Good afternoon David Allenbach

My name is Albert Reyes and live on 1734 E Madison Avenue, Orange CA 92867. I bought this house and have been living in the city of Orange for 7 years now.

Living in the city of Orange is great. Unfortunately, the availability of parking in this residential area directly affects our quality of life. Fewer parking options leads to discourage family members as well as friends to visit our homes. Lack of available parking in our street may likely increase neighbor's frustrations and negatively affect the entire neighborhood.

Many cars from an apartment complex on Rose avenue and another street where all dwellings are duplex come to Madison street and leave their cars overnight. In some cases, they leave their cars 2 or 3 days. The only time they park their cars somewhere else is on sweeping day. These flooding of cars from other streets limits the space available for neighbors that do live on Madison avenue. I have counted as many as 15 cars from other streets parking on Madison avenue.

Also, there is a liquor store facing Tustin avenue. Regrettably, customers of this liquor store use our street to access it. However, for any food items they buy at this place these customers leave their trash on our street. The liquor store also sells beer and hard liquor. Many times, customers tend to drink on our street and leave the empty beer cans and bottles on our street as well.

I have caught them peeing on the wall where it divides the liquor store and my house. Sometimes, customers have thrown their leftovers food over the fence and into my backyard. One time I found a plastic bottle with urine in it.

Given all the above, I turn to you to guide me through the options available to the home owners of Madison avenue, so these issues stop.

Sincerely,

Albert Reyes
