Marina Marquez Camacho

They asked me to ask for help, with my car parking. Due to my extreme pain in both knees. Which I am having difficulties with, I use a walking cane until my walker comes in. With the distance I have to walk from my car to home it causes me severe pain, here are all of specialist cards. I go to all of these due to my knees and legs. I was told from my specialist not to exceed walking, due to my car being parked far I at times walk to the bus stop but both are a lengthy distance. This is why I am requesting a parking space closer to my home.

Thank you.
