in basement walls,

floor drains, or other openings. The EPA's map of Radon Zones assigns each of the counties in the United States to one of three zones. The zone designations were determined by assessing five factors that are known to be important indicators of radon potential; indoor random measurements, geology, aerial radioactivity surveys, soil parameters and foundation types. The Radon Zone Level for Orange County is 3 (see Appendix B, page A-31). Zone 3 areas are predicted to have an average indoor radon screening potential of less than 2 pCi/L.

Based on the location of the Site, it is unlikely that the Site contains elevated levels of radon. The only definitive method of identifying specific radon levels for any property is to complete a radon test.

5.1.5 Emerging Contaminants Per- and Polyfluoroalkyl Substances

The Site was evaluated to determine the potential for the release of per- and polyfluoroalkyl substances (PFAS). PFAS are a group of man-make chemicals that have been used in industry and consumer products since the mid-1900s. PFAS are stable and persistent in the environment, can build up in living tissue, and are toxic at low concentrations. PFAS are found in may products such as: dental floss; non-stick cookware; food packaging materials; non-stick products (e.g., Teflon); waterproof and water repellant textiles; water repellant furniture; carpet; polishes; waxes; paints; cleaning products; medical garments, and fire-fighting foams. PFAS are used in the aerospace, automotive, chemical, electronics, metal coatings and plating, and textile industries due to their friction-reducing characteristics.

Potential firefighting sources of PFAS include airports and aviation facilities, military bases and training centers, petroleum refineries and terminals, and petrochemical production facilities. Non-industrial PFAS sources include waste disposal facilities, wastewater treatment plant operations, and biosolids application to agriculture. Secondary sources of PFAS include waste streams such as landfills and wastewater treatment plants.

EPA has developed a dataset from various sources that show which industries may be handling PFAS. The PFAS ECHO database identifies facilities subject to federal environmental programs that have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS. The Site is not identified on the PFAS databases. Fletcher Coating Co. was the only facility identified by EDR on the PFAS ECHO database (see Table 1 and Figure 4).

Given the wide range of products that PFAS are known to be associated with, there is the potential for materials and products that were historically stored or used at the Site to contain PFAS. The only definitive method of identifying PFAS contamination for any property is to conduct a PFAS investigation. A PFAS investigation is not recommended.

5.2 NEIGHBORING PROPERTIES

EAI completed a visual inspection of the adjoining properties from the Site property line and public areas adjacent to or on the adjoining properties. See Section 3.2.3 and Figure 4 for specifics on neighboring land uses. As discussed in Section 7.2, neighboring off-site properties have little potential to impact the Site. Therefore, further investigation of neighboring properties is not recommended.

6.0 INTERVIEWS

The following individuals were interviewed either by telephone, electronically (i.e., fax or email) or in person to ascertain information regarding historical and current land use associated with the Site and/or surrounding area:

Name	Affiliation
Bart Hornstein	Keusder Homes, Inc.
Mike Carter	Property Owner Representative, and President of Bill's Sweeping Services

Mike Carter provided information on the former locations of the workshop, office, home and USTs located on the Site, and general information on the activities conducted by BSS.

7.0 DISCUSSION

7.1 SITE

Use of the Site prior to 1962, was agricultural and residential. Residential land use typically does not result in the deleterious release of chemicals that impact the surface or subsurface environment. Pesticides and/or herbicides are typically used on agricultural lands. Improper use of these agricultural chemicals may result in residual agricultural chemicals in soil at elevated concentrations. However, under normal application practices and with the passage of time these agricultural chemicals typically degrade and should not be problematic. Since it has been over 60 years since the Site was last used for agricultural purposes, it is unlikely that elevated concentrations of agricultural chemicals are present at the Site. However, the only definitive method to determine the presence or absence of agricultural chemicals in soil at any property is sampling and testing.

Between 1962 and 2021, the Site was occupied by BSS, a company that provided construction street sweeping services. In 2002, all structures were removed from the Site and the Site has been vacant since that time. Four USTs and ASTs were identified as previously located on the Site. UST-1, UST-2 and UST-3 (see Figure 2) were removed under oversight by City Fire in 1987, and a NFA determination issued on April 7, 1988.

The City of Orange issued Permit No. 0312-289 dated January 17, 2004, for removal of an UST, which EAI has assumed is for UST-4. Mike Carter confirmed that the location of UST-4 is as depicted on Figure 2 and that UST-4 was removed, but he did not remember the date of removal. No records regarding the removal of UST-4 were provided by the City of Orange to EAI. Based on the above, EAI conducted a subsurface investigation at the former location of UST-4 on May 30, 2025. The investigation consisted of: drilling and sampling three borings identified as B-1, B-2 and B-3 to 15 feet at the former location of UST-4 (see Figure 3); and analytical testing of soil samples collected from each boring at 5, 10 and 15 feet for TPH-G, TPH-D, TPH-O and VOCs. TPH-G, TPH-D, TPH-O and VOCs were not detected in the soil samples.

7.2 OFF-SITE PROPERTIES

EDR identified 20 properties within one mile of the Site as known or suspected to be contaminated (see Table 1). Of these 20 properties, 11 have been issued closure and 9 are identified as active cases or sites that need evaluation. For a property identified as closed, EAI has assumed no potential impacts to off-site properties of any significance; otherwise closure of the property would not have been issued by the lead agency.

The closest active or case that needs evaluation is identified as Van Doran Rubber Co. located approximately 2,500 feet south southwest of the Site. All of the other properties identified as active or needs evaluation are located at distances great than 2,500 feet from the Site. In EAI's opinion, given the distances from the Site these off-site properties have little potential to impact

the Site. Further, regulatory agencies typically do not hold a property owner responsible for contamination that has migrated onto their property from an off-site source, unless an on-site release(s) has contributed to the contamination.

7.3 VAPOR ENCROACHMENT SCREENING

ASTM, E2600-22 provides guidance for conducting a vapor encroachment survey (VES). The purpose of the VES is to determine whether a vapor encroachment condition (VEC) exists at the Site from chemicals of concern (COC) that may migrate as vapors onto the Site as a result of contaminated soil and/or groundwater near or on the Site. The screening involves a two tiered approach to assessing a VEC risk as described below.

7.3.1 Tier I – Search Distance Test/Chemicals of Concern Test

The search distance test involves a review of the regulatory database report and available historical records to make a determination if any known or suspect potentially contaminated properties exist within the area of the Site, a.k.a., Area of Concern (AOC). High risk properties typically include current and former gas stations, current and former dry cleaners and industrial sites. The AOC is defined as any up-gradient properties within the ASTM, E1527-21 standard search distances and any cross or down-gradient properties within 1/3 mile (approximately 1,430 feet) for solvents and petroleum products.

If the contamination at the known or potentially contaminated property within the AOC consists of COC, then a potential Vapor Encroachment Condition (pVEC) exists and Tier II evaluation is recommended. COC are typically defined as VOCs, such as chlorinated solvents and petroleum hydrocarbons, but can also include naturally occurring substances such as methane.

7.3.2 Tier II – Plume Test

The plume test assesses whether or not a plume is close enough to the Site to result in a VEC. Step 1 is to determine the distance from the Site to edge of a plume in any direction, and Step 2 to determine if the plume is related to COC. A VEC is assumed to exist if a plume of COC or free petroleum product is accumulating above the water table within 100 feet of the Site or if a plume of dissolved COC is within 30 feet of the Site. The Site is not known to be located within 100 feet of a free-product plume or within 30 feet of a dissolved COC plume. With respect to naturally occurring methane, the Site is not located within a known methane hazard zone. Therefore, there is no reason to suspect naturally occurring methane. The only definitive method to determine the presence or absence of VOCs and/or methane beneath any property is to conduct soil gas sampling and testing.

7.4 DATA GAPS

During the course of this review, no significant data gaps were identified that affected EAI's ability to identify RECs for the Site.

7.5 DEVIATIONS, DELETIONS AND EXCEPTIONS

EAI made no significant variation to ASTM, E1527 during this assessment. However, from information available, notable exceptions comprise the following:

- Past property owners and tenants were not interviewed
- Title report was not reviewed
- Property valuation information was not reviewed
- Resumes for the preparers of this report are not included, but are available upon request

7.6 SPECIAL CONTRACTUAL CONDITIONS

No special agreements exist between Client and EAI. EAI does not have any financial interest in the real property that comprises the Site.

8.0 FINDINGS AND RECOMMENDATIONS

8.1 FINDINGS

EAI has conducted this Phase I ESA of the Site in conformance with generally accepted industry standards. Based on the information contained and/or referenced herein, EAI concludes the following:

- **REC**:
  - None.
- **C-REC**:
  - None.
- **H-REC**:
  - UST-1, UST-2 and UST-3 removed from the Site under oversight by City Fire with a NFA determination issued on April 7, 1988.
- **Environmental Issue**:
  - Former UST-4 is suspected to have been removed on January 27, 2004. Soil sampling and testing conducted for UST-4 on May 30, 2025, did not encounter any detectable concentrations of TPH-G, TPH-D, TPH-O or VOCs.
- **De Minimis Conditions**:
  - Former use of the Site for agricultural purposes.
- **Significant Data Gaps**:
  - None

8.2 RECOMMENDATIONS

No further action is required for the Site.

9.0 LIMITATION

Our professional services have been performed using that degree of knowledge, diligence, care and skill ordinarily exercised, under similar circumstances, by reputable environmental consultants practicing in this or similar localities at this time. This report does not include consideration for non-chemical hazards such as earthquakes or floods; wetlands; regulatory compliance; health and safety; or ecological, cultural and historic resources. Topics not explicitly discussed within this report should not be assumed to have been investigated. EAI assumes that information provided by third parties is true, accurate and reliable.

This report is considered current only for a period of 180 days from the Site inspection of the facility. This report has been prepared for Client. Use of this report by any other party shall be at such party's sole risk. The findings and recommendations contained in this report are based on information contained and/or referenced herein, and our best judgment. No other warranty, expressed or implied, is made as to the professional advice contained in this report.

10.0 CERTIFICATION

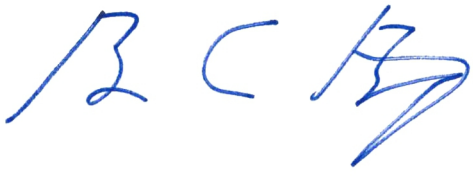

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 40 CFR §312.10, and have the specific qualifications based on education, training, and experience to assess a property of the nature, history and setting of the Site. We have developed and performed this assessment in conformance with the standards and practices set forth in 40 CFR Part 12. This report was prepared by the undersigned.

Respectfully submitted,

ENVIRONMENTAL AUDIT, INC.

Allen S. Kim

Higher = Property located at an elevation equal to or higher than the Site
Lower = Property at an elevation equal to or higher than the Site
Active = Property being evaluated, remedial actions being implemented or verification monitoring
Closed = Case closed and no further action is required
Inactive: NE = Non-active site that requires evaluation
Refer: Other Agency = DTSC has determined that this site is better addressed by another state or local environmental regulatory agency
Refer: Local Agency = DTSC has determined that this site is better addressed by a local environmental regulatory agency
1248 Local Angency = Referred to a local agency (through SB 1248 determination process) to supervise the cleanup of a simple waste release
Certified O&M = Certified cleanups in place but require on-going Operation and Maintenance (O&M) activities
Archived = EPA has detemined that assessment has been completed and no further remedial action is planned under the Superfund program at this time

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 03/27/2025 has revealed that there are 3 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 02/17/2025 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 02/17/2025 has revealed that there is 1 RCRA-TSDF site within approximately 0.5 miles of the target property.

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA)

of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 02/17/2025 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 02/17/2025 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Lists of state- and tribal hazardous waste facilities

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 01/21/2025 has revealed that there are 13 CA ENVIROSTOR sites within approximately 1 mile of the target property.

Lists of state and tribal landfills and solid waste disposal facilities

CA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the CA SWF/LF list, as provided by EDR, has revealed that there are 3 CA SWF/LF sites within approximately 0.5 miles of the target property.

Lists of state and tribal leaking storage tanks

CA LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA LUST list, as provided by EDR, has revealed that there are 15 CA LUST sites within

approximately 0.5 miles of the target property.

CA CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA CPS-SLIC list, as provided by EDR, has revealed that there are 2 CA CPS-SLIC sites within approximately 0.5 miles of the target property.

Local Lists of Registered Storage Tanks

CA SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the CA SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 2 CA SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 02/17/2025 has revealed that there are 46 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 12/30/2024 has revealed that there is 1 PFAS ECHO site within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 6 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 02/17/2025 has revealed that there are 32 E MANIFEST sites within approximately 0.25 miles of the target property.

CA CHROME PLATING: This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

A review of the CA CHROME PLATING list, as provided by EDR, and dated 12/02/2024 has revealed that there is 1 CA CHROME PLATING site within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

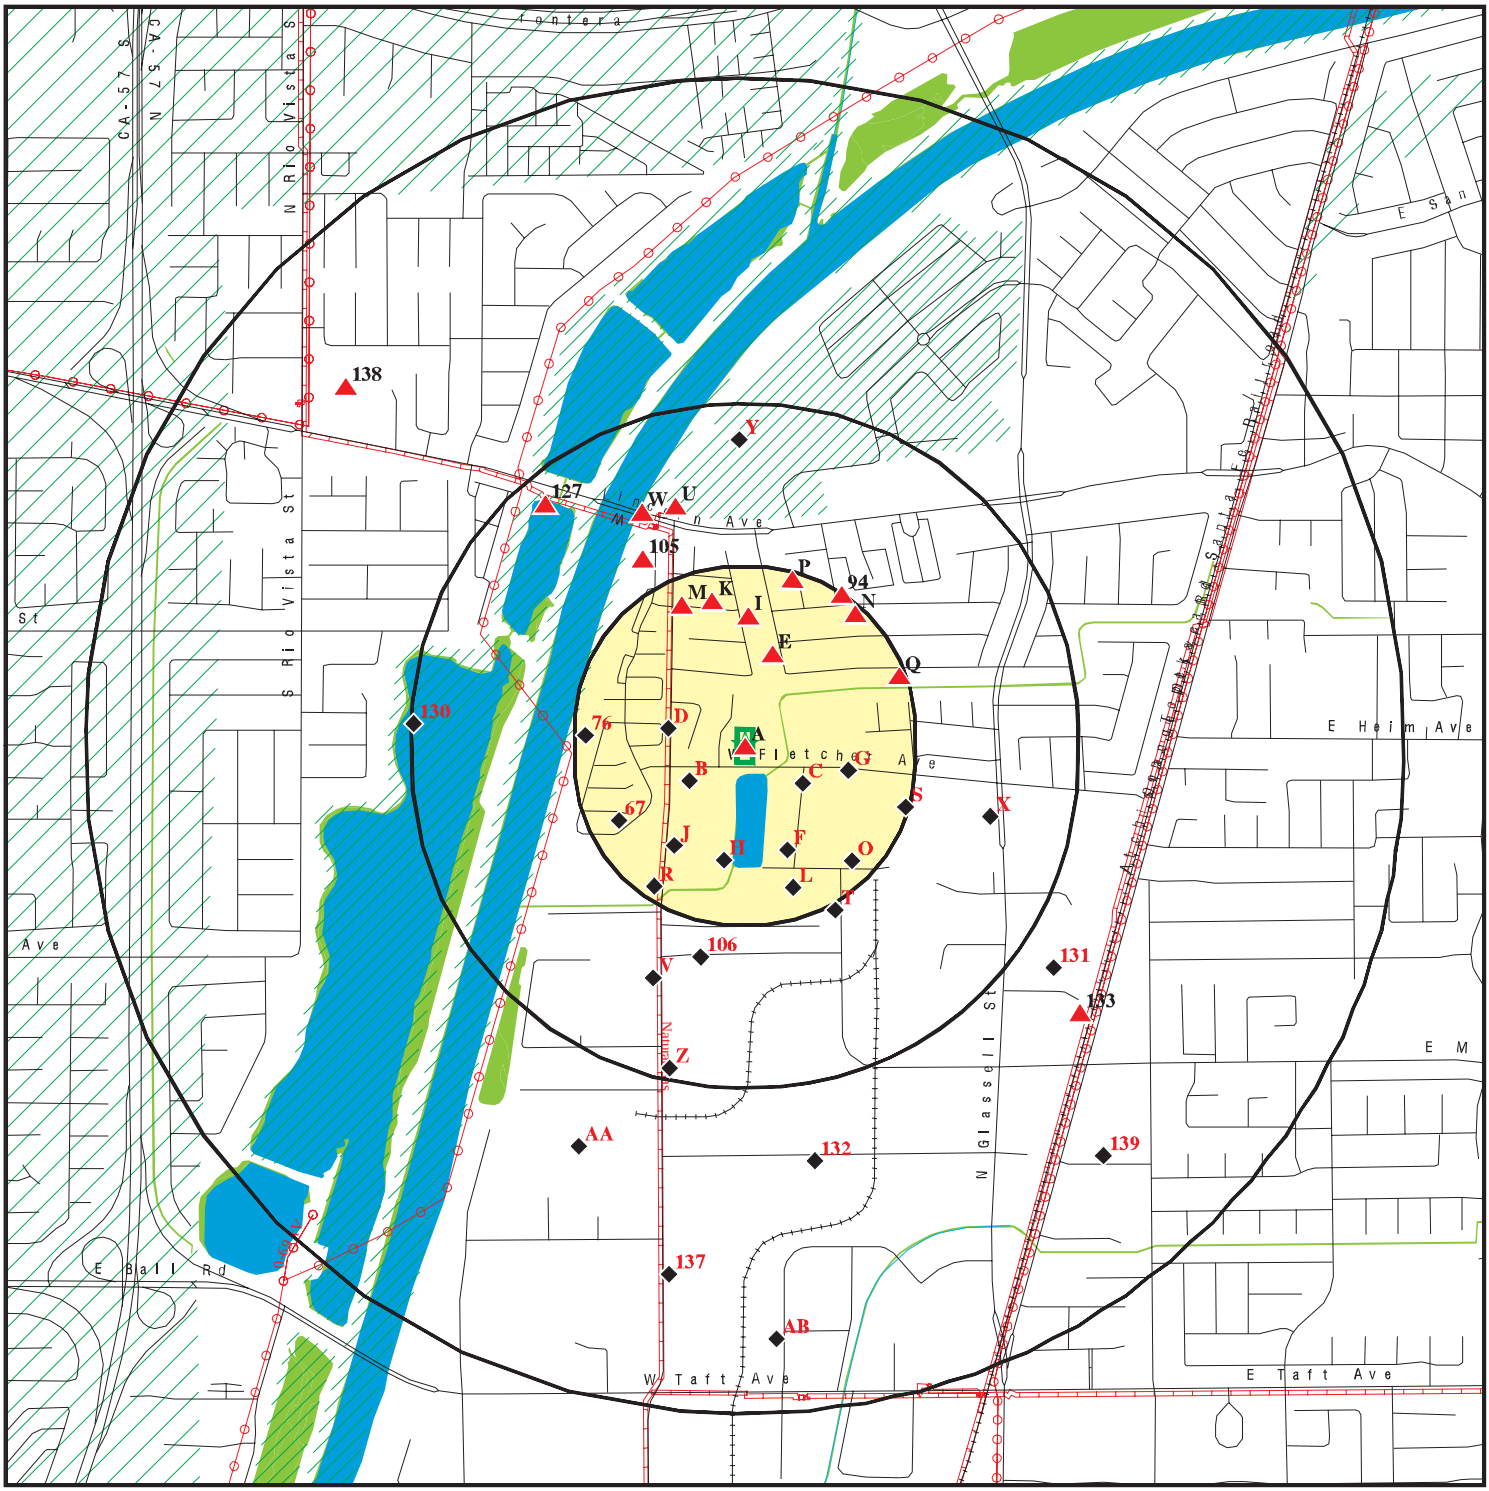

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-08-2019
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine Aboveground Petroleum Storage Tank (APST) inspection. Met with Mike Carter, President. The facility is a Tier I Qualified Facility. The following petroleum storage capacity was observed: - 2,000 gallons diesel, double-walled tank - 220 gallon waste oil, double-walled tank - 200 gallon new motor oil, single-walled tank with containment The 2,000 gallon diesel APST has tertiary containment and the 200 gallon new motor oil APST is stored within fiberglass containment. Containment was observed free of liquid and debris at this time. A Spill Prevention Control & Countermeasures (SPCC) Plan dated 2019 was available for review and is complete. Employee training records were available for review. Inspection records of APSTs were available for review. This inspection report was sent to info@billssweeping.net.

Eval Notes: On site for a routine hazardous waste inspection. Mike Carter, vice president, was present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The inspection included a walk of the facility’s outside perimeter and its trash storage areas. I did not observe hazardous waste in the facility’s trash or as run off on the ground. The storage of the shop’s hazardous waste was inspected. The storage containers

BILLS SWEEPING SERVICE (Continued) **S113058554**

were closed and labeled with the required information. The receipts for the removal of the facility's hazardous waste were on site and available for inspection. The records for the last year were reviewed. The facility had a SPCC plan, which contained spill response directions and emergency contact numbers. report PDF to mike@streetsweeper.com

Eval Notes: On site for a routine above ground petroleum storage tank (APST) inspection. Mike Carter, vice president, was present for the inspection and provided consent to inspect. This facility is regulated under the Above Ground Storage Act (APSA). There is equal to or greater than 1,320 but less than 9,999 gallons of regulated petroleum products in drums or tanks sized 55 gallons or larger on site. We reviewed the qualifying petroleum above ground storage on site, which

BILLS SWEEPING SERVICE (Continued) **S113058554**

included oils, used oil, and diesel fuel. The facility had a Spill Prevention, Control and Countermeasure (SPCC) plan. The plan was on site and available for review. SPILL CONTROL: Secondary containment and spill response equipment was provided as described in the plan. INSPECTIONS: Weekly inspections were conducted as described in the plan. Inspection records were on site and available for inspection. EMPLOYEE TRAINING: Annual employee SPCC training was discussed. report PDF to [Truncated]

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-29-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for a routine hazardous waste inspection. Mike Carter, vice president, was present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The inspection included a walk of the facility's outside perimeter and its trash storage areas. I did not observe hazardous waste in the facility's trash or as run off on the ground. The storage of the shop's hazardous waste was inspected. The storage containers were closed and labeled with the required information. The receipts for the removal of the facility's hazardous waste were on site and available for inspection. The records for the last year were reviewed. The facility had a SPCC plan, which contained spill response directions and emergency contact numbers. report PDF to mike@streetsweeper.com

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-29-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site for a routine above ground petroleum storage tank (APST) inspection. Mike Carter, vice president, was present for the inspection and provided consent to inspect. This facility is regulated under the Above Ground Storage Act (APSA). There is equal to or greater than 1,320 but less than 9,999 gallons of regulated petroleum products in drums or tanks sized 55 gallons or larger on site. We reviewed the qualifying petroleum above ground storage on site, which included oils, used oil, and diesel fuel. The facility had a Spill Prevention, Control and Countermeasure (SPCC) plan. The plan was on site and available for review. SPILL CONTROL: Secondary containment and spill response equipment was provided as described in the plan. INSPECTIONS: Weekly inspections were conducted as described in the plan. Inspection records were on site and available for inspection. EMPLOYEE TRAINING: Annual employee SPCC training was discussed. report PDF to [Truncated]

Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Mike Carter, President. The facility is a Small Quantity Generator of automotive repair wastes from maintenance of their vehicle fleet. Walked throughout the facility and observed the facility s Hazardous Waste storage area. Hazardous Waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility s EPA ID number is active. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was sent to info@billsweeping.net.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violation Date:	06-12-2001
Citation:	2014-0057-DWQ - Industrial General Permit
Violation Description:	SW - Deficient BMP Implementation
Violation Notes:	Sampling results showed low pH and high N+NO3 and Al, Fe, and Zn. Facility SWPPP conrained outdated info. Large amount of metals and equipment stored on site with no BMPs. Several containers of chemical on site with inadequate BMPs.
Violation Division:	Water Boards
Violation Program:	INDSTW
Violation Source:	SMARTS,

CUNDIFF STEEL FABRICATING & ER (Continued) **U001577483**

Site ID: 530133
Site Name: Cundiff Steel
Violation Date: 04-03-2003
Citation: 2014-0057-DWQ - Industrial General Permit
Violation Description: SW - Deficient BMP Implementation
Violation Notes: SWPPP lacked certification page, training records and monitoring program. High levels of N+N may be due to neighboring mulch manufacturer.
Violation Division: Water Boards
Violation Program: INDSTW
Violation Source: SMARTS,

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-03-2003
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a routine compliance inspection of the above facility on April 3, 2003. The SWPPP was lacking the following items: a certification page, training records, and monitoring program. Review of previous Annual Reports showed extremely high levels of Al, Fe, Zn, and N+N. The elevated levels of N+N are most likely due to the neighboring mulch manufacturer. Staff could not locate any pollution sources of nitrates originating from the permitted facility. The industrial processes are all under cover with a berm surrounding the area. There are three (3) discharge locations that discharge directly to the adjacent flood channel.
Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-12-2001
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: See attached.
Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-03-2018
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on July 3, 2018. Staff met with Mr. William McGuire. The SWPPP and training records were not reviewed. The facility is currently in Level 1 for Iron and Aluminum and Level 2 for Zinc. The Level 2 ERA Action Plan BMP implementation schedule notes that a collection and percolation system will be installed near sampling locations #1 and #3. The facility is in the process of constructing the two collection systems. A memo uploaded in SMARTS, dated 02/07/2018, explains that Cundiff Steel is in the process of achieving zero discharge from their facility by constructing on-site infiltration systems. Another memo uploaded in SMARTS, dated 06/15/2018, notes the infiltration systems will be completed by the 3rd or 4th quarter of 2018, which is outlined in the Level 2 ERA

CUNDIFF STEEL FABRICATING & ER (Continued) **U001577483**

Action Plan BMP implementation schedule.
Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-21-2017
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on August 21, 2017. The SWPPP was reviewed and needs to be updated to include the new media used for sand blasting. It was also determined the facility has been using litmus paper to sample pH since moving into Level 1 and Level 2 status. The facility needs to purchase a calibrated meter with 3 pH buffers for sampling. Subsequent employee training needs to be conducted to ensure proper meter calibration and use. A site walk was then conducted. A scrap metal stockpile was observed uncovered in an unpaved dirt lot. Mr. Piscopo explained the stockpile is covered with a tarp during rain events as the cost of the tarp is too expensive to maintain. A garden hose was observed on site and is used to hose down the trucks on the property. Mr. Piscopo explained the water does not flow off property (instead ponds) and he is aware this would constitute a Non-Storm Water Discharge and a violation of the permit if it flowed off the site.

Evaluation:
- Eval General Type: Compliance Evaluation Inspection
- Eval Date: 01-28-2016
- Violations Found: No
- Eval Type: Routine done by local agency
- Eval Notes: On site for a routine hazardous waste inspection. Charlie Piscopo, operations manager, was present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The inspection included a walk of the facility's perimeter and its trash storage areas. I did not observe hazardous waste in the facility's trash or as run off on the ground. The storage of the shop's hazardous waste was inspected. The storage containers were closed and labeled. The records for the removal of the facility's hazardous waste was on site and available for inspection. The records for the last year were reviewed. We reviewed on site hazardous waste accumulation / storage times. The facility had written spill response directions and emergency contact numbers for the employees. report PDF to charlie piscopo

- Violations Found: No
- Eval Type: Other, not routine, done by local agency
- Eval Notes: From: Krall, Joyce Sent: Wednesday, March 02, 2016 9:12 AM To: 'Charlie Piscopo' Subject: RE: HAZARDOUS WASTE INSPECTION Hi Charlie, Thank you for your reminder email. I apologize for overlooking your first email! In order to make a hazardous waste determination, have a representative sample of the waste bag house dust analyzed by a state certified lab for California regulated heavy metals (Title 22, CCR). Perform a Total Threshold Limit Concentration (TTLC) analysis and if necessary, a Soluble Threshold Limit Concentration (STLC) analysis. Submit a copy of the lab analysis report to this Agency for evaluation and comment. If waste is not analyzed or if the lab analysis results are above Title 22, CCR hazardous waste criteria, then the waste must continue to be handled as hazardous waste. Please contact me if you

Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Charlie Piscopo, Operations Manager. The facility is a Very Small Quantity Generator of waste oil and oily absorbent generated from structural steel fabrication, including cutting and welding. Walked throughout the facility and observed the facility s Hazardous Waste storage area. Hazardous waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility s EPA ID number is active. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was sent to charlie@cundiff-steel.com.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-11-2002
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Address for site should be corrected to read: 426 Fletcher Avenue, Orange, CA 92865. Arrived on site at approximately 10:00 a.m., clear skies, approximately 70 degrees F. Met with Kurtis Breeding and new CEO (Don?). Reviewed the site monitoring reports and SWPPP. SWPPP was in place in October 2001. Mr. Breeding stated that the business operated from 7:00 a.m. to 3:30 p.m., and that he is the primary contact for storm water and has received some training via his consultant (Jorgensen). SWPPP appeared to be adequate. Conducted site inspection. In general, the site appeared to be in compliance; however, we did identify a few areas that required better housekeeping. Stated that pipes/supplies are kept covered with tarp in the event of rain. Areas needing improvement included the following: (1) scrap metal bins needs to be kept covered with tarp, in the event of rain; (2) several 55-gallong drums need to be collected and stored appropriately; (3) rust from pipes on ashalt-covered area needs to be swept on a routine basis; (4) blow-by water from compressor needs secondary containment; and (5) tracking from trucks along American Way needs to be swept on a routine basis.
Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Complaint Inspection

FLETCHER COATING (Continued) **U001577488**

Eval Date: 05-19-2004
Violations Found: No
Eval Type: Industrial Storm Water Complaint Inspection
Eval Notes: On May 19, 2004. Regional Water Board staff conducted a routine inspection at the above mentioned site. Contact was made with John Bejarano the Plant Manager. The SWPPP and inspection logs could not be reviewed at this time due to the fact that they were locked up in another office and there was no access to them. Upon inspection of the facility the following observations were made. The facility was about 50 percent asphalt and 50 percent loose sediment and rock. The majority of operations occurred indoors or under some type of coverage. Although, a large amount of materials are stored outside. Based on previous analytical sampling it is staff's best professional judgment that the sampling points are not reflective of the actual discharges that can occur on this site. Therefore the site should re-evaluate this portion of the program. Large amounts of rust was noted in the ground located in the northwest portion of the facility.

Site Name: ORANGE COUNTY SANDBAGGER
Violation Date: 08-10-2016
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: Failure to prepare and implement a Spill Prevention Control and Countermeasure (SPCC) Plan.
Violation Notes: Returned to compliance on 11/01/2018. The facility's SPCC plan could not be located for the inspection. Locate your facility's plan and submit a copy to this Agency for our review. If you do not have a plan, prepare a SPCC plan for the facility and submit a copy to this Agency for our review within 30 days.

Eval General Type: Other/Unknown
Eval Date: 01-02-2019
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: On site to conduct an Aboveground Petroleum Storage Tank reinspection. The facility was cited violation I031 on 11/1/18 for not having a Spill Prevention Control & Countermeasures (SPCC) Plan prepared or being implemented. This Agency had received a copy of the facility's SPCC Plan on 12/18/18, but corrections were required. Corrections have since been made and the facility's SPCC Plan is complete. Monthly inspections are being conducted and records were available for review. Violations I031 is corrected, no outstanding violations remain. This inspection report was sent to Jason Vos at jason@ocsandbagger.com.

Eval Notes: On site to conduct a routine Aboveground Petroleum Storage Tank (APST) inspection. The facility has the following aboveground petroleum storage capacity: - 1,000 gallon clear diesel tank - 500 gallon red dye diesel tank - 500 gallon used oil tank - 55 gallon drum hydraulic oil The APSTs on site have appropriate secondary containment measures. An SPCC (Spill Prevention Control & Countermeasures) Plan has not been prepared and implemented. The facility was cited violation I085 on 8/10/16 for not having an SPCC Plan in place. This violation is being closed and recited. Discussed and provided the Tier I Qualified Facility SPCC Plan template with Jason Vos. Please note, because your facility is maintaining aboveground petroleum storage in quantities greater than 1,320 gallons, it is subject to the requirements of the Aboveground Petroleum Storage Act, and is required to implement an SPCC Plan. Please complete the SPCC Plan within 30 days and immediately begin [Truncated]

Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Spoke to Jason Voss of OC Sandbagger on the phone. He was away from the office. Consent was provided over the phone to enter and conduct inspection activities. Hazardous waste observed onsite included a 500 gallon aboveground waste oil tank. The tank was labeled however the container was stored open (See violation I617 above). Waste manifests were unavailable for review (see violation I474 above). EPA ID # CAL000218391 is inactive (see violation I352 above). Your EPA ID # can be reactivated at http://www.dtsc.ca.gov/HazardousWaste/upload/GISS_FORM_1358.pdf. Perimeter of the facility was inspected. Did not observe any indication of a hazardous waste release or illegal dumping in the trash dumpster.

Eval Notes: On site to conduct a routine Aboveground Petroleum Storage Tank (APST) inspection. Met with Jason Vos, President. The facility is a Tier I Qualified Facility of aboveground petroleum storage. The following petroleum storage capacity was observed: - 1,000 gallon single-walled clear diesel tank - 500 gallon single-walled red-dye diesel tank - 500 gallon used oil tank - 55 gallon hydraulic oil container All APSTs on site have appropriate secondary containment, which were observed without liquid or debris. The facility s Spill Prevention Control and Countermeasures (SPCC) Plan, dated 11/30/18 was available for review and is complete. Monthly inspection and test logs for APSTs were available for review. Employee training records for employees handling petroleum were available for review. This inspection report was sent to jason@ocsandbagger.com.

Eval Date: 11-01-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine Hazardous Waste inspection. Walked throughout the facility and observed hazardous waste storage.

WEST COAST EQUIPMENT INC (Continued) **S113120026**

Containers were observed properly labeled and stored closed. A 500 gallon used oil tank was observed with used oil in containment underneath it. Jason Vos stated he had moved the tank the tank recently and a valve had broke, which has been fixed, and that he would pump the used oil in containment back into the tank. Municipal trash were observed free of hazardous waste. Manifests and emergency response plan were available for review. The following violations were cited 12/1/16 and are now corrected: I474 - Failure to have hazardous waste manifests available for review; manifests were available for review during this inspection I617 - Failure to keep hazardous waste containers kept closed when not actively being poured into; hazardous waste containers were observed closed I352 - Failure to have an active EPA ID number; the facility an [Truncated]

Eval Notes: On site for a routine hazardous waste inspection. Rick Tankersley, welder, was present for the inspection and provided consent to inspect. The inspection included a walk of the facility's outside perimeter and its trash storage areas. I did not observe hazardous waste in the facility's trash or as run off on the ground. The storage of the shop's hazardous waste was inspected. We discussed maintaining containers storing waste oil closed, except when adding or removing waste, and marking the containers with the required identifying information. The receipts for the removal of the facility's hazardous waste were maintained on site and reviewed with Jason Vos via a phone follow up. A hazardous waste emergency response card was posted in the office. report PDF to jason@swentinc.com

Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Jason Vos, President. The facility is a Small Quantity Generator of auto repair hazardous wastes. Walked throughout the facility and observed the facility s Hazardous Waste storage area. One hazardous waste container of used oil filters was properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility is using a mobile auto mechanic, Chavez Truck Repair, which does maintenance on the business trucks and also manages the waste generated. Invoices from Chavez Truck Repair indicating the date, what waste and how much waste was taken were available for review. The facility has an inactive EPA ID number, CAL000218391. Please reactivate your EPA ID number by completing the provided DTSC EPA ID application. Emergency is [Truncated]

Eval Notes: On site for a routine above ground petroleum storage tank (APST) inspection. Jason Vos, Sandwood Enterprises, was present for the inspection and provided consent to inspect. This facility is regulated under the Above Ground Storage Act (APSA). There was equal to or greater than 1,320 but less than 9,999 gallons of regulated petroleum products in drums or tanks sized 55 gallons or larger on site. We reviewed the qualifying petroleum above ground storage on site, which included tanks and an occasional drum. We reviewed the SPCC plan templates available on our website occupainfo.com for use. SPILL CONTROL: Secondary containment and spill response equipment was reviewed. INSPECTIONS: We discussed the required SPCC inspections and record keeping. EMPLOYEE TRAINING: Annual oil handling employee SPCC training was reportedly conducted. We recommend maintaining training records and having the records available for inspection. report PDF to Jason Vos

Eval Notes: On site for a routine hazardous waste inspection. Vic Eggers, vice president, was present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The inspection included a walk of the facility's outside perimeter and its trash storage areas. I did not observe hazardous waste in the facility's trash or as run off on the ground. The storage of the shop's hazardous waste was inspected. The storage containers were closed and labeled. We discussed the identifying information to be marked on containers storing hazardous waste. The receipts for the removal of the facility's hazardous waste were on site and available for inspection. The records for the last year were reviewed. A hazardous waste emergency response card was posted in the office area. The facility also had a SPCC plan, that contained emergency contact information and spill response directions. report PDF to vic@vetreeservice.com

Eval Notes: On site for an above ground petroleum storage tank (APST) inspection. Vic Eggers, vice president, was present for the inspection. This facility is regulated under the Above Ground Storage Act (APSA). There is equal to or greater than 1,320 but less than 9,999 gallons of regulated petroleum products in drums or tanks sized 55 gallons or larger on site. The facility had a Spill Control and Countermeasure (SPCC) plan. Its most recent review date was 12-3-08. The plan was on site and available for review. SPILL CONTROL: Inspection found bulk petroleum storage secondary containment and available spill response sorbent materials were provided. We discussed the completion of the SPCC plan to include this information. INSPECTIONS: Owner reported that monthly inspections were being conducted as described in the plan. However, inspection records were not maintained. You must keep a record of the inspections and tests performed, signed by the appropriate supervisor or [Truncated]

Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Sam Galindez, Yard Foreman, and Vic Eggers, VP/Owner. The facility is a Small Quantity Generator of auto repair wastes generated from maintenance on facility vehicles and equipment. Walked throughout the facility and observed the facility s Hazardous Waste storage area. Hazardous Waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility has an active EPA ID number, CAL000234681. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was sent to vic@vetreeservice.com.

Eval Notes: On site to conduct a routine Aboveground Petroleum Storage Tank (APST) inspection. Met with Sam Galindez, Yard Foreman, and Vic Eggers, VP/Owner. The facility is a Tier I Qualified Facility of aboveground petroleum storage for quantities less than 10,000 gallons. The following petroleum storage capacity was observed: - 2,000 gal split tank (1500/500) both containing clear diesel, double-walled tank - 1,000 gal red-dye diesel, double-walled tank with tertiary containment - 220 gal container waste oil - 110 gal x 2 containers of motor oil All APSTs on site have appropriate secondary containment. Secondary containment was observed dry and free of liquid and debris. The facility s Spill Prevention Control and Countermeasures (SPCC) Plan, dated 9/8/21 was available for review and is complete. The plan was updated and recertified during this inspection. Monthly inspection logs for APSTs were available for review. Employee training records for employees [Truncated]

FLETCHER COATING COMPANY (Continued) **S123517333**

Eval Date: 06-11-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Kurtis Breeding, President. The facility is a Very Small Quantity Generator of waste oil from air compressor maintenance. Steel grit media blasting and powder coating operations were discussed and observed. Steel media blast is recycled as scrap metal when spent. Powder coat is applied in a closed loop system. Excess powder coat is captured in baghouse units and used back in process. Walked throughout the facility and observed the facility s Hazardous Waste storage area. One hazardous waste container was observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility s EPA ID number is active. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was [Truncated]

Eval Type: Other, not routine, done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Met with John Bejerano and Andrea Aldinger of Fletcher Coating Company. Mr. Bejerano provided consent to enter and conduct this inspection. Hazardous waste observed on-site included used hydraulic oil contained in a 55-gallon drum. Hazardous waste was properly labeled and stored closed. Hazardous waste manifests were available for review. Perimeter of the facility was inspected. Did not observe any indication of a hazardous waste release or illegal dumping along the perimeter of the facility.

CERS Description:	Hazardous Waste Generator

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	09-21-2023
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	On site to conduct a routine hazardous waste inspection. Consent to enter and inspecthe facility was given by Bob Grant, Owner at the site. The following hazardous waste streams were observed: - used oil - used oil filters (metal) Observed the facility, hazardous waste storage area, perimeter, and dumpster area. Hazardous waste containers were stored closed. Used oil container was properly labeled with the required information during the inspection. No indication of hazardous waste spillage, runoff, or illegal disposal was observed. Manifests and the emergency response information were reviewed.

Eval Notes: HARVEST LANDSCAPE ENTERPRISES INC 2351 BATAVIA ST ORANGE 92665 On site to conduct a new business hazardous waste generator inspection. The business owner was identified as Harvest Landscape Enterprises Inc. Ignacio Santiago, mechanic, was present for the inspection and provided consent to inspect. The facility hazardous waste generator EPA ID # was CAL000313540. The facility s operations and the waste generated were discussed. The inspection included a walk of the facility’s outside work and parking areas. I did not observe hazardous waste in the facility’s trash or as run off on the ground. The storage of the facility’s hazardous waste was inspected. The containers were marked with the required identifying information. We discussed maintaining the facility s records for the removal of its hazardous waste for 3 years from the date of removal and have available for inspection.. Written spill response directions and emergency contact numbers must be provided [Truncated]

Eval Notes: On site to conduct a Hazardous Waste reinspection. The facility was cited violation I053 during the last routine inspection on 8/22/18 for storing waste on site past its allowable accumulation time of 180 days. No waste was observed on site past accumulation time limits. A manifest dated 9/14/18 was available for review showing hazardous waste being hauled offsite. Violation I053 is corrected, no outstanding violations remain. Please ensure hazardous waste is disposed of within 180 days of its starting accumulation date. This report was sent to Maria Lopez at maria@hlei.us.

Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Jorge Lopez, Fleet Manager. The facility is a Small Quantity Generator of automotive repair wastes generated from fleet and equipment maintenance. Walked throughout the facility and observed the facility s Hazardous Waste storage area. Hazardous Waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility has an active EPA ID, CAL000313540. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was sent to jorge.lopez@hlei.us.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D005
Waste Description: Barium

Waste Code: D006
Waste Description: Cadmium

Waste Code: D007
Waste Description: Chromium

GENERAL COATINGS CORPORATION (Continued) **1001486896**

Waste Code: D008
Waste Description: Lead

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

FINDS:
Registry ID: 110002928262

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
Registry ID: 110070324099

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-09-2022
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: field verification
Eval Division: Orange City Fire Department
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-05-2024
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Onsite for a routine hazardous waste inspection. Consent to enter and inspect was granted by Rachel Gonzales, Safety and Risk Management Specialist. The facility generates the following hazardous wastes: - Waste absorbent - Waste aerosol cans - Used oil filters (metal) - Used oil - Waste coolant - Oily rags - Parts washer Observed facility, perimeter, hazardous waste storage area, and dumpster area. No indication of hazardous waste spillage, runoff, or illegal disposal was observed. On an ongoing basis, labels are required to have the following information: 1) the words "Hazardous Waste"; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. Emergency response

C & TJ INCORPORATED DBA JJ FOLL COMPANY (Continued) **S124863518**

plan in onsite. Employees are reported to be trained. Manifests were available for review. Facility has 45 employees. No hazardous waste violations were observed. Emailed a copy of the report to rgonzales@gncoinc.com.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Joe Hamby, President. The facility is a Very Small Quantity Generator of automotive repair wastes from maintenance on vehicles and equipment. Walked throughout the facility and observed the facility s Hazardous Waste storage area. Hazardous Waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility s EPA ID number is NOT active. Please completed DTSC EPA ID Application, Form 1358, attached with this report. Complete the application and send it to DTSC or call DTSC with the information provided to reactivate your EPA ID number. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was sent to [Truncated]

LAS FLORES LANDSCAPE INC (Continued) **S117642110**

Eval Type: Routine done by local agency
Eval Notes: On site for a routine hazardous waste inspection. Debbie Hamby, corporate secretary, was present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The inspection included a walk of the facility's outside perimeter and its trash storage areas. I did not observe hazardous waste in the facility's trash or as run off on the ground. The storage of the shop's hazardous waste was inspected. The receipts for the removal of the facility's hazardous waste was on site and available for inspection. The records for the last year were reviewed. Spill response directions and emergency contact numbers must be provided for the employees. A hazardous waste emergency response card was provided for use if needed. report PDF to lasfloreslancscape@sbcglobal.net

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or

SCOPE PACKAGING (Continued) **1000345803**

dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Quarterly Update:	Inactive facility undergoing Corrective Action: Orange Precision Circuits (OPC) Facility consists of one building. The Facility operated from 1979 to October 1989. The Facility sits on a parcel which is 135 by 250 feet and covers 11,000 square feet or 0.6 acres at 812 Southern Avenue in the City of Orange. All operations were performed in the building. A parking area lies to the south and west of the building. Operations involved the manufacture of printed circuit boards. The Facility operated two hazardous waste units (HWMUs), a former 1,500-gallon underground storage tank (UST) (elementary neutralization) used to neutralize acid and caustic solutions for off-site disposal (HWMU1) and a 1000-gallon above-ground storage tanks (AST) used to store spent copper etchant (HWMU2). An Interim Status Document was issued to the facility on January 4, 1982. The Facility sought a variance in the 1983 for the elementary neutralization unit. The variance was initially granted on July 7, 1987 and later, upon review by DTSC, denied. In October 1989, OPC vacated the site and the land owner, Mr. Amos Deacon, Jr. took responsibility for closure of the regulated units and site cleanup. Mr. Deacon retained Waste Materials Management to prepare a Closure Plan. This Closure Plan, dated May 6, 1991, was submitted to DTSC and was modified by DTSC on February 24, 1992 as part of approval. The HWMU-2 had been removed prior to the facility being vacated by the operators in October 1989. HWMU-1 was removed by Waste Materials Management in 1992. Both of the tanks contained metal waste from plating operations. As part of the closure activities sampling was performed at the two hazardous waste management units. The closure activities were described in a certification report entitled

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Hazardous Waste Summary:

Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D004
Waste Description: Arsenic

Waste Code: D008
Waste Description: Lead

Waste Code: F006
Waste Description: Wastewater Treatment Sludges From Electroplating Operations, Except From The Following Processes: (1) Sulfuric Acid Anodizing Of Aluminum; (2) Tin Plating On Carbon Steel; (3) Zinc Plating (Segregated Basis) On Carbon Steel; (4) Aluminum Or Zinc-Aluminum Plating On Carbon Steel; (5) Cleaning/Stripping Associated With Tin, Zinc, And Aluminum Plating On Carbon Steel; And (6) Chemical Etching And Milling Of Aluminum.

Waste Code: F007
Waste Description: Spent Cyanide Plating Bath Solutions From Electroplating Operations.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D003
Waste Description:	Reactive Waste
Waste Code:	D005
Waste Description:	Barium

FXI, INC (Continued) **1000158746**

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U223
Waste Description: Benzene, 1,3-Diisocyanatomethyl- (R,T) (Or) Toluene Diisocyanate (R,T)

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description:	Failure to adequately discuss in the SPCC Plan all applicable bulk storage containers, or no discussion regarding all applicable bulk storage containers included.
Violation Notes:	Returned to compliance on 12/22/2016. Inspection found the facility's qualifying APSA petroleum storage to differ from what was described in the plan. Additional totes and drums of petroleum products (oils, WD40, diesel) were observed on site that had not been identified in the plan. Also, the actual contents of the baler building's ASTs differed from what was in the plan. Please update the plan's qualifying APSA storage table to be current. Submit a copy of the table to this Agency within 30 days.

Eval Notes: On-site for a routine inspection. Met with Douglas Darling this date. This is a Program Level 1 CalARP facility as well as a Federally Regulated site. The facility has approximately 680,000 pounds of TDI. The federal threshold is 10,000 pounds. The site has filed electronically with EPA, and has made several changes (dates and amount of TDI on-site). The last electronic change was made on 04/14/14. The EPA RMP anniversary date for this facility is 05/09/18. The latest version of the RMP hs been submitted and approved by OCHCA. The California Program Level 1 certification is signed 04/26/13. The emergency eye wash and showers are being inspected and were tested this date. An email from Rosie Flores of the City of Orange Fire Department dated 04/22/14 verified that there have been no releases with off-site consequences within the last 5-years. 1) Five Year Accident History: According to Mr.Darling there have been no releases of TDI within the last 5-years [Truncated]

Eval Notes: On site for a routine non-RCRA (CA regulated) hazardous waste large quantity generator (LQG) inspection. Doug Darling, Regional EHS manager, and Lidia Gallardo, EHS coordinator, were present for the inspection and provided consent to inspect. The facility s operations

FXI, INC (Continued) **1000158746**

and the waste generated were discussed. The facility's outside lot was walked. I did not observe hazardous waste in the facility's trash or as run off on the ground. The signed off manifests for the removal of the facility's hazardous waste were on site and available for inspection. The records for the last year were reviewed. A non-RCRA LQG is a generator of equal to or greater than 1000 kg (roughly 2200 pounds) of non RCRA hazardous waste during a single month during a one year period. In the last year, the facility's records documented that this facility was a non-RCRA hazardous waste LQG. The storage of the facility's hazardous waste was inspected. The containers were stored closed and with [Truncated]

Eval Notes: On site for a routine non-RCRA (CA regulated) hazardous waste large quantity generator (LQG) inspection. Doug Darling, Regional EHS manager, and Lidia Gallardo, EHS coordinator, were present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The facility's outside lot was walked. I did not observe hazardous waste in the facility's trash or as run off on the ground. The signed off manifests for the removal of the facility's hazardous waste were on site and available for inspection. The records for the last year were reviewed. A non-RCRA LQG is a generator of equal to or greater than 1000 kg (roughly 2200 pounds) of non RCRA hazardous waste during a single month during a one year period. In the last year, the facility's records documented that this facility was a non-RCRA hazardous waste LQG. The storage of the facility's hazardous waste was inspected. The containers were stored closed and with [Truncated]

Eval Notes: On site to conduct a routine CalARP inspection. Met with Luis Carbajal, Plant Manager, and Sally Geimer, EHS. The facility is a Program Level 1 CalARP facility as well as a Federally regulated facility for storage of approximately 680,000 lbs of TDI (Toluene Diisocyanate). The federal threshold is 10,000 lbs. The facility has filed electronically with EPA. The RMP (Risk Management Plan) was submitted on 4/12/18, the anniversary date is 5/9/23. The California Program Level 1 Certification dated 3/12/18 was reviewed and complete. We discussed facility operations involving TDI. The TDI is a mixture of 80% Toluene 2,4 - Diisocyanate and 20% Toluene 2,6 - Diisocyanate. The facility recieves TDI by both railcar and trucking. We discussed railcar offloading procedures and I reviewed the facility's offloading SOP's. High level, audible and visual alarms for offloading are present. Eyewash and shower stations within the TDI offloading and storage area were functioning. The [Truncated]

Eval Notes: On site for a routine above ground petroleum storage tank (APST) inspection. Douglas Darling, Regional EHS Manager, and Lidia Gallardo, EHS coordinator, were present for the inspection and provided consent to inspect. This facility is regulated under the Above Ground Storage Act (APSA). There was more than 10,000 gallons of regulated petroleum products in drums or tanks sized 55 gallons or larger on site. We reviewed the qualifying petroleum above ground storage on site, which included machine reservoirs, tanks, and drums. The facility had a Spill Prevention, Control and Countermeasure (SPCC) plan. Its most recent review date was 10-22-12. The plan was on site and available for review. Changes in the described qualifying petroleum storage were

FXI, INC (Continued) **1000158746**

noted and discussed. Updates will be completed. SPILL CONTROL: Secondary containment and spill response equipment were provided as described in the plan. INSPECTIONS: We discussed the required SPCC inspections [Truncated]

Eval Notes: Weather: partly cloudy and warm. SWPPP is undated and in process of being updated; several versions presented, most lack site plan; agreed to use site plan last revised 3/1/2000. Site is mostly orderly but littered with bits of fresh and weathered foam, including neglected, moldy-looking patches of foam dust. Contact cites lack of personnel and broken sweeping equipment for the condition of the site. Plastic sheeting is piled at the SE corner and not secured against wind. Leaks, or evidence of leaks, found from various process equipment. Heavy litter and weathered plastic sheeting found in NW portion of site near compactor. Storm drain inlet basins are littered; pipes are fitted with sliding gate valves left either open or partly-open; default position is not known to Contact.

Eval Notes: INSPECTOR COMMENTS: Received an email (attached) from John Johnson of RMP Corp regarding the April 2013 hazard assessment. Mr. johnson in his emails clarifies the toxic endpoint of a release into the soil from a rail car of the TDI. The OSC is 0.0284 miles or 57 yards. According to OCHCA calculations, 0.0284 miles is 49 yards, not 57. This distance was mapped on Google earth and no off site conscience could be seen. It appears that based on this data, that this is a Program Level 1 CalARP facility.

Eval Notes: On-site for a CalARP routine inspection. Met with Regional EHS Manager Douglas Darling and EHS Coordinator Lidia Gallardo of FXI Inc. Consent was provided to enter and inspect the facility. This facility is regulated under CalARP Program Level 1 requirements for Toluene-2,4-Diisocyanate (TDI) TQ = 500 pounds and Toluene-2,6-Diisocyanate (TDI) TQ = 100 pounds. The facility is required to submit electronically with the EPA as the federal threshold is 10,000 pounds. TDI comes into the facility by rail car. Each rail car holds a maximum 180,000 pounds of TDI. On normal operations, the facility receives (2) rail cars per week. Note that the percentage between 2,4- and 2,6- is roughly 80%/20%. The rail cars are immediately emptied into a 35,000 gallon (319,733 pound) aboveground storage tank. Total quantity of TDI at the facility is approximately 680,000 pounds. The facility maintains (2) processes: 1. TDI in storage (Aboveground tank). The regulated [Truncated]

Eval Notes: On-site for a routine inspection. Met with Douglas Darling this date. This is a Program Level 1 CalARP facility as well as a Federally Regulated site. The facility has approximately 680,000 pounds of TDI. The federal threshold is 10,000 pounds. The site has filed electronically with EPA, and has made several changes (dates and amount of TDI on-site). The last electronic change was made on 04/14/14. The EPA RMP anniversary date for this facility is 05/09/18. The latest version of the RMP hs been submitted and approved by OCHCA. The California Program Level 1 certification is signed 04/26/13. The emergency eye wash and showers are being inspected and were tested

FXI, INC (Continued) **1000158746**

this date. An email from Rosie Flores of the City of Orange Fire Department dated 04/22/14 verified that there have been no releases with off-site consequences within the last 5-years. 1) Five Year Accident History: According to Mr.Darling there have been no releases of TDI within the last 5-years [Truncated]

Eval Notes: On site for a routine non-RCRA (CA regulated) hazardous waste large quantity generator (LQG) inspection. Doug Darling, Regional EHS manager, and Lidia Gallardo, EHS coordinator, were present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The facility's outside lot was walked. I did not observe hazardous waste in the facility's trash or as run off on the ground. The signed off manifests for the removal of the facility's hazardous waste were on site and available for inspection. The records for the last year were reviewed. A non-RCRA LQG is a generator of equal to or greater than 1000 kg (roughly 2200 pounds) of non RCRA hazardous waste during a single month during a one year period. In the last year, the facility's records documented that this facility was a non-RCRA hazardous waste LQG. The storage of the facility's hazardous waste was inspected. The containers were stored closed and with [Truncated]

Eval General Type: Other/Unknown
Eval Date: 07-07-2015
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: INSPECTOR COMMENTS: Received an email (attached) from John Johnson of RMP Corp regarding the April 2013 hazard assessment. Mr. johnson in his emails clarifies the toxic endpoint of a release into the soil from a rail car of the TDI. The OSC is 0.0284 miles or 57 yards. According to OCHCA calculations, 0.0284 miles is 49 yards, not 57. This distance was mapped on Google earth and no off site conscience could be seen. It appears that based on this data, that this is a Program Level 1 CalARP facility.

Eval Date: 07-07-2021
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: The facility's 6,000 tank of mineral oil has been classified as a pressure vessel. Per HSC 25270.2(a), pressure vessels such as this tank are excluded from APSA, thus this tank is not regulated under The Aboveground Petroleum Storage Act, and is not required to have an STI SP001 inspection. Violation I383 is voided and corrected at this time and the facility is in compliance. This report was sent to lcarbajal@fxi.com.

Eval Division: Orange County Environmental Health
Eval Program: APSA
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-05-2017
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On-site for a CalARP routine inspection. Met with Regional EHS Manager Douglas Darling and EHS Coordinator Lidia Gallardo of FXI Inc. Consent was provided to enter and inspect the facility. This facility is regulated under CalARP Program Level 1 requirements for Toluene-2,4-Diisocyanate (TDI) TQ = 500 pounds and Toluene-2,6-Diisocyanate (TDI) TQ = 100 pounds. The facility is required to submit electronically with the EPA as the federal threshold is 10,000 pounds. TDI comes into the facility by rail car. Each rail car holds a maximum 180,000 pounds of TDI. On normal operations, the facility receives (2) rail cars per week. Note that the percentage between 2,4- and 2,6- is roughly 80%/20%. The rail cars are immediately emptied into a 35,000 gallon (319,733 pound) aboveground storage tank. Total quantity of TDI at the facility is approximately 680,000 pounds. The facility maintains (2) processes: 1.

FXI, INC (Continued) **1000158746**

TDI in storage (Aboveground tank). The regulated [Truncated]

Eval Notes: On site for a CalARP audit. Met with Lydia Gallardo and Luis Carbajal of FXI. Consent to enter and take photos was granted. Facility is regulated under the CalARP Program level 1 requirements. The regulated substance on site is an 80/20 mix of 2-4- and 2-6 Toluene Diisocyanate. Max storage of 680,000 pounds has not changed. Facility is regulated by the EPA and the CUPA. Photos were collected of the storage and process machinery. RMP is in the process of recertification.

Eval Notes: INSPECTOR COMMENTS: On-site for a CalARP Audit. Met with Ivan Flores this date. This is a Program Level 1 CalARP facility as well as a Federally Regulated site. The facility has approximately 680,000 pounds of TDI. The federal threshold is 10,000 pounds. The site has filed electronically with EPA, and has made several changes (dates and amount of TDI on-site). The last electronic change was made on 04/14/14. The EPA RMP anniversary date for this facility is 05/09/18. The latest version of the RMP hs been submitted and approved by OCHCA. The California Program Level 1 certification is signed 04/26/13. The emergency eye wash and showers are being inspected and were tested this date. 1) Five Year Accident History: According to Mr.Darling there have been no releases of TDI within the last 5-years that have caused an evacuation or off-site consequence. There were two incidents within the past two years with the TDI (regulated substance). The incident [Truncated]

Eval Type: Routine done by local agency
Eval Notes: On-site for a routine inspection. Met with Douglas Darling this date. This is a Program Level 1 CalARP facility as well as a Federally Regulated site. The facility has approximately 680,000 pounds of TDI. The federal threshold is 10,000 pounds. The site has filed electronically with EPA, and has made several changes (dates and amount of TDI on-site). The last electronic change was made on 04/14/14. The EPA RMP anniversary date for this facility is 05/09/18. The latest version of the RMP hs been submitted and approved by OCHCA. The California Program Level 1 certification is signed 04/26/13. The emergency eye wash and showers are being inspected and were tested this date. An email from Rosie Flores of the City of Orange Fire Department dated 04/22/14 verified that there have been no releases with off-site consequences within the last 5-years. 1) Five Year Accident History: According to Mr.Darling there have been no releases of TDI within the last 5-years [Truncated]

Eval Type: Routine done by local agency
Eval Notes: On site for a routine non-RCRA (CA regulated) hazardous waste large quantity generator (LQG) inspection. Doug Darling, Regional EHS manager, and Lidia Gallardo, EHS coordinator, were present for the inspection and provided consent to inspect. The facility s operations and the waste generated were discussed. The facility’s outside lot was walked. I did not observe hazardous waste in the facility’s trash or as run off on the ground. The signed off manifests for the removal of the facility’s hazardous waste were on site and available for inspection. The records for the last year were reviewed. A non-RCRA LQG is a generator of equal to or greater than 1000 kg (roughly 2200 pounds) of non RCRA hazardous waste during a single month during a one year period. In the last year, the facility’s records documented that this facility was a non-RCRA hazardous waste LQG. The storage of the facility’s hazardous waste was inspected. The containers were stored closed and with [Truncated]

Eval Notes: INSPECTOR COMMENTS: This inspection report is being written in order to correct the inspections reports dated 05/16/13, 05/17/13, 04/25/14 and 06/085/15. After reviewing the RMP, Federal (EPA) Certification and the Hazardous Assessment completed by RMP Professionals in April 2013 it appears that this facility is not a Program Level 1 but is in fact a Program Level 2 facility with an off-site consequence. The following was taken into account in making this determination: 1) The EPA RMP Submission dated 05/09/13 lists an off-site consequence of 0.01 miles (no off-site consequence) 2) The April 2014 Hazard Assessment by RMP Professionals on page 7 lists the off-site consequence as <0.0128 miles (no off-site consequence) 3) The April 2014 Hazard Assessment by RMP Professionals on page 11 lists the off-site consequence as 0.128 miles (off-site consequence) 4) The April 2014 Hazard Assessment by RMP Professionals on page 12, figure 7 (MARPLOT) shows no [Truncated]

Violation Description:	Failure to adequately discuss in the SPCC Plan all applicable bulk storage containers, or no discussion regarding all applicable bulk storage containers included.
Violation Notes:	Returned to compliance on 12/22/2016. Inspection found the facility's qualifying APSA petroleum storage to differ from what was described in the plan. Additional totes and drums of petroleum products (oils, WD40, diesel) were observed on site that had not been identified in the plan. Also, the actual contents of the baler building's ASTs differed from what was in the plan. Please update the plan's qualifying APSA storage table to be current. Submit a copy of the table to this Agency within 30 days.

Eval Notes: On-site for a routine inspection. Met with Douglas Darling this date. This is a Program Level 1 CalARP facility as well as a Federally Regulated site. The facility has approximately 680,000 pounds of TDI. The federal threshold is 10,000 pounds. The site has filed electronically with EPA, and has made several changes (dates and amount of TDI on-site). The last electronic change was made on 04/14/14. The EPA RMP anniversary date for this facility is 05/09/18. The latest version of the RMP hs been submitted and approved by OCHCA. The California Program Level 1 certification is signed 04/26/13. The emergency eye wash and showers are being inspected and were tested this date. An email from Rosie Flores of the City of Orange Fire Department dated 04/22/14 verified that there have been no releases with off-site consequences within the last 5-years. 1) Five Year Accident History: According to Mr.Darling there have been no releases of TDI within the last 5-years [Truncated]

Eval Notes: INSPECTOR COMMENTS: This inspection report is being written in order to correct the inspections reports dated 05/16/13, 05/17/13, 04/25/14 and 06/085/15. After reviewing the RMP, Federal (EPA) Certification and the Hazardous Assessment completed by RMP Professionals in April 2013 it appears that this facility is not a Program Level 1 but is in fact a Program Level 2 facility with an off-site consequence. The following was taken into account in making this determination: 1) The EPA RMP Submission dated 05/09/13 lists an off-site consequence of 0.01 miles (no off-site consequence) 2) The April 2014 Hazard Assessment by RMP Professionals on page 7 lists the off-site consequence as <0.0128 miles (no off-site consequence) 3) The April 2014 Hazard Assessment by RMP Professionals on page 11 lists the off-site consequence as 0.128 miles (off-site consequence) 4) The April 2014 Hazard Assessment by RMP Professionals on page 12, figure 7 (MARPLOT) shows no [Truncated]

Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Weather: partly cloudy and warm. SWPPP is undated and in process of being updated; several versions presented, most lack site plan; agreed to use site plan last revised 3/1/2000. Site is mostly orderly but littered with bits of fresh and weathered foam, including neglected, moldy-looking patches of foam dust. Contact cites lack of personnel and broken sweeping equipment for the condition of the site. Plastic sheeting is piled at the SE corner and not secured against wind. Leaks, or evidence of leaks, found from various process equipment. Heavy litter and weathered plastic sheeting found in NW portion of site near compactor. Storm drain inlet basins are littered; pipes are fitted with sliding gate valves left either open or partly-open; default position is not known to Contact.

Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Weather: Warm and sunny. Single SWPPP presented for review. Overall housekeeping is significantly improved; Contact reports that the broken sweeper has been replaced. Sweeping is done each working day during second shift when foam buns are moved around. Leaf-blower is used for hard-to-reach places but frequency is not known to Contact. Form cone impressions still in secondary containment at E tank area. Curtains on unloading pumps have been replaced. Found steam water leaking from pipe next to metering house. North rail line and trash compactor are littered. Unknown demo job left debris next to north loading platform. Outlet #4 has heavy litter and debris inside basin. Abandoned plastic sheeting found at SE corner. Improper leak response found at conveyor and in bun storage area. Improper storage of decomissioned baler found. Evidence of steam water discharge from pipe behind Tank 108 found.

Eval Notes: On site to conduct a routine Hazardous Waste inspection. Met with Doug Darling, Regional EHS Manager, and Luis Carbajal, Plant Manager. The facility is a Large Quantity Generator of Non-RCRA Hazardous Waste. The facility s operations and waste generated were discussed. Walked throughout the facility and observed the facility s Hazardous Waste. The facility has a designated hazardous waste storage area in the mechanics building, and also several satellite accumulation areas. Hazardous waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and municipal trash dumpsters were observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility s EPA ID number is active. Emergency plan is maintained onsite, spill response notification was discussed. Weekly hazardous waste container inspection logs were available for review. Annual employee training records [Truncated]

Eval Notes: INSPECTOR COMMENTS: Received an email (attached) from John Johnson of RMP Corp regarding the April 2013 hazard assessment. Mr. johnson in his emails clarifies the toxic endpoint of a release into the soil from a rail car of the TDI. The OSC is 0.0284 miles or 57 yards. According to OCHCA calculations, 0.0284 miles is 49 yards, not 57. This distance was mapped on Google earth and no off site conscience could be seen. It appears that based on this data, that this is a Program Level 1 CalARP facility.

Eval Notes: On-site for a CalARP routine inspection. Met with Regional EHS Manager Douglas Darling and EHS Coordinator Lidia Gallardo of FXI Inc. Consent was provided to enter and inspect the facility. This facility is regulated under CalARP Program Level 1 requirements for Toluene-2,4-Diisocyanate (TDI) TQ = 500 pounds and Toluene-2,6-Diisocyanate (TDI) TQ = 100 pounds. The facility is required to submit electronically with the EPA as the federal threshold is 10,000 pounds. TDI comes into the facility by rail car. Each rail car holds a maximum 180,000 pounds of TDI. On normal operations, the facility receives (2) rail cars per week. Note that the percentage between 2,4- and 2,6- is roughly 80%/20%. The rail cars are immediately emptied into a 35,000 gallon (319,733 pound) aboveground storage tank. Total quantity of TDI at the facility is approximately 680,000 pounds. The facility maintains (2) processes: 1. TDI in storage (Aboveground tank). The regulated [Truncated]

Eval Notes: INSPECTOR COMMENTS: On-site for a CalARP Audit. Met with Ivan Flores this date. This is a Program Level 1 CalARP facility as well as a Federally Regulated site. The facility has approximately 680,000 pounds of TDI. The federal threshold is 10,000 pounds. The site has filed electronically with EPA, and has made several changes (dates and amount of TDI on-site). The last electronic change was made on 04/14/14. The EPA RMP anniversary date for this facility is 05/09/18. The latest version of the RMP hs been submitted and approved by OCHCA. The California Program Level 1 certification is signed 04/26/13. The emergency eye wash and showers are being inspected and were tested this date. 1) Five Year Accident History: According to Mr.Darling there have been no releases of TDI within the last 5-years that have caused an evacuation or off-site consequence. There were two incidents within the past two years with the TDI (regulated substance). The incident [Truncated]

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

DUNHAM METAL PLATING INC. (Continued) **1000352574**

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/27/2025

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Next Scheduled EDR Contact: 07/14/2025
Data Release Frequency: Varies

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 02/02/2025

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

Version Date:	2022

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

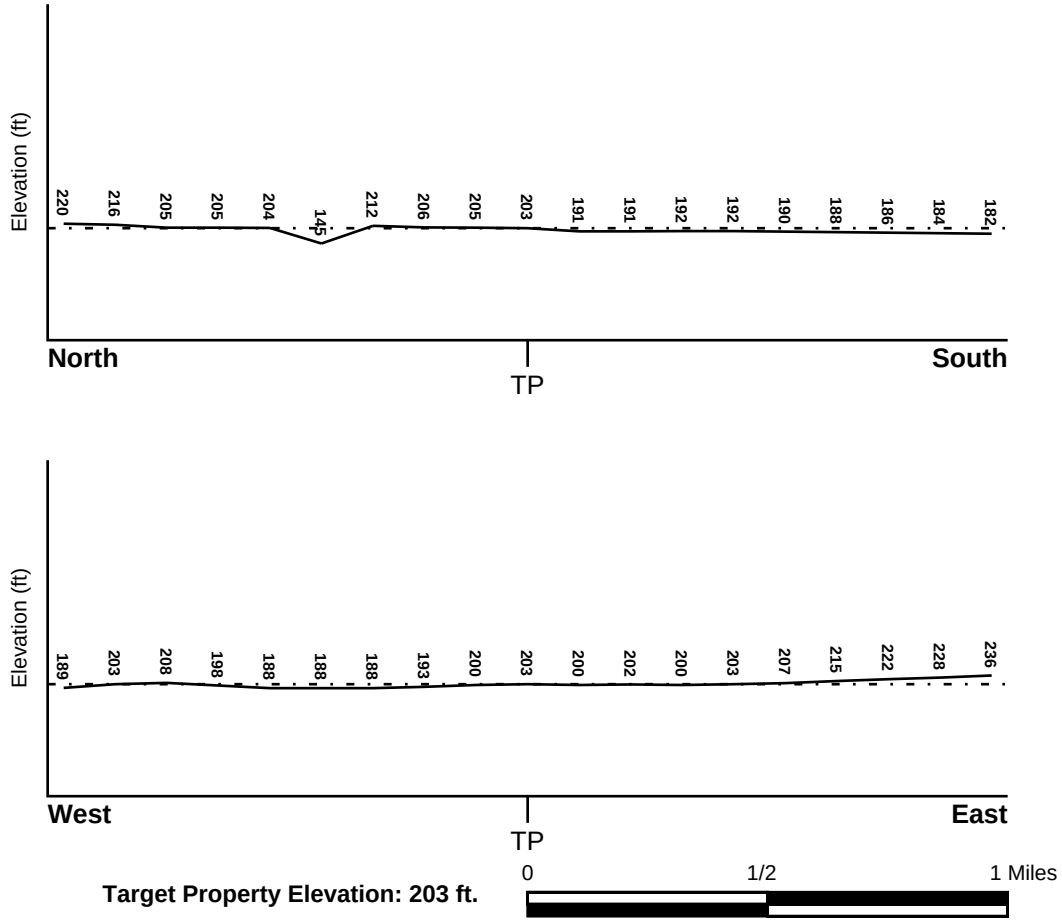

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06059C0153J	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
ORANGE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile South
Site Name:	GREAT WESTERN CARPET CUSHION CO INC
Site EPA ID Number:	CAD008352361
Groundwater Flow Direction:	Southeast
Measured Depth to Water:	less than 140 feet.
Hydraulic Connection:	Information is not available regarding the hydraulic connection between aquifer(s) underlying the site.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW

10G	1/2 - 1 Mile South	SE

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: METZ

Soil Surface Texture: loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	16 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14 Min: 4	Max: 8.4 Min: 6.6
2	16 inches	62 inches	stratified sand to fine sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14 Min: 4	Max: 8.4 Min: 6.6

Soil Map ID: 2

Soil Component Name: SAN EMIGDIO

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	7 inches	fine sandy loam	Not reported	Not reported	Max: 42 Min: 14	Max: 8.4 Min: 7.9
2	7 inches	61 inches	stratified gravelly loamy coarse sand to very fine sandy loam	Not reported	Not reported	Max: 42 Min: 14	Max: 8.4 Min: 7.9

Soil Map ID: 3

Soil Component Name: PITS

Soil Surface Texture: extremely gravelly coarse sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Environmental Audit, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 924C-4EE2-8DB5

PO # 3365-01

Project 3365

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 924C-4EE2-8DB5

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Department assignment Anyone with access to this request

Added: Community Development.

April 30, 2025, 1:17pm by Staff

Message to requester Requester + Staff

Thank you for submitting your request for records. The inquiry has been sent to the responding department(s) to conduct a search. You

will receive notification within the 10-day timeframe provided by the California Public Records Act.

Please note: The 10-day period mentioned in the Government Code §7922.535 is not a deadline for producing records. Should the request be voluminous, or require research, or computer programming, the City may need a reasonable amount of time to research, review, and inspect records prior to release; therefore, it may take longer before the records can be made available. Upon receipt of your request, the City will make every effort to keep you apprised of response timeframes.

Rena Davis
Hazardous Materials Specialist
ORANGE FIRE DEPARTMENT
174 S. Orange St.
Orange, CA 92866

Dear Rena:

We are anticipating upgrading our fueling facilities in the near future. I have several requests for proposals out and am waiting for a response.

If you have any leads for a reliable contractor for the upgrade, it would be appreciated. I understand you can not recommend anyone, however noting those you know that work in Orange would be appreciated.

We are also interested in the requirements that may be needed to go with an above ground tank instead. Please forward any items we may need to consider.

Thank you,

Mark N. Carter
President

RE: Failure To Comply, UST Regulations, SB989 At [redacted] W Fletcher Ave

Dear Business Owner/Operator:

As the Administering Agency of the Underground Storage Tank Program, the City of Orange Fire Department has reviewed the property file for the location referenced above.

It has been determined that this facility is out of compliance with the regulations of the Uniform Fire Code, 1997 edition, California Health and Safety Code, Chapter 6.7 and the California Code of Regulations, Title 23, Division 3, Chapter 16. All secondary containment systems installed prior to January 1, 2001 must have periodic secondary containment testing every 36 months. The initial test must be performed by January 1, 2003. All secondary containment systems installed after January 1, 2001 must be tested at installation, six month after installation and every 36 months thereafter.

Our records indicate that testing has not been completed. Even though the deadline has passed, the secondary containment testing must still be performed.

To avoid having the operating permit revoked, please contact me by February 24, 2003 to discuss this matter further.

I can be reached at (714)288-2541, Monday-Thursday.

Sincerely,

Kathy Dascomb

ORANGE FIRE DEPARTMENT
174 S. Orange St.
Orange, CA 92866

Dear Kathy.

We are continuing to actively pursue the upgrade or installation of fueling equipment that meets the ever changing codes. We are doing this on two fronts.

First, as per my letter to Rena Davis on 1-9-03, was to remove the UST and replace it with an above ground. After going back and forth to various city departments we were told an above ground had basically the same permit requirements as adding a new second story to our building.

The folks at Orange Coast Petroleum, having placed several above ground tanks in Orange, said we received inaccurate information and volunteered to pursue this on our behalf.

Second, we are continuing to request proposals for upgrading our existing tank, piping and monitoring. To date we have contacted 10 firms, only two have visited and only one has quoted. Two more have committed to visit next week.

Companies contacted:

Tank Specialties	Dennis D. Rock Construction	Tate Environmental
Tanknology	R & D Builders	Wayne Perry
Petro Builders	Spencer & Jones	MT Walker
	Orange Coast Tank Test	

Thank you for your continued patience. This is a confusing and costly process. Many of the vendors are telling us to expect further changes in the requirements soon. We are hoping any upgrade will also meet the new requirements.

Sincerely,

Mark N. Carter
President

January 9, 2003

Rena Davis
Hazardous Materials Specialist
ORANGE FIRE DEPARTMENT
174 S. Orange St.
Orange, CA 92866

Dear Rena:

Per our conversations, we attempted to replace our underground fuel tank with a new state of the art above ground tank. We went to the fire department, planning, building and public works.

Unfortunately we have been told the City will not consider this an upgrade to make the equipment comply with new regulations but rather an improvement to the property.

As you know this means a huge bureaucratic nightmare. The goal of going above ground was to reduce the red tape.

We have met with R & D Builders, who is preparing us a quote to meet the new regulations. We have tried several other contractors, however just like last summer and in the fall, they are all too busy for such a small job. Any suggestions for contractors that do small jobs or have worked in Orange would be appreciated.

I will keep you informed and look forward to hearing any suggestions.

Sincerely,

Mark N. Carter
President

6-23: Bob Carter will excavate to 15' and aerate soil

June 4, 1987

Project No. 1540-01

Bills Sweeping Service
715 W. Fletcher St.
City of Orange, Calif.

Attention: Mr. Bob Carter

Subject: Preliminary Site Assessment Investigation
Area Surrounding Removed 1,000 Gallon Regular Fuel Tank
715 W. Fletcher St.
City of Orange, California

Dear Bob,

Enclosed please find the results of our preliminary site assessment investigation. The assessment included the drilling of 5 soil borings to determine the vertical and lateral extents of soil contamination from a possible leak in an underground fuel storage tank system.

I. BACKGROUND

The underground steel fuel tank was removed on April 28, 1987. Its capacity was 1,000 gallons and the contents were regular gasoline. The tank was installed in 1962 with a burlap and tar coating to protect against corrosion. Upon removal, no noticeable holes were detected in the tank; however, the joint between the fill riser and the top of the tank did appear to have been leaking.

After removal of the tank, it was noticed that soils below the tank were contaminated with gasoline. A soil sample was gathered from the bottom of the excavation and analyzed for Total Petroleum Hydrocarbons (EPA method 8015). Results of the analysis indicated a concentration of 6,750 ppm gasoline. Total Lead analysis (EPA 7421) yielded 32.8 ppm lead. Complete results of this soil analysis are presented in Appendix A.

Because the soils in the bottom of the excavation appeared contaminated, a backhoe on the site was used to dig down in search of the bottom extent of contamination. Contamination was still

detected at 10 feet below grade when digging was stopped because this was the maximum depth the backhoe could reach. Concerned with the fact that soil contamination may be deep enough to possibly affect ground water, Anne Bland of the City of Orange Fire Department requested a site assessment investigation be intiated to determine the exact extent of subsurface contamination.

II. SUBSURFACE INVESTIGATION

Drilling, Sampling and Soil Analysis

On May 29, 1987, five soil borings were drilled with a Mobile B-47 hollow stem drilling rig. Each boring was seven inches in diamter. Two borings were placed a few feet inward from where the ends of the tank were previously located. The other three were located outside of the limits of the tank excavation on the three accessible sides. The locations of each boring are graphically depicted on the Plot Plan, Figure 1.

Undisturbed soil samples were gathered with a 2.5 inch I.D. split spoon sampler driven by a 140 lb. down hole hammer. One 3 inch long stainless steel tube was gathered from each driven sampler and capped with heavy duty aluminum foil and plastic endcaps. The samples were immediately placed on blue ice for transport to a state certified laboratory. All sampling equipment was washed with an inorganic detergent and double rinsed with distilled water between sampling to reduce the chance of cross contamination.

Boring B-1 (north end of excavation) was drilled from 0 to 20 feet below grade. Field observations of the soil being brought up by the drilling rig indicate that noticeable contamination is present from just below grade to 12 feet deep. A soil sample was taken at 15 and 20 feet deep to confirm that the lower extent of soil contamination does not extend to these depths. Results of the soil analysis for Total Petroleum Hydrocarbon content (EPA method 8015) are summarized below.

B-1 at 15 feet	None Detected
B-1 at 20 feet	None Detected

Boring B-2 (south end of excavation) was drilled from 0 to 10 feet below grade. Field observations of the soil being brought up by the drilling rig indicate that noticeable contamination is present from just below grade to 7 feet deep. A soil sample was taken at 10 feet to confirm the lower extent of contamination does not reach this depth. Result of the soil analysis for Total Petroleum Hydrocarbon content (EPA method 8015) is summarized below.

B-2 at 10 feet None Detected

Borings B-3, B-4 and B-5 were drilled around the excavation to 15 feet below grade. Field observations of the soil being brought up by the drilling rig in each boring indicate that no noticeable contamination was encountered in these borings. Results of soil samples taken at 15 feet deep in B-3, B-4 and B-5 are summarized below.

B-3 at 15 feet	None Detected
B-4 at 15 feet	None Detected
B-5 at 15 feet	None Detected

Complete laboratory results of soil analyses from all borings are presented in Appendix B.

Soil Type and Distribution

All five soil borings encountered fine to medium-grained light brown sand and minor amounts of gravel. Boring B-1 (the deepest boring) also encountered a very gravelly coarse sand at 17 to 20 feet. Detailed logs of each boring are presented in Appendix C.

Ground Water

No ground water was not encountered in any of the borings drilled. Ground water maps published by the County of Orange Water District indicate that the depth to ground water is approximately 25 feet deep; however, the accuracy of these maps is questionable.

Ground water wells installed approximately 0.7 miles south of the site, and at approximately the same distance from the Santa Ana River as the subject site, indicate that first ground water actually fluctuates seasonally from 80 to 92 feet deep. This is the uppermost aquifer. Ground water depth at the site is probably in the 40 to 60 foot deep range.

Two City of Orange municipal wells located within a few hundred yards of the site are over 500 feet deep and extract water from between 236 to 416 feet deep.

III. DISCUSSION AND OBSERVATIONS

1. Field and laboratory data indicate that no contaminated soils are located in the borings surrounding the tank excavation.

2. Data from the two borings done in the excavation indicate that soils are contaminated to 12 feet deep near the north end of the old tank location, and to 7 feet near the south end of the tank location.

3. The joint between the fill riser and the top of the tank which is suspected to have leaked was located a few feet north of the center of the tank. Soil contamination is deepest in the boring done at the tanks' north end (B-1).

4. The only suspected leak in the tank system was between the fill riser and the tank top. If this was the only leak, the system would only be releasing product during filling or when the tank was filled above its top.

5. No ground water was encountered in any of the borings.

IV. RECOMMENDATIONS

We recommend that the soil in the tank excavation be excavated to 13 feet deep, spread out in the yard on top of heavy duty plastic and aerated. The soil should be spread out to no more than 1 foot thick. After approximately 3 weeks the soil should be sampled and analayzed for Total Petroleum Hydrocarbons and Lead content (WET lead analysis.)

After aeration the hydrocarbons will have been volatilized. The lead concentrations, however, must also be considered. If analyzed for lead content using the non-WET lead analysis, the approximate theoretical standard is 50 ppm. The analysis of the soil sample taken from the bottom of the excavation (32.8 ppm) can be compared to this limit. If the soil is analyzed for lead content using the WET method of analysis, the limit is 5 ppm. If the lead concentrations prove to be over 5 ppm using a WET lead analysis, the soil will require disposal as a hazardous waste.

Thank you for the opportunity to be of service. We look forward to helping you with the sucessful remediation of the site. If you have any questions please feel free to call.

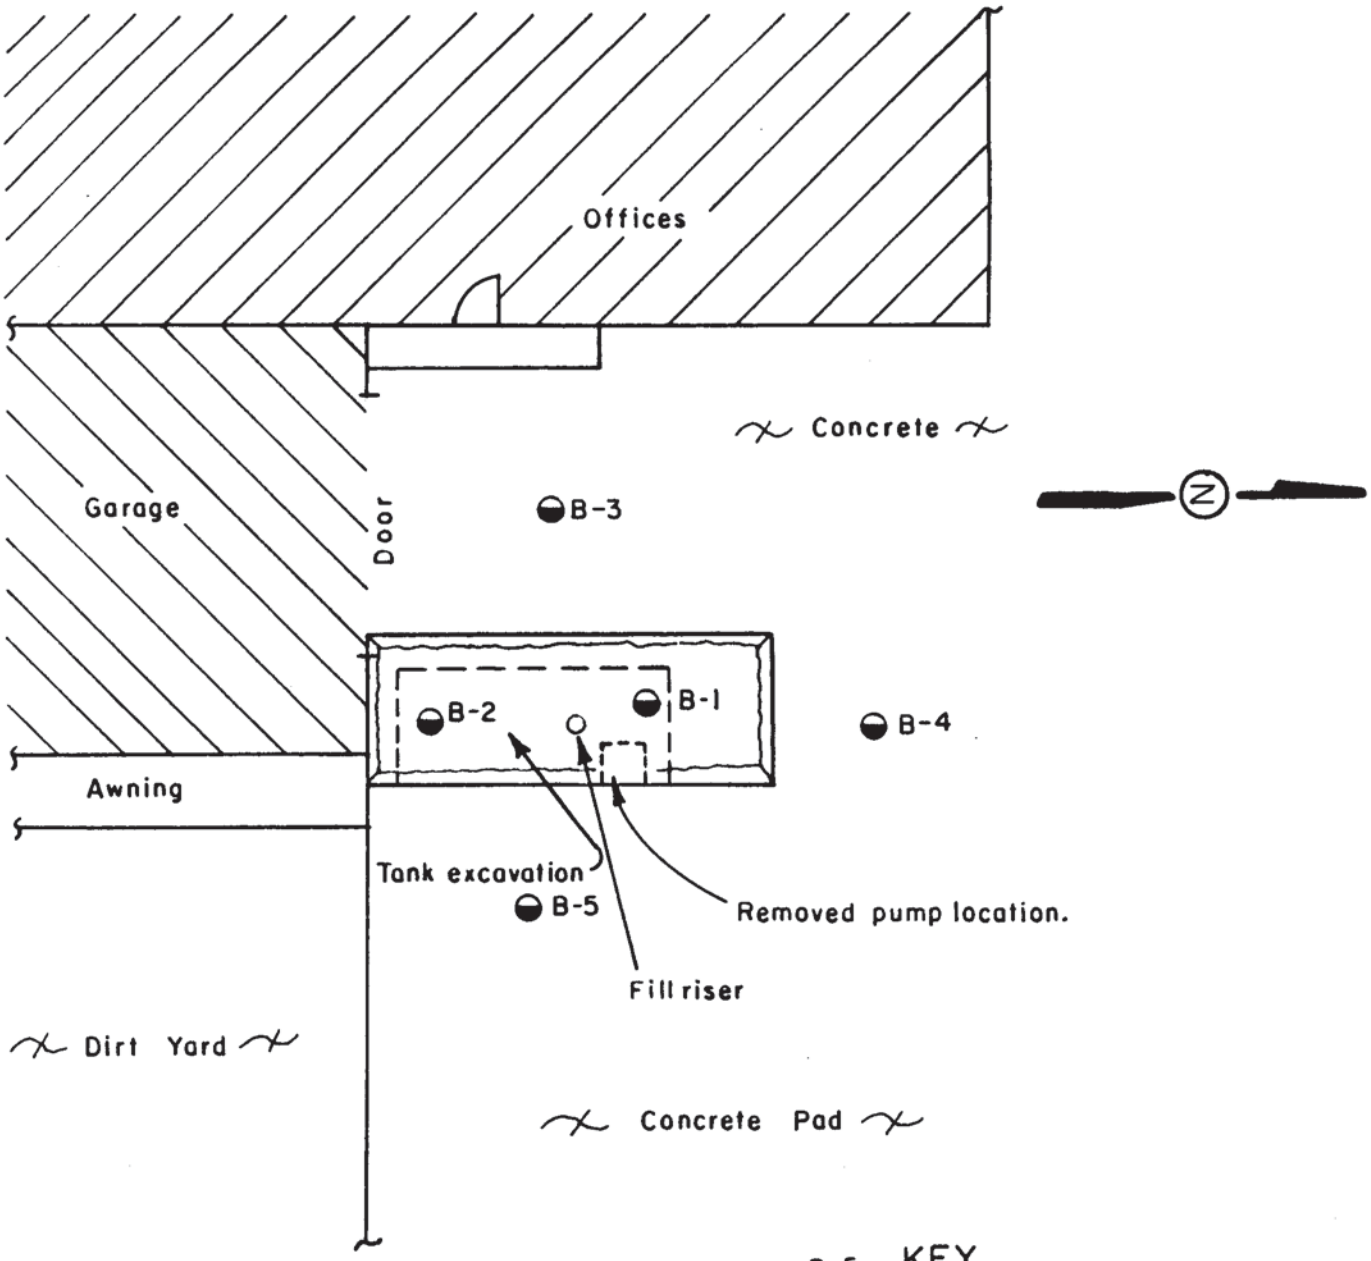

Sincerely,

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason: I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044. Business and Professions Code).

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044. Business and Professions Code).

Date _____ Owner's Signature _____

WORKERS COMPENSATION DECLARATION

I hereby affirm under Penalty of Perjury one of the following:

☐ I have and will maintain a Certificate of Consent of self-insure for workers compensation.

☒ I have and will maintain worker's compensation insurance.

Policy Number: WC601-00012-022 Carrier: UNITED WISCONSIN INS CO

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to worker's compensation laws of California.

Date _____ Applicant's Signature _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Worker's Compensation provision of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

I certify that I have read this application and state that the above information is correct. I agree to comply with all City and State laws relating to the building construction, and hereby authorize representatives of this City to enter upon the above-mentioned property for inspection purposes.

Signature of Owner or Agent 7/11/2022 Date

This permit will expire if work does not start within 180 days from date of issuance OR if work has been suspended or abandoned for a period of 180 days.

EROSION CONTROL, SEDIMENT CONTROL AND WATER QUALITY NOTES

CITY OF ORANGE
PUBLIC WORKS DEPARTMENT

JULY 2019

Erosion Control, Sediment Control and Water Quality Notes:

City of Oran
A
The issuance or gr
approval of these pla
permit or approve ar
codes or ordinance.
authority to violate c
codes shall be
By
Date

1. In case of emergency, call John Clement at: (949) 673-4660 during business hours, and (949) 500-7448 all other times.
2. A stand-by crew for emergency work shall be available at all times. Necessary materials shall be available on site and stockpiled at convenient locations to facilitate rapid construction of temporary devices when rain is imminent.
3. The civil engineer or other responsible individual shall submit plans for review by the City Engineer detailing the placing of erosion control facilities to protect areas subject to storm damage. All devices must be in place and working at all times. Failure to provide these devices will be cause to revoke permits or approvals by the City Engineer and/or Building Official.
4. Devices shall not be moved or modified without the approval of the City Inspector.
5. Except as otherwise approved by the City Inspector, removable protective devices shown shall be in place at the end of each working day or on weekends when the 5 day rain probability forecast exceeds 40%.
6. The placement of additional devices to reduce erosion damage within the site is left to the discretion of the field engineer.
7. Desilting basins may not be removed or made inoperable without prior approval of the City Inspector.
8. Erosion control devices shall be modified as needed as the project progresses, and plans of these changes submitted for approval as required.
9. Insure that all existing drainage courses and culverts are maintained in working condition and free of silt & debris.
10. Sediment from areas disturbed by construction shall be retained on site using structural controls to the Maximum Extent Practicable.
11. All loose soil and debris which may create a potential hazard to offsite property shall be removed from the site as directed by the Inspector.
12. After a rainstorm, all silt and debris shall be removed from check berms and desilting basins and basins pumped dry.
13. Stockpiles of soil shall be properly contained to minimize sediment transport from the site to streets, drainage facilities or adjacent properties via runoff, vehicle tracking, or wind.
14. Appropriate BMPs for construction-related materials, wastes, spills or residues shall be implemented to minimize transport from the site to streets, drainage facilities, or adjoining property by wind or runoff.
15. Runoff from equipment and vehicle washing shall be contained at construction sites unless treated to remove sediment and other pollutants.

16. All construction contractor and subcontractor personnel are to be made aware of the required Best Management Practices and good housekeeping measures for the project site and any associated construction staging areas.

17. At the end of each day of construction activity all construction debris and waste materials shall be collected and properly disposed in trash or recycle bins.

18. Fill slopes at the site perimeter must drain away from the top of slope at the conclusion of each working day.

19. A guard shall be posted on the site whenever the depth of water in any device exceeds two (2) feet.

20. Construction sites shall be maintained in such a condition that an anticipated storm does not carry wastes or pollutants off the site. Discharges of material other than stormwater are allowed only when necessary for performance and completion of construction practices and where they do not: cause or contribute to a violation of any water quality standard; cause or threaten to cause pollution, contamination or nuisance; or contain a hazardous substance in a quantity reportable under federal regulations 40 cfr parts 117 and 302.

    Potential pollutants include but are not limited to: solid or liquid chemical spills; wastes from paints, stains, sealants, glues, lime, pesticides, herbicides, wood preservatives and solvents, asbestos fibers, paint flakes or stucco fragments; fuels, oils, lubricants, and hydraulic, radiator or battery fluids; concrete, detergent or floatable wastes; wastes from any engine/equipment steam cleaning or chemical degreasing; and superchlorinated potable water line flushings.

21. During construction, disposal of such materials should occur in a specified and controlled temporary area on-site physically separated from potential stormwater runoff, with ultimate disposal in accordance with local, state and federal requirements.

22. Dewatering of contaminated groundwater, or discharging contaminated soils via surface erosion is prohibited. Dewatering of non-contaminated groundwater requires a National Pollutant Discharge Elimination System (NPDES) permit from the respective state regional water quality control board.

23. Take necessary precautions to insure that adjacent property not suffer damage due to debris, mud, or inundation caused by grading activities within permitted area.

24. Place erosion protection around all outlets of downdrains that are not fully connected to the ultimate drainage device.

25. Place erosion protection around all ultimate inlets while the possibility of siltation exists prior to ultimate slope planting becoming effective.

26. Restore all vegetation and planting on the existing slope to original condition.

Matt Hamilton

RE: MNSP25-0006
715 W Fletcher Ave, Orange, CA 92865 APN: 374-261-10

Dear Matt Hamilton:

On 3/20/2025, the Planning Division received your application and plans for a project as follows: Preliminary review of a proposed project to construct 15 detached three-story dwelling units on an existing 0.72 acre vacant lot. One unit will be designated for a very low income household. The proposed three-story homes are approximately 1,600 square feet with three bedrooms, two bedrooms, and a two-car garage. The project will be a common interest development with a homeowners association owning and managing the private streets and walkways, common open space, common landscape areas, and guest parking spaces.

The baseline density for the project under the City's land use designation of Low Medium Density Residential (LMDR) is 11 homes (0.72 net acres * 15 du/acre). The proposed low income set aside is for 9% of the homes (9% * 11 homes = 1). The affordable unit will be set-aside for very low income households (50% AMI) which qualifies the project for a density bonus of 30%, or 4 homes.

The City reviewed your project and determined that there was not sufficient information to forward your project in the entitlement process. This letter serves as written notice that your application has been deemed incomplete.

Please review and address all comments from each commentor. This includes comments on the plans and supplemental comments. Comments in Table A are those necessary to deem the application complete. Comments in Table B are those necessary to obtain code compliance. Comments in Table C are provided as potential conditions of approval. Conditions may be added, modified, or omitted during subsequent reviews. Please submit written responses to the City comments along with the appropriate revised plans and documents.

Please do not hesitate to contact me with any questions at ragbayani@cityoforange.org or (714) 744-7225.

Sincerely,

Ryan Agbayani
Senior Planner

Fletcher 15 architectural site plan and floor plan.pdf	1	068	SP	**<u>All these lists must be complied during Plan Check.</u>** 1. **Provide "Green Code Checklist". And the green measures associated with the project shall be clearly specified as to what sheet of plans are shown.** 2. The **ultimate wind speed is 95 mph**; this can be verified with ASCE 7-16, chapter 26, 2022 CBC Table 1609.3(1). Most areas of Orange can be classified as wind exposure category C. 3. Require soil report. 4. The climate zone is **Zone 8.** 5. Rainfall design is based on **2 inches of rainfall per hour**. 6. **Solar Panel is required.** **7. Beginning on January 1, 2026, each California City is required by State law to enforce the 2025 Edition of California Building Standards Codes (a.k.a., Title 24 of the California Codes of Regulations). All projects submitted before or on December 22, 2025, are permitted to comply with the 2022 Edition of the California Building Standards Code.** **8. Provide design data on the first sheet:** a. Occupancy groups b. Type of construction c. Sprinkler Building

d. Floor Area

e. Height

f. Number of Stories

g. Allowable Floor Area

h. APN (Assessor parcel Number).

9. **Energy Conservation –Title 24 energy forms & calculations:**

a. Certificate of Compliance Documents.

10. **Projections** of dwelling units and accessory buildings

a. With an automatic residential fire sprinkler protection are not permitted less than 2 feet to the property line and are required to be 1 hour fire rated on the underside with a fire separation distance between 2 feet and 3 feet. [CRC Table R302.1 (2)]

11. **Walls** of dwelling units and accessory buildings

a. With an automatic residential fire sprinkler protection with a fire separation distance less than 3 feet are required to have a full one hour rating. [CRC Table R302.1 (2)]

12. **Openings** are not permitted less than 3 feet to the property line. In without an automatic residential fire sprinkler protection openings are limited to 25 percent the wall area when fire

13. See the link below, it may provide you the general info for residential permit applications.

https://www.cityoforange.org/home/showpublisheddocument/1670/637707554843470000

14. Utility Plan - Should be fully dimensioned demonstrating the locations for proposed utilities such as sewer.

15. Periodic special inspection is required for wood shear walls, shear panels, and diaphragms, including nailing, bolting, anchoring, and other fastening to components of the seismic/ wind force resisting system. Special inspection by a deputy inspector is required where the fastener spacing of the sheathing is 4” o.c. or less. [CBC 1705.12.1 & CBC 1705.13.2]

16. Provide the following Electric-Ready requirements on plan: [150]

a. Heat Pump Space Heater Ready

b. Electric Cooktop Ready

				c. Electric Clothes Dryer Ready d. Energy Storage System (ESS) Ready 17. ***R327.1.4 Doorbell buttons.*** *Doorbell buttons or controls, when installed, shall not exceed 48 inches (1219.2 mm) above exterior floor or landing, measured from the top of the doorbell button assembly. Where doorbell buttons integrated with other features are required to be installed above 48 inches (1219.2 mm) measured from the exterior floor or landing, a standard doorbell button or control shall also be provided at a height not exceeding 48 inches (1219.2 mm) above exterior floor or landing, measured from the top of the doorbell button or control.*
Fire Rosie Flores rflores@cityoforange.org				
Fletcher 15 architectural site plan and floor plan.pdf	1	015	SP	Provide a Fire Master Plan for the development. Refer to the Orange City Fire Department's Fire Master Plan Guidelines and the California Fire Code (CFC) Chapter 5 for requirements relative to fire apparatus access roadways and water supply. The Fire Master Plan shall be drawn to scale and contain the information identified in these comments.
Fletcher 15 architectural site plan and floor plan.pdf	1	016	SP	Fire apparatus access roadways: a. Dead-end fire access roadways greater than 150 foot in length shall be provided with an approved fire apparatus turnaround, must meet the turning radii standards contained in the Fire Master Plan Guidelines. Revise according to guideline. b. The fire access roadways shall be designed to support the imposed loads of the Orange Fire Department fire apparatus with a total load of 68,000 pounds. The fire apparatus is distributed as 46,000 pounds on the tandem rear axles and 22,000 pounds on the front axle. The fire access roadway shall be designed, constructed and maintained to provide all-weather driving capabilities. c. Provide a letter or statement, wet-stamped and signed by a registered engineer on the plans certifying that any new roadway meets the 68,000 pound all weather requirement or denote that the design letter meeting these conditions will be provided at rough grading plan submittal.

Fletcher 15 architectural site plan and floor plan.pdf	1	014	SP	Per OMC Section 17.14.270, Small Lot Subdivision Development Standards, the provisions of the front yard of the underlying zone shall apply to the front lot line of the perimeter of the subdivision. Per OMC Section 17.14.070 General Requirements, the minimum required front yard setback is 15 feet (for the R-3 zoning district).
Fletcher 15 architectural site plan and floor plan.pdf	1	027	SP	For the eastern property line, please provide the height dimension of the existing CMU block wall.
Fletcher 15 architectural site plan and floor plan.pdf	1	028	SP	For the northern property line, please provide the height dimension of the existing CMU block wall.
Fletcher 15 architectural site plan and floor plan.pdf	1	029	SP	Please confirm your intent to process this project per the Residential Multi-Family (R-3) development standards or as a Small Lot Subdivision. Depending on the type of development that is proposed, the development standards will be different, including (but not limited to) setbacks, open space, off-street parking, etc.). The Small Lot Subdivision Ordinance allows for the development of smaller "fee simple," single-family residential lots in the Multi-Family (R-3) zone. If the submitted Tentative Tract Map proposes a single lot subdivision for condominium purposes, this is considered a multi-family residential condominium development whereby ownership of each unit will have exclusive rights to a particular airspace. If the intent is to utilize the Small Lot Subdivision Development Standards, then please submit a map to include fee simple lots divided according to the regulations in the Ordinance and Subdivision Map Act. Additionally, if you will be utilizing the Small Lot Subdivision Development Standards as outlined in OMC Section 17.14.270 (https://ecode360.com/43568256). Please create a table on the Title Sheet of the PDF plans to specify what the OMC development standard is, and add a new column to identify what you are proposing. https://www.cityoforange.org/home/showpublisheddocument/3300/637840585869970000

Table C - Partial List of Potential Conditions of Approval	
Number	**Condition**
Erik Mendoza emendoza@cityoforange.org | 714-744-7555	
1	Security and design measures that employ defensible space concepts shall be utilized in development and construction plans. These measures incorporate the concepts of Crime Prevention through Environmental Design (CPTED), which involves considerations such as placement and orientation of structures, access and visibility of common areas, placement of doors, windows, addressing, and landscaping. CPTED promotes public safety, physical security and allows citizens the ability to monitor activity. It is based on five concepts to provide non-invasive and permanent measures to prevent and reduce crime: territoriality, natural surveillance, access control, activity support, and maintenance. The project shall also comply with the requirements contained in the City of Orange Municipal Code Chapter 15.52, Building Security Construction Standards reference Ordinance #6-22.
Rosie Flores rflores@cityoforange.org	
2	Plans submitted for Building Plan Review shall comply with the California Fire Code as amended by the City and as frequently amended and in effect at the time of application for Building Permit.
3	Onsite fire department access will require easement recording prior to issuance of Rough Grading Permit and shall be reviewed by Fire prior to approval.
Ryan Agbayani ragbayani@cityoforange.org | (714) 744-7225	
4	In conjunction with construction, all activity will be limited to the hours between 7:00 a.m. and 8:00 p.m. Monday through Saturday. No construction activity will be permitted on Sundays and Federal holidays.
5	This approval constitutes approval of the proposed subdivision only to the extent that the project complies with the City of Orange's Subdivision Ordinance and any other applicable zoning regulations. Approval does not include any action or findings as to compliance or approval of the project regarding any other applicable ordinance, regulation, or requirement.

6	Codes Covenants and Restrictions (CC&R'S) shall be designed and approved by the City for the entire site and address specific responsibilities of the Homeowners Association (HOA). A few specific areas include, but are not limited to: a. Any aspect that is zoning in nature shall be structured so they cannot be rescinded or modified without City concurrence. b. Maintenance responsibilities for any private drainage or water quality features c. Maintenance responsibilities for fuel modification areas d. Maintenance responsibilities for landscape areas, including parkway median roadway areas, arterial roadway landscaping, common slopes or native open space e. Identification of HOA community trail or bikeway systems that will be open to the general public through public pedestrian easements, and maintenance of these community trails and bikeways f. Detailing enforcement options available to the City to ensure that maintenance is continuously undertaken for common slopes, drainage and water quality, fuel modification zones, trails that are open to the public or other zoning aspects g. Maintenance of any applicable private streets h. Maintenance of any applicable private recreation facilities i. Identification of common open space lots that will be owned or under the control of the HOA and maintenance for open space lots j. Ensure, in perpetuity, that private trails and bikeways open to the general public shall not be blocked through the construction of any fencing, gates or other devices that would limit or restrict access to the general public k. A method to distribute the cost of required maintenance in an equitable manner among the owners of eh dwelling units within the subdivision l. Ownership and maintenance of common slope areas, including down drain and terrace drains m. The CC&R's shall contain a provision that the Fire Chief can, at his discretion, require further street markings for fire lanes (including red curbing) if signage fails to keep fire lanes clear of vehicles or other obstructions
7	All lettered parcels not specifically assigned to and accepted by a governmental entity shall remain under the common ownership, maintenance, and liability of the HOA. No lettered lot may be sold separately. Private park facilities within a development area shall be maintained as designed and approved by the City and shall not be altered or removed without specific approval from the City of Orange. These provisions shall be reflected in the CC&R's.
8	A final common area landscaping and irrigation plan shall be submitted for review and approval by the Planning Division and Public Works. Plants and shrubbery chosen for landscaping around common area fencing or public trails shall be such that when installed is of a graduated height, from lower to higher away from the access area so as to prevent blind corners and maintain maximum visibility of surrounding area for those using the access.
9	A lighting plan shall be submitted for review and approval for any exterior lighting of common areas or parking areas. Lighting plan shall be designed to confine all direct lighting to the property in a manner meeting the approval of the Planning Manager. Lighting shall be included for any trail not adjoining a public street that will be utilized in evening hours.
10	Any graffiti shall be removed within 72 hours from the time the City of Orange Notice of Violation is received by the applicant/property owner.
11	In conjunction with the operation of the (business or residence) the property owner shall be responsible to maintain the property to a level deemed adequate by the Community Development. This includes, but is not limited to, the buildings, carports, landscape on-site, recreational facilities, trash areas, signage, utilities, property walls, and gates.
12	Prior to building permit issuance, the applicant shall demonstrate to the satisfaction of the Community Development Director that new mechanical equipment screening shall be installed that architecturally matches the building.
13	Prior to building permit issuance, the applicant shall demonstrate to the satisfaction of the Community Development Director that all mechanical and air conditioning equipment shall be shielded and screened from view from adjacent streets and properties. The screening shall be integrated architecturally with the building.
14	All associated roof mounted equipment shall be completely screened from view and painted to match the color and appearance of the existing roof/building.

15	Building permits shall be obtained for all construction work, as required by the City of Orange, Community Development Department\`s Building and Safety Services. Failure to obtain the required building permits may be cause for revocation of this entitlement.
16	Prior to the issuance of a building permit, the applicant shall record a Density Bonus Housing Agreement on the parcel(s) designated for the construction of the affordable units. The Density Bonus Housing Agreement shall be drafted by the applicant and reviewed by the Community Development Director and the City Attorney with a recommendation made to the Planning Commission and City Council. The Density Bonus Housing Agreement shall provide for the following conditions governing the use of the affordable housing units during the use restriction period: a. The rules and procedures for qualifying tenants, establishing affordable rent, filling vacancies and maintaining the affordable units for qualified tenants. b. Provisions requiring owners to verify tenant incomes and maintain books and records to demonstrate compliance with this chapter. c. Provisions requiring owners to submit an annual report to the city, which includes the name, address and income of each person occupying each affordable unit, and which identifies the bedroom size and monthly rent or cost of each affordable unit. d. Determination of Rent. A maximum rent schedule shall be submitted to the Department of Community Development prior to the issuance of an occupancy permit for the affordable units, and updated annually on the anniversary date of occupancy. e. Deposit amount. Total move-in costs for eligible tenants occupying affordable units shall be limited to first month\`s rent plus a security/cleaning deposit not to exceed one month\`s rent. f. Upward Mobility Allowance. When a tenant occupying an affordable unit no longer qualifies under the income requirements, verified through the monitoring program required as part of the Density Bonus Housing Agreement, that tenant may then be charged market rate rent. If this occurs, any currently vacant unit of similar type to the affordable unit in question shall then be designated as an affordable unit, and the owner shall immediately attempt to secure tenants in accordance with this chapter. The owner is required to maintain at all times during the use restriction the minimum number of affordable units identifies in the Density Bonus Housing Agreement. g. Subletting of Affordable Units. No subletting of designated affordable units shall be allowed unless the following conditions are met: i. Written permission is obtained from the Community Development Director ii. The sublessee qualifies as a very low or lower income household. iii. The rent collected shall not exceed the maximum affordable rent.
17	The CC&R`s shall be recorded prior to or concurrent with the Final Map.
Tuan Cao tcao@cityoforange.org	
18	Prior to issuance of any grading permit or building permit, the applicant must submit improvement plans to the Water Division for review and approval for any new fire hydrants, domestic water services, fire services, landscape services, backflow prevention devices, and any other proposed improvements or relocations affecting the public water system facilities.
19	Prior to issuance of any grading permit, the applicant must construct all public and/or private improvements to the satisfaction of the Water Division. The applicant may be required to enter into an agreement with the City of Orange, and post security in a form and amount acceptable to the City Engineer and/or Water Division to ensure construction of said improvements.
20	Prior to issuance of any grading permit or building permit, the applicant will be responsible for the installation and/or relocation of the proposed or existing public water system facilities to a location and of a design per the improvement plans approved by the Water Division.
21	Prior to issuance of certificate of occupancy, the applicant will be responsible for the installation of necessary fire hydrants and fire services as approved by the Fire Department and Water Division.
22	Prior to issuance of building permit, the Water Division will approve the type and location of landscaping services, fire services, and backflow prevention devices for proposed City services.

23	Prior to issuance of building permit, the applicant must submit construction documents must show that the installation of sewer mains in the vicinity of water mains is done per the Department of Public Works Water Division Standard No. 113 and will be approved by the Water Division.
24	Prior to issuance of building permit, the applicant must submit construction documents must show that a six foot minimum horizontal clearance and a one foot minimum vertical clearance would be maintained between City water mains, laterals, services, meters, fire hydrants and all other utilities except sewer. The Water Division will review and approve the construction documents.
25	Prior to issuance of building permit, the applicant must submit construction documents that show that an eight-foot minimum clearance is provided between City water mains, laterals, services, meters, fire hydrants, signs, or trees or other substantial shrubs and plants as required by the Water Division. The Water Division will review and approve the construction documents.
26	Prior to issuance of building permit, construction documents must show that permanent signs, awning, surface water quality management features or other structures are not built over water mains, laterals, services, meters, or fire hydrants as required by the Water Division.
27	Prior to issuance of building permit, for the first phase of work, the applicant will be responsible for obtaining approval of all necessary encroachment permits from affected agencies for all public water construction work.
28	Prior to approval of a water improvement plan, the applicant must satisfy all water main connection, plan check, and inspections charges as determined by the Water Division.
29	Plans submitted during plan check must show that the water improvement plans are consistent with the fire suppression plans and or fire master plan. The applicant’s consultant preparing the water improvement plans must coordinate their plans with the consultant preparing the fire suppression plans and/or fire master plan so that their designs concur.
30	Plans submitted during plan check must show that the minimum separation requirements are met and that each of the various designer’s plan sets match. The applicant’s consultant preparing the improvement and utility plans must coordinate their plans with the consultants preparing the landscape, architectural, surface water quality management, fire master and/or fire suppression plans so that all designs are consistent.
31	Prior to issuance of encroachment permit, the applicant must prepare and provide product material submittals consistent with the water improvement plans for all proposed public water system facilities to the Water Division per the City of Orange Standard Specifications and Plans For the Construction of Water System for review and approval.
32	Prior to issuance of certificate of occupancy, the applicant must furnish and install individual pressure regulators on new services where the incoming pressure exceeds eighty pounds per square inch.

Mike Carney
mcarney@cityoforange.org

33	1. Prior to issuance of grading permits the applicant shall submit a Priority Project WQMP for review and approval to the Public Works Department that: a. Prioritizes the use of Low Impact Development principles as follows: preserves natural features; minimizes runoff and reduces impervious surfaces; and utilizes infiltration of runoff as the method of pollutant treatment. Infiltration BMPs to be considered include the use of permeable materials such as concrete and concrete pavers, infiltration trenches, infiltration planters, and other infiltration BMPs as applicable, b. Incorporates the applicable Site Design, Routine Source, Structural Control and Low Impact BMPs as defined in the Model Water Quality Management Plan and Technical Guidance Document, c. Maintains the hydrologic characteristics of the site by matching time of concentration, runoff, velocity, volume and hydrograph for a 2-year storm event, d. Minimizes the potential increase in downstream erosion and avoids downstream impacts to physical structures, aquatic and riparian habitat, e. Generally describes the long-term operation and maintenance requirements for structural and Treatment Control BMPs, f. Identifies the entity or employees that will be responsible for long-term operation, maintenance, repair and or replacement of the structural and Treatment Control BMPs and the training that qualifies them to operate and maintain the BMPs, g. Describes the mechanism for funding the long-term operation and maintenance of all structural and Treatment Control BMPs, h. Includes a copy of the forms to be used in conducting maintenance and inspection activities, i. Meets recordkeeping requirements (forms to be kept for 5 years). j. Includes a copy of the form to be submitted annually by the project owner to the Public Works Department that certifies that the project's structural and treatment BMPs are being inspected and maintained in accordance with the project's WQMP.
34	10. Prior to final sign off, a copy of the project's CC&Rs shall be provided to the Public Works Department for review and approval that includes requirements for maintenance and funding of the project's structural and treatment water quality best management practices as approved by the City in the project's WQMP.
35	2. Prior to issuance of certificates for use and occupancy, the applicant shall demonstrate the following to the Public Works Department: a. That all structural and treatment control best management practices (BMPs) described in the Project WQMP have been constructed and installed in conformance with the approved plans and specifications, b. That the applicant is prepared to implement all non-structural BMPs described in the Project WQMP, c. That an adequate number of copies of the project's approved final Project WQMP are available for the future occupiers.
36	3. Prior to issuance of certificates for use of occupancy or final signoff by the Public Works Department, the applicant shall demonstrate to the satisfaction of Public Works, that the preparer of the WQMP has reviewed the BMP maintenance requirements in Section V of the WQMP with the responsible person and that a copy of the WQMP has been provided to that person. A certification letter from the WQMP preparer may be used to satisfy this condition.
37	4. Prior to issuance of building permits, the applicant shall review the approved Water Quality Management Plan (WQMP) and grading plan to ensure the structure's downspouts or drainage outlet locations are consistent with those documents. Copies of the building or architectural plans specifically showing the downspouts and drainage outlets shall be submitted to the Public Works Department for review.
38	5. The project applicant shall maintain all structural, treatment and low impact development BMPs at the frequency specified in the approved WQMP. Upon transfer of ownership or management responsibilities for the project site, the applicant shall notify the City of Orange Public Works Department of the new person(s) or entity responsible for maintenance of the BMPs.

Re: Proposed Mixed-Income Residential Project
705-715 West Fletcher Avenue

City of Orange Planning Department,

We are pleased to submit this preliminary plan review application for a proposed single-family residential small lot subdivision at the above referenced property. The project complies with the City's general plan land use designation for the property and is designed as a small lot subdivision as allowed by the R3 zoning. Given the current housing crisis, we are hopeful that our proposal to bring much needed mixed income housing to the City of Orange will be viewed favorably.

The property is a .72 acre vacant parcel previously occupied by a street sweeping company. All structures were recently demolished and the site is essentially a flat pad with no trees and very little vegetation. The property is surrounded to the east, west and north by residential townhomes with a similar density as the proposed project. The south side of the property is bounded by Fletcher Avenue with the Fletcher Basin beyond.

The proposed project will feature 15 new single-family homes on individual small lots, one of which will be set aside for a very low income household (50% AMI). The proposed entry level three story homes are anticipated to be approximately 1,600 square feet with three bedrooms and a two car garage and will be geared towards growing families. The project will be a common interest development with a homeowners association owning and managing the private streets and walkways, common open space, common landscape areas and guest parking spaces.

The baseline density for the project under the City's land use designation of Low Medium Density Residential (LMDR) is 11 homes (.72 net acres * 15 du/acre). The proposed low income set aside is for 9% of the homes (9% * 11 homes = 1). The affordable homes will be set-aside for very low income households (50% AMI) which qualifies the project for a density bonus of 30%, or 4 homes, in accordance with state density bonus law and City of Orange municipal code section 17.15.

In exchange for voluntarily setting aside affordable units, the proposed project qualifies for reductions and waivers to certain zoning standards as allowed by the state density bonus law and City code. These reductions include small lot subdivision standards related to minimum lot depth, setbacks, building orientation, building articulation and certain other site planning and massing guidelines. These reductions will allow the project to accommodate the affordable and bonus homes but still provide a for-sale single-family subdivision that compliments the surrounding neighborhood. The reductions and waivers are separate from the allowed incentives outlined in the state density bonus law. A proposed project incentive and a complete list of development standard reductions will be provided with the full entitlement submittal.

It is anticipated that the project will be constructed in one phase, with all homes being sold and occupied within a three to four month period. Building the project in one phase should minimize any impacts associated with construction noise and traffic.

We look forward to working with the City of Orange on this proposed mixed-income housing project. The proposed project qualifies for the protections offered by SB 330 and the statewide preliminary application form is included with this submittal. Please contact me if you have any questions or need additional information.

Sincerely,

Matt Hamilton, PE

In response to the application for a policy of title insurance referenced herein, **Fidelity National Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of a defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Exclusions from Coverage, and Conditions of said policy forms.

With respect to any contemplated owner's policy, the printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA/ALTA Homeowner's Policy of Title Insurance, which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a binder or commitment should be requested.

EXCEPTIONS

At the date hereof, items to be considered and exceptions to coverage in addition to the printed exceptions and exclusions in said policy form would be as follows:

1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2025-2026.

2. Property taxes, including any personal property taxes and any assessments collected with taxes, are as follows:

Tax Identification No.:	374-261-10
Fiscal Year:	2024-2025
1st Installment:	$187.85 paid.
2nd Installment:	$187.85, open (Delinquent after April 10)
Penalty and Cost:	$41.78
Homeowners Exemption:	$0.00
Code Area:	08-001

Affects: Parcel 1

3. Property taxes, including any personal property taxes and any assessments collected with taxes, are as follows:

Tax Identification No.:	374-261-11
Fiscal Year:	2024-2025
1st Installment:	$226.17 paid.
2nd Installment:	$226.17, open (Delinquent after April 10)
Penalty and Cost:	$45.61
Homeowners Exemption:	$0.00
Code Area:	08-001

Affects: Parcel 2

4. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

5. Water rights, claims or title to water, whether or not disclosed by the public records.

6. Easement(s) in favor of the public over any existing roads lying within said Land.

7. A deed of trust to secure an indebtedness in the amount shown below,

Dated:	August 15, 1984
Trustor/Grantor	Robert F. and Deanna M. Carter
Trustee:	Amwest General Agency Inc.
Beneficiary:	Amwest Surety Insurance Company
Loan No.:	Not Set Out
Recording Date:	September 26, 1984
Recording No.:	84-400332 of Official Records

This Company will require that the original note, the original deed of trust and a properly executed request for full reconveyance together with appropriate documentation (i.e., copy of trust, partnership agreement or corporate resolution) be in this office prior to the close of this transaction if the above-mentioned item is to be paid through this transaction or deleted from a policy of title insurance.

Any demands submitted to us for payoff must be signed by all beneficiaries as shown on said deed of trust, and/or any assignments thereto. In the event said demand is submitted by an agent of the beneficiary(s), we will require

the written approval of the demand by the beneficiary(s). Servicing agreements do not constitute approval for the purposes of this requirement.

If no amounts remain due under the obligation a zero balance demand will be required along with the reconveyance documents.

In addition, we require the written approval of said demand by the trustor(s) on said deed of trust or the current owners if applicable.

8. A deed of trust to secure an indebtedness in the amount shown below,

Amount: $187,700.00
Dated: September 24, 2012
Trustor/Grantor ROBERT F. CARTER AND DEANNA M. CARTER, TRUSTEES OR ANY SUCCESSOR TRUSTEE OF THE CARTER REVOCABLE LIVING TRUST UNDER INSTRUMENT DATED MARCH 31, 1997
Trustee: Quality Loan Service Corporation
Beneficiary: Mortgage Electronic Registration Systems, Inc. (MERS), solely as nominee for NATIONSTAR MORTGAGE LLC, its successors and assigns
Loan No.: 211618071
Recording Date: October 3, 2012
Recording No.: 2012000582401 of Official Records

A substitution of trustee under said deed of trust which names, as the substituted trustee, the following

Trustee: Nationwide Title Clearing Inc.
Recording Date: November 18, 2021
Recording No.: 2021000707133 of Official Records

The effect of a full reconveyance recorded November 18, 2021 at Recording No. 2021000707133 of Official Records, which purports to reconvey the above-mentioned Deed of Trust.

No statement is made hereto as to the effect or validity of said reconveyance.

The requirement that this Company be furnished with confirmation from the lender that the Deed of Trust has been released prior to issuance of a policy of title insurance.

9. A judgment, for the amount shown below, and any other amounts due:

Plaintiff: Mark N. Carter
Defendants: Michael F. Carter, etc., et al.
Date entered: June 20, 2018
County: Orange
Court: Superior Court of the State of California
Case No.: 30-2015-00796360-CU-BC-CJC
Recording Date: June 26, 2018
Recording No.: 2018000234033 of Official Records

10. A deed of trust to secure an indebtedness in the amount shown below,

Amount: $500,000.00
Dated: January 10, 2019
Trustor/Grantor ROBERT F. CARTER AND DEANNA M. CARTER, as Trustee or any Successor Trustee of The Carter Revocable Living Trust under instrument dated March 31, 1997
Trustee: Ticor Title
Beneficiary: Poppy Bank
Loan No.: Not Set Out
Recording Date: January 30, 2019

Recording No.: 2019000030791 of Official Records

The Deed of Trust set forth above is purported to be a "Credit Line" Deed of Trust. Under California Civil Code §2943.1 it is a requirement that the Trustor/Grantor of said Deed of Trust either immediately provide the beneficiary with the "Borrower's instruction to Suspend and Close Equity Line of Credit" or provide a satisfactory subordination of this Deed of Trust to the proposed Deed of Trust to be recorded at closing.

If the above credit line is being paid off, this Company will require that Escrow obtain written confirmation from the current Beneficiary that the account has been frozen prior to recording. Failure to do so will result in this Company holding funds at the close of Escrow until such confirmation is obtained from the Beneficiary.

A substitution of trustee under said deed of trust which names, as the substituted trustee, the following

Trustee: Poppy Bank
Recording Date: October 13, 2021
Recording No.: 2021000628781 of Official Records

The effect of a full reconveyance recorded October 13, 2021 at Recording No. 2021000628781 of Official Records, which purports to reconvey the above-mentioned Deed of Trust.

No statement is made hereto as to the effect or validity of said reconveyance.

The requirement that this Company be furnished with confirmation from the lender that the Deed of Trust has been released prior to issuance of a policy of title insurance.

11. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

12. Matters which may be disclosed by an inspection and/or by a correct ALTA/ACSM Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.

13. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.

14. Any invalidity or defect in the title of the vestees in the event that the trust referred to herein is invalid or fails to grant sufficient powers to the trustee(s) or in the event there is a lack of compliance with the terms and provisions of the trust instrument.

    If title is to be insured in the trustee(s) of a trust, (or if their act is to be insured), this Company will require a Trust Certification pursuant to California Probate Code Section 18100.5.

    The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

15. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

    The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

    The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

END OF EXCEPTIONS

PLEASE REFER TO THE "INFORMATIONAL NOTES" AND "REQUIREMENTS" SECTIONS WHICH FOLLOW FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION.

REQUIREMENTS

1. In order to complete this report, the Company requires a Statement of Information to be completed by the following party(ies),

   Party(ies): All Parties

   The Company reserves the right to add additional items or make further requirements after review of the requested Statement of Information.

   NOTE: The Statement of Information is necessary to complete the search and examination of title under this order. Any title search includes matters that are indexed by name only, and having a completed Statement of Information assists the Company in the elimination of certain matters which appear to involve the parties but in fact affect another party with the same or similar name. Be assured that the Statement of Information is essential and will be kept strictly confidential to this file.

2. The Company will require either (a) a complete copy of the trust agreement and any amendments thereto certified by the trustee(s) to be a true and complete copy with respect to the hereinafter named trust, or (b) a Certification, pursuant to California Probate Code Section 18100.5, executed by all of the current trustee(s) of the hereinafter named trust, a form of which is attached.

   Name of Trust: The Carter Revocable Living Trust under instrument dated March 31, 1997

END OF REQUIREMENTS

INFORMATIONAL NOTES

1. Note: None of the items shown in this report will cause the Company to decline to attach ALTA Endorsement Form 9 to an Extended Coverage Loan Policy, when issued.

2. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land a single family residence, known as 705-715 W Fletcher Avenue, City of Orange, CA, to an Extended Coverage Loan Policy.

3. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

4. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

5. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

6. The following Exclusion(s) are added to preliminary reports, commitments and will be included as an endorsement in the following policies:

A. 2006 ALTA Owner's Policy (06-17-06).

6. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

B. 2006 ALTA Loan Policy (06-17-06)

8. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

9. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

C. ALTA Homeowner's Policy of Title Insurance (12-02-13) and CLTA Homeowner's Policy of Title Insurance (12-02-13).

10. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

D. ALTA Expanded Coverage Residential Loan Policy - Assessments Priority (04-02-15).

12. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

13. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

E. CLTA Standard Coverage Policy 1990 (11-09-18).

7. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the public records but that would be disclosed by an examination of any records maintained by or on behalf of a tribe or on behalf of its members.

8. Any claim of invalidity, unenforceability, or lack of priority of the lien of the insured mortgage based on the application of a tribe's law resulting from the failure of the insured mortgage to specify state law as the governing law with respect to the lien of the insured mortgage.

7. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

END OF INFORMATIONAL NOTES

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE

Effective January 1, 2025

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.,* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.,* loan or bank account information);
- biometric data (e.g., fingerprints, retina or iris scans, voiceprints, or other unique biological characteristics; and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for these main purposes:

- To provide products and services to you or in connection with a transaction involving you.

- To improve our products and services.
- To prevent and detect fraud;
- To maintain the security of our systems, tools, accounts, and applications;
- To verify and authenticate identities and credentials;
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.
- To provide reviews and testimonials about our services, with your consent.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

State-Specific Consumer Privacy Information:

For additional information about your state-specific consumer privacy rights, to make a consumer privacy request, or to appeal a previous privacy request, please follow the link Privacy Request, or email privacy@fnf.com or call (888) 714-2710.

Certain state privacy laws require that FNF disclose the categories of third parties to which FNF may disclose the Personal Information and Browsing Information listed above. Those categories are:

- FNF affiliates and subsidiaries;
- Non-affiliated third parties, with your consent;
- Business in connection with the sale or other disposition of all or part of the FNF business and/or assets;
- Service providers;
- Law endorsement or authorities in connection with an investigation, or in response to a subpoena or court order.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (fnf.com/california-privacy) or call (888) 413-1748.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes. For additional information about your Oregon consumer privacy rights, or to make a consumer privacy request, or appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710

FNF is the controller of the following businesses registered with the Secretary of State in Oregon:
Chicago Title Company of Oregon, Fidelity National Title Company of Oregon, Lawyers Title of Oregon, LoanCare, Ticor, Title Company of Oregon, Western Title & Escrow Company, Chicago Title Company, Chicago Title Insurance Company, Commonwealth Land Title Insurance Company, Fidelity National Title Insurance Company, Liberty Title & Escrow, Novare National Settlement Service, Ticor Title Company of California, Exos Valuations, Fidelity & Guaranty Life, Insurance Agency, Fidelity National Home Warranty Company, Fidelity National Management Services, Fidelity Residential Solutions, FNF Insurance Services, FNTG National Record Centers, IPEX, Mission Servicing Residential, National Residential Nominee Services, National Safe Harbor Exchanges, National Title Insurance of New York, NationalLink Valuations, NexAce Corp., ServiceLink Auction, ServiceLink Management Company, ServiceLink Services, ServiceLink Title Company of Oregon, ServiceLink Valuation Solutions, Western Title & Escrow Company

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions or would like to correct your Personal Information, visit FNF's Privacy Request website or contact us by phone at (888) 714-2710, by email at privacy@fnf.com, or by mail to:

Fidelity National Financial, Inc.

ATTACHMENT ONE

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY - 1990 (11-09-18)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

3. Defects, liens, encumbrances, adverse claims or other matters:

   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;

   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;

   (c) resulting in no loss or damage to the insured claimant;

   (d) attaching or created subsequent to Date of Policy; or

   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.

4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.

5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.

6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.

2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.

4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE OWNER'S POLICY (02-04-22)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy.

   Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.

7 Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

PART I

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (7-01-21)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.

   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

ALTA OWNER'S POLICY (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.]
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FNF Underwritten Title Companies
CTC - Chicago Title Company
CLTC - Commonwealth Land Title Company
FNTC - Fidelity National Title Company
FNTCCA - Fidelity National Title Company of California
TICOR - Ticor Title Company of California
LTC - Lawyer's Title Company
SLTC - ServiceLink Title Company

Underwritten by FNF Underwriters
CTIC - Chicago Title Insurance Company
CLTIC - Commonwealth Land Title Insurance Co.
FNTIC - Fidelity National Title Insurance Co.
NTINY - National Title Insurance of New York

Available Discounts

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, CLTIC, FNTIC, NTINY)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty percent (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

DISASTER AREA TRANSACTIONS (CTIC, CLTIC, FNTIC, NTINY)
This rate is available for individuals or entities that were victims of a national or state disaster. The rate can be used for a Lender's Policy (Standard or Extended), or an Owner's Policy (Standard or Homeowners coverage). To qualify for this rate, the applicant must, prior to the closing of the applicable transaction, make a written request, including a statement meeting the following criteria:

A. The subject property is in a disaster area declared by the government of the United States or the State of California.

B. The subject property was substantially or totally destroyed in the declared disaster.

C. The subject property ownership has not changed since the time of the disaster.

The rate will be fifty percent (50%) of the applicable rate, and the transaction must be completed within sixty (60) months of the date of the declaration of the disaster.

DISASTER AREA ESCROWS (CTC, CLTC, FNTC, TICOR, LTC)
This rate is available for individuals or entities that were victims of a national or state disaster. The rate can be used for a loan or a sale escrow transaction. To qualify for this rate, the applicant must, prior to the closing of the applicable transaction, make a written request, including a statement meeting the following criteria:

A. The subject property is in a disaster area declared by the government of the United States or the State of California.

B. The subject property was substantially or totally destroyed in the declared disaster.

C. The subject property ownership has not changed since the time of the disaster.

Notice of Available Discounts
(continued)

The rate will be fifty percent (50%) of the applicable rate, and the transaction must be completed within sixty (60) months of the date of the declaration of the disaster. Standard minimum charge applies based upon property type. No other discounts or special rates, or combination of discounts or special rates, shall be applicable. Applies to a single transaction per property.

This rate is applicable to the following Zones/Counties:

Zone 1.A: Orange County
Zone 1.B: Riverside and San Bernardino Counties
Zone 2: Los Angeles County
Zone 3: Ventura County
Zone 10: San Diego County
Zone 12: Imperial County

If used for a sale transaction, the application of this rate assumes the charge for the Residential Sale Escrow Services (RSES) fee will be split evenly between buyer and seller. As such and regardless of how the calculated applicable RSES will be split between the disaster victim and the other principal, the rate will be applied only to one half (1/2) of the calculated applicable RSES fee, regardless of whether the disaster victim is paying half (1/2) of the RSES fee (as is customary) or paying the entire fee. The rate under this provision will be fifty percent (50%) of disaster victims' one half (1/2) portion only and shall not apply to any portion paid by non-disaster victim. Additional services will be charged at the normal rates.

MILITARY DISCOUNT RATE (CTIC, CLTIC, FNTIC)
Upon the Company being advised in writing and prior to the closing of the transaction that an active duty, honorably separated, or retired member of the United States Military or Military Reserves or National Guard is acquiring or selling an owner occupied one-to-four family property, the selling owner or acquiring buyer, as applicable, will be entitled to a discount equal to fifteen percent (15%) of the otherwise applicable rates such party would be charged for title insurance policies. Minimum charge: Four Hundred Twenty-Five And No/100 Dollars ($425.00)

The Company may require proof of eligibility from the parties to the transaction verifying they are entitled to the discount as described. No other discounts or special rates, or combination of discounts or special rates, shall be applicable.

MILITARY RATE (SLTC)
A discount of twenty percent (20%) off the purchase transaction closing and settlement fee or a discount of One Hundred And No/100 Dollars ($100.00) off the refinance closing and settlement fee, will be applied when the loan is guaranteed by the United States Veterans Administration and the escrow fee is being paid by the consumer and is listed as paid by borrower on the Closing Disclosure and final Settlement Statement.

FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE

Effective January 1, 2025

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.,* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.,* loan or bank account information);
- biometric data (e.g., fingerprints, retina or iris scans, voiceprints, or other unique biological characteristics; and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for these main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To prevent and detect fraud;
- To maintain the security of our systems, tools, accounts, and applications;
- To verify and authenticate identities and credentials;
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.
- To provide reviews and testimonials about our services, with your consent.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

State-Specific Consumer Privacy Information:

For additional information about your state-specific consumer privacy rights, to make a consumer privacy request, or to appeal a previous privacy request, please follow the link Privacy Request, or email privacy@fnf.com or call (888) 714-2710.

Certain state privacy laws require that FNF disclose the categories of third parties to which FNF may disclose the Personal Information and Browsing Information listed above. Those categories are:

- FNF affiliates and subsidiaries;
- Non-affiliated third parties, with your consent;
- Business in connection with the sale or other disposition of all or part of the FNF business and/or assets;

- Service providers;
- Law endorsement or authorities in connection with an investigation, or in response to a subpoena or court order.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (fnf.com/california-privacy) or call (888) 413-1748.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes. For additional information about your Oregon consumer privacy rights, or to make a consumer privacy request, or appeal a previous privacy request, please email privacy@fnf.com or call (888) 714-2710

FNF is the controller of the following businesses registered with the Secretary of State in Oregon:
Chicago Title Company of Oregon, Fidelity National Title Company of Oregon, Lawyers Title of Oregon, LoanCare, Ticor, Title Company of Oregon, Western Title & Escrow Company, Chicago Title Company, Chicago Title Insurance Company, Commonwealth Land Title Insurance Company, Fidelity National Title Insurance Company, Liberty Title & Escrow, Novare National Settlement Service, Ticor Title Company of California, Exos Valuations, Fidelity & Guaranty Life, Insurance Agency, Fidelity National Home Warranty Company, Fidelity National Management Services, Fidelity Residential Solutions, FNF Insurance Services, FNTG National Record Centers, IPEX, Mission Servicing Residential, National Residential Nominee Services, National Safe Harbor Exchanges, National Title Insurance of New York, NationalLink Valuations, NexAce Corp., ServiceLink Auction, ServiceLink Management Company, ServiceLink Services, ServiceLink Title Company of Oregon, ServiceLink Valuation Solutions, Western Title & Escrow Company

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is

necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions or would like to correct your Personal Information, visit FNF's Privacy Request website or contact us by phone at (888) 714-2710, by email at privacy@fnf.com, or by mail to:

Fidelity National Financial, Inc.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FNF Underwritten Title Companies
CTC - Chicago Title Company
CLTC - Commonwealth Land Title Company
FNTC - Fidelity National Title Company
FNTCCA - Fidelity National Title Company of California
TICOR - Ticor Title Company of California
LTC - Lawyer's Title Company
SLTC - ServiceLink Title Company

Underwritten by FNF Underwriters
CTIC - Chicago Title Insurance Company
CLTIC - Commonwealth Land Title Insurance Co.
FNTIC - Fidelity National Title Insurance Co.
NTINY - National Title Insurance of New York

Available Discounts

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, CLTIC, FNTIC, NTINY)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty percent (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

DISASTER AREA TRANSACTIONS (CTIC, CLTIC, FNTIC, NTINY)
This rate is available for individuals or entities that were victims of a national or state disaster. The rate can be used for a Lender's Policy (Standard or Extended), or an Owner's Policy (Standard or Homeowners coverage). To qualify for this rate, the applicant must, prior to the closing of the applicable transaction, make a written request, including a statement meeting the following criteria:

A. The subject property is in a disaster area declared by the government of the United States or the State of California.

B. The subject property was substantially or totally destroyed in the declared disaster.

C. The subject property ownership has not changed since the time of the disaster.

The rate will be fifty percent (50%) of the applicable rate, and the transaction must be completed within sixty (60) months of the date of the declaration of the disaster.

Notice of Available Discounts
(continued)

DISASTER AREA ESCROWS (CTC, CLTC, FNTC, TICOR, LTC)
This rate is available for individuals or entities that were victims of a national or state disaster. The rate can be used for a loan or a sale escrow transaction. To qualify for this rate, the applicant must, prior to the closing of the applicable transaction, make a written request, including a statement meeting the following criteria:

A. The subject property is in a disaster area declared by the government of the United States or the State of California.

B. The subject property was substantially or totally destroyed in the declared disaster.

C. The subject property ownership has not changed since the time of the disaster.

The rate will be fifty percent (50%) of the applicable rate, and the transaction must be completed within sixty (60) months of the date of the declaration of the disaster. Standard minimum charge applies based upon property type. No other discounts or special rates, or combination of discounts or special rates, shall be applicable. Applies to a single transaction per property.

This rate is applicable to the following Zones/Counties:

Zone 1.A: Orange County
Zone 1.B: Riverside and San Bernardino Counties
Zone 2: Los Angeles County
Zone 3: Ventura County
Zone 10: San Diego County
Zone 12: Imperial County

If used for a sale transaction, the application of this rate assumes the charge for the Residential Sale Escrow Services (RSES) fee will be split evenly between buyer and seller. As such and regardless of how the calculated applicable RSES will be split between the disaster victim and the other principal, the rate will be applied only to one half (1/2) of the calculated applicable RSES fee, regardless of whether the disaster victim is paying half (1/2) of the RSES fee (as is customary) or paying the entire fee. The rate under this provision will be fifty percent (50%) of disaster victims' one half (1/2) portion only and shall not apply to any portion paid by non-disaster victim. Additional services will be charged at the normal rates.

MILITARY DISCOUNT RATE (CTIC, CLTIC, FNTIC)
Upon the Company being advised in writing and prior to the closing of the transaction that an active duty, honorably separated, or retired member of the United States Military or Military Reserves or National Guard is acquiring or selling an owner occupied one-to-four family property, the selling owner or acquiring buyer, as applicable, will be entitled to a discount equal to fifteen percent (15%) of the otherwise applicable rates such party would be charged for title insurance policies. Minimum charge: Four Hundred Twenty-Five And No/100 Dollars ($425.00)

The Company may require proof of eligibility from the parties to the transaction verifying they are entitled to the discount as described. No other discounts or special rates, or combination of discounts or special rates, shall be applicable.

MILITARY RATE (SLTC)
A discount of twenty percent (20%) off the purchase transaction closing and settlement fee or a discount of One Hundred And No/100 Dollars ($100.00) off the refinance closing and settlement fee, will be applied when the loan is guaranteed by the United States Veterans Administration and the escrow fee is being paid by the consumer and is listed as paid by borrower on the Closing Disclosure and final Settlement Statement.

WIRE SAFE™ | Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY - 1990 (11-09-18)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

3. Defects, liens, encumbrances, adverse claims or other matters:

   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;

   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;

   (c) resulting in no loss or damage to the insured claimant;

   (d) attaching or created subsequent to Date of Policy; or

   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.

4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.

5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.

6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.

2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.

4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE OWNER'S POLICY (02-04-22)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy.

   Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7 Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

PART I

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (7-01-21)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.

   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

ALTA OWNER'S POLICY (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.]
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

Fidelity National Title
NATIONAL COMMERCIAL SERVICES

OWNER'S DECLARATION

Escrow No.: FBDO-2501879D
Property: 705-715 W Fletcher Ave, Orange, CA 92865

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)

   A. Declarant ("Owner") is the owner or lessee, as the case may be, of certain premises located at 705-715 W Fletcher Ave, Orange, CA 92865, further described as follows: See Preliminary Report/Commitment No. FBDO-2501879 for full legal description (the "Land").

   B. Declarant is the _____ of _____ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at 705-715 W Fletcher Ave, Orange, CA 92865, further described as follows: See Preliminary Report/Commitment No. FBDO-2501879 for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)

   A. During the period of six (6) months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.

   B. During the period of six (6) months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _____ upon the Land in the approximate total sum of $_____, but no work whatsoever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows: _____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless Fidelity National Title Insurance Company against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, regular assessments, special assessments, periodic assessments or any assessment from any source, claims of lien, special assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records. There are no violations of the covenants, conditions and restrictions as shown in the above referenced Preliminary Report/Commitment.

5. The Land is currently in use as _____; _____ occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

   _____

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

8. Between the most recent Effective Date of the above referenced Preliminary Report/Commitment and the date of recording of the Insured Instrument(s), Owner has not taken or allowed, and will not take or allow, any action or inaction to encumber or otherwise affect title to the Land.

OWNER'S DECLARATION

(continued)

9. That the undersigned has not received any written notice of violation of any covenants, conditions or restrictions, if any, affecting the Land.

10. That there are no outstanding unpaid sellers or suppliers of PACA/PASA commodities or products incurred by the Lessee, except:

    _____

    _____

11. That no notices of claim or notices of intent to preserve claim rights have been received by the Company from PACA/PASA sellers or suppliers of the Lessee, except:

    _____

    _____

This declaration is made with the intention that Fidelity National Title Insurance Company (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys' fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein. Additionally, Owner, by the undersigned Declarant, agrees to indemnify and hold the Company harmless during the gap period between the last title examination of the Land that was conducted by, for and/or on behalf of the Company, and the time when the deed, assignments and any other documents creating priority of title are recorded in connection with the sale and/or transfer of the Land.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on March 12, 2025 at 04:44 PM.

Regulator	Orange County Environmental Health
Inspection Date	10/8/2019
Inspection Type	Routine
Program Element	Hazardous Waste Generator
Inspection Comments	On site to conduct a routine Hazardous Waste inspection. Met with Mike Carter, President. The facility is a Small Quantity Generator of automotive repair wastes from maintenance of their vehicle fleet. Walked throughout the facility and observed the facility's Hazardous Waste storage area. Hazardous Waste containers were observed properly labeled and stored closed. The perimeter of the facility was walked and the municipal trash dumpster was observed. There are no signs of illegal disposal. Hazardous waste manifests were available for review. The facility's EPA ID number is active. Emergency plan is maintained on site. No hazardous waste violations were observed this date. This inspection report was sent to info@billsweeping.net.

ORANGE CITY FIRE DEPARTMENT

1176 EAST CHAPMAN AVENUE · ORANGE, CALIFORNIA 92866 · P (714) 288-2500· WWW.ORANGECITYFIRE.ORG

Good Afternoon Allen,

We have updated the records request to reflect the Hazardous Materials Inventory for this site, and the documents have been uploaded to the request. I have also Included a copy of the inspections for this site.

Additionally, we have attached the only record for the removal permit that we have on file. The date on the bottom right reflects when it was closed out.

Upon further review of the request and records that we do have on file, we do not show anything regarding cleanup or removal records.

If you would like you may also submit a record request through OCHCA to see if the CUPA group has any additional records, but based on the dates, it may likely have been purged by this time, and records would not be retained unless a case was opened up by OCHCA.

I have included to link to the OCHCA Records Request for your reference : Access to Public Records | Orange County California - Health Care Agency

Thank you,

Samara Eljaouhari

HOUSING CRISIS ACT of 2019 – SB 330

PRELIMINARY APPLICATION FORM

PURPOSE

This form serves as the preliminary application for housing development projects seeking vesting rights pursuant to SB 330, the Housing Crisis Act of 2019.

GENERAL INFORMATION

An applicant for a housing development project that includes (1) residential units (2) a mix of commercial and residential uses with two-thirds of the project's square footage used for residential purposes; or (3) transitional or supportive housing, shall be deemed to have submitted a preliminary application upon provision of all of the information listed in this Preliminary Application form and payment of the permit processing fee to the agency from which approval for the project is being sought.

After submitting this Preliminary Application to the local agency, an applicant has 180 days to submit a full application or the Preliminary Application will expire.

Submittal Date Stamp*[1,2]:

*[1]Submittal of all the information listed and payment of the permit processing fee freezes fees and development standards as of this date, unless exceptions per Government Code § 65889.5(o) are triggered.

*[2]Note: Record keeping pertaining to which standards and fees apply at date of submittal is imperative, as **penalties may apply for imposing incorrect standards**

Notes:

1. California Environmental Quality Act (CEQA) and Coastal Act standards apply.
2. After submittal of all of the information required, if the development proponent revises the project to change the number of residential units or square footage of construction changes by 20 percent or more, excluding any increase resulting from Density Bonus Law, the development proponent must resubmit the required information so that it reflects the revisions.

SITE INFORMATION

1. **PROJECT LOCATION** - The specific location, including parcel numbers, a legal description, and site address, if applicable.

   Street Address _____Unit/Space Number _____

   Legal Description (Lot, Block, Tract) Attached? YES ☐ NO ☐

   Assessor Parcel Number(s) _____

2. **EXISTING USES -** The existing uses on the project site and identification of major physical alterations to the property on which the project is to be located.

3. **SITE PLAN -** A site plan showing the building(s) location on the property and approximate square footage of each building that is to be occupied.

   024

   Attached? YES ☐ NO ☐

4. **ELEVATIONS -** Elevations showing the massing and height of each building that is to be occupied.

   Attached? YES NO ☐

5. **PROPOSED USES** - The proposed land uses by number of units and square feet of residential and nonresidential development using the categories in the applicable zoning ordinance.

a. **RESIDENTIAL DWELLING UNIT COUNT:**

Please indicate the number of dwelling units proposed, including a breakdown of levels by affordability, set by each income category.

	Number of Units
Market Rate	
Managers Unit(s) – Market Rate	
Extremely Low Income	
Very Low Income	
Low Income	
Moderate Income	
Total No. of Units	
Total No. of Affordable Units	
Total No. of Density Bonus Units	

Other notes on units:

6. **FLOOR AREA** - Provide the proposed floor area and square footage of residential and nonresidential development, by building (attach relevant information by building and totals here):

	Residential	Nonresidential	Total
Floor Area (Zoning)			
Square Footage of Construction			

7. **PARKING -** The proposed number of parking spaces:

8. **AFFORDABLE HOUSING INCENTIVES, WAIVERS, CONCESSIONS and PARKING REDUCTIONS** - Will the project proponent seek Density Bonus incentives, waivers, concessions, or parking reductions pursuant to California Government Code Section 65915?

025

YES ☐ NO ☐

If "YES," please describe:

9. **SUBDIVISION –** Will the project proponent seek any approvals under the Subdivision Map Act, including, but not limited to, a parcel map, a vesting or tentative map, or a condominium map?

YES ☐ NO ☐

If "YES," please describe:

10. **POLLUTANTS** – Are there any proposed point sources of air or water pollutants?

YES ☐ NO xxc☐

If "YES," please describe:

11. **EXISTING SITE CONDITIONS –** Provide the number of existing residential units on the project site that will be demolished and whether each existing unit is occupied or unoccupied. Provide attachment, if needed.

	Occupied Residential Units	Unoccupied Residential Units	Total Residential Units
Existing			
To Be Demolished			

12. **ADDITIONAL SITE CONDITIONS –**

a. Whether a portion of the property is located within any of the following:

i. A very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection, pursuant to Section 51178?

YES ☐ NO ☐

ii. Wetlands, as defined in the United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993)?

YES ☐ NO ☐

iii. A hazardous waste site that is listed pursuant to Section 65962.5, or a hazardous waste site designated by the Department of Toxic Substances Control pursuant to Section 25356 of the Health and Safety Code?

YES ☐ NO ☐

iv. A special flood hazard area subject to inundation by the 1 percent annual chance flood (100-year flood) as determined by any official maps published by the Federal Emergency Management Agency?

YES ☐ NO ☐

v. A delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California Building Standards Commission under the California Building Standards Law (Part 2.5 (commencing with Section 18901) of Division 13 of the Health and Safety Code), and by any local building department under Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2?

YES ☐ NO ☐

vi. A stream or other resource that may be subject to a streambed alteration agreement pursuant to Chapter 6 (commencing with Section 1600) of Division 2 of the Fish and Game Code?

YES ☐ NO ☐

If "YES" to any, please describe:

b. Does the project site contain historic and/or cultural resources?

YES ☐ NO ☐

If "YES," please describe:

c. Does the project site contain any species of special concern?

YES ☐ NO

If "YES," please describe:

d. Does the project site contain any recorded public easement, such as easements for storm drains, water lines, and other public rights of way?

YES ☐ NO ☐

If "YES," please describe:

e. Does the project site contain a stream or other resource that may be subject to a streambed alteration agreement pursuant to Chapter 6 (commencing with Section 1600) of Division 2 of the Fish and Game Code? Provide an aerial site photograph showing existing site conditions of environmental site features that would be subject to regulations by a public agency, including creeks and wetlands.

YES ☐ NO ☐

If "YES," please describe and depict in attached site map:

13. **COASTAL ZONE -** For housing development projects proposed to be located within the coastal zone, whether any portion of the property contains any of the following:

a. Wetlands, as defined in subdivision (b) of Section 13577 of Title 14 of the California Code of Regulations.

YES ☐ NO ☐

b. Environmentally sensitive habitat areas, as defined in Section 30240 of the Public Resources Code.

YES ☐ NO ☐

c. A tsunami run-up zone. YES ☐ NO ☐

d. Use of the site for public access to or along the coast. YES ☐ NO ☐

14. **PROJECT TEAM INFORMATION -** The applicant's contact information and, if the applicant does not own the property, consent from the property owner to submit the application.

Applicant's Name _____

Company/Firm _____

Address _____Unit/Space Number _____

City _____ State _____ Zip Code _____

Telephone _____ Email _____

Are you in escrow to purchase the property? YES ☐ NO ☐

Property Owner of Record ☐ Same as applicant ☐ Different from applicant

Attachments: Job Card_0302-366.pdf; PRR 25-1.docx

Good Afternoon Allen,

We are looking into the closures of the tanks and I hope to have an answer to you sometime either tomorrow or early next week (as our offices are closed on Fridays).

Additionally, Please see attached documents regarding the chemical inventory at the site, as well as the job card for permit 0302-366.

Regarding the inspection reports, which inspection reports are you specifically looking for, and for which tank.

Thank you for you patience, and I apologize for the inconvenience.

This is the first time you received an email from this sender (akim@envaudit.com). Exercise caution when clicking links, opening attachments or taking further action, before validating its authenticity.

Secured by Check Point

Hello,

I just spoke with you on the phone about some permits that may be missing on our PRR. I am looking for additional records that may be labeled as follows:

1. (0302-366) issued 09/15/03 (final 07/13/04) for the installation of a 2,000-gal AST

2. (0312-289) issued 01/27/02 (final ??/??/??) for the removal of an UST

Additionally, I have not received any hazardous inventory, inspection reports, etc.

Thank you.

Waste Code By Year Matrix Report NON-RCRA

The Department of Toxic Substances Control (DTSC) takes every precaution to ensure the accuracy of data in the Hazardous Waste Tracking System (HWTS). However because of the large number of manifests handled inaccuracies in the submitted data and limitations of the manifest system and the technical limitations of the database DTSC cannot guarantee that the data accurately reflect what was actually transported or produced.
