

# Custom Wood Window: Double-Hung

## Materials

### Douglas Fir

The texture of this softwood is smooth with a straight, even grain and knots that create beautiful swirl patterns. This wood is a light, rosy color that is set off by its remarkably straight and handsome grain pattern. Will tend to "redden" over time when exposed to light. Paints easily and can hold all types of stains and finishes.

## Colors & Finishes

### EXTERIOR COLORS

Bone White

### INTERIOR COLORS

Perfect White

## Authentic Wood Exterior Door: All Panel

**22**

## Materials

### Hemlock

This wood features a fine-textured, straight-grained appearance. It is light and bright in color, varying from a creamy, nearly white to a light, straw-red color. Sometimes hemlock may have a slight lavender cast, especially around the knots and in the transition area between the spring and summer wood growth rings. This wood often contains small mineral deposits, but is free of pitch and is not likely to splinter. While wood darkens over time with exposure to sunlight, hemlock often remains true to its original, freshly milled pastel color. Accepts stain and paint well.
