Subject: parking on Barkley

Hi

We are having an extremely difficult time parking our own car to go to work on Barkley let alone our clients having a spot to park. We get complaints hourly and its hurting our business!

Please help us! There's a few guys at the end of the street running used car dealerships out of their small

units and they have a given total of 50-60 cars on the street! ITS INSANE!

We need no overnight parking on our street to help this situation! We are not alone in this. Everyone in

this area is fed up. We tried getting help from the police and they can only tow the cars with expired

tags! Please let us know how we can move forward on this issue!

THANKS
