

INSPIRED DESIGN BEAUTIFULLY CRAFTED

SIERRA
PACIFIC
WINDOWS

FIVE BEAUTIFUL CHOICES, ONE EXACTING STANDARD.

Sierra Pacific windows and doors are crafted in four unique manufacturing styles. Each delivers its own design and performance advantages. In other words, there are no bad choices, only good ones.

ALUMINUM CLAD WOOD

The best of both worlds, combining beautiful wood inside with low maintenance aluminum cladding outside. Wood is select pine, or upgrade to one of eight other species, all protected by CoreGuard Plus® wood preservative. Double thick cladding is finished with a powder coating process that leads the industry in durability and environmental safety.

ALL-WOOD

For a classic, distinctive look, our all-wood windows and patio doors offer timeless elegance with exceptional thermal performance. As with all our wood products, long-term durability is ensured by CoreGuard Plus®, a leading wood treatment against rot and insects.

H3®

Inventive Fusion Technology™ integrates three components (extruded aluminum, vinyl and wood) into one perfect window with greater energy efficiency and performance. Double thick aluminum exteriors are protected by our industry-leading powder coated finishes, while the wood interior is preserved with CoreGuard Plus®.

FEELSAFE™

Our hurricane-resistant windows and patio doors feature high-strength, laminated glass, plus highly reinforced engineering and construction. They're built to withstand heavy storm impact as well as determined burglars.

VINYL

All the benefits of vinyl windows and patio doors with Sierra Pacific DNA, our vinyl new construction and replacement products offer many of the same features and design options as our premium wood products. Choose from a complete lineup of operating styles, sizes and shapes.

DESIGNED TO FIT EVERY VISION.

Sierra Pacific windows and doors come in a wide selection of operating styles. And the choices don't end there.

You also get to select wood type, hardware style and finish, cladding color and texture, glazing preference, grilles, screens and even more finishing touches. No matter what you choose, you get the superior performance only Sierra Pacific can deliver.

A BREATH OF FRESH AIR.

A great choice when you want the fresh air of an open window even when it's raining, our awning windows are custom made, by hand, to your exact specifications. You'll notice the difference in how they look and how they operate.

Use them alone or combine them with other window configurations. They work especially well underneath a large picture window to provide ventilation.

As with our other windows, you'll find them available in a large selection of clad or all-wood styles.

FUNCTIONAL AND FLEXIBLE

No matter what windows you pair them with, our awning window designs can be customized with many grille pattern choices.

BEAUTIFUL FINISHES *Special order. Extended lead-time.

A TIMELESS CLASSIC WITH TIMELY UPDATES.

By themselves, they make a timeless statement. When configured with other Sierra Pacific windows, Sierra Pacific Premium Double Hung windows can turn an ordinary wall into an extraordinary vision.

Available in low maintenance aluminum clad exteriors and a gorgeous all-wood version, our Premium Double Hungs have two easy-tilt sashes for easy cleaning.

PREMIUM JAMBLINERS ARE STANDARD

Many other windows use an ugly vinyl jambliner. By using real wood, our jambliners become a concealed, fully-integrated part of the wood window interior.

PERFECT TRANSITION THAT'S SURPRISINGLY SECURE.

Sierra Pacific Patio Sliding Doors create a graceful transition from your indoor to outdoor living areas. While providing the perfect solution for a space-saving opening, these doors feature a multi-point locking system, so they are as secure and durable as they are beautiful. Our gear mechanism is made from corrosion-resistant 300 Series Stainless Steel and our locking system has passed the most stringent forced entry requirements.

MECHANICS MAKE THE DIFFERENCE

Smooth as silk operation is provided by standard tandem stainless steel ball bearing rollers and a fully adjustable design.
