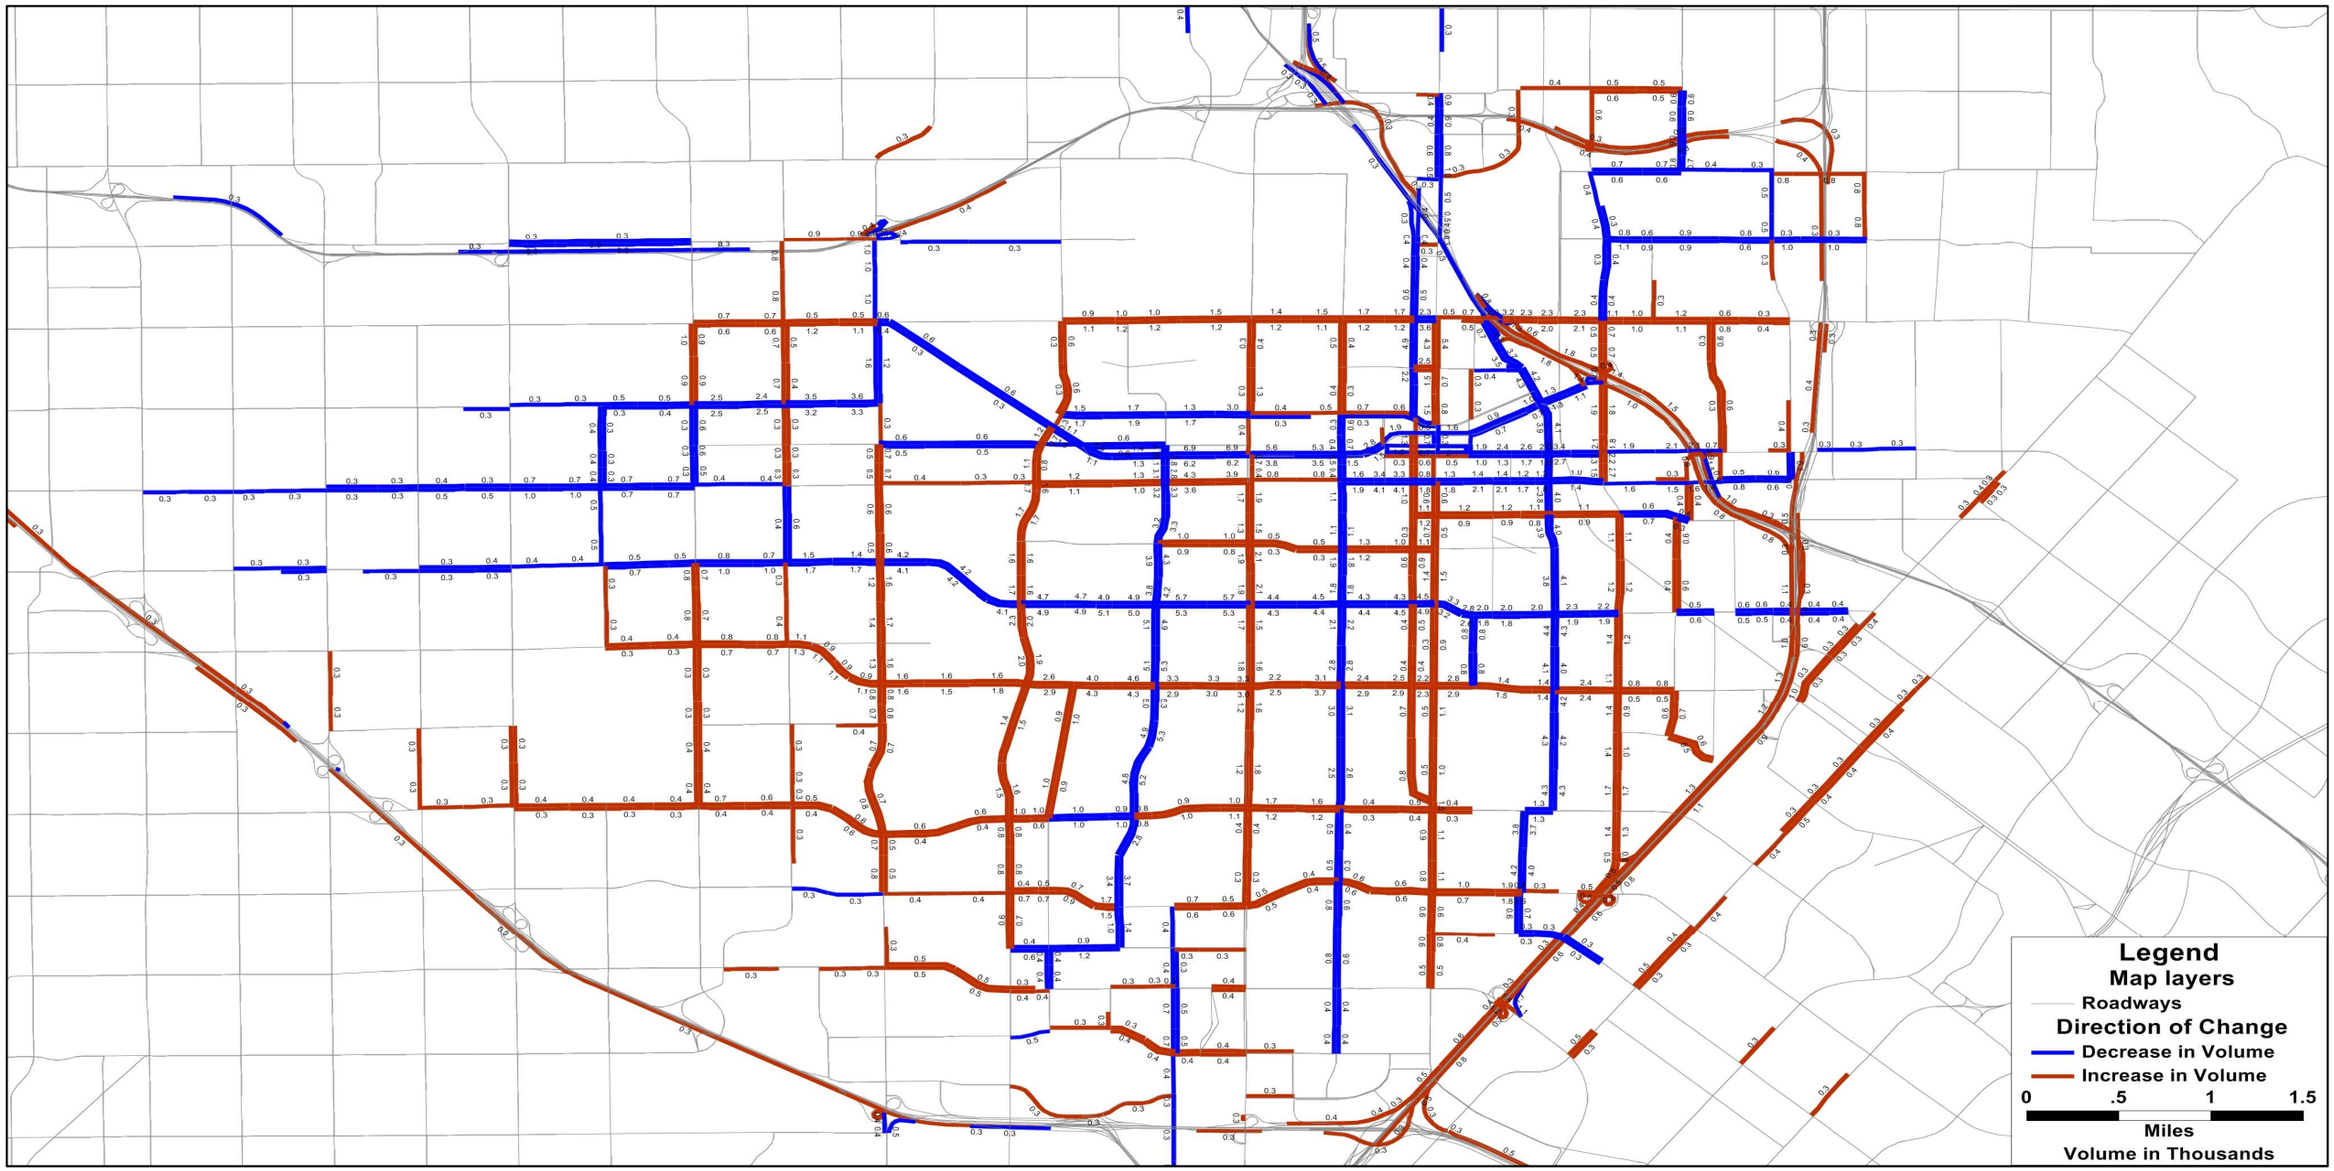
*In order to mitigate double-counting, a reduction factor was applied to the employee population to account for the amount of employees who are also residents of the City. Per SCAG Local Profile Report (2019), 20.8% of commuters live in the City. Thus, a reduction of 20.8% was applied to the employee population. (https://www.scag.ca.gov/Documents/SantaAna.pdf)



*In order to mitigate double-counting, a reduction factor was applied to the employee population to account for the amount of employees who are also residents of the County. Per SCAG Local Profile Report (2019), 65.3% of commuters live in the County. Thus, a reduction of 65.3% was applied to the employee population. (https://www.scag.ca.gov/Documents/OrangeCountyLP.pdf)

Technical Memorandum

To/Attention	City of Santa Ana	**Date**	October 22, 2020
From	IBI Group	**Project No**	119772
cc			
Subject	Addendum to Santa Ana General Plan Traffic Impact Study		

Overview

This memo serves as an addendum to the Traffic Impact Study (October 2020) prepared in support of the Santa Ana General Plan Update Environmental Impact Report (EIR). Presented in this memo is the analysis for ten (10) additional study intersections identified by the City of Tustin and Orange County Transportation Authority (OCTA) as locations where impacts may occur due to the project. The study intersections are listed below are shown in Exhibit A attached to this memo.

106. Red Hill Avenue and El Camino Real (City of Tustin)
107. Red Hill Avenue and I-5 NB Ramps (City of Tustin)
108. Red Hill Avenue and I-5 SB Ramps (City of Tustin)
109. Red Hill Avenue and Nisson Road (City of Tustin)
110. Red Hill Avenue and Walnut Avenue (City of Tustin)
111. Red Hill Avenue and Valencia Avenue (City of Tustin)
112. Tustin Ranch Road and Warner Avenue North (City of Tustin)
113. Tustin Ranch Road and Walnut Avenue (City of Tustin)
114. SR-55 SB Ramps and Irvine Boulevard (Orange County CMP)
115. SR-55 NB Ramps and Irvine Boulevard (Orange County CMP)

This analysis follows the methodology outlined in the Traffic Impact Study (October 2020). Intersection level of service (LOS) analyses were conducted for the Existing Year (2020) No Project, Future Year (2045) No Project, and Future Year (2045) With Project scenarios. Significant impacts were assessed for the year 2045 scenarios using the impact criteria of the presiding agency.

Existing Year (2020) No Project

A summary of the AM and PM peak hour level of service analysis results for the Existing Year (2020) No Project condition is provided in Table 1. Intersections are considered unacceptable if the level of service (LOS) is “E” or “F”. It should be noted that Caltrans and OC CMP intersections have a minimum LOS of C and E, respectively. The following intersections are forecast to operate at an unacceptable level of service in the Existing Year (2020) No Project condition:

- INT 113 – Tustin Ranch Road and Walnut Avenue (City of Tustin)

Table 1: Existing Year (2020) No Project Intersection LOS Summary

ID	INTERSECTION	AM		PM	
		V/C or Delay	LOS	V/C or Delay	LOS
106	Red Hill Avenue and El Camino Real	0.71	C	0.62	B
107	Red Hill Avenue and I-5 NB Ramps	20.3	C	23.3	C
108	Red Hill Avenue and I-5 SB Ramps	22.0	C	22.8	C
109	Red Hill Avenue and Nisson Road	0.65	B	0.70	B
110	Red Hill Avenue and Walnut Avenue	0.68	B	0.79	C
111	Red Hill Avenue and Valencia Avenue	0.54	A	0.55	A
112	Tustin Ranch Road and Warner Avenue North	0.43	A	0.76	C
113	Tustin Ranch Road and Walnut Avenue	1.19	F	1.63	F
114	SR-55 SB Ramps and Irvine Boulevard	0.97	E	0.79	C
115	SR-55 NB Ramps and Irvine Boulevard	0.80	C	0.81	D

Notes: (1) LOS – Level of Service; (2) V/C – Volume to Capacity

Future Year (2045) No Project

A summary of the AM and PM peak hour level of service analysis results for the Future Year (2045) No Project condition is provided in Table 2. Intersections are considered unacceptable if the level of service (LOS) is “E” or “F”. It should be noted that Caltrans and OC CMP intersections have a minimum LOS of C and E, respectively. The following intersections are forecast to operate at an unacceptable level of service in the Future Year (2045) No Project condition:

- INT 113 – Tustin Ranch Road and Walnut Avenue (City of Tustin)
- INT 114 – SR-55 SB Ramps and Irvine Boulevard (Caltrans - CMP)

Table 2: Future Year (2045) No Project Intersection LOS Summary

114	SR-55 SB Ramps and Irvine Boulevard	1.10	F	0.92	E

ID	INTERSECTION	AM		PM	
		V/C or Delay	LOS	V/C or Delay	LOS
115	SR-55 NB Ramps and Irvine Boulevard	0.91	E	0.93	E

Notes: (1) LOS – Level of Service; (2) V/C – Volume to Capacity

Future Year (2045) With Project

A summary of the AM and PM peak hour level of service analysis results for the Future Year (2045) With Project condition is provided in Table 3. Intersections are considered unacceptable if the level of service (LOS) is "E" or "F". It should be noted that Caltrans and OC CMP intersections have a minimum LOS of C and E, respectively. The following intersections are forecast to operate at an unacceptable level of service in the Future Year (2045) With Project condition:

- INT 112 – Tustin Ranch Road and Warner Avenue North
- INT 113 – Tustin Ranch Road and Walnut Avenue
- INT 114 – SR-55 SB Ramps and Irvine Boulevard (Caltrans - CMP)

Table 3: Future Year (2045) With Project Intersection LOS Summary

ID	INTERSECTION	AM		PM	
		V/C or Delay	LOS	V/C or Delay	LOS
106	Red Hill Avenue and El Camino Real	0.64	B	0.70	B
107	Red Hill Avenue and I-5 NB Ramps	20.1	C	23.6	C
108	Red Hill Avenue and I-5 SB Ramps	24.7	C	21.8	C
109	Red Hill Avenue and Nisson Road	0.66	B	0.72	C
110	Red Hill Avenue and Walnut Avenue	0.64	B	0.75	C
111	Red Hill Avenue and Valencia Avenue	0.68	B	0.75	C
112	Tustin Ranch Road and Warner Avenue North	0.46	A	0.92	E
113	Tustin Ranch Road and Walnut Avenue	1.31	F	1.77	F
114	SR-55 SB Ramps and Irvine Boulevard	1.18	F	0.93	E
115	SR-55 NB Ramps and Irvine Boulevard	0.82	D	0.84	D

Intersection Impact Assessment

Intersection impacts were determined using the criteria established by the presiding agency and further evaluated in order to determine the cause for the impact. Impacts are expected to occur due to the proposed land use changes, reclassifications, or a combination of both. The impacted intersections and the cause of impact is identified below:

- **INT 112 – Tustin Ranch Road and Warner Avenue North (PM peak hour / Tustin)**
    - The impact at this intersection is expected to occur as a result of the proposed land use changes. Specific improvements to this intersection to address this identified impact are presented in Table 5. Additionally, the City of Santa Ana will contribute to improvements based on the calculated fair-share percentage presented in Table 5.
- **113 – Tustin Ranch Road and Walnut Avenue (Tustin)**
    - The worsening of LOS at this intersection is expected to occur as a result of the proposed land use changes. Specific improvements to this intersection to address this identified impact are presented in Table 5. Additionally, the City of Santa Ana will contribute to improvements based on the calculated fair-share percentage presented in Table 5.

Table 6 summarizes intersection LOS for the future year scenario, with and without the project, as well as with the improvement measures implemented. All impacts are expected to be mitigated.

Conclusion

Ten (10) additional intersections were assessed in order to determine project-related impacts. In assessing the intersection LOS it was determined that an impact is expected to occur at one location. The impacted intersection is listed below:

- **INT 112 – Tustin Ranch Road and Warner Avenue North (PM / City of Tustin)**
    - An improvement measure was developed and proposed as part of this study; implementation of the measure is expected to improve intersection LOS and fully mitigate the impact. The fair-share contribution, based on the project's contribution to increased traffic volumes, was calculated to be 29.1% for the PM peak hour.
- **INT 113 – Tustin Ranch Road and Walnut Avenue (AM & PM / City of Tustin)**
    - An improvement measure was developed and proposed as part of this study; implementation of the measure is expected to improve intersection LOS and fully mitigate the impact. The fair-share contribution, based on the project's contribution to increased traffic volumes, was calculated to be 84.5% and 24.0% for the Am and PM peak hours, respectively.

Staff Report
April 19, 2022

TOPIC: EIR No. 2020-03 and GPA No.2020-06 Santa Ana General Plan Update

---

AGENDA TITLE

Public Hearing - Final Recirculated Program Environmental Impact Report No. 2020-03 and General Plan Amendment No. 2020-06 for Santa Ana General Plan Update

RECOMMENDED ACTION

1. Adopt a resolution certifying Final Recirculated Program Environmental Impact Report No. 2020-03 (SCH No. 2020029087), including adoption of environmental findings of fact pursuant to the California Environmental Quality Act, adoption of a Statement of Overriding Considerations, and adoption of a Mitigation Monitoring and Reporting Program.

2. Adopt a resolution approving General Plan Amendment No. 2020-06.

3. Adopt a resolution of findings to overrule the John Wayne Airport Orange County Airport Land Use Commission's determination that the Proposed General Plan Update is inconsistent with the Airport Environs Land Use Plan.

BACKGROUND

On February 15, 2022, the City Council considered the adoption of the City of Santa Ana General Plan Update. While the City Council did not reach a final decision during the meeting, the City Council discussed and commented on the draft document as well as the proposed policies and implementation actions. The City Council also encouraged the public to submit written comments to the City. In summary, staff documented over 150 comments received from local environmental justice (EJ) stakeholders and from the various City Councilmembers regarding the draft General Plan Update after the February 15, 2022 City Council meeting. Exhibit 1 is a catalog of the documented comments with a City response to each.

After reviewing and responding to the comments, staff met on several occasions with the EJ stakeholders (MPNA, OCEJ, Rise Up Willowick, THRIVE Santa Ana, UCI) to provide the opportunity for follow-up clarifications and where appropriate, discussed further refinements of the draft policies and implementation actions related to the various environmental justice topics. At the conclusion of the most recent meeting held with the

group on April 4, 2022, the stakeholders expressed their support for the General Plan. Staff also followed up with each Councilmember to obtain final input on the draft Plan.

As a result of the additional input, over 60 modifications and refinements responsive to the comments received from the City Council and from the community are being recommended for incorporation into the draft General Plan Update. The recommended changes are as shown in Exhibit 2. Inclusive in the recommended changes are several clarifications and refinements put forth by staff. If the changes are approved and adopted as recommended, they will be incorporated into the April 2022 draft of the General Plan Update (Exhibit 3) to form the adopted City of Santa General Plan – Golden City and Beyond.

PUBLIC NOTIFICATION AND COMMUNITY OUTREACH

Project notifications were posted, published, and mailed in accordance with City and State regulations. General Plan interested parties were emailed and/ or mailed a notice of this public hearing to consider the General Plan Update and Program Environmental Impact Report (GPEIR). In addition, courtesy notices were mailed to property owners and occupants located within the five Land Use Focus Areas and within 500 feet of their boundaries.

Mobility Element

Santa Ana General Plan

FINAL, APRIL 2022

A SHARED VISION

Santa Ana is a city that promotes the health and wellness of all residents, with a civic culture that actively embraces the power of diversity. Our city invests in resources that create economic opportunities for the next generation, and it is a community that celebrates our past while working together to create a sustainable future.

OUR CORE VALUES

H HEALTH

The people of Santa Ana value a physical environment that encourages healthy lifestyles, a planning process that ensures that health impacts are considered, and a community that actively pursues policies and practices that improve the health of our residents.

Eq Eq EQUITY

Our residents value taking all necessary steps to ensure equitable outcomes, expanding access to the tools and resources that residents need, and to balance competing interests in an open and democratic manner.

The value of equity that includes "EJ" in the upper corner indicates a policy related to environmental justice.

S SUSTAINABILITY

Santa Ana values land use decisions that benefit future generations, plans for the impacts of climate change, and incorporates sustainable design practices at all levels of the planning process.

C CULTURE

Our community values efforts that celebrate our differences as a source of strength, preserve and build upon existing cultural resources, and nurture a citywide culture of empowered residents.

Ed EDUCATION

We are a city that values the creation of lifelong learners, the importance of opening up educational opportunities to all residents and investing in educational programs that advance our residents' economic wellbeing.

MOBILITY VISION

Santa Ana envisions a balanced multimodal transportation system that supports community values. These include a vibrant local economy, healthy neighborhoods, health and wellness, and an attractive environment. Our transportation system connects major activity centers with regional labor, education, and goods markets. Context-sensitive design solutions strengthen the livability, vitality, and safety of our neighborhoods, districts, and corridors. Safe and pleasant bicycling and walking options encourage active lifestyles. While building a 21st century transportation system, the City employs best practices to protect our environment, natural resources, health, and safety.

▲ **OC Streetcar Visual Simulation [cover photo]**

OC Streetcar is the first modern streetcar project to be built in Orange County and will provide improved transit access to important employment, restaurant, and retail centers in Santa Ana, Garden Grove, and surrounding areas. The Streetcar will also provide a convenient "last mile" connection between Metrolink trains and other transportation modes at the Santa Ana Regional Transit Center.

TRAFFIC IMPACT STUDY, OCTOBER 2020 (APPENDIX K, R-DEIR)

EIR CHAPTER 5.16, TRANSPORTATION

SOMOS - Sunday on Main Open Streets. In 2014, the City of Santa Ana hosted Orange County's first ever ciclovia, an open streets event where the streets were closed to motorized vehicles and open for people to walk and bicycle. The route connected Santa Ana's vibrant downtown to its historic South Main Corridor, with plenty of family-friendly activities, games, and information booths along the three mile route.

MOBILITY

This Mobility Element is the City's blueprint for moving people, goods, and resources throughout the community. Moving beyond mere functionality, the City seeks to improve the quality of life in Santa Ana by providing more complete streets, offering ways to be more active, and conserving our natural resources. In planning the city's transportation system for the 21st century, the City is also making our community safer, more affordable, and more livable.

INTRODUCTION

Santa Ana is a city in motion. Santa Ana's circulation system of over 500 miles of roads keeps this thriving city of over 335,000 people on the move. Yet each of us thinks about our transportation choices in very different ways. For youth, it is about walking or biking to a school, a park, or a friend's home. For adults, it is about getting safely and conveniently around Santa Ana or making sure children are safe in their travels. For commerce, it is about ensuring access to goods, services, and customers to improve business opportunities.

Santa Ana's circulation system has been a vital part of its history, dating back to 1869 when the city was originally founded. At that time, the circulation system consisted primarily of dirt roads that connected agricultural fields and farms to the shops and post office. In the 1880s, the Southern Pacific Railroad and Santa Fe Railroad brought rail transportation to the community, opening it to commerce and housing development. Seventy-five years later, freeways were constructed and later expanded, which provided convenient access for Santa Ana residents and businesses to the greater metropolitan area.

Santa Ana's circulation system continued to evolve, with added commuter rail and transit routes not only offering options for getting around without a car, but also making Santa Ana the transit and rail hub of Orange County. Looking forward, the City will continue to advance mobility through the OC Streetcar and significant investments in bikeways and pedestrian infrastructure.

Other City planning documents related to circulation are the Alternative Transportation, Safe Mobility, Safe Routes to School, and Street Standard plans.

▲ **Crossing the Street in the Lacy Neighborhood**

A crossing guard helps a family safely cross Brown Street from Garfield Elementary School and its new Wellness Center (opened in 2020), which is housed in a historic Pacific Electric substation that once served the Red Car railways system.

COMMUNITY CONSIDERATIONS

Through the community engagement process for this General Plan, participants identified numerous circulation and mobility considerations and values that they believe should form the basis of and be addressed by this element. Specifically, participants highlighted the following topics, areas of concern, and community strengths:

- **Increase the amount of active transportation opportunities**
- **Alleviate parking congestion in commercial areas and neighborhoods**
- **Improve safety for bicyclists and pedestrians**
- **Expand the availability and frequency of transit**
- **Address high traffic speeds and congestion**

▲ **Programs and Activities to Promote Walking and Biking**

To make bicycling and walking safer, more fun, and easy to do, the City teams with transit, health, and other local organizations to organize and promote activities such as open streets events, family-friendly bike rides, walk-to-school days, winter evening walk and ride events (pictured at top), food-focused bike rides, female-focused bike rides (pictured above), and walking tours.

▲ **Community Input**

Santa Ana's engagement for transportation planning has been a progressive effort, starting in 2012 and extending through 2019. Multiple forums were held throughout the city on a variety of topics that began to set the stage for a transformation in how the City, its residents, and its business community think and plan for transportation. Efforts included a wide range of community open houses, workshops (pictured above), youth bike forum, health fairs, General Plan Advisory Group meetings, and many other venues to hear first-hand the concerns regarding the usability, safety, and desirability of the city's transportation system.

POLICY FRAMEWORK

GOAL M-1: Comprehensive Circulation

A comprehensive and multimodal circulation system that facilitates the safe and efficient movement of people, enhances commerce, and promotes a sustainable community.

POLICY M-1.1
SAFETY

Achieve zero fatalities from traffic collisions through education, enforcement, and infrastructure design.

H Eq Ed

POLICY M-1.2
BALANCED MULTIMODAL NETWORK

Provide a balanced and equitable multimodal circulation network that reflects current and changing needs.

H Eq(EJ) S

POLICY M-1.3
TRAFFIC MANAGEMENT SYSTEMS

Utilize technology to efficiently move people and vehicles and manage motor vehicle speeds.

S

POLICY M-1.4
MOTOR VEHICLE LEVEL OF SERVICE

Maintain at least a vehicle level of service "D" for intersections of arterial streets, except in areas planned for high intensity development or traffic safety projects.

H S

POLICY M-1.5
MULTIMODAL LEVEL OF SERVICE

Ensure that new development and City projects maintain or improve the current level of service for all modes of transportation.

H Eq S

POLICY M-1.6
COMPLETE STREETS

Transform travelways to accommodate all users through street design and amenities, such as sidewalks, trees, landscaping, street furniture, and bus shelters.

H Eq S

POLICY M-1.7
PROACTIVE MITIGATION

Proactively mitigate existing and new potential air quality, noise, congestion, safety, and other impacts from the transportation network on residents and business, especially in environmental justice communities.

H Eq(EJ) S

POLICY M-1.8
ENVIRONMENTAL SUSTAINABILITY

Consider air and water quality, noise reduction, neighborhood character, and street-level aesthetics when making improvements to travelways.

H Eq S

POLICY M-1.9
REGIONAL CONSISTENCY

Ensure the street network is consistent with standards set in the OCTA Master Plan of Arterial Highways and the Congestion Management Program.

S

POLICY M-1.10
INTERGOVERNMENTAL COORDINATION

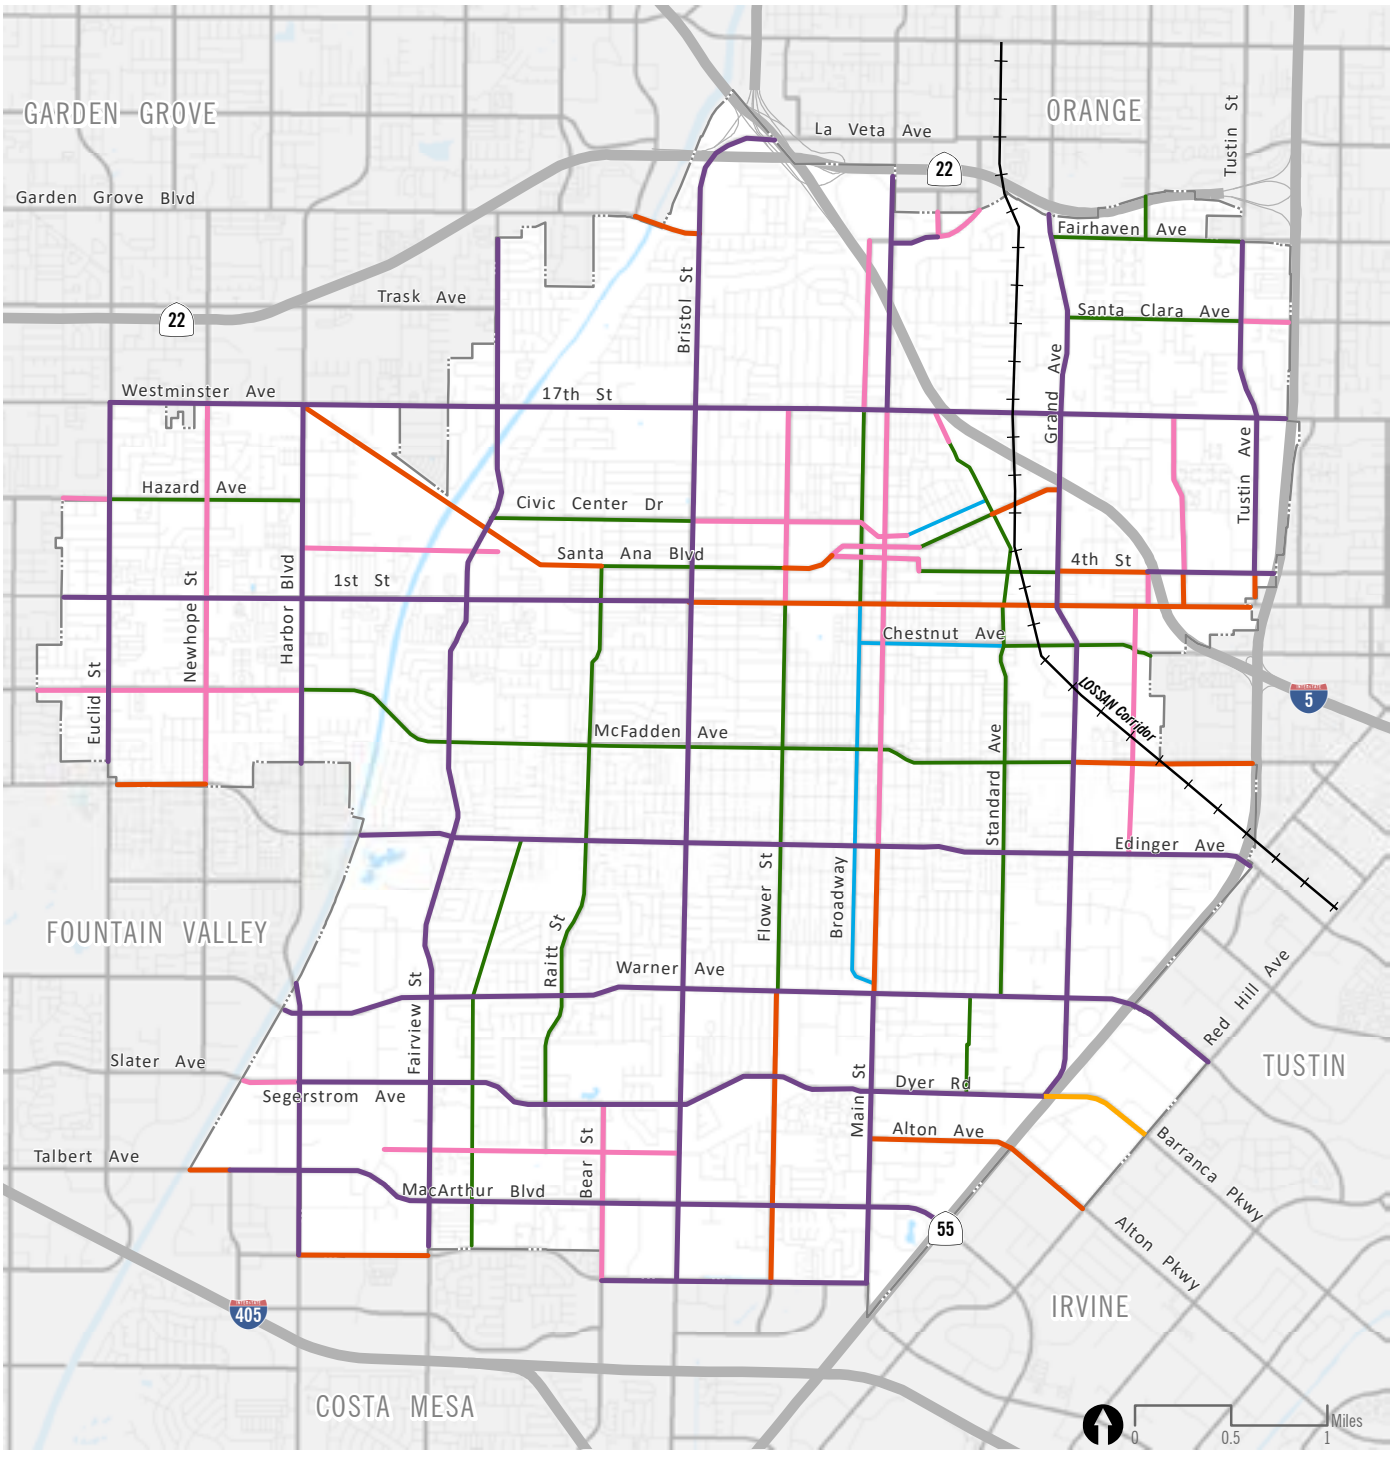
Collaborate with federal, state, SCAG, OCTA, rail authorities, and other agencies to fund and improve the regional transportation system.

S

CONTINUED ON NEXT PAGE >>

POLICY M-1.11
EMERGING SERVICES

Promote the development of innovative and safe travel and delivery services through partnerships with business and industry leaders.



H Eq S

▲ **Complete Streets Improvements along Harbor Boulevard**

After the Harbor Corridor Specific Plan was adopted in 2014, the City began implementing improvements (painting, striping, and spacing for a Class 4 Cycle Track) and applying streetscape requirements to new development (wide sidewalks with street trees and lighting) to make Harbor Boulevard a more complete street and accommodate vehicles, transit users, bicyclists, and pedestrians in a safe, efficient, and attractive manner.

ABOUT THE MAP. This map displays the City's long-term plan for an integrated system of streets and highways, with classifications that correspond to the nature and purpose of each roadway. This map reflects the City's efforts to create and maintain a roadway system that fosters the safe and efficient movement of people and vehicles throughout Santa Ana. See Table M-1 for a description of each street classification. Within city limits, the thin grey lines represent local streets.

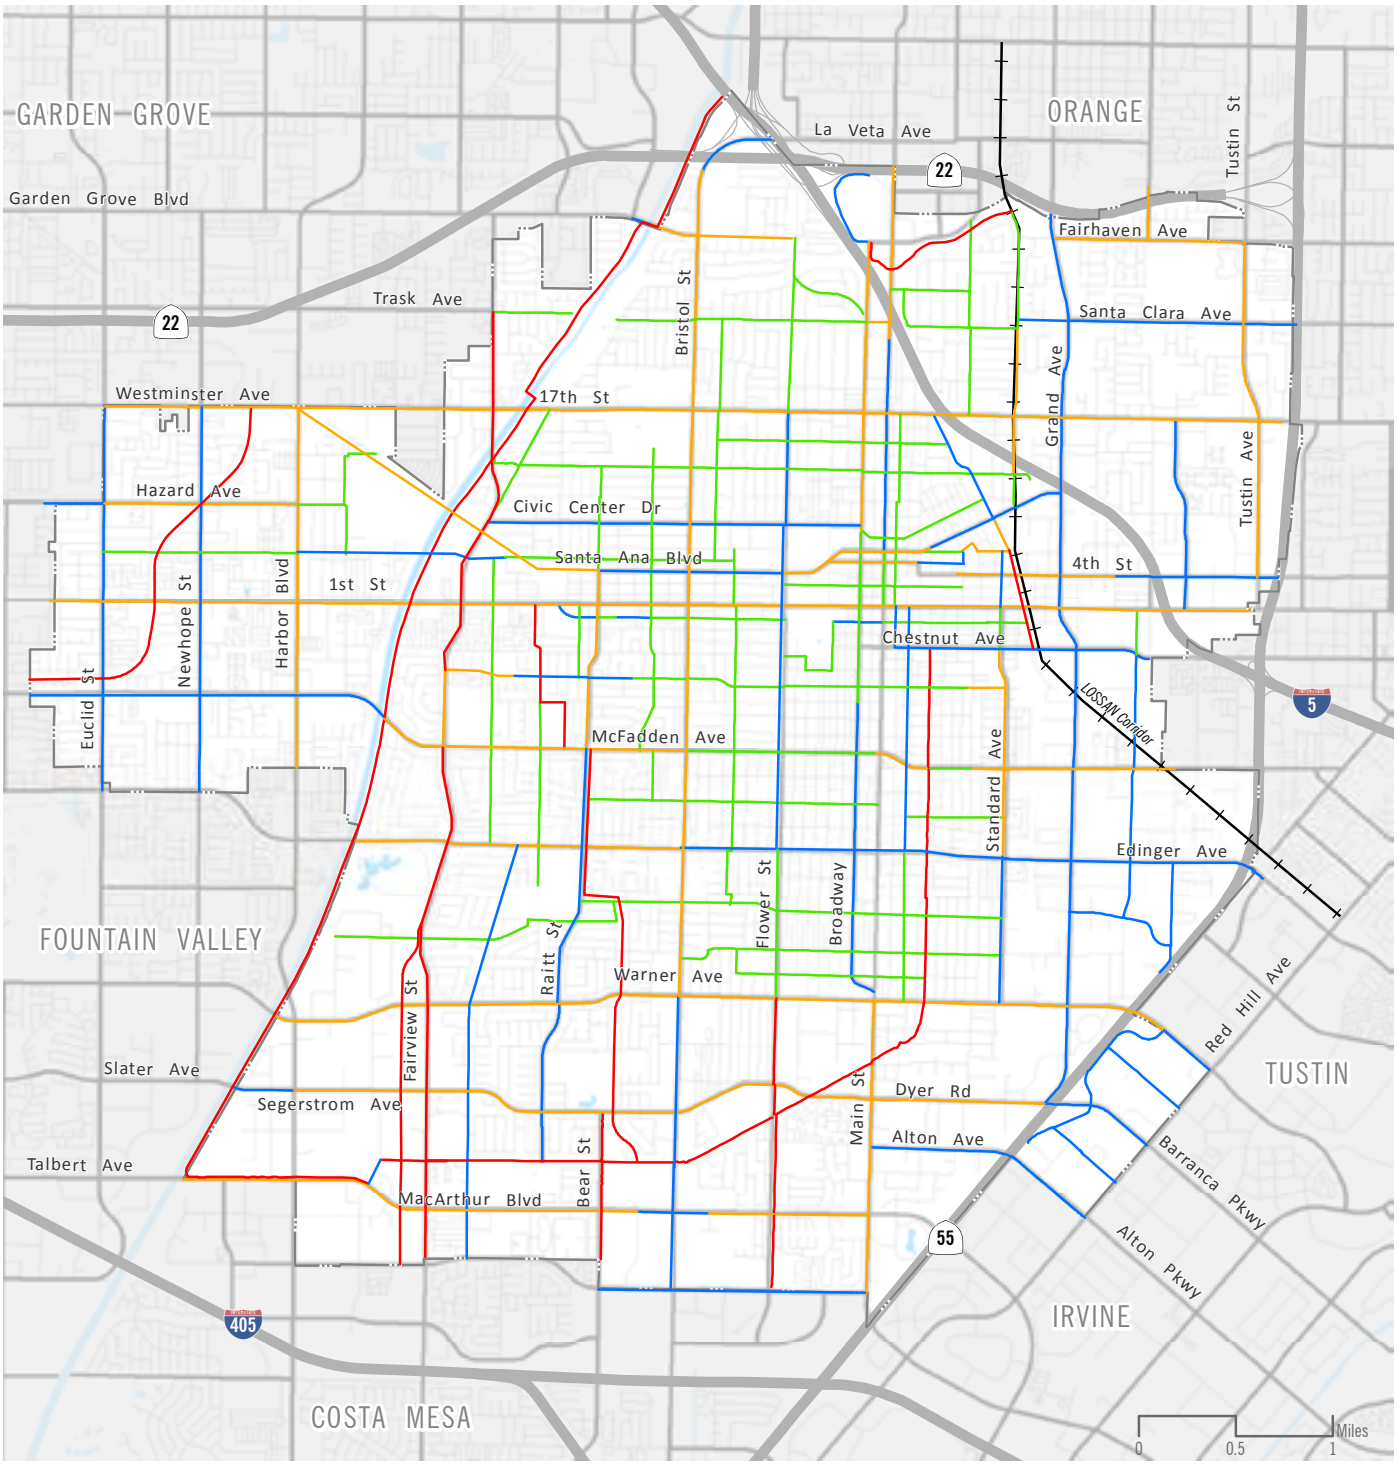
Source: OCTA Master Plan of Arterial Highways (06/20/2020) and the City of Santa Ana Date Published: 7/12/2021

- Principal Arterial
- Major Arterial
- Primary Arterial
- Secondary Arterial
- Divided Collector
- Collector

FIGURE M-1
MASTER PLAN OF STREETS AND HIGHWAYS

TABLE M-1. STREET CLASSIFICATIONS

Classification	Description	Examples
Principal Arterial	A street with eight travel lanes and a center median. Typically includes bus transit, pedestrian sidewalks, and bicycle lanes. *Typical ROW: 144' / 126' curb-to-curb / 14' median / 10' sidewalk*	Dyer Road
Major Arterial	A street with six travel lanes and a center median. Typically includes bus transit, pedestrian sidewalks, and bicycle lanes. *Typical ROW: 120' / 100' curb-to-curb / 14' median / 10' sidewalk*	Bristol Street, Harbor Boulevard, and Edinger Avenue
Primary Arterial	A street with four travel lanes and a center median. Typically includes pedestrian sidewalks and may include bus transit services and bicycle lanes. *Typical ROW: 100' / 84' curb-to-curb / 14' median / 10' sidewalk*	4th Street (between Grand Avenue and Interstate 5), and Sunflower Avenue (west of Raitt Street)
Secondary Arterial	A street with four travel lanes and no center median. Typically includes pedestrian sidewalks and may include bus transit and bicycle lanes. Serves more local traffic than a Primary Arterial. *Typical ROW: 80' / 64' curb-to-curb / 8' sidewalk*	Main Street (through Downtown), and Newhope Street
Divided Collector Arterial	A street with two travel lanes and a continuous center two-way left-turn lane, but may be divided by raised median, with an expanded right-of-way to accommodate bike lanes. *Typical ROW: 80' / 64' curb-to-curb / 8' sidewalk*	Raitt Street and Standard Avenue
Collector Street	A street with two travel lanes and no center median, typically includes pedestrian sidewalks, may include shared bicycle routes. *Typical ROW: 56' / 40' curb-to-curb / 10' sidewalk*	Broadway south of 1st Street (north of Civic Center)
Local Street	A street with two travel lanes serving residences and businesses. Typically includes pedestrian sidewalks and on-street parking. May include shared bicycle routes. Local streets are the most common street type. ** Not part of the City's MPSH.*	Lacy Street, Orange Avenue, Raitt Street, Santa Clara Avenue, Wilshire Avenue



▲ **Local Streets in Wilshire Square**

Shown here is Russell Avenue at the intersection of Van Ness Avenue in the Wilshire Square neighborhood. Both streets offer two travel lanes, on-street parking, sidewalks, and pedestrian-scaled lighting. Russell Avenue offers wide-canopied street trees while Van Ness Avenue is lined with tall palm trees.

Photo courtesy of Lisandro Orozco

ABOUT THE MAP. This map displays the City's long-term plan for a comprehensive bicycle network, with a hierarchy of facilities that provide varying levels of design, signage, and separation from vehicles. The City intends to provide a safe and efficient system that reduces the reliance on the automobiles and facilitates an increase in bicycling by choice. Table M-2 describes each bicycle classification.

Source: City of Santa Ana (2020) Date Published: 11/8/2021

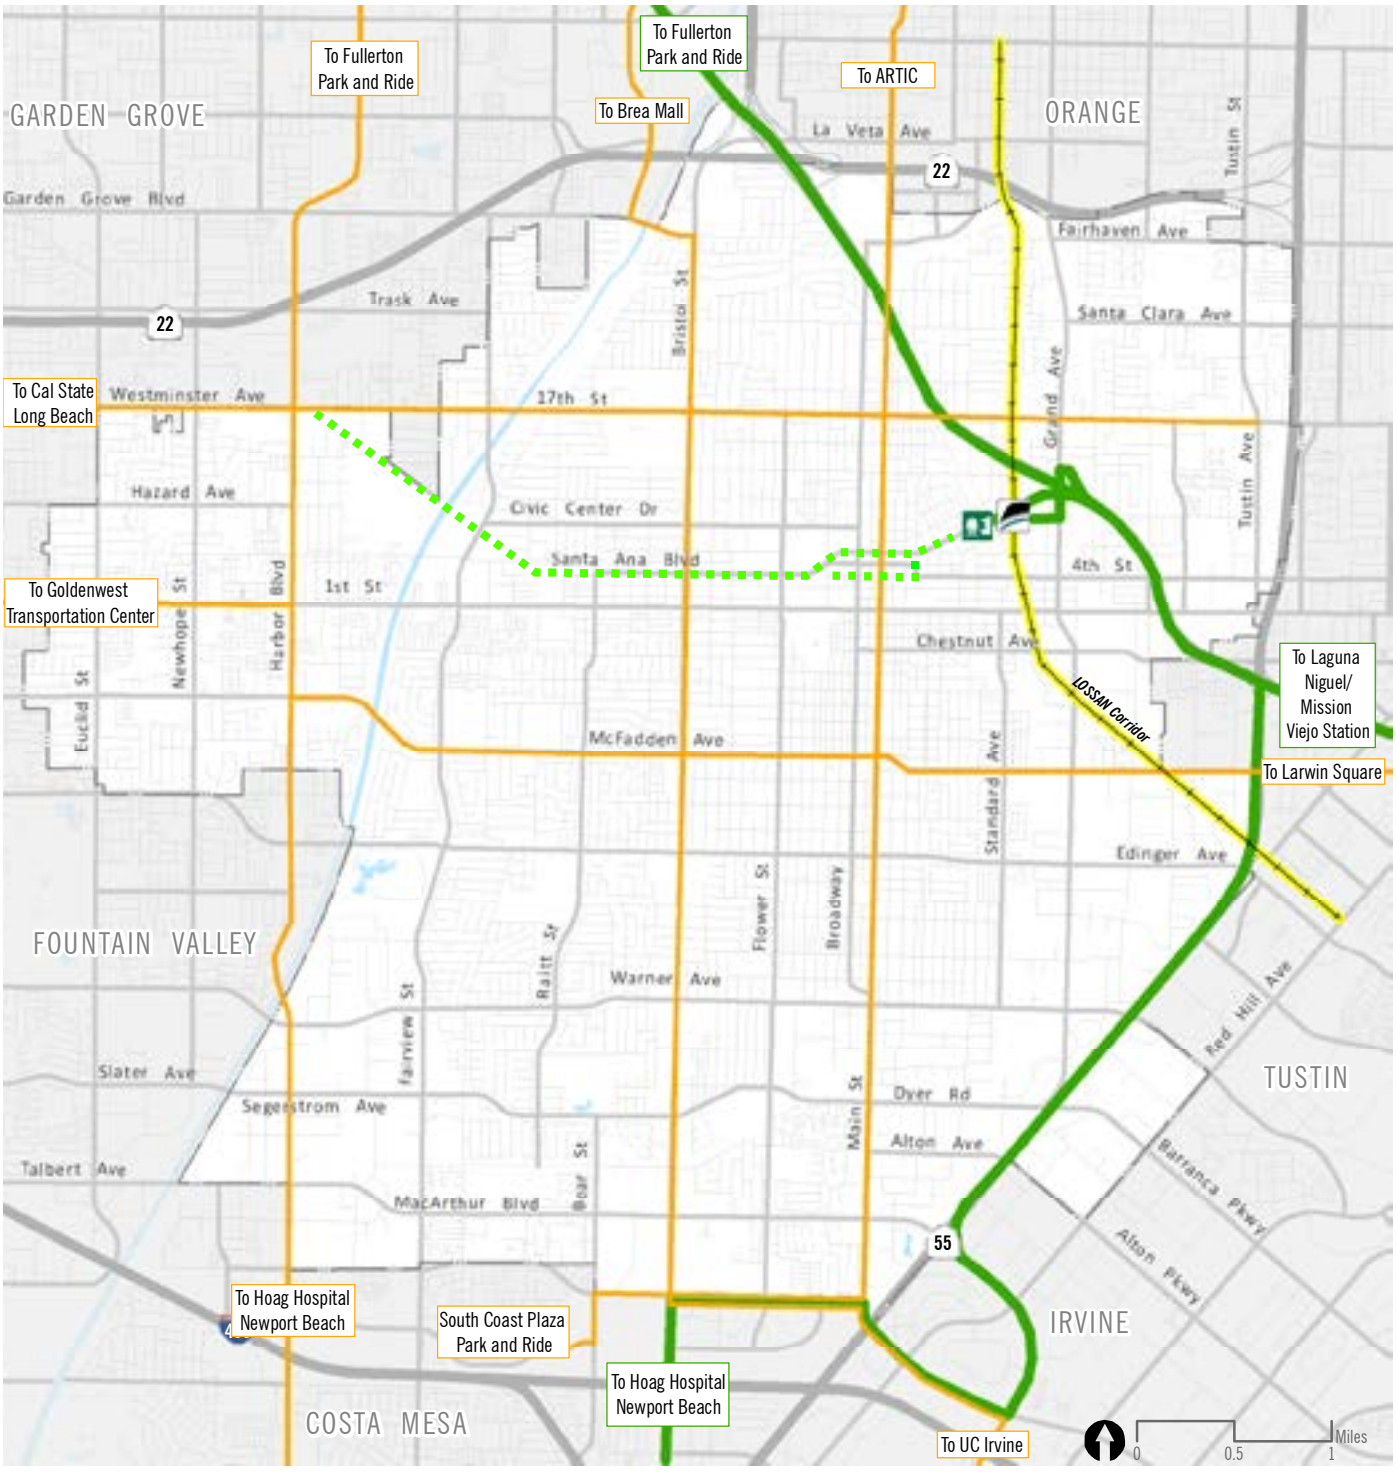
Class I Path

Class II Bike Lane

Class III Bike Route / Boulevard

Class IV Cycle Track

TABLE M-2. BIKEWAY CLASSIFICATIONS



Classification	Description	Examples
Class I Bicycle Path	Paved rights-of-way for the exclusive use of bicyclists and pedestrians. Physically separated from vehicle traffic and generally built in locations not served by streets or where vehicular cross-flows are minimized.	Santa Ana River Trail and several segments of Alton Avenue/Maple Street, Santiago Creek Trail, Flower Street, Santa Ana Gardens Channel/Bear Street, and MacArthur Boulevard
Class II Bicycle Lane	One-way routes denoted by a striped lane on a roadway to delineate the rights-of-way assigned to vehicles and bikes. Can be striped adjacent to the curb where no parking exists or striped to the left side of on-street parking lanes.	Bristol Street, Greenville Street, Memory Lane, and Ross Street
Class III Bicycle Route	Bikeways where cyclists share the travel lane with motor vehicles. Typically on low-volume roadways, such as local streets in residential neighborhoods, and may be designated by signage or roadway markings (called sharrows).	Although not always designated by signage, most streets in low-traffic-volume residential neighborhoods are classified as Class 3 routes
Class IV Cycle Track	Local roads that have been enhanced with treatments that prioritize bicycle travel. These treatments might include wayfinding signage, bollards, and traffic-calming features that facilitate safe and convenient bicycle travel, slow vehicle speeds, and minimize vehicular traffic volumes.	Bristol Street and Edinger Avenue

▲ **Cycle Track along Bristol Street**

As part of the Bristol Street Specific Plan, the City constructed (in 2018) a six-foot-wide bike lane, a concrete curb with plantings separating the bike lane from general traffic lanes, and a greenway separating the bike lane from the sidewalk.

ABOUT THE MAP. This map shows the long-term plans of the City and regional transit operators to expand and enhance ways for people to travel within, to, and from Santa Ana by rail, streetcar, and bus. OCTA Transit and Freeway Transit Opportunity Corridors represent bus rapid transit lines; other OCTA bus lines (not shown) run along most major streets in the city.

ABOUT THE MAP. This map shows areas that currently or should support high levels of pedestrian activity based on proximity to activity centers, mixed-use development, and/or transit stops. The intent is to foster a more walkable and active public realm through improvements such as wider sidewalks, safer street crossings, and enhanced streetscapes.

ABOUT THE MAP. This map shows the network for transporting materials and goods to and from businesses in Santa Ana, and throughout southern California. The City's street system supports the national network and local businesses via designated truck routes, generally along major or primary arterials that connect to freeways. Except for local deliveries, trucks are prohibited from driving on residential streets or low-volume roadways.

Source: Truck Networks on State Highways District 12 (CalTrans 6/7/2018), California Rail Network (CalTrans 10/31/2018), U.S. Department of Transportation - Federal Highway Administration, Cityof Santa Ana.

Truck/Freight Rail Routes

- National Network Route
- Local Truck Route
- Local Truck Route / Terminal Access Truck Route
- Freight Rail Line

Notes: National Network Routes are designated truck routes regulated by federal regulations (Code of Federal Regulations, Title 23, Section 658), and allow trucks that may exceed the limits established under state regulations. Local truck routes designated as a Terminal Access route allow vehicles that exceed the limits established under state regulations (California Vehicle Code Sections 35400/35401). Local truck routes allow any vehicle that exceeds 3 tons, but vehicles must meet other state regulations regarding length and width.

Santa Ana around 1920. Although much has changed in the world, the need for a multimodal transportation system remains constant. Shown here are people walking, driving, biking, and riding the Red Car along 4th Street in Santa Ana. Within the next couple of years, those living and working in Santa Ana will once again enjoy these options.

GOAL M-2: Regional Mobility

An integrated system of travelways that connects the city to the region, employment centers, and key destinations, making Santa Ana the leader in regional transportation.

POLICY M-2.1
INTERSTATE FREEWAYS

Support Caltrans and OCTA efforts to improve freeway safety, while addressing impacts to neighborhoods.

H Eq S

POLICY M-2.2
TRANSIT SERVICES

Support OCTA, Caltrans, and other regional and local transportation providers to enhance existing transit services to provide residents, workers and visitors with safe, affordable, accessible, convenient, reliable, and attractive transit services.

H Eq S

POLICY M-2.3
REGIONAL TRANSPORTATION CENTER

Continue to promote and develop the Santa Ana Regional Transportation Center (SARTC) as a major transportation hub linking Amtrak, Metrolink, the OC Streetcar, other regional systems, and first and last mile connections.

H S

POLICY M-2.4
COMMUTER RAIL

Support the expansion of commuter rail services and Santa Ana's role as a destination along the Los Angeles–San Diego–San Luis Obispo (LOSSAN) rail corridor.

H S

POLICY M-2.5
OC STREETCAR

Support development and expansion of the OC Streetcar project, connecting neighborhoods, employment centers, and Downtown Santa Ana to activity centers in Orange County.

H S

POLICY M-2.6
HIGH FREQUENCY TRANSIT CORRIDORS

Work with OCTA to support the improvement of transit opportunity corridors to facilitate high frequency transit (e.g., bus rapid transit and other modes) along designated corridors in Santa Ana.

H S

POLICY M-2.7
REGIONAL MOBILITY ACCESS

Enhance access to regional transit, including first and last mile connections, to encourage the use of public transit.

H Eq S

POLICY M-2.8
GRADE SEPARATIONS

Encourage the installation and improvement of grade separations at rail crossings that minimize impacts to adjacent properties and nonmotorized users.

H Eq S

POLICY M-2.9
GOODS MOVEMENT

Maintain a network of truck routes limited to arterial streets to allow for goods movement and protect residential neighborhoods from adverse impacts.

H Eq S

GOAL M-3: Active Transportation

A safe, balanced, and integrated network of travelways for nonmotorized modes of transportation that connects people to activity centers, inspiring healthy and active lifestyles.

POLICY M-3.1
NONMOTORIZED TRAVELWAY NETWORK

Expand and maintain a citywide network of nonmotorized travelways within both the public and private realms that create linkages between neighborhoods, recreational amenities, schools, employment centers, neighborhood serving commercial, and activity centers.

H Eq S

POLICY M-3.2
NONMOTORIZED TRAVELWAY AMENITIES

Enhance nonmotorized travelways with amenities such as landscaping, shade trees, lighting, benches, crosswalks, rest stops, bicycle parking, and support facilities that promote a pleasant and safe experience.

H Eq S

POLICY M-3.3
SAFE ROUTES TO SCHOOLS AND PARKS

Lead the development and implementation of safe routes to schools and parks by partnering with the school districts, residents, property owners, and community stakeholders.

H Eq (EJ) S

POLICY M-3.4
REGIONAL COORDINATION

Coordinate development of the City's active transportation and transit network with adjacent jurisdictions, OCTA, and other appropriate agencies.

H Eq S

POLICY M-3.5
EDUCATION AND ENCOURAGEMENT

Encourage active transportation choices through education, special events, and programs.

H Eq S Ed

POLICY M-3.6
TRANSIT CONNECTIVITY

Enhance first and last mile connectivity to transit facilities through safe, accessible, and convenient linkages.

H Eq S

POLICY M-3.7
COMPLETE STREETS DESIGN

Enhance streets to facilitate safe walking, bicycling, and other nonmotorized forms of transportation through community participatory design.

H Eq S

POLICY M-3.8
SANTA ANA RIVER AND GOLDEN LOOP

Proactively pursue the improvement and restoration of the Santa Ana River natural habitat and the completion of the Golden Loop to serve as a multiuse recreational amenity.

H S

POLICY M-3.9
NEIGHBORHOOD TRAFFIC

Develop innovative strategies to calm neighborhood traffic, increase safety, and eliminate collisions, while also maintaining access for emergency response.

H

GOAL M-4: Transportation, Land Use, and Design

Coordinated transportation planning efforts with land use and design strategies that encourage sustainable development and achieve broader community goals.

POLICY M-4.1
INTENSE DEVELOPMENT AREAS

Program multimodal transportation and public realm improvements that support new development in areas along transit corridors and areas planned for high intensity development.

H S

POLICY M-4.2
PROJECT REVIEW

Encourage active transportation, transit use, and connectivity through physical improvements and public realm amenities identified during the City's Development Review process.

H Eq S

POLICY M-4.3
TRANSPORTATION MANAGEMENT

Coordinate with OCTA, employers, and developers to utilize TDM (transportation demand management) strategies and education to reduce vehicle trips and parking demands.

H S

POLICY M-4.4
FAIR SHARE IMPACTS

Ensure that all development projects pay their fair share of the system improvements necessary to accommodate the transportation needs of their projects.

Eq S

POLICY M-4.5
LAND USE DEVELOPMENT DESIGN

Ensure that building placement and design features create a desirable and active streetscape, by prioritizing pedestrian access directly from the street and placing parking lots to the rear of a development site.

H S

POLICY M-4.6
ROADWAY CAPACITY ALTERNATIVES

Promote reductions in automobile trips and vehicle miles traveled by encouraging transit use and nonmotorized transportation as alternatives to augmenting roadway capacity.

H S

POLICY M-4.7
PARKING

Explore and implement a flexible menu of parking options and other strategies to efficiently coordinate the response to parking demands.

S

POLICY M-4.8
NOISE MITIGATION

Encourage physical and operational improvements to reduce noise levels around major roads, freeways, and rail corridors, in particular around sensitive land uses.

H Eq

POLICY M-4.9
AIR POLLUTION MITIGATION

Utilize land use, building, site planning, and technology solutions to mitigate exposure to transportation-related air pollution, especially in environmental justice focus areas.

H Eq EJ S

GOAL M-5: Sustainable Transportation Design

A transportation system that is attractive, safe, state-of-the-art, and supports community, environmental, and conservation goals.

POLICY M-5.1
ENHANCED STREET DESIGN

Improve the beauty, character, and function of travelways with amenities such as landscaped parkways and medians, bike lanes, public art, and other amenities.

H S

POLICY M-5.2
RAIL CORRIDORS

Coordinate with rail service providers to improve and maintain the aesthetics of rail corridors, reduce noise levels, and mitigate traffic conflicts and other environmental hazards.

H Eq S

POLICY M-5.3
TRAVEL VIEWS

Promote the undergrounding of utilities and the reduction of visual clutter along travelways.

S

POLICY M-5.4
GREEN STREETS

Leverage opportunities along streets and public rights-of-way to improve water quality through use of landscaping, permeable pavement, and other best management practices.

S

POLICY M-5.5
STREET DESIGN

Design and retrofit streets based on their combined land use context and road function to achieve safety objectives.

H Eq S

POLICY M-5.6
CLEAN FUELS AND VEHICLES

Encourage the use of alternative fuel vehicles and mobility technologies through the installation of supporting infrastructure.

S

POLICY M-5.7
INFRASTRUCTURE CONDITION

Enhance travelway safety by maintaining streets, alleys, bridges, sidewalks, lighting, and other transportation infrastructure in excellent condition.

S Eq EJ

POLICY M-5.8
TRAFFIC SAFETY

Prioritize the safety of all travelway users when designing transportation improvement and rehabilitation projects.

H S

Transit Hub. In 1985, the Santa Ana Regional Transportation Center (SARTC) was erected on the site of the former Atchison, Topeka and Santa Fe Railway depot that was built in 1933 and closed in 1982. The SARTC now serves as the hub of Amtrak's Pacific Surfliner and Metrolink's Orange County lines, and shares use of the railroad with the Burlington-Northern Santa Fe and Union Pacific, which serve the city's industrial sector. Santa Ana continues to lead the rail revolution—most importantly, the planned OC Streetcar, set to begin operations in 2022/23.

RELATED GENERAL PLAN POLICIES

Each policy in the City of Santa Ana General Plan is listed under the most related goal and element. Some policies, however, also reinforce other goals housed in different elements.

To provide a more complete picture of all of the policies that support the goals of this element, Table M-1 lists each Mobility goal in the far left column and, in columns to the right, identifies related policy numbers from other elements.

Goal M-2, for example, is supported not only by the policies in this element (M-1.1 through M-5.8), but also by Policy CN-3.11 in the Conservation Element, Policy N-1.3 in the Noise Element, Policy S-2.3 in the Safety Element, and Policy UD-7.5 in the Urban Design Element.

▲ **Santa Ana River Trail**

Nearly four linear miles of trails run along the Santa Ana River through the city's western area. The City's vision for the river includes preserving and restoring natural habitat, acquiring land for improvements, protecting water quality, and promoting the Santa Ana River Trail as a nonmotorized transportation route to serve the region. This photo shows a bicyclist along the trail as it passes under the 1st Street bridge.

IMPLEMENTATION

An implementation plan is a coordinated series of actions the City desires to take in the future that are intended to advance, over the long term, the City's Shared Vision, Core Values, and the General Plan goals and policies. An implementation plan is thus a follow-up measure for this element. Taken as a whole, these programs represent the City's best thinking today on what actions should be taken to address the considerations and concerns of the community and make sure that the plan's aspirations are achieved.

Implementation is in large part contingent upon adequate funding. Many of these actions can be pursued through initiatives already underway. Other programs will require additional resources. Therefore, the exact mix and timing of programs the City may pursue will in part be opportunity driven, dependent on the availability of funding, staffing, and other necessary resources. The Time Frame in the Implementation Table below is the target for completion of the Action.

This element may be implemented by amendments to existing plans, ordinances, development standards and design guidelines; capital investments/projects; and interagency/interjurisdictional coordination. The following table identifies the implementation action, the responsible City agency, and targeted timeline for accomplishment.

TABLE M-4. MOBILITY ELEMENT IMPLEMENTATION

Ref #	Implementation Action	Agency / Time Frame
GOAL M-1: Comprehensive Circulation A comprehensive circulation system that facilitates the safe and efficient movement of people, enhances commerce, and promotes a sustainable community.		
1.1	**Cross-agency collaboration.** Coordinate with external agencies to address the impacts of new regional transportation projects on the local network and accommodate complete street practices.	PWA Ongoing
1.2	**MPAH.** Coordinate with external agencies to ensure the OCTA Master Plan of Arterial Highways accommodates current and future demand for all users while prioritizing the safety of people utilizing non-automobile modes of transportation.	PWA 2022-2035
1.3	**Complete streets design.** Update the City's standard plans to include complete streets design strategies.	PWA 2025
1.4	**Reduce collisions.** Minimize parking from arterial streets to reduce vehicular, bicycle, and pedestrian conflicts.	PWA Ongoing
1.5	**Capital Improvement Program.** Prepare the annual Capital Improvement Program that corresponds with the City's general plan goals and implementation actions.	PWA Annually
1.6	**Asset Management database.** Explore the benefits of an asset management database to coordinate ongoing maintenance of streets, parkway and the public realm.	PWA Ongoing
1.7	**Transportation network safety.** Continue ITS to provide enhanced safety and efficiency features on the transportation network, including traffic signal synchronization.	PWA Ongoing
1.8	**Impact fees.** Secure development impact fees and dedications for project-related transportation improvements during City review and approval processes.	PWA 2021-2035
GOAL M-2: Regional Mobility Integrated system of travelways that connects the City to the region, employment centers, and key destinations, making Santa Ana the leader in regional transportation.		
2.1	**Cross-agency planning.** Work with OCTA and regional transportation agencies on the Long-Range Transportation Plan and to expand bus and rail transit services, particularly transit priority corridors.	PWA/PBA- Ongoing

TABLE M-4. MOBILITY ELEMENT IMPLEMENTATION

Ref #	Implementation Action	Agency / Time Frame
2.2	**Cross-agency coordination.** Coordinate with OCTA and transportation agencies to identify a funding, operation, and maintenance plan for the OC Streetcar.	PWA Ongoing
2.3	**Bus turnouts.** Construct bus turnouts on arterial streets according to OCTA design standards.	PWA Ongoing
2.4	**Freeway improvement projects.** Participate in Caltrans Advisory Working Groups freeway improvement projects to evaluate benefits and impacts to the Santa Ana local streets.	PWA Ongoing
2.5	**Grade separation.** Pursue implementation of grade separation between rail crossings and roadways at Santa Ana Boulevard, Seventeenth Street, and Grand Avenue.	PWA 2022-2035
2.6	**Regional transit planning.** Develop the Santa Ana Regional Transportation Center (SARTC) Master Plan.	PWA/PBA/ CDA 2022-2035
2.7	**Wayfinding program.** Refine the City's wayfinding signage program to direct travelers to activity centers, Downtown, and Civic Center.	PWA 2022-2035
GOAL M-3: Active Transportation A safe, balanced, and integrated network of travelways for nonmotorized modes of transportation that connects people to activity centers, inspiring healthy and active lifestyles.		
3.1	**Active transportation planning.** Develop and pursue implementation of a comprehensive active transportation plan.	PWA 2022-2035
3.2	**Circulation connectivity.** Close the Golden Loop network between Memory Lane and Santiago Creek and between Santiago Park and Lincoln Avenue/Santiago Street.	PWA/PRCSA Ongoing
3.3	**Pedestrian accessibility.** Implement the City ADA Transition Plan to cost-effectively enhance pedestrian accessibility, with guidance from the Sidewalk Connectivity Plan.	PWA Ongoing
3.4 EJ	**Pedestrian opportunity zones.** Prepare public realm plans in pedestrian opportunity zones.	PWA/PBA 2022-2035
3.5	**Safe routes to schools and parks.** Develop and pursue implementation of a Safe Routes to School Plan and a Safe Routes to Parks Plan.	PWA/PRCSA Ongoing
3.6	**Drinking water access.** Create a network of public water fountains / bottle fill stations that promote the City's award-winning water, conservation, and substitution of bottled water for affordable public drinking water.	PWA 2022-2035
GOAL M-4: Transportation, Land Use, and Design Coordinated transportation planning efforts with land use and design strategies that encourage sustainable development and achieve broader community goals.		
4.1	**Municipal Code update.** Amend the code to require parking studies to evaluate requests for parking reductions in all development projects.	PBA 2024
4.2	**Downtown transportation planning.** Prepare comprehensive Downtown transportation and parking management plan that involves Downtown stakeholders and addresses downtown activity, economic growth, and operational improvements.	PWA/PBA/ CDA 2025
4.3	**Downtown transportation improvements.** Study the Downtown parking structure facilities, involving Downtown stakeholders, to identify potential operational improvements and monitor the program.	CDA/PWA 2025
4.4 EJ	**Residential parking.** Reevaluate the Residential Permit Parking Program to ensure it complies with state law and best practices.	PWA Ongoing
4.5	**Citywide Design Guidelines update.** Update the Citywide Design Guidelines to strengthen pedestrian and cyclist linkages to development centers and residential neighborhoods and coordinate on-site landscape with public realm landscaping.	PBA/PWA 2022-2027
4.6	**Safe travelways.** Provide City interagency review of physical improvements and related design standards within travelways and the public realm.	PWA Ongoing

TABLE M-4. MOBILITY ELEMENT IMPLEMENTATION

Ref #	Implementation Action	Agency / Time Frame
4.7	**Bike parking and amenities.** Update the City bike parking ordinance to require new major development to provide long-term bike locker parking and amenities, and incentives for inclusion in existing development.	PBA 2022-2027
4.8	**Ensure safety.** Utilize the City's project review processes to identify and maintain landscaped setbacks along public rights-of-way.	PWA Ongoing
4.9	**Trip reduction.** Continue to evaluate alternative trip reduction program best practices for City employees, and implement a program that is cost-effective.	HR Ongoing
4.10	**Vehicle miles traveled.** Maintain vehicle miles traveled (VMT) guidelines in compliance with SB 743.	PWA/PBA Ongoing
4.11	**Cross-agency coordination.** Maintain ongoing coordination of land use and transportation impacts through joint powers authority agreements with adjacent jurisdictions.	PWA Ongoing
4.12	**School partnerships.** Pursue partnerships with local school districts to improve coordination of review process for new and rehabilitated school facility improvements, to promote safe and well-designed student pick-up/drop-off.	PWA/PD Ongoing
GOAL M-5: Sustainable Transportation A transportation system that is attractive, safe, state-of-the-art, and supports community, environmental, and conservation goals.		
5.1	**Safe travelways.** Continue design practices that facilitate the safe use of the travelways.	PWA Ongoing
5.2	**Street designs.** Participate in state and regional transportation agency forums to affect policies for universal street design standards to ensure standards are user friendly, cost-effective, and sustainable.	PWA Ongoing
5.3	**Street improvements.** Incorporate low impact development (LID) strategies to infiltrate, treat, or harvest urban stormwater runoff in street improvement projects.	PWA Ongoing
5.4	**Municipal/development code update.** Update the City's design standards and municipal codes regarding landscaping and amenities in the public realm and street parkways, to promote aesthetically pleasing and sustainable corridors.	PWA 2025
5.5	**Tree preservation.** Re-evaluate the City's street tree maintenance and preservation programs to ensure fiscal sustainability and aesthetically pleasing trees over the long term.	PWA 2022-2035
5.6	**Traffic calming.** Develop or update neighborhood traffic management plans to facilitate traffic calming measures appropriate and reasonable for the area.	PWA Ongoing
5.7 EJ	**Parking management strategies.** Evaluate parking management strategies, such as parking assessment districts, to facilitate parking in areas programmed for future development.	CDA 2022
5.8	**Air quality improvements.** Participate in inter-jurisdictional efforts to promote improvements in air quality and to meet state and federal mandates through advanced technology and TDM programs.	PBA/PWA 2021-2035
5.9	**Rail service.** Coordinate with rail and transit service providers to address aesthetics, ongoing maintenance, safety, and noise concerns along rail corridors.	PWA Ongoing
5.10	**Street medians.** Complete construction of medians on major arterial streets.	PWA 2022-2035
5.11	**Underground utilities program.** Continue to implement the program to underground utilities on arterial streets.	PWA 2022-2035
5.12	**Transportation network.** Provide upkeep of the City's transportation network based upon an established maintenance schedule.	PWA Ongoing

A SHARED VISION FOR SANTA ANA

OCTA

November 2, 2020

To: Regional Planning and Highways Committee

From: Darrell E. Johnson, Chief Executive Officer

Subject: Amendments to the Master Plan of Arterial Highways

Overview

The Orange County Transportation Authority administers the Master Plan of Arterial Highways, including the review and approval of amendments requested by local agencies. The City of Santa Ana has requested multiple amendments to the Master Plan of Arterial Highways. These amendments are subject to approval by the Board of Directors and are recommended to be contingent on an executed memorandum of understanding to address potential impacts. A status update on the active Master Plan of Arterial Highways amendments is also provided.

Recommendations

A. Authorize the Chief Executive Officer, or his designee, to negotiate and execute a final memorandum of understanding specifying roles and responsibilities for implementation of proposed actions related to the Master Plan of Arterial Highways amendment request. Participating agencies include the cities of Fountain Valley, Santa Ana, Tustin, and the Orange County Transportation Authority.

B. Conditionally approve the following amendment to the Master Plan of Arterial Highways to:

1. Reclassify the following streets from a secondary (four-lane, undivided) arterial to a divided collector (two-lane divided):
   i. Cambridge Street between Fairhaven Avenue and State Route 22.
   ii. Santa Clara Avenue between Grand Avenue and Tustin Avenue.
   iii. Broadway Street between 1st Street and 17th Street.
   iv. Penn Way between Interstate 5 southbound on/off-ramps and Washington Avenue.

v. Santiago Avenue between Washington Avenue and 6th Street.
vi. Standard Avenue between 6th Street and Warner Avenue.
vii. Civic Center Drive between Fairview Street and Bristol Street.
viii. Hazard Avenue between Euclid Street and Harbor Boulevard.
ix. Raitt Street between Segerstrom Avenue and Santa Ana Boulevard.
x. McFadden Avenue between Harbor Boulevard and Grand Avenue.
xi. Flower Street between Warner Avenue and First Street.
xii. Halladay Avenue between Warner Avenue and Dyer Road.
xiii. Chestnut Avenue between Standard Avenue and Grand Avenue.

2. Reclassify Civic Center Drive between French Street and Santiago Street, from a secondary (four-lane, undivided) arterial to a collector (two-lane, undivided) arterial.
3. Reclassify 1st Street between Bristol Street and Tustin Avenue, from a major (six-lane, divided) to a primary (four-lane, divided) arterial.
4. Reclassify Chestnut Avenue between Grand Avenue the eastern city limit, from a primary (four-lane, divided) to a divided collector (two-lane, divided) arterial.
5. Remove the following facilities from the Master Plan of Arterial Highways:
   i. Flower Street between 17th Street and its northern terminus.
   ii. Logan Street between Stafford Street and Santa Ana Boulevard.
   iii. Stafford Street between proposed Logan Street and Santiago Street.

The proposed amendment will become final contingent upon the Orange County Transportation Authority (1) fully executing a final memorandum of understanding with the cities of Fountain Valley, Santa Ana, and Tustin, and (2) receiving documentation that the City of Santa Ana has complied with the requirements of the California Environmental Quality Act and have amended their general plan.

If the original proposed Master Plan of Arterial Highways amendment is modified as a result of the California Environmental Quality Act and/or general plan amendment process, the modified Master Plan of Arterial Highways amendment shall be returned to the Orange County Transportation Authority Board of Directors for consideration and action.

C. Conditionally approve the amendment to the Master Plan for Arterial Highways for Fairhaven Avenue between Grand Avenue to Tustin Avenue from a secondary (four-lane, undivided) arterial to a divided collector (two-lane, divided) arterial. The proposed amendment will become final contingent upon the Orange County Transportation Authority receiving documentation that the cities of Santa Ana and Orange have complied with the requirements of the California Environmental Quality Act and have amended their respective general plans.

   If the cities of Santa Ana and Orange do not update their respective general plans within three years to reflect the Master Plan of Arterial Highway amendment, the contingent amendment will expire, but can be returned to the Orange County Transportation Authority Board of Directors for reconsideration and action.

   If the original proposed Master Plan of Arterial Highways amendment is modified as a result of the California Environmental Quality Act and/or general plan amendment process, the modified Master Plan of Arterial Highways amendment shall be returned to the Orange County Transportation Authority Board of Directors for consideration and action.

D. Direct the Executive Director of Planning, or his designee, to file a Notice of Exemption from the California Environmental Quality Act in support of the Master Plan of Arterial Highways amendment.

E. Receive and file a status report on the active Master Plan of Arterial Highways amendments.

Background

In January 2020, the City of Santa Ana (City) initiated the Circulation Element Update in combination with the overall General Plan Update. The proposed Circulation Element Update is the culmination of community outreach efforts undertaken by the City since 2011, input from neighboring local agencies, and various planning documents. The goal of these efforts is to provide active transportation options for residents through complete street improvements and vision zero policies. The City is requesting amendments to the Master Plan of Arterial Highways (MPAH) to reclassify 17 segments in order to accommodate complete street projects and remove three segments from the MPAH (Attachment A). Complete streets refer to street features that accommodate all users, including pedestrians, bicyclists, public transit users, and drivers. The 17 segments represent those arterials which require MPAH reclassifications in order to accommodate complete street improvements and are depicted in Attachment B.

Amendment to the MPAH require a review of the potential circulation implications of the change. The City utilized the General Plan Update Program Environmental Impact Report (PEIR)-Traffic Impact Study (TIS) for the MPAH amendment process. The TIS reviews existing and future traffic conditions of the current general plan and of the proposed land use and circulation element updates. Additional analysis was completed that focused on the identification of the impacts and mitigations associated with the changes to the MPAH, as opposed to the overall General Plan Update evaluated by the PEIR. The City plans to adopt the General Plan Update and PEIR in late fall 2020. The proposed MPAH amendments are recommended for conditional approval by the Orange County Transportation Authority (OCTA) Board of Directors (Board) contingent on compliance with the MPAH Guidance, and additional terms identified in the Recommendations.

Discussion

The 17 segments proposed for reclassification would result in a reduction of approximately 30 existing lane miles. Deletions and downgrades on the MPAH may be allowed if the increased traffic volumes in the affected agencies do not result in the unmitigated peak-hour intersection impacts (Guidance for Administration of the MPAH, Section 4.0 MPAH Amendment Policies). If impacts to the MPAH system are identified as a result of the proposed amendment, approval of an amendment may be subject to the execution of a memorandum of understanding (MOU) between OCTA and affected agencies, which specify roles and responsibilities for implementation of any identified mitigations. The TIS analyzed 105 intersections with 18 identified that could be impacted due to the MPAH amendment request (Attachment C). Of the 18 impacted intersections, four are located outside the City in the following jurisdictions: City of Fountain Valley (1), City of Orange (1), and the City of Tustin (2).

The City proposed a draft mitigation program to ensure that mitigations for impacted intersections, if needed in the future, would be implemented. The program would fully mitigate impacts at eight intersections (including the four intersections outside of the City) and partially mitigate impacts at two intersections. Feasible mitigations could not be developed at the remaining eight impacted intersections, all located within the City, due to right-of-way needs for proposed complete streets projects. The TIS also identified potential significant impacts to an additional five intersections due to the City's proposed Land Use Element Update. These impacts are not associated with the change to the MPAH; therefore, they are excluded from the MPAH amendment process.

Furthermore, potential impacts to high-quality transit corridors were identified. OCTA provides high-frequency (15-minute service intervals) fixed-route bus service during peak commute hours on two segments that are part of the MPAH amendment - McFadden Avenue (Route 66) and 1st Street (Route 64).

The City's proposal would remove existing and planned travel lanes to incorporate complete streets infrastructure. OCTA and City staff agreed that additional mitigation measures on these corridors are necessary to maintain or improve transit service performance.

An MOU was prepared to define the roles and responsibilities of the parties the mitigations for the proposed MPAH amendment (Attachment D). Currently, the City and the affected agencies are in agreement on a draft mitigation program. For the impacts located at the cities of Fountain Valley and Tustin, the City has agreed to pay, at minimum, their fair share cost of the mitigation measures. The proposed reclassification on Fairhaven Avenue, between Grand Avenue and Tustin Avenue, is shared with the City of Orange. For this reclassification on Fairhaven Avenue to become final, both the cities of Orange and Santa Ana will need to update their circulation elements. The reclassification results in an impact at the Tustin Avenue and Fairhaven Avenue intersection (City of Orange). The existing intersection can accommodate the proposed reclassification to a divided collector (two-lane, divided) arterial, and therefore, the City of Orange has requested not be a party to the MOU. Lastly, the City has also agreed to fund a cooperative study, led by OCTA. The study will identify feasible transit improvements for impacts on high-quality transit corridors. Roles and responsibilities for funding and implementation would be identified and coordinated with OCTA as well. The affected agencies have reviewed the TIS, addressed remaining questions with the City, and all have provided letters of support for the City's amendment request (attachments E, F, and G).

The City also shared the TIS with immediately adjacent agencies - the cities of Costa Mesa, Garden Grove, Irvine, Westminster, the County of Orange, and the California Department of Transportation. Except for the City of Garden Grove (Garden Grove), all immediately adjacent agencies have indicated their support for the City's amendment request (attachments H, I, J, K, and L). Garden Grove is the owner of the Willowick Golf Course property, which is near the proposed Hazard Avenue reclassification. Garden Grove would like to preserve existing vehicular access in the vicinity of the Willowick property while the City and Garden Grove solidify a vision for the property. Currently, the property remains classified as open space in the City's proposed Land Use Element Update. Moreover, the TIS did not identify any impacts in the vicinity of Hazard Avenue, and it is projected to operate at a segment link level of service "A" in the future year with reclassification. Therefore, there are no technical MPAH-related issues with the proposed reclassification to Hazard Avenue.

Further, the City has discussed the matter with City of Garden Grove, and there is an understanding that the parties will work to address this issue as the long-term vision for the property develops.

Based on the support from the affected agencies and technical analysis of the proposed reclassifications, staff recommends conditional approval of the MPAH amendments, authorization to negotiate and execute the final MOU, and a cooperative agreement for a transit cooperative study. If approved by the Board, the proposed amendments will not become final until OCTA receives: (1) a fully signed and executed MOU among OCTA and the cities of Fountain Valley, Santa Ana, and Tustin; and (2) documentation that the City has amended their general plan and have complied with the requirements of the California Environmental Quality Act (CEQA). Additionally, the City of Orange must also provide documentation that their general plan has been amended in compliance with CEQA before finalizing the reclassification of Fairhaven Avenue on the MPAH.

CEQA

Amendments to the MPAH are exempt from the CEQA review. As such, if the Board approves the recommendations, OCTA will file a Notice of Exemption from CEQA in support of the proposed amendment to the MPAH.

MPAH Status Update

As indicated in the status report in Attachment M, there are currently 22 active amendments proposed for the MPAH.

The City's General Plan Update also includes the conditionally-approved MPAH amendment in 2016 to support planned bikeways and accommodate the development of the OC Streetcar on Fourth Street from French Street to Grand Avenue, and on three segments of Santa Ana Boulevard:(1) Flower Street to Ross Street, (2) French Street to Santiago Street, and (3) Raitt Street to Flower Street. As indicated in Attachment A, the adoption of the General Plan Update will finalize the amendment on these four facilities.

In June 2020, OCTA received appropriate documentation to finalize and update the MPAH map to reflect conditionally-approved amendments within several other jurisdictions:

- Huntington Beach – Graham Street and Talbert Street (shared with the County of Orange), Delaware Street, 6th Street;
- Yorba Linda – Esperanza Road (shared with the County of Orange), Fairmont Boulevard Connector; and
- Westminster – Garden Grove Boulevard, Edwards Street, Trask Avenue, and Hoover Street.

Many of the other remaining amendments are awaiting local action to amend their respective general plans. Others are either under review, pending resolution of issues with other agencies, or awaiting refinement of development plans.

Summary

The City of Santa Ana has requested amendments to the Master Plan of Arterial Highways to reflect the City of Santa Ana's General Plan Update. The technical analysis indicates that -- with the recommended mitigations -- implementation of the amendments would not adversely impact the integrity of the Master Plan of Arterial Highways. Therefore, staff recommends Board of Directors' conditional approval of the requested amendments.

Agenda Item

Orange City Council

Item #: 10.1. 3/10/2026 **File #:** 26-0087

TO: **Honorable Mayor and Members of the City Council**

THRU: **Jarad Hildenbrand, City Manager**

FROM: **Leslie Hardy, Community and Library Services Director**

1. SUBJECT

Agreement with The HUB OC for youth and teen summer day camp services

2. SUMMARY

Following a competitive Request for Proposals process, staff are recommending the approval of an agreement with The Hub OC to provide Youth and Teen Summer Day Camp services.

3. RECOMMENDED ACTION

1. Approve the agreement with The HUB OC for Youth and Teen Summer Day Camp Services; and authorize the Mayor and City Clerk to execute on behalf of the City.
2. Authorize the City Manager to execute necessary renewals as outlined in the agreement.

4. FISCAL IMPACT

None.

5. STRATEGIC PLAN GOALS

Goal 3: Enhance Public Communication Strategy and Quality of Life

3.7: Continue to offer high quality and efficient city led recreation programs

6. DISCUSSION AND BACKGROUND

Background

For several decades, the City has offered youth and teen summer day camp programs at various park locations throughout Orange. The program was typically budgeted at $390,000 and included part time staff costs for approximately 45 seasonal staff, a full-time Recreation Coordinator, uniforms, and supplies. To address challenges resulting from the City's structural budget deficit, significant reductions were made to the Community Services Department budget including the cancellation of Summer Youth and Teen Day Camps. As an alternate day camp option for the Orange community, the City partnered with the previous after-school day care provider, Youth Centers of Orange under The HUB OC (The HUB) umbrella. The HUB was able to implement a comparable summer day camp for youth and teens at Shaffer Park at no cost to the City in summer 2025. The HUB served approximately 120 children daily, offering a safe, enriching, and affordable summer day camp.

Discussion

Given the current budget constraints, the City did not budget funds nor hire seasonal, part-time staff

to reinstate a summer day camp program for Summer 2026. Using the model from summer 2025, the City publicly advertised a Request for Proposals (RFP) in accordance with procurement requirements on November 20, 2025, to identify a qualified provider of Youth and Teen Summer Day Camp programming for the 2026 summer season. The RFP sought experienced organizations capable of delivering a safe, engaging, and recreation-based program for youth and teens while minimizing fiscal impacts to the City.

The deadline for submissions was December 18, 2025 and the City received seven (7) proposals in response to the RFP.

A review panel evaluated the proposals in accordance with the criteria set forth in the RFP which included the firm's experience, qualifications of the proposer team, and overall response to the RFP. These criteria accounted for a total of 65 possible points. Proposals receiving a minimum score of 70% (46 points or higher) advanced to the next phase of the evaluation. The second phase included an assessment of references (maximum of 10 points).

Based on the evaluation results, The HUB was identified as the highest-scoring proposer as they demonstrated a strong program model, relevant experience, and the operational capacity necessary to successfully deliver the requested services (Attachment 1). In addition, the HUB indicated they can provide the program at no cost to the City. As noted in the Cost Proposal, the City will provide in-kind use of the Shaffer Park community building to the contractor for the duration of the program implementation.

The RFP outlined that submissions should be for an initial one-year program term and associated costs but also requested that proposals include pre-negotiated optional extension term costs. The HUB's proposal extended their no cost offering across three (3) additional optional future year extensions (at the City's sole discretion). As such, staff is recommending that Council authorize the City Manager to execute optional renewals as outlined in the Agreement for a total potential agreement length of four (4) years, should all renewal extensions be exercised (Attachment 2).

In addition, the HUB indicated they can provide the program at no cost to the City. As noted in the Cost Proposal, the City will provide in-kind use of the Shaffer Park community building to the contractor for the duration of the program implementation.

The RFP outlined that submissions should be for an initial one-year program term and associated costs but also requested that proposals include pre-negotiated optional extension term costs. The HUB's proposal extended their no cost offering across three (3) additional optional future year extensions (at the City's sole discretion). As such, staff is recommending that Council authorize the City Manager to execute optional renewals as outlined in the Agreement for a total potential agreement length of four (4) years, should all renewal extensions be exercised (Attachment 2).

PROFESSIONAL SERVICES AGREEMENT
[Youth & Teen Summer Day Camp Provider Services]

THIS PROFESSIONAL SERVICES AGREEMENT (the "Agreement") is made at Orange, California, on this _____ day of _____, 2026 (the "Effective Date") by and between the CITY OF ORANGE, a municipal corporation ("City"), and THE HUB OC, a California nonprofit corporation ("Contractor"), who agree as follows:

1. Services. Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to the reasonable satisfaction of City the services set forth in Exhibit "A," which is attached hereto and incorporated herein by reference. As a material inducement to City to enter into this Agreement, Contractor represents and warrants that it has thoroughly investigated and considered the scope of services and fully understands the difficulties and restrictions in performing the work. The services which are the subject of this Agreement are not in the usual course of City's business and City relies on Contractor's representation that it is independently engaged in the business of providing such services and is experienced in performing the work. Contractor shall perform all services in a manner reasonably satisfactory to City and in a manner in conformance with the standards of quality normally observed by an entity providing such services to a municipal agency. All services provided shall conform to all federal, state and local laws, rules and regulations and to the best professional standards and practices. The terms and conditions set forth in this Agreement shall control over any terms and conditions in Exhibit "A" to the contrary.

Emily Bustamante, Assistant Community Services Director ("City's Project Manager"), shall be the person to whom Contractor will report for the performance of services hereunder. It is understood that Contractor's performance hereunder shall be under the supervision of City's Project Manager (or his/her designee), that Contractor shall coordinate its services hereunder with City's Project Manager to the extent required by City's Project Manager, and that all performances required hereunder by Contractor shall be performed to the satisfaction of City's Project Manager and the City Manager.

2. Compensation and Fees.

a. Contractor's total compensation for all services performed under this Agreement, shall not exceed ZERO DOLLARS and 00/100 ($0.00) without the prior written authorization of City.

b. The compensation for services performed under this Agreement shall be limited to in-kind use of Shaffer Park Community Building, as specified in Exhibit "B" which is attached hereto and incorporated herein by reference.

c. The above compensation shall include all costs, including, but not limited to, all clerical, administrative, overhead, insurance, reproduction, telephone, travel, auto rental, subsistence and all related expenses.

2.1 Term and Extension(s).

a. The Initial Term of this Agreement is one (1) year (the "Initial Term"), commencing April 1, 2026, and terminating on March 31, 2027 (the "Expiration Date"); provided, however, that City has the right to extend the term of this Agreement for the following extensions and upon the following terms:

First Extension (the "First Extension Term") commencing April 1, 2027, and terminating on March 31, 2028.

Second Extension (the "Second Extension Term") commencing April 1, 2028, and terminating on March 31, 2029.

Third Extension (the "Third Extension Term") commencing July 1, 2029, and terminating on March 31, 2030.

b. The City Manager is hereby authorized on behalf of City to give written notice to Contractor of City's intention to exercise each Extension (if at all) no later than thirty (30) days prior to the Expiration Date of the then-current term; provided, however, that City's notice of its intention to extend the term of this Agreement for each Extension shall be expressly conditioned upon and subject to the approval by the City Council, in its sole and absolute discretion, of an amount sufficient to pay the compensation set forth herein for each Extension as part of its annual budget approval process prior to the beginning of each Extension.

While the parties acknowledge that City is required to give its notice of intention to extend the term of this Agreement not later than thirty (30) days prior to the Expiration Date of the then-current term, it is possible that the City Council's approval of its annual budget and appropriation of funds for the Extension in question may occur thereafter. Accordingly, if the City Council fails to approve and appropriate funds sufficient to pay the amount of compensation set forth herein for an Extension, this Agreement shall terminate and be of no further force and effect as of the expiration of the then-current term.

Notwithstanding anything in this provision to the contrary, in the event City gives Contractor written notice exercising an Extension and City receives notice that appropriation of funds for the Extension in question are not available after Contractor has performed services under the Extension, City agrees that Contractor will be equitably compensated for all services performed under any portion of an Extension through the date of termination of the Agreement.

Except as specifically set forth herein, the terms and conditions of each Extension will be the same as the Initial Agreement.

c. Any Extension, if properly exercised, shall be memorialized in the form of an amendment to this Agreement. The City Manager is hereby authorized to approve and execute amendments to this Agreement reflecting the exercise of each Extension and the amount of compensation (including the amount of funds to be made available for additional work or services) payable to Contractor for each respective Extension.

3. Reserved.

4. Change Orders. No payment for extra services caused by a change in the scope or complexity of work, or for any other reason, shall be made unless and until such extra services and a price therefor have been previously authorized in writing and approved by City as an amendment to this Agreement. City's Project Manager is authorized to approve a reduction in the services to be performed and compensation therefor. All amendments shall set forth the changes of work, extension of time, and/or adjustment of the compensation to be paid by City to Contractor and shall be signed by the City's Project Manager, City Manager or City Council, as applicable.

5. Licenses. Contractor represents that it and any subcontractors it may engage, possess any and all licenses which are required under state or federal law to perform the work contemplated by this Agreement and that Contractor and its subcontractors shall maintain all appropriate licenses, including a City of Orange business license, at its cost, during the performance of this Agreement.

6. Independent Contractor. At all times during the term of this Agreement, Contractor shall be an independent contractor and not an employee of City. City shall have the right to control Contractor only insofar as the result of Contractor's services rendered pursuant to this Agreement. City shall not have the right to control the means by which Contractor accomplishes services rendered pursuant to this Agreement. Contractor shall, at its sole cost and expense, furnish all facilities, materials and equipment which may be required for furnishing services pursuant to this Agreement. Contractor shall be solely responsible for, and shall indemnify, defend and save City harmless from all matters relating to the payment of its subcontractors, agents and employees, including compliance with social security withholding and all other wages, salaries, benefits, taxes, exactions, and regulations of any nature whatsoever. Contractor acknowledges that it and any subcontractors, agents or employees employed by Contractor shall not, under any circumstances, be considered employees of City, and that they shall not be entitled to any of the benefits or rights afforded employees of City, including, but not limited to, sick leave, vacation leave, holiday pay, Public Employees Retirement System benefits, or health, life, dental, long-term disability or workers' compensation insurance benefits.

7. Contractor Not Agent. Except as City may specify in writing, Contractor shall have no authority, express or implied, to act on behalf of City in any capacity whatsoever as an agent. Contractor shall have no authority, express or implied, to bind City to any obligation whatsoever.

8. Designated Persons. Only those qualified persons authorized by City's Project Manager, or as designated in Exhibit "A," shall perform work provided for under this Agreement. It is understood by the parties that clerical and other nonprofessional work may be performed by persons other than those designated.

9. Assignment or Subcontracting. No assignment or subcontracting by Contractor of any part of this Agreement or of funds to be received under this Agreement shall be of any force or effect unless the assignment has the prior written approval of City. City may terminate this

Agreement rather than accept any proposed assignment or subcontracting. Such assignment or subcontracting may be approved by the City Manager or his/her designee.

10. **Time of Completion**. Except as otherwise specified in Exhibit "A," Contractor shall commence the work provided for in this Agreement within five (5) days of the Effective Date of this Agreement and diligently prosecute completion of the work in accordance with the time period set forth in Exhibit "A" hereto or as otherwise agreed to by and between the representatives of the parties.

11. **Time Is of the Essence**. Time is of the essence in this Agreement. Contractor shall do all things necessary and incidental to the prosecution of Contractor's work.

12. **Reserved**.

13. **Delays and Extensions of Time**. Contractor's sole remedy for delays outside its control, other than those delays caused by City, shall be an extension of time. No matter what the cause of the delay, Contractor must document any delay and request an extension of time in writing at the time of the delay to the satisfaction of City. Any extensions granted shall be limited to the length of the delay outside Contractor's control. If Contractor believes that delays caused by City will cause it to incur additional costs, it must specify, in writing, why the delay has caused additional costs to be incurred and the exact amount of such cost at the time the delay occurs. No additional costs can be paid that exceed the not to exceed amount stated in Section 2.a, above, absent a written amendment to this Agreement.

14. **Products of Contractor**. The documents, studies, evaluations, assessments, reports, plans, citations, materials, manuals, technical data, logs, files, designs and other products produced or provided by Contractor for this Agreement shall become the property of City upon receipt. Contractor shall deliver all such products to City prior to payment for same. City may use, reuse or otherwise utilize such products without restriction.

15. **Equal Employment Opportunity**. During the performance of this Agreement, Contractor agrees as follows:

a. Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, mental or physical disability, or any other basis prohibited by applicable law. Contractor shall ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, mental or physical disability, or any other basis prohibited by applicable law. Such actions shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training, including apprenticeship. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, a notice setting forth provisions of this non-discrimination clause.

b. Contractor shall, in all solicitations and advertisements for employees placed by, or on behalf of Contractor, state that all qualified applicants will receive consideration

for employment without regard to race, color, religion, sex, national origin, mental or physical disability, or any other basis prohibited by applicable law.

c. Contractor shall cause the foregoing paragraphs (a) and (b) to be inserted in all subcontracts for any work covered by this Agreement, provided that the foregoing provisions shall not apply to subcontracts for standard commercial supplies or raw materials.

16. Conflicts of Interest. Contractor agrees that it shall not make, participate in the making, or in any way attempt to use its position as a consultant to influence any decision of City in which Contractor knows or has reason to know that Contractor, its officers, partners, or employees have a financial interest as defined in Section 87103 of the Government Code.

17. Indemnity.

a. To the fullest extent permitted by law, Contractor agrees to indemnify, defend and hold City, its City Council and each member thereof, and the officers, officials, agents and employees of City (collectively the "Indemnitees") entirely harmless from all liability arising out of:

(1) Any and all claims under workers' compensation acts and other employee benefit acts with respect to Contractor's employees or Contractor's subcontractor's employees arising out of Contractor's work under this Agreement, including any and all claims under any law pertaining to Contractor or its employees' status as an independent contractor and any and all claims under Labor Code section 1720 related to the payment of prevailing wages for public works projects; and

(2) Any claim, loss, injury to or death of persons or damage to property caused by any act, neglect, default, or omission of Contractor, or person, firm or corporation employed by Contractor, either directly or by independent contract, including all damages due to loss or theft sustained by any person, firm or corporation including the Indemnitees, or any of them, arising out of, or in any way connected with the work or services which are the subject of this Agreement, including injury or damage either on or off City's property; but not for any loss, injury, death or damage caused by the active negligence or willful misconduct of City. Contractor, at its own expense, cost and risk, shall indemnify any and all claims, actions, suits or other proceedings that may be brought or instituted against the Indemnitees on any such claim or liability covered by this subparagraph, and shall pay or satisfy any judgment that may be rendered against the Indemnitees, or any of them, in any action, suit or other proceedings as a result of coverage under this subparagraph.

b. To the fullest extent permitted by law, and as limited by California Civil Code 2782.8, Contractor agrees to indemnify and hold Indemnitees harmless from all liability arising out of any claim, loss, injury to or death of persons or damage to property to the extent caused by its negligent professional act or omission in the performance of professional services pursuant to this Agreement.

c. Except for the Indemnitees, the indemnifications provided in this Agreement shall not be construed to extend any third party indemnification rights of any kind to any person or entity which is not a signatory to this Agreement.

d. The indemnities set forth in this section shall survive any closing, rescission, or termination of this Agreement, and shall continue to be binding and in full force and effect in perpetuity with respect to Contractor and its successors.

18. Insurance.

a. Contractor shall carry workers' compensation insurance as required by law for the protection of its employees during the progress of the work. Contractor understands that it is an independent contractor and not entitled to any workers' compensation benefits under any City program.

b. Contractor shall maintain during the life of this Agreement the following minimum amount of comprehensive general liability insurance or commercial general liability insurance: the greater of Two Million Dollars ($2,000,000) per occurrence; or (2) all the insurance coverage and/or limits carried by or available to Contractor. Said insurance shall cover bodily injury, death and property damage and be written on an occurrence basis.

c. Contractor shall maintain during the life of this Agreement, the following minimum amount of automotive liability insurance: the greater of (1) a combined single limit of One Million Dollars ($1,000,000) or (2) all the insurance coverage and/or limits carried by or available to Contractor. Said insurance shall cover bodily injury, death and property damage for all owned, non-owned and hired vehicles and be written on an occurrence basis.

d. Any insurance proceeds in excess of or broader than the minimum required coverage and/or minimum required limits which are applicable to a given loss shall be available to City. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Contractor under this Agreement.

e. Each policy of general liability and automotive liability shall provide that City, its officers, officials, agents, and employees are declared to be additional insureds under the terms of the policy, but only with respect to the work performed by Contractor under this Agreement. A policy endorsement to that effect shall be provided to City along with the certificate of insurance. In lieu of an endorsement, City will accept a copy of the policy(ies) which evidences that City is an additional insured as a contracting party. The minimum coverage required by Subsection 18.b and c, above, shall apply to City as an additional insured. Any umbrella liability insurance that is provided as part of the general or automobile liability minimums set forth herein shall be maintained for the duration of the Agreement.

f. Contractor shall maintain during the life of this Agreement professional liability insurance covering errors and omissions arising out of the performance of this Agreement with a minimum limit of One Million Dollars ($1,000,000) per claim. Contractor agrees to keep

such policy in force and effect for at least five (5) years from the date of completion of this Agreement.

g. The insurance policies maintained by Contractor shall be primary insurance and no insurance held or owned by City shall be called upon to cover any loss under the policy. Contractor will determine its own needs in procurement of insurance to cover liabilities other than as stated above.

h. Before Contractor performs any work or prepares or delivers any materials, Contractor shall furnish certificates of insurance and endorsements, as required by City, evidencing the aforementioned minimum insurance coverages on forms acceptable to City, which shall provide that the insurance in force will not be canceled or allowed to lapse without at least ten (10) days' prior written notice to City.

i. Except for professional liability insurance coverage that may be required by this Agreement, all insurance maintained by Contractor shall be issued by companies admitted to conduct the pertinent line of insurance business in California and having a rating of Grade A or better and Class VII or better by the latest edition of Best Key Rating Guide. In the case of professional liability insurance coverage, such coverage shall be issued by companies either licensed or admitted to conduct business in California so long as such insurer possesses the aforementioned Best rating.

j Contractor shall immediately notify City if any required insurance lapses or is otherwise modified and cease performance of this Agreement unless otherwise directed by City. In such a case, City may procure insurance or self-insure the risk and charge Contractor for such costs and any and all damages resulting therefrom, by way of set-off from any sums owed Contractor.

k. Contractor agrees that in the event of loss due to any of the perils for which it has agreed to provide insurance, Contractor shall look solely to its insurance for recovery. Contractor hereby grants to City, on behalf of any insurer providing insurance to either Contractor or City with respect to the services of Contractor herein, a waiver of any right to subrogation which any such insurer may acquire against City by virtue of the payment of any loss under such insurance.

l. Contractor shall include all subcontractors, if any, as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor to City for review and approval. All coverages for subcontractors shall be subject to all of the requirements stated herein.

m. Contractor shall maintain during the life of this Agreement insurance covering Sexual Abuse and Molestation arising out of the performance of this Agreement with a minimum limit of One Million Dollars ($1,000,000) per occurrence and One Million Dollars ($1,000,000) in the aggregate for sexual abuse and molestation insurance that shall protect the Contractor and the City from any and all claims of any nature for damages related to sexual abuse and molestation arising from performing any portion of the Services by Contractor. A separate additional

insured endorsement shall be provided to include the City and its officers, officials, employees, agents, and volunteers as additional insured in the policy.

19. Termination. City may for any reason terminate this Agreement by giving Contractor not less than five (5) days' written notice of intent to terminate. Upon receipt of such notice, Contractor shall immediately cease work, unless the notice from City provides otherwise. Upon the termination of this Agreement, City shall pay Contractor for services satisfactorily provided and all allowable reimbursements incurred to the date of termination in compliance with this Agreement, unless termination by City shall be for cause, in which event City may withhold any disputed compensation. City shall not be liable for any claim of lost profits.

20. Maintenance and Inspection of Records. In accordance with generally accepted accounting principles, Contractor and its subcontractors shall maintain reasonably full and complete books, documents, papers, accounting records, and other information (collectively, the "records") pertaining to the costs of and completion of services performed under this Agreement. City and its authorized representatives shall have access to and the right to audit and reproduce any of Contractor's records regarding the services provided under this Agreement. Contractor shall maintain all such records for a period of at least three (3) years after termination or completion of this Agreement. Contractor agrees to make available all such records for inspection or audit at its offices during normal business hours and upon three (3) days' notice from City, and copies thereof shall be furnished if requested.

21. Compliance with all Laws/Immigration Laws.

a. Contractor shall be knowledgeable of and comply with all local, state and federal laws which may apply to the performance of this Agreement.

b. If the work provided for in this Agreement constitutes a "public works," as that term is defined in Section 1720 of the California Labor Code, for which prevailing wages must be paid, to the extent Contractor's employees will perform any work that falls within any of the classifications for which the Department of Labor Relations of the State of California promulgates prevailing wage determinations, Contractor hereby agrees that it, and any subcontractor under it, shall pay not less than the specified prevailing rates of wages to all such workers. The general prevailing wage determinations for crafts can be located on the website of the Department of Industrial Relations (www.dir.ca.gov/DLSR). Additionally, to perform work under this Contract, Contractor must meet all State registration requirements and criteria, including project compliance monitoring.

c. Contractor represents and warrants that it:

(1) Has complied and shall at all times during the term of this Agreement comply, in all respects, with all immigration laws, regulations, statutes, rules, codes, and orders, including, without limitation, the Immigration Reform and Control Act of 1986 (IRCA); and

(2) Has not and will not knowingly employ any individual to perform services under this Agreement who is ineligible to work in the United States or under the terms of this Agreement; and

(3) Has properly maintained, and shall at all times during the term of this Agreement properly maintain, all related employment documentation records including, without limitation, the completion and maintenance of the Form I-9 for each of Contractor's employees; and

(4) Has responded, and shall at all times during the term of this Agreement respond, in a timely fashion to any government inspection requests relating to immigration law compliance and/or Form I-9 compliance and/or worksite enforcement by the Department of Homeland Security, the Department of Labor, or the Social Security Administration.

d. Contractor shall require all subcontractors or subconsultants to make the same representations and warranties as set forth in Subsection 21.c.

e. Contractor shall, upon request of City, provide a list of all employees working under this Agreement and shall provide, to the reasonable satisfaction of City, verification that all such employees are eligible to work in the United States. All costs associated with such verification shall be borne by Contractor. Once such request has been made, Contractor may not change employees working under this Agreement without written notice to City, accompanied by the verification required herein for such employees.

f. Contractor shall require all subcontractors or sub-consultants to make the same verification as set forth in Subsection 21.e.

g. If Contractor or subcontractor knowingly employs an employee providing work under this Agreement who is not authorized to work in the United States, and/or fails to follow federal laws to determine the status of such employee, that shall constitute a material breach of this Agreement and may be cause for immediate termination of this Agreement by City.

h. Contractor agrees to indemnify and hold City, its officers, officials, agents and employees harmless for, of and from any loss, including but not limited to fines, penalties and corrective measures City may sustain by reason of Contractor's failure to comply with said laws, rules and regulations in connection with the performance of this Agreement.

22. **Governing Law and Venue**. This Agreement shall be construed in accordance with and governed by the laws of the State of California and Contractor agrees to submit to the jurisdiction of California courts. Venue for any dispute arising under this Agreement shall be in Orange County, California.

23. **Integration**. This Agreement constitutes the entire agreement of the parties. No other agreement, oral or written, pertaining to the work to be performed under this Agreement shall be of any force or effect unless it is in writing and signed by both parties. Any work performed

which is inconsistent with or in violation of the provisions of this Agreement shall not be compensated.

24. **Notice**. Except as otherwise provided herein, all notices required under this Agreement shall be in writing and delivered personally, by e-mail, or by first class U.S. mail, postage prepaid, to each party at the address listed below. Either party may change the notice address by notifying the other party in writing. Notices shall be deemed received upon receipt of same or within three (3) days of deposit in the U.S. Mail, whichever is earlier. Notices sent by e-mail shall be deemed received on the date of the e-mail transmission.

YOUTH CENTERS of orange

YOUTH & TEEN SUMMER DAY CAMP PROVIDER

REQUEST FOR PROPOSAL (RFP)

NO. 25-26.11

THE Hub OC

Cover Letter

Dear Members of the Selection Committee,

On behalf of The Hub OC and the Youth Centers of Orange, thank you for the opportunity to submit this proposal to partner with the City of Orange in providing summer camp programming for the children and teens of our community.

At its core, our work has always been about more than child care. We believe summer camp should be a place where young people are safe, supported, challenged, and inspired. A place where children can explore new interests, build confidence, form meaningful relationships, and experience the joy of belonging. Our goal is to create environments that serve as a launchpad for growth, helping students become more confident, compassionate, and engaged members of their community.

The Youth Centers of Orange was created here, in the City of Orange, for the families who live here. From the beginning, our programs have been shaped by the values, relationships, and needs of this city. Because we have grown alongside Orange and in partnership with the City, Orange Unified School District, and local organizations, our programs reflect what makes this community special: a strong sense of connection, shared responsibility, and care for one another. This hyper-local foundation allows us to operate not just as a service provider, but as a true community partner.

We believe that summer camp is a powerful opportunity to help students discover who they are and who they can become. Through engaging activities, enrichment, leadership development, and opportunities to give back, students are encouraged to be courageous, to try new things, and to grow in confidence. Just as importantly, they learn how to care for others, work as part of a team, and see themselves as contributing members of their city. Our programs are intentionally designed to be equitable and inclusive, bringing together students from different backgrounds and experiences and reinforcing the belief that we all belong and we all have something valuable to offer.

This same philosophy extends to our staff and partners. We are committed to building teams who lead with integrity, compassion, and professionalism, and who model the values we hope to instill in our students. By creating consistent, relationship-driven environments, we ensure that children and teens feel known, supported, and excited to show up each day.

We are honored to submit this proposal and to share not only how we would operate a summer camp program, but why this work matters so deeply to us. We look forward to the opportunity to continue serving the City of Orange and to help create a summer experience that reflects the heart, values, and community spirit of this city.

Thank you for your consideration.

With gratitude,

Holiday Zimmerman
Chief Executive Officer

VII. Appendix C

a) Summer Camp Marketing & Registration Timeline

b) Examples of Media and Outreach from Summer 2025

Firm Information

1. **Legal name:** The Hub OC
2. **Type of organization:** Non-profit 501(c)3 and fiscal sponsor to Youth Centers of Orange (YCO)
3. **Number of employees:** 50 employees
4. **Business address:** 1439 West Chapman Ave. Ste. 196 Orange, CA 92868
5. **Years in operation:** 8.5 years

6. **Description of the firm's experience in youth, teen, or recreation programming:**

The Youth Centers of Orange ("YCO"), is a subsidiary of the parent organization and fiscal sponsor Hub OC, a family of programs that empower, encourage and support change for individuals, families, and communities. The Youth Centers of Orange (YCO), seeks to create a better tomorrow for youth in the city of Orange by providing mentoring, community engagement opportunities, enriching activities, and leadership and life skills development for the youth of today.

The Youth Center was originally located in historic Old Towne Orange, which has a rich history of youth development at the YMCA and YWCA since the 1940's and where YCO has operated until only just recently. In April of 2017, the youth center opened their doors to hundreds of eager youth and families. Originally established as the Old Towne Boys & Girls Club in 2017, the youth center opened in partnership with the Tustin Club, which had been running programs at Handy Park since 2013. Then, in 2018, the Youth Centers of Orange was born, and became an independent after school program serving the youth and families of Orange. By being Orange-centered, "For Orange, By Orange, In Orange," YCO is ensuring this resource will be sustained for future generations. In June 2020, The Hub OC was able to come alongside the YCO as a fiscal sponsor to help it continue to grow and serve the families and youth of Orange.

(Firm experience continued)

YCO currently serves 350 students ages 5-13 on a daily basis with more than 500 unique children served over the course of the calendar year. YCO offers a sweeping range of enriching programming that includes art, music, sports, outdoor recreation, tutoring, structured and unstructured play. Within all areas of the program, students learn interpersonal skills, teamwork, and to respect themselves and others. Because the parents of most of our youth work long hours, these out-of-school enrichment opportunities are critical to our youth. Many do not have an adult to greet them at home after school, to play with them, ask about their day or help them with their homework. YCO fills this gap for youth, as well as for their working parents.

The Youth Centers of Orange is a female-led nonprofit, with two women filling the executive level roles of CEO and HUB Program Director. The extended leadership team includes two Hispanic staff members serving as Director of The Youth Centers of Orange and YCO Director of Programming. Employees report to a Director, the Directors report to the HUB Director of Programs, the HUB Director of Programs reports to the CEO, the CEO reports to the board of directors. Between the CEO, HUB Program Director, Director of the YCO, and YCO Director of Programming, the staff bring 71+ collective years of experience providing structured programming and training in social work and education. From the beginning, YCO has been a strong, trusted partner with the City of Orange and Orange Unified School District.

After starting a sports-based ELOP program bringing targeted enrichment to students, the YCO has expanded to now serve five schools with 14 enrichment programs ranging from tutoring, sports, art, STEM, gaming, anime, and more. In the Fall of 2022, YCO won the Orange Chamber of Commerce's "Nonprofit of the Year" award for providing a safe place for youth ages five and up, among other services.

Program Proposal

1. Description of proposed camp model, themes, activities, and daily structure.

The Youth Centers of Orange, fiscally sponsored by The Hub OC, proposes a full-day summer camp program that will provide a safe, inclusive, and enriching day camp environment for over 200 youth and teen participants across the City of Orange. The program is designed to meet all City requirements, including appropriate staffing ratios, required certifications, training, background checks, and consistent communication and reporting with City staff throughout the contract term. Built on a proven, rotation-based camp model that balances active play, creative enrichment, and relationship-building, this approach has been successfully implemented through prior collaboration with the City of Orange and Orange Unified School District, including the successful operation of the City's summer camp program in the previous year.

Campers are grouped by age to ensure activities are developmentally appropriate while still fostering a strong sense of community across the full camp. Younger and older groups rotate through activities at different paces, allowing staff to tailor instruction, games, and expectations while maintaining a unified camp experience. Programming is organized around weekly themes that unify games, crafts, challenges, and special activities. Camp themes will be released as part of the program's marketing and outreach efforts and will remain to be determined until that time. Theme development will be informed by feedback from families who participated in the previous summer program, along with new ideas designed to keep programming fresh, creative, and engaging for returning and new campers alike. While themes may vary from year to year, each week is fully planned in advance and integrated consistently throughout the daily schedule.

Daily activities are intentionally balanced to keep students active, engaged, and supported. Each day includes large-group games that promote teamwork and physical activity, small-group rotation stations offering arts and crafts, structured games, STEM-style challenges, and enrichment activities, as well as supervised choice-based time that allows students to participate in board games, card games, and guided free-play options within clear expectations. Weekly field trips are incorporated to provide students with enriching off-site experiences and serve as

highlights of the summer program. Camp operates from 7:00 a.m. to 6:00 p.m Monday through Friday with field trips on Wednesdays, providing families with reliable, full-day care. Each day follows a predictable rhythm that supports smooth transitions and positive behavior. Mornings begin with open arrival, followed by a camp meeting where expectations are set, themes are introduced, and students connect with staff and peers. The remainder of the day alternates between group games, rotation blocks, meals, open club time, and afternoon programming, concluding with supervised end-of-day activities and structured cleanup and dismissal. Families will be asked to provide lunch for their children each day. A daily snack will be provided by the program, and students will have consistent access to water throughout the day. In addition, the program will maintain a small reserve of lunches to support students whose families may be unable to provide a meal on a given day. These reserve meals will be made available through the program's existing partnership with Second Harvest, ensuring that all students are supported and able to fully participate in camp.

Primary camp operations will be based at Shaffer Park, consistent with the previous summer's successful programming. The YCO will provide all necessary staffing, equipment, and program supplies required to operate the camp safely and effectively at this location. Friends Church will continue to serve as a secondary site for specialty programming, special gatherings, or targeted experiences such as teen-focused activities, with staffing and materials provided by the YCO as needed. Unlike the prior year, field trips will depart directly from Shaffer Park, allowing for more streamlined supervision and logistics. Friends Church will be reserved for intentional program use rather than serving as a primary field trip staging location. At all program sites, YCO staff will ensure daily cleanup of all utilized areas and the proper storage of materials and equipment at the end of each day, maintaining clean, organized, and respectful use of City and partner facilities. This camp model emphasizes consistency, creativity, and care, ensuring that students experience a safe, engaging, and well-organized summer environment while families receive dependable, high-quality child care.

The Youth Centers of Orange regularly leverages long-standing relationships within the City to create unique and meaningful experiences for students. Through ongoing partnerships with the Orange Police Department and Orange Fire Department, officers and firefighters regularly visit

programs to play games, participate in activities, and build positive, trust-based relationships with students. These connections, developed over several years, help foster mutual respect and community pride. In addition, partnerships with organizations such as the Elks Lodge, the Orange Community Foundation, Assistance League, and other local partners allow the program to offer special activities, events, and enrichment opportunities that reflect the strength of community collaboration in the City of Orange.

Teen Program Overview

The Youth Centers of Orange will offer a dedicated teen program designed to build leadership skills, strengthen relationships, and provide meaningful enrichment experiences for older youth. Building on the success of last year's highly effective teen program, this model creates a structured yet engaging environment where teens are encouraged to grow as leaders while still enjoying a fun and social camp experience. Programming is intentionally designed to support mentorship, leadership development, values-based decision-making, and positive peer relationships, all led by a highly trained staff team with extensive experience working with teens.

Teen programming balances structured activities with appropriately supervised unstructured time, allowing students to relax, connect with peers, and build community in a healthy way. Activities include team-building challenges, organized games, arts and crafts, STEM-style projects, and special group experiences designed specifically for teens. In addition, the program incorporates service and giving-back opportunities, including supporting younger campers, leading games and activities, and participating in community-based service projects such as cleanups and other hands-on initiatives. This approach encourages responsibility, confidence, and a sense of contribution while keeping teens active, engaged, and off their phones.

The teen program is designed to be highly relational, active, and purpose-driven, ensuring that participants experience a summer that is both enjoyable and impactful. Through consistent staff support, intentional programming, and opportunities for leadership and service, teens are provided with a positive space to grow, connect, and contribute to their community.

2. Staffing plan and training approach.

The summer camp program will be overseen by a Camp Director who is responsible for overall program operations, staff supervision, family communication, and coordination with City partners. The Camp Director provides consistent on-site leadership, ensures program quality and safety, and serves as the primary point of contact for daily operations and decision-making.

Supporting the Camp Director will be Program Coordinators, who manage daily schedules, activity rotations, materials, and student group organization. Coordinators play a key role in maintaining smooth transitions, supporting program staff, and ensuring that activities are delivered consistently and in an age-appropriate manner. They also assist with behavior support, staff coaching, and real-time problem solving throughout the day.

Program Staff are responsible for directly supervising students and facilitating daily activities, including group games, rotation stations, enrichment activities, and open club time. Whenever possible, staff are assigned to consistent groups to promote relationship-building, stability, and a positive camp culture. Staffing levels are structured to maintain appropriate supervision ratios at all times in alignment with state guidelines and best practice standards, including a 1:20 staff-to-student ratio for general programming and a more supportive 1:10 ratio for kindergarten-aged students. These ratios are maintained during all aspects of the camp day, including outdoor activities, meals, transitions, and field trips, to ensure consistent supervision and student safety. The teen camp will operate under the same staffing framework and quality standards. The teen camp will be overseen by a dedicated Camp Director, supported by Program Coordinators and Program Staff, to ensure age-appropriate programming, supervision, and engagement for older youth. This parallel leadership structure allows for intentional programming while maintaining consistency across the overall summer camp experience.

All staff members are background checked and livescanned and participate in a comprehensive pre-camp training process prior to the start of the summer program. Required training includes mandated reporter training, CPR and First Aid certification, food safety training, and all standard childcare and youth supervision requirements. Staff are also trained on camp policies and

procedures, behavior management strategies, emergency and safety protocols, professional conduct expectations, and the daily rotation-based program model. Staff recruitment and hiring prioritize individuals who are committed to youth development and interested in long-term work with children, including those pursuing careers in education, psychology, coaching, and related fields. The Youth Centers of Orange actively recruits through community partnerships and higher education institutions, including Chapman University, Santiago Canyon College, and other local programs, working directly with academic departments to identify candidates seeking meaningful summer employment working with youth.

The program also partners with individuals currently working within the Orange Unified School District academic environment to supplement summer staffing, ensuring strong alignment with school-year expectations and student needs. In addition, YCO intentionally leverages its full-time and school-year staff during the summer months, creating continuity for students who are already familiar with program leaders and staff.

The Youth Centers of Orange maintains a high staff retention rate, with more than 60% of summer staff returning from school-year programming. This continuity allows the program to operate with experienced team members who are already familiar with program operations, safety expectations, and the organization's values and approach to serving students and families. This consistent staffing model strengthens relationships, improves program quality, and ensures a stable and supportive environment for students year after year.

Training and support continue throughout the summer through on-site coaching, daily check-ins, and regular staff meetings. This ongoing approach allows leadership to address challenges in real time, reinforce expectations, and provide additional guidance as needed, ensuring consistency, accountability, and high-quality care throughout the program. This staffing and training model prioritizes student safety, staff preparedness, and program quality, while creating a supportive environment where children and youth feel known, supported, and engaged each day.

3. Key personnel assigned to the program, including program lead.

Joanna Fermin: Director, Youth Centers of Orange

Joanna Fermin serves as the Director overseeing all Youth Centers of Orange programs and brings more than a decade of experience working directly with elementary-age students in both classroom and out-of-school-time settings. She has worked with students since 2014 and has been part of the Youth Centers of Orange team since 2017, providing consistent leadership and program oversight across multiple sites and initiatives. Joanna holds a Master's degree in Special Education from Chapman University and has extensive experience supporting students with diverse learning needs. Her background in special education informs her leadership approach, ensuring that programs are inclusive, structured, and responsive to a wide range of student abilities and behavioral needs.

In her current role, Joanna oversees programming at approximately five elementary school sites, managing more than a dozen individual programs each semester and supporting services for over 400 students during a typical program cycle. Her responsibilities include staff supervision, program design and implementation, safety oversight, and coordination with school and community partners.

In addition to her professional training, Joanna brings a strong cultural competency to her work. Drawing from her own lived experience and deep understanding of the communities served, she is able to build trust with families, connect meaningfully with students, and design programs that reflect the cultural realities and needs of the families YCO serves. This perspective strengthens family engagement and ensures programming is both relevant and supportive. Joanna's combination of educational expertise, operational leadership, and relational approach makes her a key leader in delivering high-quality, safe, and impactful youth programming, including large-scale summer camp operations.

Lauren Bethencourt: Sports Coordinator, Youth Centers of Orange

Lauren Bethencourt serves as the Sports Coordinator for the Youth Centers of Orange and brings nearly a decade of experience working with children through coaching, physical education, and youth development programming. She has been working with students since 2016 and holds an academic background in Kinesiology, Coaching, and Education, which informs both her instructional approach and curriculum development. Lauren has over eight years of coaching experience, during which she has developed a strong foundation in relationship-building, youth motivation, discipline, and team development. Her coaching background has shaped her ability to create positive group culture, encourage participation from students of all skill levels, and support social-emotional growth alongside physical development.

In her current role with YCO, Lauren leads sports programming at Palmyra Elementary and is responsible for building and implementing sports curriculum that emphasizes inclusion, teamwork, and confidence-building. She works directly with students throughout the day and is highly relationship-oriented, focusing on helping students feel seen, supported, and capable regardless of prior athletic experience. Lauren played a key role in the growth and expansion of YCO's sports programming. What began as a small after-school offering serving approximately 10–11 students has grown under her leadership into a robust program serving over 200 students daily at Palmyra Elementary, with sports programming expanding to additional school sites. This growth reflects her ability to design engaging curriculum, build trust with students and families, and scale programming while maintaining quality and consistency.

Drawing from her experience as both an athlete and a coach, Lauren integrates team-based learning, discipline, time management, and collaboration into her programming. She emphasizes that sports serve not only as physical activity, but as a vehicle for teaching life skills, leadership, and perseverance. Her curriculum and leadership play a key role in creating safe, engaging, and developmentally appropriate programming for students during both the school year and summer camp.

Edgar Garnica: Program Director, Youth Centers of Orange

Edgar Garnica brings more than 16 years of experience in youth development, program coordination, and site leadership, making him a foundational leader within the Youth Centers of Orange. Over the course of his career, Edgar has supported generations of students, watching children grow into young adults and, in many cases, return to youth service as mentors and leaders themselves as a direct result of his influence. Edgar has served as a mentor to hundreds of students, providing consistent guidance, encouragement, and structure throughout their formative years. He is widely known for his deep personal investment in the children and families he serves. Edgar regularly shows up for students beyond program hours, attending baseball games, spelling bees, school performances, and community events, reinforcing trust and connection with both students and families.

Professionally, Edgar is highly skilled in youth supervision, activity facilitation, behavior management, and program operations. He is an experienced leader of large groups and is equally effective working one-on-one with students and families navigating challenging circumstances. His ability to balance structure with compassion allows him to manage environments while still ensuring that individual children feel seen and supported.

Edgar currently plays a key leadership role at Palmyra Elementary, helping oversee programming for more than 200 students each day. He leads morning programming and multiple ELOP clubs, including sports programming and run club, and supports staff across programs through coaching, training, and mentorship. He is also experienced in overseeing large-scale field trips, ensuring student safety, clear supervision, and smooth operations at all times. What sets Edgar apart is his ability to bring joy, stability, and trust into youth spaces. His presence creates environments where students feel safe, staff feel supported, and families feel confident in the care their children receive. Edgar continues to mentor and develop staff, helping grow the next generation of youth professionals within the Youth Centers of Orange.

Kenna "KP" Pettaway: Director, Youth Centers of Orange

Kenna "KP" Pettaway brings more than 10 years of experience working with youth across elementary, middle school, high school, and teen populations. Since 2012, he has served students through mentorship, coaching, teaching, and program leadership, building strong relationships grounded in trust, consistency, and personal growth. KP's background includes work in student safety and campus support in a high school setting, where he focused on maintaining safe environments while serving as a trusted mentor to students. He has also supported computer literacy instruction, helping students build practical skills, and has led enrichment activities including sports, music, and group-based learning.

Throughout his career, KP has led large-scale youth programs and events, including supervising groups of up to 80 students at off-site camps and experiences and supporting events serving hundreds of students. These roles required detailed planning, logistics coordination, supervision, and risk management comparable to large-scale camp and field trip operations. KP joined the Youth Centers of Orange as a Sports Coordinator, where he successfully launched and scaled a new sports program at a school new to YCO. What began as a program serving five students grew within a year to 25 students, and has since expanded to 40 students, with waitlists reflecting strong family and student engagement. In addition to sports programming, KP has supported the development and expansion of ELOP enrichment programs, building relationships across elementary, middle, and high schools to support long-term student engagement. He also designed and led the Youth Centers of Orange's first teen summer camp program, which was highly successful and generated interest from additional school partners.

KP's leadership is defined by his ability to connect with students, manage complex programs, and build trust with families and staff. His experience in mentorship, safety-focused environments, and program development makes him a strong leader within the Youth Centers of Orange and a valuable asset to the summer camp program.

4. Subcontractors/subconsultants intended to be utilized as a part of the program.

The Hub OC and the Youth Centers of Orange will not utilize subcontractors for the operation or delivery of the summer camp program. All core programming, supervision, and daily operations will be led and managed directly by Hub OC/YCO staff to ensure consistency, accountability, and alignment with program standards. From time to time, the program may host special guest activities led by volunteer individuals or community organizations who offer unique skills or experiences that enhance the camp experience. These activities are not part of ongoing service agreements and are not subcontracted services. Instead, they are one-time or occasional enrichment opportunities designed to expose students to new experiences and community resources.

Examples may include volunteer-led activity days such as animal education experiences, arts demonstrations, sports clinics, or special interest workshops. These opportunities are dependent on availability and community partnerships and are offered as supplemental programming rather than core camp services. All guest activities are supervised by the Hub OC/YCO staff and held to the same safety and behavioral expectations as regular camp programming. This approach allows the program to maintain full operational control while also creating opportunities for meaningful community engagement and unique learning experiences for students.

5. Safety and supervision plan

The safety and well-being of all participants is a core priority of the summer camp program. The Hub OC, fiscal sponsor to the Youth Centers of Orange, maintains clear safety protocols, strong supervision practices, and consistent staff oversight to ensure a safe, structured, and supportive environment for every child. Students are supervised at all times by trained staff, with clear staff-to-student ratios maintained throughout the day, including during outdoor play, activity rotations, meals, transitions, and field trips. Camp spaces are intentionally organized to allow for clear lines of sight, controlled movement, and effective supervision. Staff are assigned to consistent student groups whenever possible to promote familiarity, accountability, and strong relationships. Daily operations follow a predictable schedule that supports safety and reduces

behavioral challenges. Transitions between activities are structured and led by staff, with clear expectations communicated to students. Attendance is tracked throughout the day, including during arrivals, departures, transitions, and off-site activities, to ensure accurate accountability at all times.

All staff are trained in mandated reporter responsibilities, CPR and First Aid, food safety, and standard youth supervision and childcare requirements. The Youth Centers of Orange maintains clear and consistent procedures for emergency response, injury and incident reporting, and weather-related contingencies to ensure the safety of all participants at all times. These procedures align with City requirements and best practice standards for youth programming. Each program location operates under a site-specific disaster preparedness plan. Once final camp locations are confirmed, detailed emergency and evacuation plans will be reviewed and implemented for each site. If Shaffer Park and Friends Church are approved as program locations, the YCO has established disaster readiness plans already in place for both environments, which will be reviewed with staff prior to the start of camp.

The program utilizes a structured injury and incident reporting process, managed through its digital family management platform. This system allows staff to document incidents in real time and ensures that parents and guardians are notified as promptly as possible. Incident reports are tracked internally to support follow-up, communication, and ongoing safety oversight. Clear emergency procedures are in place and reviewed with staff during pre-camp training. Staff are trained on appropriate response protocols, communication procedures, and escalation processes to ensure student safety and timely coordination with leadership and emergency services if needed. The program also maintains weather contingency plans to ensure continuity of programming and safety during changing conditions. Daily schedules are designed to be flexible, allowing programming to shift indoors or adjust activities as needed in response to heat, rain, or other weather-related concerns. Field trips and outdoor activities include backup plans to ensure student safety while maintaining a positive camp experience.

To support on-site and off-site safety, first aid kits and safety supplies are available at all times. During field trips, designated safety backpacks remain with program coordinators and staff. Multiple backpacks are assigned per group to ensure that necessary supplies, emergency

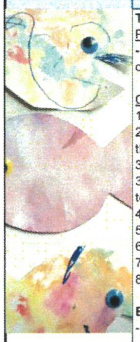
information, and first aid materials are readily accessible throughout the day. Field trips are planned and supervised with the same level of care and structure as on-site programming. Staff conduct headcounts before departure, during transport, upon arrival, throughout the activity, and prior to returning to camp. Students are grouped with designated staff, and clear expectations are communicated before each trip to ensure student safety and smooth operations.

All guest activities and volunteer-led enrichment experiences are supervised by camp staff and must follow established safety and behavior expectations. Volunteers and guest presenters do not assume supervisory responsibility for students and operate under staff oversight at all times. Through consistent supervision, trained staff, clear procedures, and strong leadership, the program creates a safe environment where students can participate confidently and families can trust that their children are well cared for throughout the summer.

6. Marketing and outreach plan.

The Youth Centers of Orange will implement a clear, organized, and accessible marketing and outreach plan designed to ensure broad community awareness, equitable access, and strong enrollment for the City of Orange summer camp program. This strategy reflects both proven outreach methods and expanded digital engagement, demonstrating the organization's capacity to successfully market and operate a large-scale City program. Marketing efforts will follow a phased timeline, beginning with internal preparation and moving through registration launch, sustained outreach, and final enrollment. A detailed Marketing and Registration Timeline is included as an attachment to this proposal (Appendix C) and outlines specific goals and action steps from January through the start of camp. This timeline demonstrates readiness to implement and ensures outreach efforts are timely, coordinated, and effective.

The outreach plan prioritizes direct communication with families through trusted and established channels. The Youth Centers of Orange maintains deep, long-standing partnerships with Orange Unified School District, including school administrators, after-school program families, and community school teams. These relationships allow information to be shared directly with families who already participate in City and school-based programming, supporting early awareness and strong return enrollment. Flyers and digital materials will be distributed through



schools and program sites, ensuring families receive accurate and consistent information. The program will also leverage strong partnerships with the City of Orange and local community organizations to broaden outreach beyond school-based families. Community centers, partner organizations, and City-supported spaces will serve as additional access points for families across the City, ensuring the program reaches a wide and diverse population. Digital outreach is a central component of the marketing strategy and will be used consistently throughout the enrollment period. Social media platforms will be utilized to share regular updates, reminders, and program highlights, with increased frequency as registration progresses. In addition to established social media practices, the organization will expand its digital presence through increased website engagement, ensuring camp information is easy to locate, clearly presented, and directly connected to registration links.

All marketing and outreach materials will be provided in English and Spanish, supporting equitable access for families across the City. Materials will be designed to be clear and user-friendly, including the use of QR codes that link directly to the registration platform. Outreach will also include listings on online camp directories, family resource platforms, and submissions to local newspapers and community calendars, further expanding visibility. Registration and ongoing communication will be supported through an established online registration and family management system, which allows families to register, submit required forms, manage payments, and receive timely updates. This system ensures accurate recordkeeping, efficient communication, and responsive customer support throughout the registration and camp season. By combining trusted community relationships, structured outreach planning, bilingual materials, and expanded digital engagement, the Youth Centers of Orange demonstrates a clear and effective approach to marketing the summer camp program.

To support clear implementation and accountability, the Youth Centers of Orange has developed a detailed Marketing and Registration Timeline that outlines month-by-month goals and action steps beginning in January, with registration opening in late February and outreach continuing through the start of camp. This timeline demonstrates the program's readiness to launch, its ability to coordinate outreach across multiple channels, and its commitment to timely, equitable access for families. It also provides the City with a clear view of when key marketing activities,

enrollment pushes, and communication milestones will occur, ensuring transparency and alignment with City expectations.

7. Example program schedule and timeline.

	SUMMER CAMP 2025 Week 5 - Theme: Under the Sea	Thursday	
TIME	**ACTIVITY**	**MATERIALS AND PREP**	**STAFF**
7:00 AM	Open	Materials and Prep	Staff
	1. Turn lights on 2. Check entire building/complete a walk through, don't forget the patio, kitchen, and restrooms 3. **Turn on site phone, turn on tablet**, set up areas, play music 4. Exactly at 7AM (not sooner) unlock, open the doors		Sam Luli
8-8:30 AM	Breakfast	Materials and Prep	Staff
	1. Put gloves on, prepare area, set up breakfast items on the counter 2. Announce breakfast, kids must be cleaned up, dismiss students in groups to form a line		
8:30-9:20AM	Open Club		Staff
	board games, card games, free time		
9:20-9:35AM	Club Meeting		Staff
	Organize the kids by grade level and lines (assembly style) 1. **Hype up the kids! Give a big welcome to their day!** 2. Talk about the themed week and exciting things that are happening like trips and visitors 3. Go over expectations and rules (have kids participate, raise their hands and answer)		Ms. Serena
9:35-10:15AM	Group Game	Materials and Prep	Staff
	SPLIT grades 3-6 and grades K-2 Grades 3-6 are playing kickball Grades K-2 Ocean Relay Race 1. Make 2-3 teams. They each will have their own racing lane. 2. 1st race: Mermaid Tails - Use the potato sacks and hop down to the cone and back. Switch with the next person in line. They must sit in a single file line when they finish. The first team fully sitting in a line, wins. 3. 2nd race: Seahorse gallop - Each team will have one pool noodle and gallop on it like a "sea horse" down to the far cone and back. They must sit in a single file line when they finish. The first team fully sitting in a line, wins. 4. 3rd race: Jellyfish jumping - Place rings on the ground and have kids hop from ring to ring. They must sit in a single file line when they finish. The first team fully sitting in a line, wins. 5. 4th race: Shark race - Place their hands on their head like a shark fin. Run down to the cone and back. They must sit in a single file line when they finish. The first team fully sitting in a line, wins.	- buckets (one for each team) - one big bucket of water - plastic cups - spoons - plastic fish - pool noodles Prep: - set up race lines for the 5 teams, about 20 feet long - 1st race: place an empty bucket at the start cones for each team. place a big bucket of water in the middle of all the racing lanes - 2nd race: pour the buckets of water back into the big bucket. place all of the plastic fish in the big bucket of water. give each team one spoon - 3rd race: each team will get a pool noodle	Ms. Serena
10:15-10:50AM	1st Rotation	Materials and Prep	Staff
	**Tie-Dye Fish** Prep: - Shred/rip/cut the crepe paper into pieces about 2 inches big. Keep them organized by color in piles Craft 1. Each student will get a fish template and cut it out with scissors (we can prep this too) 2. Once they have their fish cut out, they can choose 20 pieces of crepe paper, any colors that they would like 3. Next, place the fish on a newspaper/placemat and wet it with the spray bottle 3. Then lay out the crepe paper on the fish so that the whole fish is covered. Pay attention to the colors and patterns you create 4. Use the spray bottle and spray the crepe paper onto the fish 5. Let it rest for about a minute 6. Peel off the tissue paper to reveal the creative design 7. Let the fish dry a little, then glue a googly eye on the fish (optional) 8. Lastly, use the markers to draw fins or make any other design that they want (optional) **BACK-UP - Build a shark template** - design and color their own shark - cut it out and assemble	Fish template: https://suncatcherstudio.com/uploads/patterns/fish/pdf-png/simple-fish-pattern-fffff.png Scissors Crepe paper/streamers/tissue paper: https://a.co/d/7fWbeK5 Spray bottle with water Googly eyes Markers News paper or placemats to keep the tables from getting messy	Ms. Desi Ms. Amy
10:50-11:25AM	2nd Rotation	Materials and Prep	Staff

	**Crab Walk Soccer** 1. Divide the group into 2 even teams. Assign them each to defend a side/goal 2. Demonstrate how to crab walk. Let the kids try it. Tell them they will be crab walking and playing soccer. 3. Go over the rules: Only kick the ball, you must be crabwalking (if you get tired, you can sit criss-cross where you are), no chipping it in the air because we don't want to hit anyone in the face, no one can touch the ball with their hands, even the goalie is in crab position 4. Give them time to organize their team and get into positions 5. On the "tweet," the game can begin. Keep score 6. For differentiation: the teams can be switched if there is clearly an uneven advantage.	- Soccer pug goals - cones - soccer balls Prep: - make a small soccer field with the cones and the pug goals	Ms. Jenny
11:25AM-12PM	3rd Rotation	Materials and Prep	Staff
	**Turtle Craft** 1. Each student will get a turtle template 2. Students will color the turtle however they would like 3. When done coloring, they will cut out the turtle 4. Once cut, they will glue the flaps of the turtle together to create a pointy shell	- turtle template sheet - markers/colored pencils/crayons - scissors - glue/tape	Coach Luli
12-12:30PM	Lunch	Materials and Prep	Staff
	1. Sit all students in designated area 2. Go over expectations and rules for lunch - all kids must be sitting down while eating lunch - no other activites should be happening 3. Dismiss kids by table groups/areas		
12:30-1:45PM	Open Club/ Pit rotation		Staff
	board games, card games, free time		
1:45-2:20PM	1st Rotation	Materials and Prep	Staff
	**Beach Pudding Cups** 1. Students can divide themselves amongst the tables. Once they are seated, each student will recieve a pudding cup and a clear cup. 2. Once the students have their cups, dismiss them by table to take their pudding cups to get a drop of blue food coloring. give them a spoon to mix it up to color their pudding. set this aside. 3. When all students have mixed their pudding to make it blue, hand out the bowl of crumbs to each table with 1 spoon. nstruct them to scoop a little bit of graham cracker crumbs to fill the bottom of the clear cup. This is the sand. 4. Next, instruct them to scoop their pudding into their cup, leaving some space at the top (there WILL be left over pudding in their cups) 5. Then, instruct students to add a little bit of sand on the top 6. When they are done, they can raise their hands to recieve 2-3 sweedish fish to put in their pudding 7. Lastly, hand out the umbrellas once they are done and they can add it on their finished pudding. 8. They can eat it when they are finished.	- Smashed graham cracker crumbs - vanilla pudding - blue food coloring to make it blue - sweedish fish - small pudding cups - spoons - mini drink umbrellas: https://a.co/d/7BKCQoX - spoons Prep: - prepare a small bowl of graham gracker crumbs for each table	Coach Luli (till 2) Ms. Desi Ms. Jenny
2:20-2:55PM	2nd Rotation	Materials and Prep	Staff
	**Tentacale Toss** 1. Have the kids divide themselves among the different toss stations 2. Tell them that the tall cones are worth three points, while the cups are worth 1 point. 3. The one at the front of the line will go first. They will get 3 tosses. 4. Each group will assign a catcher. This person will be the one getting the hula hoop and bringing it back to the person tossing. 5. Rotate after the 3 tosses and until everyone has went. Make sure to keep track of their scores. 6. Those with the highest scores can move up a station, while those with lower scores will move a station (optional)	- Hula hoops or rings - tall cones or pool noodles standing upright - flat cones to make the starting line Prep: - create 3 stations of ring toss by having 5-6 tall cones and 1-2 noodles if they can stand upright - make sure to make a line of cones that students have to stand behind - each stations has 1 hula hoop	Coach Aidan Ms. Serena (till 3)
2:55-3:30PM	3rd Rotation	Materials and Prep	Staff
	Starfish/Shark Headbands - COMPETITION 1. Each student will get a choice of a starfish or a shark headband 2. Design their headband 3. Cut out their headband 4. Assemble the headband	Templates Coloring Materials Scissors Tape/staples	Ms. Cozy Ms. Amy
3:30-4PM	Snack	Materials and Prep	Staff

4-4:30PM	Open Rotation 1	Materials and Prep	Staff
	Dolphin Relay Race 1. Split the group into 4 teams. They each will have their own lane, but divide kids on both ends of their lane 2. Give 1 beach ball to each team 3. 1st race: kids must race down to the other side pushing the beach ball with only their noses. Their teammate on the other side will do the same until everyone has gone. Sit behind your cone when you are done. First team to finish, wins. 4. 2nd race: same set up with students on both sides of their lane. students will have to balance the beach ball with their head all the way down. If it falls, they can restart from where it fell. first team to finish, wins. 5. 3rd race: gather all students back at the starting line on one side. in pairs, students will have to race around the far cone and back, holding up the ball together without using their arms. if the ball falls, restart where it dropped. first team to finish wins	- 4 beach balls: https://a.co/d/4y3oX2v - cones	Ms. Amy Ms. Cozy
4:30-5PM	Open Rotation 2	Materials and Prep	Staff
	Under the sea bingo 1. each student will get a bingo card and a pen. (there WILL be students who have the same card) 2. Using the calling cards, the leader will call the card and the students will cross it off of their card if they have it 2. first student to get bingo across, diagonal, or horizontal will win 3. continue playing until someone gets "full bingo"	- bingo cards (11 different cards) - calling cards	Mr. Aidan Ms. Jenny
5-5:30PM	Open Club	Materials and Prep	Staff
	board games, card games, free time		
5:30-6PM	Clean Up/Closing	Materials and Prep	Staff

Firm Experience

1. Comparable programs delivered within the past ten years.

The Youth Centers of Orange brings extensive experience operating large-scale, high-quality youth programs that closely align with the scope, structure, and expectations of the City of Orange summer camp.

After School Education and Safety (ASES) and Expanded Learning Opportunities Program (ELOP) – Orange Unified School District: The Youth Centers of Orange currently serves as an ASES and ELOP after-school program provider across multiple Orange Unified School District campuses. Through these programs, YCO serves up to 400 students daily during the school year, offering a wide range of enrichment opportunities including sports, art, language, music, STEM, tutoring, and character-building activities. Over the past two years, this work has grown significantly. What began as a single ELOP program in 2023 has expanded to ten active ELOP programs by 2025, demonstrating YCO's ability to scale programming while maintaining quality, consistency, and strong relationships with school partners. In addition, YCO serves as the ASES provider at Palmyra Elementary School, where programming supports more than 200 students each day. These programs require daily supervision, structured scheduling, staff training, safety oversight, family communication, and coordination with district and site leadership, all of which directly parallel the operational demands of a full-day summer camp.

City of Orange Summer Camp Program: In the summer of the previous year, the Youth Centers of Orange successfully operated the City of Orange's summer camp program, serving approximately 120 students daily and more than 300 students over the course of the summer. Programming included both elementary-age students and teens and featured full-day supervision, structured enrichment, outdoor games, themed activities, and weekly field trips. This program demonstrated YCO's ability to manage large enrollment numbers, deliver engaging and age-appropriate programming, coordinate transportation and field trips, and provide consistent care throughout the summer months.

The camp received strong participation and positive feedback from families, reinforcing YCO's capacity to deliver a safe, fun, and well-organized summer experience for City families. Together, these programs reflect YCO's proven ability to operate complex youth programs at scale, manage staffing and safety requirements, and deliver engaging enrichment experiences across both school-year and summer settings. This experience directly positions the organization to successfully operate the City of Orange's summer camp program.

No exceptions to note.

Noncollusion Affidavit

(Title 23 United States Code Section 112 and
Public Contract Code Section 7106)

To the CITY OF ORANGE – DEPARTMENT OF PUBLIC WORKS

In conformance with Title 23 United States Code Section 112 and Public Contract Code 7106 the bidder declares that the bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation; that the bid is genuine and not collusive or sham; that the bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid, and has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding; that the bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder, or to secure any advantage against the public body awarding the contract of anyone interested in the proposed contract; that all statements contained in the bid are true; and, further, that the bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid.

Note: The above Noncollusion Affidavit is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Noncollusion Affidavit.
Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution

DEBARMENT AND SUSPENSION CERTIFICATION TITLE 2, CODE OF FEDERAL REGULATIONS, PARTS 180 & 1200

The Proposer, under penalty of perjury, certifies that, except as noted below, he/she or any other person associated therewith in the capacity of owner, partner, director, officer, manager:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal. Exceptions will not necessarily result in denial of award but will be considered in determining proposer responsibility. For any exception noted above, indicate below to whom it applies, initiating agency, and dates of action. Notes: Providing false information may result in criminal prosecution or administrative sanctions. The above certification is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Certification.

CERTIFICATION OF PROPOSAL

TO THE CITY OF ORANGE

The undersigned hereby submits its proposal and agrees to be bound by the terms and conditions of this Request for Proposal (RFP). By signing the Certification of Proposal and submitting a proposal to the City in response to this Request for Proposals, the Proposer hereby represents and certifies that:

A) No elected or appointed official, officer, or employee of the City has been or shall be compensated, directly or indirectly, in connection with this proposal or for any work connected with this proposal; should any agreement be approved in connection with this Request for Proposals ("Agreement") no elected or appointed official, officer, or employee of the City, during the term of his/her service with the City, shall have any direct or indirect financial interest in the Agreement, or obtain any present anticipated, or future financial interest or other material benefit arising therefrom;

B) No elected or appointed official, officer, or employee of the City shall have any financial interest, direct or indirect, in the Agreement nor shall any such official, officer, or employee participate in any decision relating to the Agreement which effects his/her personal financial interest or the financial interest of any corporation, partnership, or association in which they are, directly or indirectly, interested in violation of state law;

C) The Proposer and its principals do not have now, nor shall it acquire any financial or business interest that would conflict with the performance of services under the Agreement;

D) Proposer shall represent and certify that it does not and will not discriminate against any employee or applicant for employment because of race, religion, gender, color, national origin, sexual orientation, ancestry, material status, physical condition, pregnancy or pregnancy related conditions, political affiliation or opinion, age or medical condition;

E) By submitting the response to this request, Proposer agrees, if selected, to furnish services to the City in accordance with this RFP;

F) Proposer has carefully reviewed its proposal and understands and agrees that the City is not responsible for any errors or omissions on the part of the Proposer and that the Proposer is responsible for them;

G) It is understood and agreed that the City reserves the right to accept or reject any or all proposals and to waive any informality or irregularity in any proposal received by the Cit

H) The proposal response includes all of the commentary, figures and data required e Request for Proposal, dated 12/9/25. The proposal shall be valid for 180 days from the due date of this RFP.

Appendix C

Summer Camp Marketing & Registration Timeline

Timeframe	Primary Goal	Key Marketing Actions
January – Early February	Prepare for launch	• Finalize camp dates, pricing, hours, and age groups with the City, if under contract • Re-engage existing registration platform and payment system • Update and translate all marketing materials (English and Spanish) • Generate QR codes linked directly to registration • Finalize website content and registration language • Reach out to local newspapers in Orange County to plan coverage
Late February	Registration launch	• Open official summer camp registration • Launch website registration page • Release initial social media announcements across platforms • Send direct emails to returning families from prior summer camps and school-year programs • Distribute flyers at YCO program sites • Share flyers digitally with Orange Unified schools
March	Build awareness and early enrollment	• Post weekly social media content highlighting camp structure, safety, and hours • Submit camp information to local newspapers and community calendars • Publish listings on online camp directories and family resource platforms • Promote scholarship availability and registration support • Leverage City and community partner networks for outreach

April	Expand community reach	• Increase social media frequency to multiple posts per week • Begin releasing camp themes as they are finalized • Share success messaging and highlights from prior summer camps • Re-distribute flyers through schools, community centers, and partners • Continue bilingual outreach and registration assistance
May	Drive commitment and fill spots	• Promote pay-in-full options and early commitment messaging • Communicate limited availability as sessions begin to fill • Conduct a second round of newspaper and online platform outreach • Follow up with families who started but did not complete registration • Increase direct communication through the registration platform
Early June	Finalize enrollment and prepare families	• Send final registration reminders across all channels • Confirm rosters and manage waitlists • Share "What to Expect" communications with enrolled families • Confirm completion of waivers, emergency forms, and required documents
During Camp	Maintain engagement and visibility	• Share weekly social media highlights showcasing activities and themes • Provide ongoing updates and reminders through the registration platform • Collect informal interest for future programs
Post-Camp	Build future enrollment	• Send thank-you communications to families • Share program highlights and outcomes • Collect family feedback to inform future programming and marketing

Exhibit B

The cost table shown below is illustrative of planned costs to be borne by contractor in service of this contract. NO COST, including those described in this table, will be billed to the City for services under this agreement scope. The City shall provide in-kind use of Shaffer Park as described in this Exhibit to contractor.

Cost Proposal Table

Youth & Teen Summer Day Camp Program

Years 2–4 reflect an 8% annual escalation applied to the Year 1 baseline.

Service Type	Annual Cost (Year 1)	*Annual Cost (Year 2)	*Annual Cost (Year 3)	*Annual Cost (Year 4)	Notes / Breakdown (if applicable)
Staffing	$110,725.96	$119,583.03	$129,149.67	$139,481.64	Camp Director, Site Supervisors/Coordinators, Program Staff; includes payroll taxes, workers' comp, training, certifications, and insurance
Program Delivery	$36,116.67	$39,006.00	$42,126.48	$45,496.60	Enrichment activities, weekly themed programming, guaranteed weekly field trips, plus additional trips throughout the summer
Supplies & Equipment	$9,461.07	$10,217.96	$11,035.40	$11,918.23	Program materials, activity supplies, games, crafts, limited reusable equipment
Utilities (if Contractor-provided)	$0.00	$0.00	$0.00	$0.00	Utilities provided by the City as part of in-kind facility use
Administrative / Overhead Costs	$5,200.00	$5,616.00	$6,065.28	$6,550.50	Program administration, registration management, payroll processing, reporting, insurance administration
Other (Specify)	$0.00	$0.00	$0.00	$0.00	Not applicable
TOTAL ANNUAL COST	$161,503.70	$174,422.99	$188,376.83	$203,446.97	

Cost Proposal Narrative

Youth & Teen Summer Day Camp Program
Sections C & D: Alternative and Innovative Cost Model

The Youth Centers of Orange proposes an alternative and innovative cost model that allows the City of Orange to offer a high-quality Youth and Teen Summer Day Camp program at **zero cash cost to the City**, while ensuring affordability, equity, and sustainability for participating families.

Overview of the Cost Model

The total estimated annual cost to operate the Summer Day Camp program is detailed in the CP-1 Cost Proposal Table and reflects all staffing, program delivery, supplies, administrative, and operational costs required to successfully manage and operate the program. The City's only contribution under this model is the in-kind use of Shaffer Park at no cost, including access to on-site storage. No City funds are requested to operate the program.

Rather than relying on City funding, the Youth Centers of Orange utilizes a community-supported, access-driven financial model that combines affordable participant fees, intentional scholarship allocation, and strong philanthropic partnerships. This approach shifts financial risk away from the City while preserving program quality and expanding access for families across income levels.

Affordable Participant Fee Structure and Planned Revenue

The program operates with a flat weekly fee of $180 per participant, intentionally priced to remain affordable for working families while covering the full scope of program operations. This fee includes all aspects of the summer camp experience, including full-day supervision, enrichment programming, supplies, and field trips. Families do not incur additional costs for special activities or off-site trips. A 10% sibling discount is offered to further support families with multiple children enrolled.

Based on historical attendance trends, the Youth Centers of Orange anticipates serving an average of approximately 120 students per day during the nine-week summer camp program. At this enrollment level, estimated gross revenue generated through participant fees is approximately $194,400 over the course of the summer. However, we provide heavy scholarships to families that bring our total revenue to just under cost.

Participant fees alone are not intended to fully fund the program or generate surplus revenue. Instead, all participant-generated revenue is reinvested into program operations and access expansion, ensuring the focus remains on program quality and community impact rather than profitability.

Scholarships, Sponsorships, and Equity-Centered Access

To ensure the Summer Day Camp program remains both accessible and financially sustainable, the Youth Centers of Orange has intentionally designed a scholarship strategy that balances affordability, equity, and fiscal responsibility.

Based on the proposed weekly fee of $180 and a nine-week program, the organization plans to provide 60 need-based scholarships through a blended model consisting of approximately 25 full scholarships, 25 half scholarships, and 10 quarter scholarships. This mix allows the program to offer a meaningful number of fully sponsored placements while also extending partial support to a broader group of families who may not require full assistance but would still benefit from reduced costs.

Under this model, the total scholarship investment is approximately $64,800 for the summer season. The Youth Centers of Orange plans to cover this amount through a combination of program revenue and targeted fundraising, allowing the overall program to remain revenue neutral while maintaining program quality.

Specifically, the organization anticipates applying approximately $35,000 of participant-generated revenue toward scholarships and securing an additional $30,000 in philanthropic support from community partners and individual donors. This approach mirrors the organization's prior summer camp experience, during which approximately $30,000 in scholarship funding was successfully raised through partnerships and community support.

By intentionally pairing earned revenue with philanthropic investment, the Youth Centers of Orange is able to ensure that scholarship support does not create a financial gap in program operations. All remaining participant revenue is reinvested directly into staffing, enrichment activities, supplies, and field trips, allowing the program to deliver a high-quality summer camp experience without generating surplus revenue or requiring financial support from the City.

Building on this proven model, the organization will again leverage its strong partner network, including the Community Foundation of Orange (KidsPlay initiative), Friends Church Orange, the Women's Club of Orange, the Orange Chamber Foundation, as well as the Hub OC's network of individual donors and other civic and community partners to supplement program revenue and expand access.

This model allows the organization to say yes to more families, prioritize access for those with the greatest need, and maintain a financially balanced program that aligns with the City's goals of providing safe, engaging summer programming for children and youth.

Leveraging In-Kind Community Assets

In addition to the City's in-kind support of Shaffer Park, the Youth Centers of Orange also leverages donated indoor space from Friends Church Orange, which provides access to facilities five days per week. This space supports teen programming, special events, and indoor activities and represents an estimated $40,000 in additional in-kind value annually.

By strategically leveraging community-donated facilities, the program reduces operational costs, increases flexibility, and enhances the overall camp experience without additional financial burden to the City.

Benefits to the City and the Community

This alternative cost model allows the City of Orange to offer a comprehensive summer camp program without committing operational funds, while still ensuring families have access to safe, structured, and enriching childcare during the summer months. For participants, the model ensures affordability, transparency, and access regardless of income level. For the Youth Centers of Orange, it allows all available resources to be directed toward delivering the highest possible program quality rather than generating surplus revenue.

By combining affordable fees, strong partnerships, and in-kind community support, this model creates a sustainable, equitable, and scalable summer camp program that benefits families, strengthens community connections, and aligns closely with the City's goals for youth engagement and support.

THE CITY OF ORANGE RESERVES THE RIGHT, AND IS HEREBY GRANTED THE RIGHT, TO REJECT ANY AND ALL PROPOSALS, TO ACCEPT OTHER THAN THE LOWEST PROPOSAL, AND TO WAIVE ANY INFORMALITY IN THE PROPOSAL.

1. SUBJECT

Agreement with Premier Aquatic Services, LLC for Hart Park Pool Operations and Aquatic Programming Services

2. SUMMARY

Following a competitive Request for Proposals process, staff recommends approval of an agreement with Premier Aquatic Services, LLC to provide Hart Park Pool Operations and Aquatic Programming Services beginning in 2026.

3. RECOMMENDED ACTION

1. Approve the agreement with Premier Aquatic Services, LLC for Hart Park Pool Operations and Aquatic Programming Services in the amount of $227,424.00 plus a 10% contingency of $22,742.40 for a total of $250,166.40; and authorize the Mayor and City Clerk to execute on behalf of the City.
2. Authorize the appropriation of $62,600.00 from the General Fund (100) undesignated fund balance to fund the prorated FY2025-26 portion of agreement services:
   100-7103-55000 Contractual Services
3. Authorize the City Manager to execute optional renewals as outlined in the agreement.

4. FISCAL IMPACT

The prorated FY 2025-26 portion of the agreement (April - June 2026) is not-to-exceed $62,600 and will be funded through the General Fund (100):

100-7103-55000 Contractual Services

The undesignated General Fund balance after this appropriation will be $106,574.

5. STRATEGIC PLAN GOALS

Goal 3: Enhance Public Communication Strategy and Quality of Life

3.7: Continue to offer high quality and efficient city led recreation programs

6. DISCUSSION AND BACKGROUND

Background

For several decades, and up until summer 2025, the City has traditionally offered an eight-week summer aquatics program at the historic Hart Park Pool which included learn-to-swim lessons, recreational swim, and water exercise. The eight-week program was typically budgeted around $420,000 and included part time staff costs for approximately 45 seasonal staff, a full-time Recreation Coordinator, required certifications and trainings, equipment, supplies, and uniforms. In 2025, in response to the City's structural budget deficit, significant reductions were made to the Community Services budget. As such, modifications were made to the summer 2025 aquatics which included reducing the program to six weeks, limiting offerings to lower level learn-to-swim lessons delivered by a small team of approximately 15 existing part-time staff, operating only one pool, and eliminating recreational swim and water exercise, which helped reduce the overall cost of the program.

In addition, the City continues to maintain the pool facility year round. From April 1, 2025 - March 31, 2026, the cost to maintain the pool is approximately $51,000. The cost will increase to $54,620 from April 1, 2026 - March 31, 2027.

Discussion

Based on feedback from the Orange community and City Council, restoring the aquatics program to its pre-2025 service levels has been identified as a priority. However, the Recreation Coordinator position remains frozen, and funding was not allocated in the budget cycle to support the hiring of seasonal, part-time staff necessary to reinstate the program under the existing model (the hiring process typically starts in January/February). Under the City-operated model, restoring full programming would require hiring and managing seasonal staff and reinstating the Recreation Coordinator position; the contract model restores services while shifting staffing, training, and day-to-day operations to the contractor and maintaining a predictable cost to the City. In light of these constraints, staff evaluated alternative service delivery options and determined that transitioning to a contract service model would enable the City to reestablish aquatics programming while maintaining fiscal responsibility.

In preparation for Summer 2026, the City publicly advertised Request for Proposals No. 25-26.10 (RFP) on November 20, 2025, in accordance with procurement requirements, to identify a qualified provider of Hart Park Pool Operations and Aquatics Programming Services beginning in 2026. The RFP sought experienced organizations capable of delivering a quality, safe aquatics program, with the minimum requirements of offering swim lessons and recreational swim during the summer season.

The proposal deadline was December 18, 2025. The City received eight (8) proposals in response to the RFP.

A review panel evaluated the proposals in accordance with the criteria set forth in the RFP, which included:

- Firm experience
- Qualifications of the project team
- Overall responsiveness to the RFP

These criteria accounted for a total of 65 possible points. Proposals receiving a minimum score of 70% (46 points or higher) advanced to the next phase of the evaluation. The second phase included an assessment of references (maximum of 10 points) and an evaluation of a separately sealed cost

proposal (maximum of 25 points).

Based on the results, Premier Aquatic Services, LLC (Premier) was identified as the highest-scoring proposer (Attachment 1). Premier demonstrated a strong program model, relevant experience, and the operational capacity necessary to deliver both the traditional eight-week summer program and expanded year-round aquatics services.

A sampling of Premier's proposed programs and fees include:

Perpetual Group Swim Lesson	$15 (billed monthly based on frequency)
Swim Team	$150 per month
Recreational Swim	$2/$3/$5 for Seniors/Children/Adults
Water Aerobics	$5 per class

Premier has proposed a Management Fee model under which the City would pay a fixed annual management fee of $186,000. In return, Premier would be responsible for all staffing, programming, training, uniforms, materials, and administrative costs necessary to operate Hart Park Pool and deliver a comprehensive aquatics program on a year-round basis (May through April).

An additional $30,000 is allocated for routine annual pool maintenance. Through contract negotiations, it was determined that Premier would also be responsible for the purchase and application of pool chemicals at an amount not-to-exceed $11,424. As a result, the City anticipates a corresponding reduction in costs under its current pool maintenance provider agreement. The City would remain responsible for utilities, janitorial services, larger pool equipment repairs, and capital improvements projects.

The proposed agreement establishes a four-year structure consisting of an initial one-year term with three optional one-year extensions. The City Manager is authorized to execute the optional extensions provided sufficient funds are approved in the applicable fiscal year budget.

It should be noted that the amount listed in the Fiscal Impact section of this report pertains to the necessary appropriation required to fund the prorated Fiscal Year 2025-26 (FY26) portion of the agreement (April, May and June of 2026) in an amount of $62,600, including a prorated contingency. The not-to-exceed agreement total for the first term of the agreement (twelve-month period from April 1, 2026 to March 30, 2027) spanning portions of FY26 and Fiscal year 2026-27 (FY27) is $250,166.40, inclusive of contingency. The remaining balance left on the agreement for the first year will be included in the FY27 budget.

Premier would manage all program registration and collect program revenues. Because Premier is responsible for all program staffing, administration, and operational costs, the agreement allows Premier to collect program revenues, while the City benefits through a revenue-sharing structure once established participation thresholds are met. The agreement includes a revenue-sharing model under which the City receives a percentage of program revenues once specified thresholds are met:

Program Revenue Share:

Revenue:	**City's Revenue Share:**
$125,000.00	15%
$150,000.00	15%

$175,000.00	15%
$200,000.00	15%
$225,000.00	20%
$250,000.00	20%
$275,000.00	20%
$301,000.00+	22.5%

The proposed agreement includes performance standards, insurance requirements, background checks, required aquatic certifications, and a termination clause. The City retains oversight authority and approval of programming schedules and fees (Attachment 2).

3. RECOMMENDED ACTION

1. Approve the agreement with Premier Aquatic Services, LLC for Hart Park Pool Operations and Aquatic Programming Services in the amount of $227,424.00 plus a 10% contingency of $22,742.40 for a total of $250,166.40; and authorize the Mayor and City Clerk to execute on behalf of the City.
2. Authorize the appropriation of $62,600.00 from the General Fund (100) undesignated fund balance to fund the prorated FY2025-26 portion of agreement services:
   100-7103-55000 Contractual Services
3. Authorize the City Manager to execute optional renewals as outlined in the agreement.

4. FISCAL IMPACT

The prorated FY 2025-26 portion of the agreement (April - June 2026) is not-to-exceed $62,600 and will be funded through the General Fund (100):

100-7103-55000 Contractual Services

The undesignated General Fund balance after this appropriation will be $106,574.

5. STRATEGIC PLAN GOALS

Goal 3: Enhance Public Communication Strategy and Quality of Life

3.7: Continue to offer high quality and efficient city led recreation programs

6. DISCUSSION AND BACKGROUND

Background

For several decades, and up until summer 2025, the City has traditionally offered an eight-week summer aquatics program at the historic Hart Park Pool which included learn-to-swim lessons, recreational swim, and water exercise. The eight-week program was typically budgeted around $420,000 and included part time staff costs for approximately 45 seasonal staff, a full-time Recreation Coordinator, required certifications and trainings, equipment, supplies, and uniforms. In 2025, in response to the City's structural budget deficit, significant reductions were made to the Community Services budget. As such, modifications were made to the summer 2025 aquatics which included reducing the program to six weeks, limiting offerings to lower level learn-to-swim lessons delivered by a small team of approximately 15 existing part-time staff, operating only one pool, and eliminating recreational swim and water exercise, which helped reduce the overall cost of the program.

In addition, the City continues to maintain the pool facility year round. From April 1, 2025 - March 31, 2026, the cost to maintain the pool is approximately $51,000. The cost will increase to $54,620 from April 1, 2026 - March 31, 2027.

Discussion

Based on feedback from the Orange community and City Council, restoring the aquatics program to its pre-2025 service levels has been identified as a priority. However, the Recreation Coordinator position remains frozen, and funding was not allocated in the budget cycle to support the hiring of seasonal, part-time staff necessary to reinstate the program under the existing model (the hiring process typically starts in January/February). Under the City-operated model, restoring full programming would require hiring and managing seasonal staff and reinstating the Recreation Coordinator position; the contract model restores services while shifting staffing, training, and day-to-day operations to the contractor and maintaining a predictable cost to the City. In light of these constraints, staff evaluated alternative service delivery options and determined that transitioning to a contract service model would enable the City to reestablish aquatics programming while maintaining fiscal responsibility.

In preparation for Summer 2026, the City publicly advertised Request for Proposals No. 25-26.10 (RFP) on November 20, 2025, in accordance with procurement requirements, to identify a qualified provider of Hart Park Pool Operations and Aquatics Programming Services beginning in 2026. The RFP sought experienced organizations capable of delivering a quality, safe aquatics program, with the minimum requirements of offering swim lessons and recreational swim during the summer season.

The proposal deadline was December 18, 2025. The City received eight (8) proposals in response to the RFP.

A review panel evaluated the proposals in accordance with the criteria set forth in the RFP, which included:

- Firm experience
- Qualifications of the project team
- Overall responsiveness to the RFP

These criteria accounted for a total of 65 possible points. Proposals receiving a minimum score of 70% (46 points or higher) advanced to the next phase of the evaluation. The second phase included an assessment of references (maximum of 10 points) and an evaluation of a separately sealed cost

proposal (maximum of 25 points).

Based on the results, Premier Aquatic Services, LLC (Premier) was identified as the highest-scoring proposer (Attachment 1). Premier demonstrated a strong program model, relevant experience, and the operational capacity necessary to deliver both the traditional eight-week summer program and expanded year-round aquatics services.

A sampling of Premier's proposed programs and fees include:

Perpetual Group Swim Lesson	$15 (billed monthly based on frequency)
Swim Team	$150 per month
Recreational Swim	$2/$3/$5 for Seniors/Children/Adults
Water Aerobics	$5 per class

Premier has proposed a Management Fee model under which the City would pay a fixed annual management fee of $186,000. In return, Premier would be responsible for all staffing, programming, training, uniforms, materials, and administrative costs necessary to operate Hart Park Pool and deliver a comprehensive aquatics program on a year-round basis (May through April).

An additional $30,000 is allocated for routine annual pool maintenance. Through contract negotiations, it was determined that Premier would also be responsible for the purchase and application of pool chemicals at an amount not-to-exceed $11,424. As a result, the City anticipates a corresponding reduction in costs under its current pool maintenance provider agreement. The City would remain responsible for utilities, janitorial services, larger pool equipment repairs, and capital improvements projects.

The proposed agreement establishes a four-year structure consisting of an initial one-year term with three optional one-year extensions. The City Manager is authorized to execute the optional extensions provided sufficient funds are approved in the applicable fiscal year budget.

It should be noted that the amount listed in the Fiscal Impact section of this report pertains to the necessary appropriation required to fund the prorated Fiscal Year 2025-26 (FY26) portion of the agreement (April, May and June of 2026) in an amount of $62,600, including a prorated contingency. The not-to-exceed agreement total for the first term of the agreement (twelve-month period from April 1, 2026 to March 30, 2027) spanning portions of FY26 and Fiscal year 2026-27 (FY27) is $250,166.40, inclusive of contingency. The remaining balance left on the agreement for the first year will be included in the FY27 budget.

Premier would manage all program registration and collect program revenues. Because Premier is responsible for all program staffing, administration, and operational costs, the agreement allows Premier to collect program revenues, while the City benefits through a revenue-sharing structure once established participation thresholds are met. The agreement includes a revenue-sharing model under which the City receives a percentage of program revenues once specified thresholds are met:

Program Revenue Share:

Revenue:	**City's Revenue Share:**
$125,000.00	15%
$150,000.00	15%

$175,000.00	15%
$200,000.00	15%
$225,000.00	20%
$250,000.00	20%
$275,000.00	20%
$301,000.00+	22.5%

The proposed agreement includes performance standards, insurance requirements, background checks, required aquatic certifications, and a termination clause. The City retains oversight authority and approval of programming schedules and fees (Attachment 2).

PROFESSIONAL SERVICES AGREEMENT
[Hart Park Pool Operations and Aquatics Programming Services]

THIS PROFESSIONAL SERVICES AGREEMENT (the "Agreement") is made at Orange, California, on this _____ day of _____, 2026 (the "Effective Date") by and between the CITY OF ORANGE, a municipal corporation ("City"), and PREMIER AQUATIC SERVICES LLC, a California limited liability company ("Contractor"), who agree as follows:

1. Services. Subject to the terms and conditions set forth in this Agreement, Contractor shall provide to the reasonable satisfaction of City the services set forth in Exhibit "A," which is attached hereto and incorporated herein by reference. As a material inducement to City to enter into this Agreement, Contractor represents and warrants that it has thoroughly investigated and considered the scope of services and fully understands the difficulties and restrictions in performing the work. The services which are the subject of this Agreement are not in the usual course of City's business and City relies on Contractor's representation that it is independently engaged in the business of providing such services and is experienced in performing the work. Contractor shall perform all services in a manner reasonably satisfactory to City and in a manner in conformance with the standards of quality normally observed by an entity providing such services to a municipal agency. All services provided shall conform to all federal, state and local laws, rules and regulations and to the best professional standards and practices. The terms and conditions set forth in this Agreement shall control over any terms and conditions in Exhibit "A" to the contrary.

Emily Bustamante, Assistant Community Services Director ("City's Project Manager"), shall be the person to whom Contractor will report for the performance of services hereunder. It is understood that Contractor's performance hereunder shall be under the supervision of City's Project Manager (or his/her designee), that Contractor shall coordinate its services hereunder with City's Project Manager to the extent required by City's Project Manager, and that all performances required hereunder by Contractor shall be performed to the satisfaction of City's Project Manager and the City Manager.

2. Compensation and Fees.

a. Contractor's total compensation for all services performed under this Agreement, shall not exceed TWO HUNDRED TWENTY-SEVEN THOUSAND FOUR HUNDRED TWENTY-FOUR DOLLARS and 00/100 ($227,424.00) without the prior written authorization of City.

b. In addition to the scheduled services to be performed by the Contractor, the parties recognize that additional, unforeseen work and services may be required by City's Project Manager. In anticipation of such contingencies, the sum of TWENTY-TWO THOUSAND SEVEN HUNDRED FORTY-TWO DOLLARS and 40/100 ($22,742.40) has been added to the total compensation of this Agreement. City's Project Manager may approve the additional work and the actual costs incurred by the Contractor in performance of additional work or services in accordance with such amount as City's Project Manager and the Contractor may agree upon in

advance. Said additional work or services and the amount of compensation therefor, up to the amount of the authorized contingency, shall be memorialized in the form of an Amendment to Agreement approved by the City Manager on a form acceptable to the City Attorney. The Contractor agrees to perform only that work or those services that are specifically requested by the City's Project Manager. Any and all additional work and services performed under this Agreement shall be completed in such sequence as to assure their completion as expeditiously as is consistent with professional skill and care in accordance with a cost estimate or proposal submitted to and approved by City's Project Manager prior to the commencement of such services.

c. The total amount of compensation under this Agreement, including contingencies, shall not exceed TWO HUNDRED FIFTY THOUSAND ONE HUNDRED SIXTY-SIX DOLLARS and 40/100 ($250,166.40).

d. The compensation for services performed under this Agreement shall be paid as specified in Exhibit "B" which is attached hereto and incorporated herein by reference.

e. The above compensation shall include all costs, including, but not limited to, all clerical, administrative, overhead, insurance, reproduction, telephone, travel, auto rental, subsistence and all related expenses.

2.1 <u>Term and Extension(s)</u>.

a. The Initial Term of this Agreement is one (1) year (the "Initial Term"), commencing April 1, 2026, and terminating on March 31, 2027 (the "Expiration Date"); provided, however, that City has the right to extend the term of this Agreement for the following extensions and upon the following terms:

- First Extension (the "First Extension Term") commencing April 1, 2027, and terminating on March 31, 2028, in an amount not to exceed TWO HUNDRED SIXTY THOUSAND TWO HUNDRED NINETY-EIGHT DOLLARS and 72/100 ($260,298.72), inclusive of contingency, without the prior written authorization of City.

- Second Extension (the "Second Extension Term") commencing April 1, 2028, and terminating on March 31, 2029, in an amount not to exceed TWO HUNDRED SEVENTY THOUSAND EIGHT HUNDRED FORTY-TWO DOLLARS and 62/100 ($270,842.62), inclusive of contingency, without the prior written authorization of City.

- Third Extension (the "Third Extension Term") commencing July 1, 2029, and terminating on March 31, 2030, in an amount not to exceed TWO HUNDRED EIGHTY-ONE THOUSAND EIGHT HUNDRED FOUTEEN DOLLARS and 86/100 ($281,814.86), inclusive of contingency, without the prior written authorization of City.

b. The City Manager is hereby authorized on behalf of City to give written notice to Contractor of City's intention to exercise each Extension (if at all) no later than thirty (30) days prior to the Expiration Date of the then-current term; provided, however, that City's notice of its intention to extend the term of this Agreement for each Extension shall be expressly conditioned upon and subject to the approval by the City Council, in its sole and absolute discretion, of an

amount sufficient to pay the compensation set forth herein for each Extension as part of its annual budget approval process prior to the beginning of each Extension.

While the parties acknowledge that City is required to give its notice of intention to extend the term of this Agreement not later than thirty (30) days prior to the Expiration Date of the then-current term, it is possible that the City Council's approval of its annual budget and appropriation of funds for the Extension in question may occur thereafter. Accordingly, if the City Council fails to approve and appropriate funds sufficient to pay the amount of compensation set forth herein for an Extension, this Agreement shall terminate and be of no further force and effect as of the expiration of the then-current term.

Notwithstanding anything in this provision to the contrary, in the event City gives Contractor written notice exercising an Extension and City receives notice that appropriation of funds for the Extension in question are not available after Contractor has performed services under the Extension, City agrees that Contractor will be equitably compensated for all services performed under any portion of an Extension through the date of termination of the Agreement.

Except as specifically set forth herein, the terms and conditions of each Extension will be the same as the Initial Agreement.

c. Any Extension, if properly exercised, shall be memorialized in the form of an amendment to this Agreement. The City Manager is hereby authorized to approve and execute amendments to this Agreement reflecting the exercise of each Extension and the amount of compensation (including the amount of funds to be made available for additional work or services) payable to Contractor for each respective Extension.

3. Payment.

a. As scheduled services are completed, Contractor shall submit to City an invoice for the services completed, authorized expenses and authorized extra work actually performed or incurred.

b. All such invoices shall state the basis for the amount invoiced, including services completed, the number of hours spent and any extra work performed.

c. City will pay Contractor the amount invoiced within thirty (30) days after the approval of the invoice.

d. Payment shall constitute payment in full for all services, authorized costs and authorized extra work covered by that invoice.

4. Change Orders. No payment for extra services caused by a change in the scope or complexity of work, or for any other reason, shall be made unless and until such extra services and a price therefor have been previously authorized in writing and approved by City as an amendment to this Agreement. City's Project Manager is authorized to approve a reduction in the services to be performed and compensation therefor. All amendments shall set forth the changes

of work, extension of time, and/or adjustment of the compensation to be paid by City to Contractor and shall be signed by the City's Project Manager, City Manager or City Council, as applicable.

5. Licenses. Contractor represents that it and any subcontractors it may engage, possess any and all licenses which are required under state or federal law to perform the work contemplated by this Agreement and that Contractor and its subcontractors shall maintain all appropriate licenses, including a City of Orange business license, at its cost, during the performance of this Agreement.

6. Independent Contractor. At all times during the term of this Agreement, Contractor shall be an independent contractor and not an employee of City. City shall have the right to control Contractor only insofar as the result of Contractor's services rendered pursuant to this Agreement. City shall not have the right to control the means by which Contractor accomplishes services rendered pursuant to this Agreement. Contractor shall, at its sole cost and expense, furnish all facilities, materials and equipment which may be required for furnishing services pursuant to this Agreement. Contractor shall be solely responsible for, and shall indemnify, defend and save City harmless from all matters relating to the payment of its subcontractors, agents and employees, including compliance with social security withholding and all other wages, salaries, benefits, taxes, exactions, and regulations of any nature whatsoever. Contractor acknowledges that it and any subcontractors, agents or employees employed by Contractor shall not, under any circumstances, be considered employees of City, and that they shall not be entitled to any of the benefits or rights afforded employees of City, including, but not limited to, sick leave, vacation leave, holiday pay, Public Employees Retirement System benefits, or health, life, dental, long-term disability or workers' compensation insurance benefits.

7. Contractor Not Agent. Except as City may specify in writing, Contractor shall have no authority, express or implied, to act on behalf of City in any capacity whatsoever as an agent. Contractor shall have no authority, express or implied, to bind City to any obligation whatsoever.

8. Designated Persons. Only those qualified persons authorized by City's Project Manager, or as designated in Exhibit "A," shall perform work provided for under this Agreement. It is understood by the parties that clerical and other nonprofessional work may be performed by persons other than those designated.

9. Assignment or Subcontracting. No assignment or subcontracting by Contractor of any part of this Agreement or of funds to be received under this Agreement shall be of any force or effect unless the assignment has the prior written approval of City. City may terminate this Agreement rather than accept any proposed assignment or subcontracting. Such assignment or subcontracting may be approved by the City Manager or his/her designee.

10. Time of Completion. Except as otherwise specified in Exhibit "A," Contractor shall commence the work provided for in this Agreement within five (5) days of the Effective Date of this Agreement and diligently prosecute completion of the work in accordance with the time period set forth in Exhibit "A" hereto or as otherwise agreed to by and between the representatives of the parties.

11. **Time Is of the Essence**. Time is of the essence in this Agreement. Contractor shall do all things necessary and incidental to the prosecution of Contractor's work.

12. **Reserved**.

13. **Delays and Extensions of Time**. Contractor's sole remedy for delays outside its control, other than those delays caused by City, shall be an extension of time. No matter what the cause of the delay, Contractor must document any delay and request an extension of time in writing at the time of the delay to the satisfaction of City. Any extensions granted shall be limited to the length of the delay outside Contractor's control. If Contractor believes that delays caused by City will cause it to incur additional costs, it must specify, in writing, why the delay has caused additional costs to be incurred and the exact amount of such cost at the time the delay occurs. No additional costs can be paid that exceed the not to exceed amount stated in Section 2.a, above, absent a written amendment to this Agreement.

14. **Products of Contractor**. The documents, studies, evaluations, assessments, reports, plans, citations, materials, manuals, technical data, logs, files, designs and other products produced or provided by Contractor for this Agreement shall become the property of City upon receipt. Contractor shall deliver all such products to City prior to payment for same. City may use, reuse or otherwise utilize such products without restriction.

15. **Equal Employment Opportunity**. During the performance of this Agreement, Contractor agrees as follows:

a. Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, mental or physical disability, or any other basis prohibited by applicable law. Contractor shall ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, mental or physical disability, or any other basis prohibited by applicable law. Such actions shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training, including apprenticeship. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, a notice setting forth provisions of this non-discrimination clause.

b. Contractor shall, in all solicitations and advertisements for employees placed by, or on behalf of Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, mental or physical disability, or any other basis prohibited by applicable law.

c. Contractor shall cause the foregoing paragraphs (a) and (b) to be inserted in all subcontracts for any work covered by this Agreement, provided that the foregoing provisions shall not apply to subcontracts for standard commercial supplies or raw materials.

16. **Conflicts of Interest**. Contractor agrees that it shall not make, participate in the making, or in any way attempt to use its position as a consultant to influence any decision of City in which Contractor knows or has reason to know that Contractor, its officers, partners, or employees have a financial interest as defined in Section 87103 of the Government Code.

17. **Indemnity**.

a. To the fullest extent permitted by law, Contractor agrees to indemnify, defend and hold City, its City Council and each member thereof, and the officers, officials, agents and employees of City (collectively the "Indemnitees") entirely harmless from all liability arising out of:

(1) Any and all claims under workers' compensation acts and other employee benefit acts with respect to Contractor's employees or Contractor's subcontractor's employees arising out of Contractor's work under this Agreement, including any and all claims under any law pertaining to Contractor or its employees' status as an independent contractor and any and all claims under Labor Code section 1720 related to the payment of prevailing wages for public works projects; and

(2) Any claim, loss, injury to or death of persons or damage to property caused by any act, neglect, default, or omission of Contractor, or person, firm or corporation employed by Contractor, either directly or by independent contract, including all damages due to loss or theft sustained by any person, firm or corporation including the Indemnitees, or any of them, arising out of, or in any way connected with the work or services which are the subject of this Agreement, including injury or damage either on or off City's property; but not for any loss, injury, death or damage caused by the active negligence or willful misconduct of City. Contractor, at its own expense, cost and risk, shall indemnify any and all claims, actions, suits or other proceedings that may be brought or instituted against the Indemnitees on any such claim or liability covered by this subparagraph, and shall pay or satisfy any judgment that may be rendered against the Indemnitees, or any of them, in any action, suit or other proceedings as a result of coverage under this subparagraph.

b. To the fullest extent permitted by law, and as limited by California Civil Code 2782.8, Contractor agrees to indemnify and hold Indemnitees harmless from all liability arising out of any claim, loss, injury to or death of persons or damage to property to the extent caused by its negligent professional act or omission in the performance of professional services pursuant to this Agreement.

c. Except for the Indemnitees, the indemnifications provided in this Agreement shall not be construed to extend any third party indemnification rights of any kind to any person or entity which is not a signatory to this Agreement.

d. The indemnities set forth in this section shall survive any closing, rescission, or termination of this Agreement, and shall continue to be binding and in full force and effect in perpetuity with respect to Contractor and its successors.

18. Insurance.

a. Contractor shall carry workers' compensation insurance as required by law for the protection of its employees during the progress of the work. Contractor understands that it is an independent contractor and not entitled to any workers' compensation benefits under any City program.

b. Contractor shall maintain during the life of this Agreement the following minimum amount of comprehensive general liability insurance or commercial general liability insurance: the greater of Two Million Dollars ($2,000,000) per occurrence; or (2) all the insurance coverage and/or limits carried by or available to Contractor. Said insurance shall cover bodily injury, death and property damage and be written on an occurrence basis.

c. Contractor shall maintain during the life of this Agreement, the following minimum amount of automotive liability insurance: the greater of (1) a combined single limit of One Million Dollars ($1,000,000) or (2) all the insurance coverage and/or limits carried by or available to Contractor. Said insurance shall cover bodily injury, death and property damage for all owned, non-owned and hired vehicles and be written on an occurrence basis.

d. Any insurance proceeds in excess of or broader than the minimum required coverage and/or minimum required limits which are applicable to a given loss shall be available to City. No representation is made that the minimum insurance requirements of this Agreement are sufficient to cover the obligations of Contractor under this Agreement.

e. Each policy of general liability and automotive liability shall provide that City, its officers, officials, agents, and employees are declared to be additional insureds under the terms of the policy, but only with respect to the work performed by Contractor under this Agreement. A policy endorsement to that effect shall be provided to City along with the certificate of insurance. In lieu of an endorsement, City will accept a copy of the policy(ies) which evidences that City is an additional insured as a contracting party. The minimum coverage required by Subsection 18.b and c, above, shall apply to City as an additional insured. Any umbrella liability insurance that is provided as part of the general or automobile liability minimums set forth herein shall be maintained for the duration of the Agreement.

f. Contractor shall maintain during the life of this Agreement professional liability insurance covering errors and omissions arising out of the performance of this Agreement with a minimum limit of One Million Dollars ($1,000,000) per claim. Contractor agrees to keep such policy in force and effect for at least five (5) years from the date of completion of this Agreement.

g. The insurance policies maintained by Contractor shall be primary insurance and no insurance held or owned by City shall be called upon to cover any loss under the policy. Contractor will determine its own needs in procurement of insurance to cover liabilities other than as stated above.

h. Before Contractor performs any work or prepares or delivers any materials, Contractor shall furnish certificates of insurance and endorsements, as required by City, evidencing the aforementioned minimum insurance coverages on forms acceptable to City, which shall provide that the insurance in force will not be canceled or allowed to lapse without at least ten (10) days' prior written notice to City.

i. Except for professional liability insurance coverage that may be required by this Agreement, all insurance maintained by Contractor shall be issued by companies admitted to conduct the pertinent line of insurance business in California and having a rating of Grade A or better and Class VII or better by the latest edition of Best Key Rating Guide. In the case of professional liability insurance coverage, such coverage shall be issued by companies either licensed or admitted to conduct business in California so long as such insurer possesses the aforementioned Best rating.

j Contractor shall immediately notify City if any required insurance lapses or is otherwise modified and cease performance of this Agreement unless otherwise directed by City. In such a case, City may procure insurance or self-insure the risk and charge Contractor for such costs and any and all damages resulting therefrom, by way of set-off from any sums owed Contractor.

k. Contractor agrees that in the event of loss due to any of the perils for which it has agreed to provide insurance, Contractor shall look solely to its insurance for recovery. Contractor hereby grants to City, on behalf of any insurer providing insurance to either Contractor or City with respect to the services of Contractor herein, a waiver of any right to subrogation which any such insurer may acquire against City by virtue of the payment of any loss under such insurance.

l. Contractor shall include all subcontractors, if any, as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor to City for review and approval. All coverages for subcontractors shall be subject to all of the requirements stated herein.

m. Contractor shall maintain during the life of this Agreement insurance covering Sexual Abuse and Molestation arising out of the performance of this Agreement with a minimum limit of One Million Dollars ($1,000,000) per occurrence and One Million Dollars ($1,000,000) in the aggregate for sexual abuse and molestation insurance that shall protect the Contractor and the City from any and all claims of any nature for damages related to sexual abuse and molestation arising from performing any portion of the Services by Contractor. A separate additional insured endorsement shall be provided to include the City and its officers, officials, employees, agents, and volunteers as additional insured in the policy.

19. **Termination**. City may for any reason terminate this Agreement by giving Contractor not less than five (5) days' written notice of intent to terminate. Upon receipt of such notice, Contractor shall immediately cease work, unless the notice from City provides otherwise. Upon the termination of this Agreement, City shall pay Contractor for services satisfactorily provided and all allowable reimbursements incurred to the date of termination in compliance with

this Agreement, unless termination by City shall be for cause, in which event City may withhold any disputed compensation. City shall not be liable for any claim of lost profits.

20. Maintenance and Inspection of Records. In accordance with generally accepted accounting principles, Contractor and its subcontractors shall maintain reasonably full and complete books, documents, papers, accounting records, and other information (collectively, the "records") pertaining to the costs of and completion of services performed under this Agreement. City and its authorized representatives shall have access to and the right to audit and reproduce any of Contractor's records regarding the services provided under this Agreement. Contractor shall maintain all such records for a period of at least three (3) years after termination or completion of this Agreement. Contractor agrees to make available all such records for inspection or audit at its offices during normal business hours and upon three (3) days' notice from City, and copies thereof shall be furnished if requested.

21. Compliance with all Laws/Immigration Laws.

a. Contractor shall be knowledgeable of and comply with all local, state and federal laws which may apply to the performance of this Agreement.

b. If the work provided for in this Agreement constitutes a "public works," as that term is defined in Section 1720 of the California Labor Code, for which prevailing wages must be paid, to the extent Contractor's employees will perform any work that falls within any of the classifications for which the Department of Labor Relations of the State of California promulgates prevailing wage determinations, Contractor hereby agrees that it, and any subcontractor under it, shall pay not less than the specified prevailing rates of wages to all such workers. The general prevailing wage determinations for crafts can be located on the website of the Department of Industrial Relations (www.dir.ca.gov/DLSR). Additionally, to perform work under this Contract, Contractor must meet all State registration requirements and criteria, including project compliance monitoring.

c. Contractor represents and warrants that it:

(1) Has complied and shall at all times during the term of this Agreement comply, in all respects, with all immigration laws, regulations, statutes, rules, codes, and orders, including, without limitation, the Immigration Reform and Control Act of 1986 (IRCA); and

(2) Has not and will not knowingly employ any individual to perform services under this Agreement who is ineligible to work in the United States or under the terms of this Agreement; and

(3) Has properly maintained, and shall at all times during the term of this Agreement properly maintain, all related employment documentation records including, without limitation, the completion and maintenance of the Form I-9 for each of Contractor's employees; and

(4) Has responded, and shall at all times during the term of this Agreement respond, in a timely fashion to any government inspection requests relating to immigration law compliance and/or Form I-9 compliance and/or worksite enforcement by the Department of Homeland Security, the Department of Labor, or the Social Security Administration.

d. Contractor shall require all subcontractors or subconsultants to make the same representations and warranties as set forth in Subsection 21.c.

e. Contractor shall, upon request of City, provide a list of all employees working under this Agreement and shall provide, to the reasonable satisfaction of City, verification that all such employees are eligible to work in the United States. All costs associated with such verification shall be borne by Contractor. Once such request has been made, Contractor may not change employees working under this Agreement without written notice to City, accompanied by the verification required herein for such employees.

f. Contractor shall require all subcontractors or sub-consultants to make the same verification as set forth in Subsection 21.e.

g. If Contractor or subcontractor knowingly employs an employee providing work under this Agreement who is not authorized to work in the United States, and/or fails to follow federal laws to determine the status of such employee, that shall constitute a material breach of this Agreement and may be cause for immediate termination of this Agreement by City.

h. Contractor agrees to indemnify and hold City, its officers, officials, agents and employees harmless for, of and from any loss, including but not limited to fines, penalties and corrective measures City may sustain by reason of Contractor's failure to comply with said laws, rules and regulations in connection with the performance of this Agreement.

22. **Governing Law and Venue**. This Agreement shall be construed in accordance with and governed by the laws of the State of California and Contractor agrees to submit to the jurisdiction of California courts. Venue for any dispute arising under this Agreement shall be in Orange County, California.

23. **Integration**. This Agreement constitutes the entire agreement of the parties. No other agreement, oral or written, pertaining to the work to be performed under this Agreement shall be of any force or effect unless it is in writing and signed by both parties. Any work performed which is inconsistent with or in violation of the provisions of this Agreement shall not be compensated.

24. **Notice**. Except as otherwise provided herein, all notices required under this Agreement shall be in writing and delivered personally, by e-mail, or by first class U.S. mail, postage prepaid, to each party at the address listed below. Either party may change the notice address by notifying the other party in writing. Notices shall be deemed received upon receipt of same or within three (3) days of deposit in the U.S. Mail, whichever is earlier. Notices sent by e-mail shall be deemed received on the date of the e-mail transmission.

EXHIBIT "A"

SCOPE OF SERVICES

The scope of services for Hart Park Pool Operations and Aquatics Programming shall include "Contractor's Proposal" for RFP No. 25-26.10, included as Pages A-2 through A-28 of this Exhibit. The scope of services shall also include any requirements included in the City's referenced "RFP No. 25-16.10" (Hart Park Pool Operations and Aquatics Programming) and associated addenda. In the event of a discrepancy between these contract documents, Exhibit A shall govern. Proposal clarifications listed on this page A-1 shall supersede latter portions of this Exhibit.

Scope of Work Clarifications:

1. City, not the Contractor, shall provide necessary Janitorial Services under separate contract during the initial term of the Agreement, especially as it pertains to the Hart Park Pool interior restrooms. City shall provide reasonable notice to Contractor regarding planned regular janitorial maintenance.

2. Contractor will not be expected to provide any Capital Improvements at Hart Park Pool under this agreement. Capital Improvements, if any, shall be undertaken by the City or it's agents and the City will provide Contractor reasonable notice of improvement schedules that may impact aquatic programming.

3. Contactor will be responsible for performing regular pool maintenance services as described in Exhibit A. City shall be responsible for performing any non-routine maintenance services or major repairs to Pool equipment.

4. Contractor shall not be responsible for the cost of utilities (i.e., water, electricity) reasonably necessary for the operation of the Hart Park Pool aquatics program. City may, but shall not be required to, provide limited internet services at the Hart Park Pool facility.

5. Contractor shall obtain City approval (in advance) prior to implementing any aquatics programming changes or modifications to fees charged to participants for aquatics programs (i.e. lessons, classes, open swim).

6. Contractor shall submit to the City's Project Manager seasonal program schedules for City review and approval not less than twelve (12) weeks in advance of advertisement.

This experienced leadership team provides direct support in staffing, training, safety oversight, marketing, compliance, and operational excellence.

PREMIER
AQUATICS

Staffing Capacity
Premier Aquatics employs approximately 260 year-round staff members and over 750 seasonal employees. The company currently provides aquatics staffing and management services to more than 40 public and private clients across California, Arizona, and Utah, representing over 100 aquatic facilities.

Licensing, Certifications & Compliance
Premier Aquatics maintains all required business licenses and complies with all local, county, state, and federal regulations governing aquatic facilities. In coordination with the Pool Pros, a second division of service within the Safer Swimmer ecosystem. Key certifications and compliance measures include:

- StarGuard Elite Lifeguard Certification
- CPR/AED and First Aid Certifications
- Lifeguard Management Certification
- Certified Pool Operator (CPO), as requested
- Live Scan background screening
- Sexual Harassment Training
- Workplace Violence Prevention Training
- Licensed C-53 contractor

Insurance Coverage
Premier Aquatics carries comprehensive insurance coverage that meets or exceeds municipal requirements:

- General Liability: $3,000,000 / $5,000,000 aggregate
- Workers' Compensation: $1,000,000
- Employment Practices Liability Insurance (EPLI): $1,000,000

Certificates of insurance listing the City of Orange as additionally insured will be provided upon award.

Legal & Contract History
Since its founding in 2011, Premier Aquatics has maintained a clean and unblemished record. The company has never been subject to litigation, bankruptcy, or failure to perform under a contract. Premier Aquatics has never lost a contract due to service-related issues.

PREMIER
AQUATICS

Program Approach
City of Orange – Hart Park Pool
Premier Aquatic Service LLC (Premier Aquatics) is pleased to present the following Program Approach for the City of Orange's Hart Park Pool. This approach is tailored

specifically to the operational goals, historic nature, and community needs of Hart Park Pool and is informed by Premier's 14+ years of successfully managing municipal aquatic facilities throughout Southern California.

Year-Round Operations Overview
Premier Aquatics proposes to operate Hart Park Pool on a year-round basis, providing consistent access to aquatic programming and services for the community throughout the calendar year. This approach aligns with community demand, staffing availability, and program participation trends, allowing the City of Orange to maximize the value of the facility while delivering high-quality, safe, and engaging aquatic programs.

Year-round operations enable Premier Aquatics to offer expanded programming opportunities, maintain consistent staffing and training standards, and provide reliable access to swim lessons, fitness programming, recreational swim, and special events for residents of all ages. By operating continuously throughout the year, Premier Aquatics will enhance program continuity, customer satisfaction, and overall utilization of Hart Park Pool.

PREMIER AQUATICS

Proposed Schedule

Monday/Wednesday: Senior Water Aerobics	10:00am- 11:00am
Saturday: Saturday Swim Programs	9:00am- 12:00pm

Program Philosophy

Premier Aquatics' program philosophy is centered on four core principles:

- Safety of all guests and program participants
- Exceptional customer service
- High-quality, well-attended aquatic programs
- Safe, professional, and welcoming facility operations

Our goal is to create a vibrant community hub at Hart Park Pool—one that residents look forward to visiting, families trust, and participants recommend to others.

PREMIER
AQUATICS

Core Program Offerings
Premier Aquatics will develop, manage, and deliver a comprehensive suite of aquatic programs designed to serve all ages and abilities within the Orange community. Initial programming will include:

- Recreational Swim – Open swim opportunities for individuals and families.
- Learn-to-Swim Programs – Group lessons, parent and me, and private lessons for youth and adults, emphasizing water safety and skill progression.
- Youth Summer Swim Team – A community-focused swim team program designed to build skills, confidence, and sportsmanship.
- Water Aerobics & Fitness – Low-impact aquatic fitness classes targeted toward adults and seniors.
- Facility Use Rentals – Pool rentals for private parties, group reservations, additional programs and special events.

Program Development & Growth
Programs will be evaluated regularly based on participation, customer feedback, and operational performance, with adjustments made as needed to ensure success and sustainability.

Customer Service Focus
Customer service is a cornerstone of Premier Aquatics' operations. All staff—from lifeguards to program instructors and managers—are trained to deliver professional, friendly, and responsive service. Our team is empowered to address questions, resolve concerns promptly, and ensure every guest has a positive experience at Hart Park Pool.

Staffing & Professional Standards
Premier Aquatics will provide certified, well-trained staff for all programs and operating hours. All lifeguards will maintain current StarGuard Elite certifications and participate in regular in-service training. Program instructors will be trained in Premier's in-house curriculum to ensure consistency, safety, and quality across all offerings. In addition, all instructors will have a minimum CPR/AED and First Aid certification. Deck leads will be on deck during all programing hours to provide customer service and program support.

Partnership with the City of Orange
Premier Aquatics views this relationship as a true partnership with the City of Orange. We are committed to open communication, transparency, and collaboration with City staff.

Regular check-ins, reporting, and proactive problem-solving will ensure alignment with City goals and a successful operating season.

Firm Experience
Premier Aquatics has extensive experience operating municipal aquatic facilities similar in scope to Hart Park Pool. Representative clients include:

City of Laguna Niguel: October 2023- Current.
Jonathon Harmon, jharmon@cityoflagunanigule.org
949-425-5108

Provide lifeguard coverage for facility and aquatic programing.

Liberty Military Housing: 2020- Current.
Amanda Begin, ABegin@livelmh.com
760-400-8193
Provide seasonal staffing to 26 facilities to the Marine Corp housing in Yuma Arizona, Camp Pendleton, Twentynine Palms, Coleville, and Miramar. Employ two full-time employees and roughly 140 employees. (roughly 40,000 hours)

Howard Johnson Hotel: 2023- Current.
Matt Stanley, matt.stanley@nothwesthotel.org
714-618-6020
Provide year-round service to one pool and one water park. Three full-time and 40 part-time staff. (Roughly 16,000 hours)

**In all, Premier Aquatics provides staffing and services to over 40 contracts which accounts for over 100 total pools. Pools range from small commercial HOA pools, to larger water parks, lazy rivers, and city competition pools. We have never failed to fulfill a contract and have never lost a contract to a service complaint. **

2024 Total Staffing Hours
Salary Hours- 16,632
Hourly Staffing- 173,931
Overtime Hours- 1,835
Total hours- 193,333

Conclusion
Premier Aquatics brings a proven track record, deep operational expertise, and a commitment to safety, customer service, and program excellence. We are well-positioned to successfully operate Hart Park Pool and to serve as a trusted partner to the City of Orange.

Memo

To: Potential Bidder

From: Leslie Hardy, Community and Library Services Director

Date: November 20, 2025

Subject: **Protection of Historic Structures**

The City of Orange wants you to be aware of its historic District, primarily in Old Towne that includes many structures and contributing elements. Hart Park and Plaza Park, which are in this District, contain historically significant structures and elements that must be protected.

As a valued partner using the facilities, or a contractor for the City of Orange responsible for the maintenance or improvements of these historically significant park sites, it is incumbent upon your members or employees to protect the structures and elements from being damaged as a result of their activities.

Plaza Park is particularly historic, having originally been constructed in the late 1800s during the City's infancy. The Plaza fountain, in its current state, was built in the 1930s and is a cherished and significant attraction for residents, businesses, and visitors alike. The Hart Park pool building and band shell are historic structures on the National Registry as contributing significantly to Old Towne Orange Historic District. In fact, all of the north section of Hart Park, including the creek bottom/parking lot and walls are a contributor to the District.

As stewards of our historical resources, please pay special attention to how you conduct your activities or work while in these parks. It is up to you to help preserve these important City treasures, so they are here for generations to come. It is important to understand that your role as a permitted user or City of Orange contractor requires you to use good judgment while conducting your activities or executing your duties and responsibilities and not put the historic structures or elements at risk of damage. They cannot be replaced and damage to them requires repairs, altering their original construction. Negligence on the part of any permitted user or contract employee causing damage to these historic structures or elements will not be tolerated and may result in revocation of permits or the contract employee being disqualified to perform work in City parks and may also result in the termination of your contract with the City of Orange.

Thank you for being good stewards of our precious historical resources.

I acknowledge that I have read, understand and will comply with the above guidelines (return one signed copy to the City).

Noncollusion Affidavit

(Title 23 United States Code Section 112 and
Public Contract Code Section 7106)

To the CITY OF ORANGE – DEPARTMENT OF PUBLIC WORKS

In conformance with Title 23 United States Code Section 112 and Public Contract Code 7106 the bidder declares that the bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation; that the bid is genuine and not collusive or sham; that the bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid, and has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding; that the bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder, or to secure any advantage against the public body awarding the contract of anyone interested in the proposed contract; that all statements contained in the bid are true; and, further, that the bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid.

Note: The above Noncollusion Affidavit is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Noncollusion Affidavit.
Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution

DEBARMENT AND SUSPENSION CERTIFICATION TITLE 2, CODE OF FEDERAL REGULATIONS, PARTS 180 & 1200

The Proposer, under penalty of perjury, certifies that, except as noted below, he/she or any other person associated therewith in the capacity of owner, partner, director, officer, manager:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;

(2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and

(4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal. Exceptions will not necessarily result in denial of award but will be considered in determining proposer responsibility. For any exception noted above, indicate below to whom it applies, initiating agency, and dates of action. Notes: Providing false information may result in criminal prosecution or administrative sanctions. The above certification is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Certification.

COST PROPOSAL – MANAGEMENT FEE MODEL

City of Orange – Hart Park Pool Operations
RFP No. 25-26.10

This Cost Proposal is submitted using a Management Fee model. Under this approach, Premier Aquatic Service LLC (PAS) will receive a fixed annual management fee, and PAS will be responsible for covering all staffing, programming, training, and administrative costs necessary to operate the Hart Park Pool and associated aquatic programs. All services will comply with the CMAHC guidelines.

This structure provides the City of Orange with cost certainty, budget predictability, and reduced operational risk, while allowing PAS to manage staffing efficiencies and program execution internally.

CP-1: Staffing Cost Proposal (Included in Management Fee)
All staffing costs required to operate Hart Park Pool during the May 2026 through April 2027 operating season are included within the proposed annual management fee. Staffing covered under this fee includes, but is not limited to:

- Lifeguards
- Head Lifeguards / Deck Supervisors
- Swim Instructors
- Program Supervisors
- Front Desk / Customer Service Staff

PAS assumes full responsibility for wages, payroll taxes, workers' compensation, training, and staffing-related expenses. No additional staffing costs will be billed to the City outside of the agreed-upon management fee. For any additional staffing services requested by the city, outside of the agreed upon scheduled listed in this proposal, Premier will bill at an hourly rate of $35.00/hour.

****CP-1 Total Staffing Cost to the City: $0 (Included in Management Fee)****

CP-2: Operating and Administrative Costs (Included in Management Fee)
Operating and administrative costs required to support safe and effective aquatic operations are included within the proposed annual management fee, with the exception of capital items to be left at the facility. These costs include, but are not limited to:

- Staff training and certifications (StarGuard Elite, CPR/AED, in-service training)
- Uniforms, rescue equipment, and program supplies
- Background checks and compliance requirements

- Scheduling, payroll, human resources, and administrative support

PAS will be responsible for managing these costs internally to ensure program quality, safety compliance, and customer service excellence.
****CP-2 Total Operating Cost to the City: $0 (Included in Management Fee)****

CP-3: Total Annual Cost Summary
The table below summarizes the total annual cost to the City of Orange under the Management Fee model proposed by Premier Aquatic Service LLC.

CP-1 Staffing Costs	$0 (Included in Management Fee)
CP-2 Operating & Administrative Costs	$0 (Included in Management Fee)
Annual Management Fee	$186,000.00
Pool Maintenance	$30,000.00
Total Annual Cost to the City (CP-3)	$216,000.00

**Regarding Appendix C in the RFP as it relates to pool service, we agree to all required service and service intervals and intend on increasing year round service to twice weekly, however all chemical costs associated with operating the pool will be billed back to the city using a look back period of one month. Details regarding pool maintenance will be found in Appendix A.

Revenue Share
Premier Aquatics is proposing a revenue share program with three different triggers which are listed below. See table below for an outline of revenue triggers.

Program Revenue Share	
Revenue	**Revenue Share**
$ 125,000.00	15.0%
$ 150,000.00	
$ 175,000.00	
$ 200,000.00	
$ 225,000.00	20%
$ 250,000.00	
$ 275,000.00	
$ 301,000.00+	22.5%

Management Fee Scope and Assumptions

The proposed annual management fee of $186,000 includes full responsibility for operating Hart Park Pool and delivering aquatic programming in accordance with the City's RFP requirements. PAS assumes the financial risk associated with staffing levels, wage fluctuations, and program execution.

This proposal is based on a year round operations from May through April and assumes the City will continue to provide utilities, chemicals, and after hours cleaning.

Certification and Signature

I certify under penalty of perjury that the information contained in this Cost Proposal is true and correct and that I am authorized to bind the firm contractually.

Appendix A

Program Descriptions

Perpetual Group Swim Lessons
Fees: $15 per lesson billed monthly based on how many times the class meets in a month
Frequency: 1 x per week, participants can choose multiple days
Participants: 3 students in Level 1, 4 students in Level 2- 6

Premier Aquatic Service's Perpetual Group Swim Lessons are designed to build water safety, confidence, and foundational swim skills in a supportive group environment. Swimmers are placed into progressive levels and advance as skills are mastered, allowing for continuous development throughout the season.

This program focuses on water safety, breath control, floating, and stroke development including freestyle and backstroke, with introduction to additional strokes as swimmers progress. Small group sizes allow instructors to provide individual feedback while maintaining a positive, social learning environment.

Perpetual Private Swim Lessons
Fees: $28 per lesson billed monthly based on how many times the class meets in a month
Frequency: 1 x per week, participants can choose multiple days
Participants: 1 student

Perpetual Private Swim Lessons provide one-on-one instruction tailored to each swimmer's individual needs, learning style, and goals. These lessons allow instructors to focus on specific skills and accelerate progress at a pace comfortable for the swimmer.

Private lessons are ideal for swimmers who benefit from personalized instruction, have specific goals, or require additional support to build confidence and proficiency in the water.

Fast Track Group Swim Lessons
Fees: $1110 per session
Frequency: Class meets Monday – Thursday for 2 weeks (8 Lessons)
Participants: 3 students in Level 1, 4 students in Level 2- 6

Fast Track Group Swim Lessons are accelerated programs conducted over a concentrated two-week period. Classes meet multiple times per week with the same instructor and schedule, providing consistency and rapid skill development.

This format is ideal for swimmers looking to make quick progress, prepare for summer swim activities, or reinforce skills in a short timeframe.

Parent & Me Swim Lessons
Fees: $15 per lesson billed monthly based on how many times the class meets in a month
Frequency: 1 x per week, participants can choose multiple days
Participants: 8 students/parents

Parent & Me Swim Lessons introduce infants and toddlers to the water in a safe, positive, and playful environment alongside a parent or guardian. The program emphasizes water comfort, trust, and early water safety through songs, games, and guided activities.

These lessons help children develop early familiarity with the water while teaching parents techniques to support their child's comfort and safety.

Water Aerobics
Fees: $5 drop in fee
Frequency: Class meets 2- 3 days a week
Participants: 20 students

Water Aerobics is a low-impact aquatic fitness program designed to improve cardiovascular endurance, strength, flexibility, and overall wellness. Classes are instructor-led and suitable for all fitness levels.

Participants benefit from the resistance and buoyancy of the water, which reduces joint impact while providing an effective full-body workout.

Swim Team
Fees: $150 per month
Frequency: 4 practices a week, Monday- Thursday
Participants: group size varies

The Swim Team program offers structured training for swimmers ready to participate in a competitive or advanced swim environment. Practices focus on stroke technique, endurance, starts, turns, and overall swim conditioning.

In addition to physical training, the program emphasizes teamwork, discipline, and sportsmanship, creating a positive and motivating team culture.

Program Discounts
Perpetual style lessons allow for unlimited make-ups in the same style of lesson. Make-ups expire after 90 days.

Perpetual style lessons allow for a 10% sibling discount.

Dear :

QUOTE SUMMARY

On behalf of the entire **Pool Pros** team, I would like to submit the following proposal for your consideration. The following proposal includes all necessary weekly, monthly, quarterly, and annual service expectations. We understand the importance of well-maintained facilities and look forward to the opportunity to service your residents and to ensure that the pools at City of Orange are maintained to the highest possible standards.

What Makes Us Different

At The Pool Pros, we understand the importance of maintaining a clean, safe, and inviting aquatic space for your residents and guests. Our goal is to provide top-tier service with professionalism, reliability, and transparency.

Simply put, our commitment to you is fourfold.

C- Chemistry- We will maintain proper chemistry which will extend the life of your facility and equipment.

C- Cleanliness- We will maintain a clean and orderly pool and pump room.

C- Care- We will work to service and maintain your equipment as to avoid unnecessary repairs and replacement costs.

C- Communication- You will always know what is happening with your facility, be it regarding standard service, or the need for repairs. Communication is key.

Getting Started

Within one month of the start of service, The Pool Pros will provide the client with a comprehensive equipment audit to assist in capital planning and potential repair/replacement budgets. This audit should be used to prepare stakeholders for any impending needs for major and minor service. This service will also include a calibration of any existing or new chemical controller systems, to ensure pool chemistry is kept at a proper level.

Chemical Controllers

The Pool Pros requires properly functioning Chemical Controllers to ensure that pool chemistry is continuously operating at acceptable levels. For contracts not currently utilizing controllers, Pool Pros will recommend a number of options but will require that clients install one of the approved systems to begin service. Pool Pros will calibrate and maintain client controllers as part of regular service. Please note that daily records of pool chemistry is required in the State of California. The proper controllers satisfy that requirement.

Please also keep in mind that utilizing chemical controllers is guaranteed to extend the life of your equipment, your plaster, and your aquatics facility.

Scope of Services

The below outlines the general duties The Pool Pros will be responsible for the community pool(s).

Routine Maintenance:

1. Chemical testing and balancing for all bodies of water to Health department Standards.
2. Health Department-compliant record-keeping for water chemistry and maintenance.
3. Cleaning and skimming pool surfaces to remove debris.
4. Vacuuming pool floors and brushing walls to prevent algae.
5. Maintaining and cleaning pump room equipment and chemical storage areas.
6. Backwashing filters as needed for optimal filtration.
7. Coordinating chemical deliveries and maintaining an organized inventory.
8. Monitoring water levels and temperatures (80-83°F).
9. Inspecting and reporting any vandalism or facility damage immediately.

Reporting and Communication:

1. Detailed service logs delivered each service visit, including water chemistry data and performed tasks.
2. Immediate communication of any urgent issues or recommended repairs.

Additional Services:

1. Chlorine and Acid- Billed monthly for the preceding month.
2. Repairs and emergency response billed separately at $250/hour. Weekend calls will be billed at $350 per hour.

3. Fecal Contamination Event- Billed based on gallonage.
4. Equipment replacement and chemical costs (beyond standard chlorine and aci billed with prior written approval.
5. On-site training available for property management staff to enhance collaboration and understanding of facility needs.

Preventative Maintenance

Preventative maintenance is the key to a fully functioning aquatic facility. Please refer to the chart below for a full breakdown of the "Pool Pros Preventative Maintenance Commitment", and what to expect from an annual service and fee perspective.

Below is a comprehensive plan that the Pool Pros will follow to properly maintain for your bodies of water, complete with estimated hour and potential costs associated with each maintenance item.

	Commercial	**Cost**
On Start Up		
Configure and Calibrate Automation System	10 Hours	**Included**
Weekly/Per Visit		
Inspect pumps. No unusual noises, baskets and impeller are free of any debris.	15 Min	Included
Inspect pool equipmentfor leaks - pipes, valves and fittings.	15 Min	Included
Inspect pool lighting fixtues - lights are securely fastened and functioning.	15 Min	Included
Inspect electrical panel - ensuring all circuit breakers are working correctly.	15 Min	Included
Inspect pool automation - pool equipment set to correct run times.	15 Min	Included
Backwash pool filtration system.	30 Min	Included
Clean skimmer and pump baskets	15 Min	Included
Monthly		
Check stability of handrails and condition of handrail covers.		Included
Inspect o ring seals on pump lids, check valves, valve actuators etc.		Included
Check facility gates to ensure self closing		Included
Quarterly		
Chemical feeders - replace tubing.	1 Hour	Included
Chemical feeders - inspect gears.	30 Min	Included
Bi-Annual		
Inspect and clean filter cartidges, o ring seals, drain plugs, tank lube.	2 Hours	Included
Inspect sand filter, Heaters, Pumps, Plumbing, Electrical, and Safety Compliance Checklist.	1-6 Hours*	Included
Annual		
Heater inspection / service	1 Hour	Included
Replace automation battery backup		Included
Inspect bonding to pool equipment - ensuring all electrial components are grounded.	15 Min	Included
Sand filter and Heater break downTBD by manufacture. DE Fillters are included.		*Per heater/Filter

Service Schedule

Off-Season ~~(May 1 – April 30)~~ **(September 1 - April 30)**
On-Season (May 1 – August 31)

What our clients are saying about us

"Since Pool Pros took over our four pools in 2023, it is the first time in nearly a decade that we feel we don't have to worry about our facilities. We know what they are doing, when they are doing it, and if repairs are needed, the speed at which they get them done is impressive. The communication they provide before and after is exceptional. We are so glad we found Pool Pros.".

Prepared for

Below is a detailed breakdown of your service quote. Please note that all pricing is subject to change based market fluctuations on chemicals and potential minimum wage increases. Please don't hesitate to reach out if you have any questions.

Products & Services	Billing Frequency	Quantity	Unit price	Price
2 Day Offseason 3 Day On-Season Maintenance	Monthly	1	$2,150.00 / month	$2,150.00 / month

Products & Services	Billing Frequency	Quantity	Unit price	Price
Service September through April- 2 Days per week, May through August- 3 Days Per week for the Maintenance of the pools.				
Annual Preventative Maintenance Program Equipment Program (filters, controllers, heaters, and Stenner chemical feed lines; includes inspections, cleaning, calibration, and minor adjustments; excludes major repairs and replacement parts)	Monthly	1	$350.00 / month	$350.00 / month
Monthly subtotal				$2,500.00

TERMS AND CONDITIONS

1. **Approval Process:** All non-routine repairs or additional expenses will require written approval from property management. Urgent repairs under $500 may proceed with verbal approval followed by written confirmation.
2. **Termination Clause:** Either party may terminate this agreement with a 30-day written notice. Outstanding invoices and approved work in progress must be settled before termination.
3. **Reporting Standards:** Service logs and reports will be shared electronically, ensuring transparency and accountability.
4. **Liability:** The Pool Pros is not responsible for equipment failures resulting from deferred maintenance or client decisions to postpone recommended repairs.

5. **Performance Standards:** The Pool Pros will maintain water chemistry within recommended guidelines, ensure all tasks are completed as scheduled, and respond promptly to client inquiries or emergencies.
6. **Compliance:** All work will comply with local health department codes and regulations to ensure safety and operational excellence.

PROPOSAL ACCEPTANCE

By agreeing to these terms, you can confirm your readiness to begin professional pool maintenance services with The Pool Pros effective immediately. Your account will be charged starting by the end of the week, with recurring monthly billing cycles thereafter. In addition, you acknowledge that pricing is subject to annual increases.

EXHIBIT "B"
FEE SCHEDULE & AGREEMENT COST TABLE

Annual Fees (Totals) to Contractor 'Table 1'

		Initial Term	*Optional First Extension*	*Optional Second Extension*	*Optional Third Extension*
	Service Description	**Year 1 (Annual Fee)**	**Year 2 (Annual Fee)**	**Year 3 (Annual Fee)**	**Year 4 (Annual Fee)**
1	Pool Chemicals*	$ 11,424.00	$ 11,995.20	$ 12,594.96	$ 13,224.71
2	Pool Maintenance Service**	$ 30,000.00	$ 31,200.00	$ 32,448.00	$ 33,745.92
3	Management Fee**	$ 186,000.00	$ 193,440.00	$ 201,177.60	$ 209,224.70
4	Agreement Subtotal (Scope)	**$ 227,424.00**	**$ 236,635.20**	**$ 246,220.56**	**$ 256,195.33**
5	Contingency***	$ 22,742.40	$ 23,663.52	$ 24,622.06	$ 25,619.53
6	**Not-to-Exceed Annual Amount**	**$ 250,166.40**	**$ 260,298.72**	**$ 270,842.62**	**$ 281,814.86**

* Not-to-Exceed Cost: Contractor will provide Pool Chemicals (A) and (B) below, at the rates listed below on an as needed basis up to the applicable not-to-exceed annual fee. Contractor shall notify the City at least 30-days in advance of any projected need for additional chemical purchases that will exceed the annual available remaining fee.

**Fixed Fee: Contractor's negotiated total cost for service. In no event will contractor invoice above the line item maximum for this service type. Contractor will invoice the City (monthly) for fixed fee services at 1/12 the annual amount.

*** City Contingency : This line item is fixed per year in accordance with the Agreement, and expenditures within this itemization may only be approved by the City in advance, in writing.

Chemical Fee Table (Unit Rates) to Contractor 'Table 2'

	Chemical Type	**UOM**	**Fee/Rate (max)**	**Annual Not-to-Exceed**
(A)	Bulk Chlorine	Gallon	**$2.68 ******	See line #1 by Year
(B)	Bulk Muriatic Acid	Gallon	**$2.84 ******	See line #1 by Year

**** Contractor may, in conjunction with an approved annual amendment, request in writing an increase to the maximum unit "Fee/Rate" provided that the increase does not exceed a maximum annual pecentage of 4.0%. Contractor shall provide necessary back-up/sub-contract substantiation for requested chemical rate cost increases.

Revenue Fees (to City) 'Table 3'

Gross Revenue Amount	**City's Revenue Share Percentage**
$0.00 to $124,999.99	0.00%
$125,000.00 to $224,999.99	15.00%
$225,000.00 to $300,999.99	20.00%
$301,000.00+	22.50%

Revenue: Contractor shall pay City for revenue share (portions of gross revenue) based upon specific revenue targets listed above. Revenue tracking resets annually in conjunction with potential annual amendments. Contractor shall provide revenue tracking reports not less frequently than quarterly. Revenue share payments shall be made to the City within 30-days after the end of an applicable quarter. The City may elect to recieve potential revneue as a credit to be deducted from a regular invoice to the City for Service.

General Fee Notes

1 In the event of a descrepancy between Exhibit A / Contractor's Proposal, and this Exhibit B, the information in Exhibit B shall govern.

2 Contractor shall itemize all monthly invoices/fees to the City in accordance with Table 1 of this Exhibit.

Agenda Item

Orange City Council

Item #: 10.3. 3/10/2026 **File #:** 26-0095

TO: **Honorable Mayor and Members of the City Council**

THRU: **Jarad Hildenbrand, City Manager**

FROM: **Christopher Cash, Public Works Director**

1. SUBJECT

Establishment of Permit Parking Area “AF” to be comprised of both sides of Fairmont Way from La Veta Avenue to Delia Lane

2. SUMMARY

Staff received a request for permit parking on Fairmont Way. The request was processed in accordance with the City’s Neighborhood Permit Parking Program, adequately supported by the affected property owners, and approved by the City Traffic Commission. If approved, Fairmont Way will establish Permit Parking Area “AF.”

3. RECOMMENDED ACTION

Adopt Resolution 11658. A Resolution of the City Council of the City of Orange adopting a revised master resolution of designated permit parking areas and established permit parking opportunity areas within the City of Orange.

4. FISCAL IMPACT

None. Implementation involves minimal staff time and minimal expenditures that have already been approved in the City’s operating budget.

5. STRATEGIC PLAN GOALS

Goal 5: Improve Infrastructure, Mobility, and Technology

6. DISCUSSION AND BACKGROUND

The City’s Neighborhood Permit Parking Program (NPPP) provides a mechanism for protecting residential streets from external parking overflow when certain criteria are satisfied. To initiate the NPPP process, a property owner on an affected and eligible street must submit a written request identifying the streets and boundaries for permit parking as well as days and times where demand for on-street parking is the highest. City staff will review the proposed streets for eligibility for incorporation into the permit parking program. Once reviewed, staff will conduct a parking occupancy study on eligible streets. A street must have a minimum 75% parking occupancy and 75% property owner support via a petition process. If these criteria are met, staff will present the proposed permit parking boundaries to City Traffic Commission (CTC) for initial review and City Council for final approval.

Permit Parking on Fairmont Way

Staff received a written request to implement permit parking on Fairmont Way. After reviewing the street and neighborhood, staff confirmed that Fairmont Way met the objectives and criteria of the City's NPPP for permit parking consideration. Staff mapped the number of legal parking spaces for the street and conducted parking occupancy studies during hours of highest demand identified by the proponent. Fairmont Way met the 75% minimum level of parking occupancy, with an average parking occupancy of 75%. Subsequently, staff mailed petitions to affected property owners. The results of the petition process for Fairmont Way indicate that 79% of property owners are in favor of permit parking, 0% are opposed, and 21% did not respond. Because the property owner support on the street met the 75% stipulated in the NPPP, staff supports, and the CTC recommends implementation of permit parking. If approved, Fairmont Way, from La Veta Avenue to Delia Lane, would establish Permit Parking Area "AF."

RESOLUTION NO. 11658

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ORANGE ADOPTING A REVISED MASTER RESOLUTION OF DESIGNATED PERMIT PARKING AREAS AND ESTABLISHED PERMIT PARKING OPPORTUNITY AREAS WITHIN THE CITY OF ORANGE

WHEREAS, pursuant to California Vehicle Code Section 22507, local authorities may generally prohibit or restrict the stopping, parking, or standing of vehicles on certain streets or highways, or portions thereof, during all or certain hours of the day; and

WHEREAS, local authorities may also include a designation of certain streets upon which preferential parking privileges are established with a permit or permits that exempt them from the prohibition or restriction of the ordinance or resolution; and

WHEREAS, pursuant to the authority provided by the California Vehicle Code, the City Council of the City of Orange codified Chapter 10.30 of the Orange Municipal Code generally establishing parking requirements for the City of Orange; and

WHEREAS, Sections 10.30.010 and 10.30.020 specifically establishes the Neighborhood Parking Permit Program designating portions of certain public streets for permit-parking and explicitly authorizes the City Council of the City of Orange to add, remove or modify designated areas within the Neighborhood Parking Permit Program by resolution; and

WHEREAS, the creation of a "Master Resolution" containing all the permit parking areas in a single document eliminates the need to potentially revise multiple resolutions when an area is added, deleted, or modified within the Neighborhood Parking Permit Program; and

WHEREAS, the City Council of the City of Orange most recently adopted said Master Resolution on March 10, 2026 (Resolution No. 11636), containing a list of all permit parking areas within the City; and

WHEREAS, staff now recommends adding additional streets in the Neighborhood Permit Parking Program; and

WHEREAS, accordingly, the City Council desires to rescind Resolution No. 11636 and replace it with a revised Resolution;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Orange does resolve as follows:

SECTION I:

That Resolution No. 11636, adopted October 14, 2025, is hereby rescinded, effective immediately upon the date of the adoption of Resolution No. 11658.

SECTION II:

The following streets be added to the Neighborhood Permit Parking Program as Area "AF":

Both sides of Fairmont Way from La Veta Avenue to Delia Lane.

SECTION III:

That the Master Resolution of Permit Parking Area for the Neighborhood Permit Parking Program attached hereto as Exhibits "A", Exhibit "B", Exhibit "C", Exhibit "D", Exhibit "E", Exhibit "F", Exhibit "G", Exhibit "H" and Exhibit "I" are hereby adopted.

ADOPTED this ____ day of _____, 2026

_____
Daniel R. Slater, Mayor, City of Orange

ATTEST:

_____
Pamela Coleman, City Clerk, City of Orange

APPROVED AS TO FORM:

_____
Natalie Adourian, City Attorney

I, PAMELA COLEMAN, City Clerk of the City of Orange, California, do hereby certify that the foregoing Resolution was duly and regularly adopted by the City Council of the City of Orange at a regular meeting thereof held on the _____ day of _____, 2026 by the following vote:

AYES: COUNCILMEMBERS:
NOES: COUNCILMEMBERS:
ABSENT: COUNCILMEMBERS:

_____
Pamela Coleman, City Clerk, City of Orange

EXHIBIT A

The following areas are all areas that have been designated by the City Council for inclusion in the Neighborhood Permit Parking Program and are subject to Chapter 10.30 of the Orange Municipal Code. Any additions or deletions to the Neighborhood Permit Parking Program shall be made by amending this Master Resolution.

CHAPMAN UNIVERSITY NEIGHBORHOOD PERMIT PARKING AREA "A"

3. Both sides of the 100-200 blocks of N. Malena Dr.
4. Both sides of the 2700 block of E. Sherman Ave.
5. Both sides of the 100-200 blocks of N. Wheeler St.

AREA "L"

1. Both sides of Jacaranda Ave. from Morgan St. to Mallard St.
2. Both sides of Juniper Ave. from Morgan St. to Mallard St.
3. Both sides of Mallard St. from Collins Ave. northerly to 985 N. Mallard St.
4. Both sides of Morgan St. from Collins Ave. northerly to 986 N. Morgan St.

AREA "M"

1. Both sides of Citrus St. from Almond Ave. to the southerly commercial property lines south of Chapman Ave.

AREA "N"

1. West side of Bedford Rd. from La Veta Ave. to Bronson Ave.

AREA "O"

1. North side of Spring St. from Hewes St. to Earlham St.

AREA "P"

1. Both sides of the 1000 block of Gardner Dr.
2. Both sides of the 1000 block of Greengrove St.
3. Both sides of Monroe Ave. from California St. to Lincoln St.
4. Both sides of Quincy Ave. from California St. to Lincoln St.
5. Both sides of Lincoln St. between Adams Ave. and Wilson Ave. including the cul-de-sac.
6. West side of Lincoln St. from 990 N. Lincoln St. to Adams Ave.
7. East side of Lincoln St. from 1073 N. Lincoln St. to Adams Ave.
8. Both sides of Adams Ave. between Lincoln St. and California St.

AREA "Q"

1. Both sides of the 8500 block of Biscayne Way.
2. Both sides of the 8500 block of Deershire Ct.
3. Both sides of the 200 block of Fairfield Ln.
4. Both sides of the 200 block of Firenza Way.
5. Both sides of the 8500 block of Heatherview Ln.

AREA "R"

1. Both sides of San Luis Dr. from 7821 (north side) to Santa Cruz Ave., and from 7816 (south side) to the beginning of 8132.
2. 8102 and 8110 Santa Cruz Ave. (south side).
3. Both sides of Santa Maria St. between San Luis Dr. and Santa Cruz Ave.

AREA "S"

1. Both sides of Poplar St. between Maple Ave. and the cul-de-sac.
2. North side of Maple Ave. between Stevens St. and 1949 W. Maple Ave.
3. South side of Maple Ave. from Stevens St. to 2010 W. Maple Ave.
4. Both sides of Eckhoff St. between 130-283 N. Eckhoff St.

AREA "T"

1. Both sides of Cully Dr. from the westerly property lines of 861 and 864 W. Cully Dr. to the cul-de-sac.
2. Four spaces on the east side of Eckhoff St. from the southerly limit to W. Arbor Way (approximately 110 feet).
3. Five spaces on the east side of Eckhoff St. from 45 feet north of W. Arbor Way end of curb return to Maple Ave. (approximately 140 feet. It allows one parking space to remain in the permit parking program just north of the driveway at 2037 W. Arbor Way for visibility).
4. Three spaces on the east side of Eckhoff St. north of Willow Ave. to the northerly limit (approximately 70 feet).
5. Two spaces on the east side of Eckhoff St. from the existing red curb north of Maple Ave. to the driveway south of 206 N. Eckhoff St.

AREA "U"

1. Both sides of Waverly St. from the northerly property lines of 133 and 138 S. Waverly St. to Almond Ave.

AREA "V"

1. The south side of E. Rose Ave. from 1932/1934 to N. Highland St.
2. Both sides of N. Highland St. from E. Rose Ave. to E. Barkley Ave.
3. Both sides of E. Mayfair Ave. from 1740 E. Mayfair Ave. to N. Highland St.
4. The south side of E. Lomita Ave. from 1734/1736 to N. Highland St.
5. The north side of E. Lomita Ave. from 1901 to N. Highland St.
6. Both sides of E. Barkley Ave. from the cul-de-sac to N. Highland St.
7. Both sides of the cul-de-sacs of N. Victoria Dr., N. Russell Dr., and N. Shirley Dr., north of E. Mayfair Ave.

AREA "W"

1. Both sides of Madison Ave. from Wayfield St. to the cul-de-sac.
2. Both sides of Orange Grove Ave. from Wayfield St. to the westerly property lines of 1743/1744
3. E. Orange Grove Ave.
4. East side Wayfield St. between Orange Grove Ave. and the southerly property lines of 550/555 Wayfield St.
5. West side of Wayfield St. between Orange Grove Ave. and Madison Ave.

AREA "X"

1. South side of Collins Ave. from Hart St. to 2842 E. Collins Ave.

AREA "Y"

1. Both sides N. Citrus St. from Walnut Ave. to W. Sycamore Ave.

AREA "Z"

1. Both sides of Sycamore Ave. from Rancho Santiago Blvd. to Richard St.
2. Both sides Rancho Santiago Blvd. from the south city limits to Silverleaf Ave.
3. Both sides of Silverleaf Ave. from Rancho Santiago Blvd. to Richard St.
4. Both sides of Christine St. from Silverleaf Ave. to Sycamore Ave.
5. Both sides of Richard St. from Silverleaf Ave. to Sycamore Ave.

AREA "AA"

1. Both sides of Ryals Ln. from the West City limit to Bob White Way.
2. East side of Bob White Way between Ryals and Partridge Ln.
3. Both sides of the 200 Block of Renee St.
4. Both sides of Avenida Palmar, from west City limits to N. Thora St.
5. Both sides of Sandpiper Circle.

AREA "AB"

1. Both sides of Mallard Street, from 985 N. Mallard St. to Jackson Ave.

AREA "AC"

1. Both sides of Via Lardo Avenue from Hewes Street to easterly terminus.

AREA "AD"

1. East side of Swidler Place from Chapman Avenue to Almond Avenue.
2. Both sides of Almond Avenue from Swidler Place to Olympia Way.

AREA "AE"

1. The east side of Parker Street from the southerly property line of 125 N. Parker Street to Maple Avenue.
2. The west side of Paker Street from the southerly property line of 122 N. Parker Street to Maple Avenue.
3. The west side of Pixley Street from the southerly property line of 128 N. Pixley Street to Maple Avenue.

AREA "AF"

1. Both sides of Fairmont Way from La Veta Avenue to Delia Lane.

OPPORTUNITY AREA "1"

1. Both sides of Lilac Ln. from Culver Ave. to Orchard Ave.
2. Both sides of Plum Ln. from Culver Ave. to Orchard Ave.
3. Both sides of Orchard Ave. from Flower St. to the easterly terminus of the street.
4. Both sides of Bedford Rd. between Culver Ave. and La Veta Ave.
5. Both sides of Devon Rd. between Palmyra Ave. and Culver Ave. (permit parking between the hours 4:00p.m. and 9:00a.m.)
6. Both sides of Crest Rd. between Palmyra Ave. and Culver Ave.

Opportunity Area "2"

1. Both sides of Fairway Dr. from Cambridge St. to Tustin St.
2. Both sides of Young Cir. south of Fairway Dr.
3. Both sides of Greenview Dr. south of Fairway Dr.

OPPORTUNITY AREA "3"

1. Wayfield St. between Palm Ave. and Walnut Ave.
2. Palm Ave. between Park Ln. and Wayfield St.
3. Park Ln. between Dana Pl. and Palm Ave.
4. Wayfield Cr. south of Palm Ave.
5. Both sides of Mount Vernon Ave. between Wayfield St. and Le May Ct.
6. Both sides of Park Ln. between Mount Vernon Ave. and Sycamore Ave.
7. Both sides of Martha Ave. east of Park Ln.
8. Both sides of Sycamore Ave. between Wayfield St. and Highland St.
9. Both sides of Highland St. between Sycamore Ave. and south terminus.
10. Both sides of Wayfield St. from Chapman Ave. north to include the cul-de-sac.

OPPORTUNITY AREA "4"

1. Both sides of Trenton Ave. from the westerly property lines of 331 E. Trenton Ave. and 1482 N. Grant St. to Shaffer St.

2. Both sides of Trenton Ave., from Shaffer St to Cleveland St.
3. Both sides of Grant St. from Trenton Ave. to the cul-de sac.

OPPORTUNITY AREA "5"

1. Both sides of Greengrove St. from Meats Ave. to the southern terminus.
2. Both sides of Del Mar Ave. from Cambridge St. to Greengrove St.
3. South side of Meats Ave., from Cambridge St. to Greengrove St.

EXHIBIT B

The following are descriptions of preemptively established permit parking opportunity areas approved by the City Council and are subject to Chapter 10.30 of the Orange Municipal Code. Any additions or deletions to the Neighborhood Permit Parking Program shall be made by amending this Master Resolution.

CHAPMAN UNIVERSITY NEIGHBORHOOD PERMIT PARKING OPPORTUNITY AREA "A"

Generally bounded by Lomita Avenue to the north, Cypress Street to the west, Chapman Avenue to the south, and Cambridge Street to the east, as shown in Exhibit C.

OPPORTUNITY AREA "1"

To the north, Opportunity Area "1" is comprised of the area bounded by Sycamore Avenue. To the west, Opportunity Area "1" is comprised of the area bounded by, but does not include, the 57 Freeway. To the south, Opportunity Area "1" is comprised of the area bounded by, but does not include, the 22 Freeway from the 57 Freeway to Bedford Road, and La Veta Avenue from Bedford Road to Main Street. To the east, Opportunity Area "1" is comprised of the area bounded by, and inclusive of, the east side of Bedford Road from the 22 Freeway to La Veta Avenue; and bounded by, but does not include, Main Street from La Veta Avenue to Sycamore Avenue.

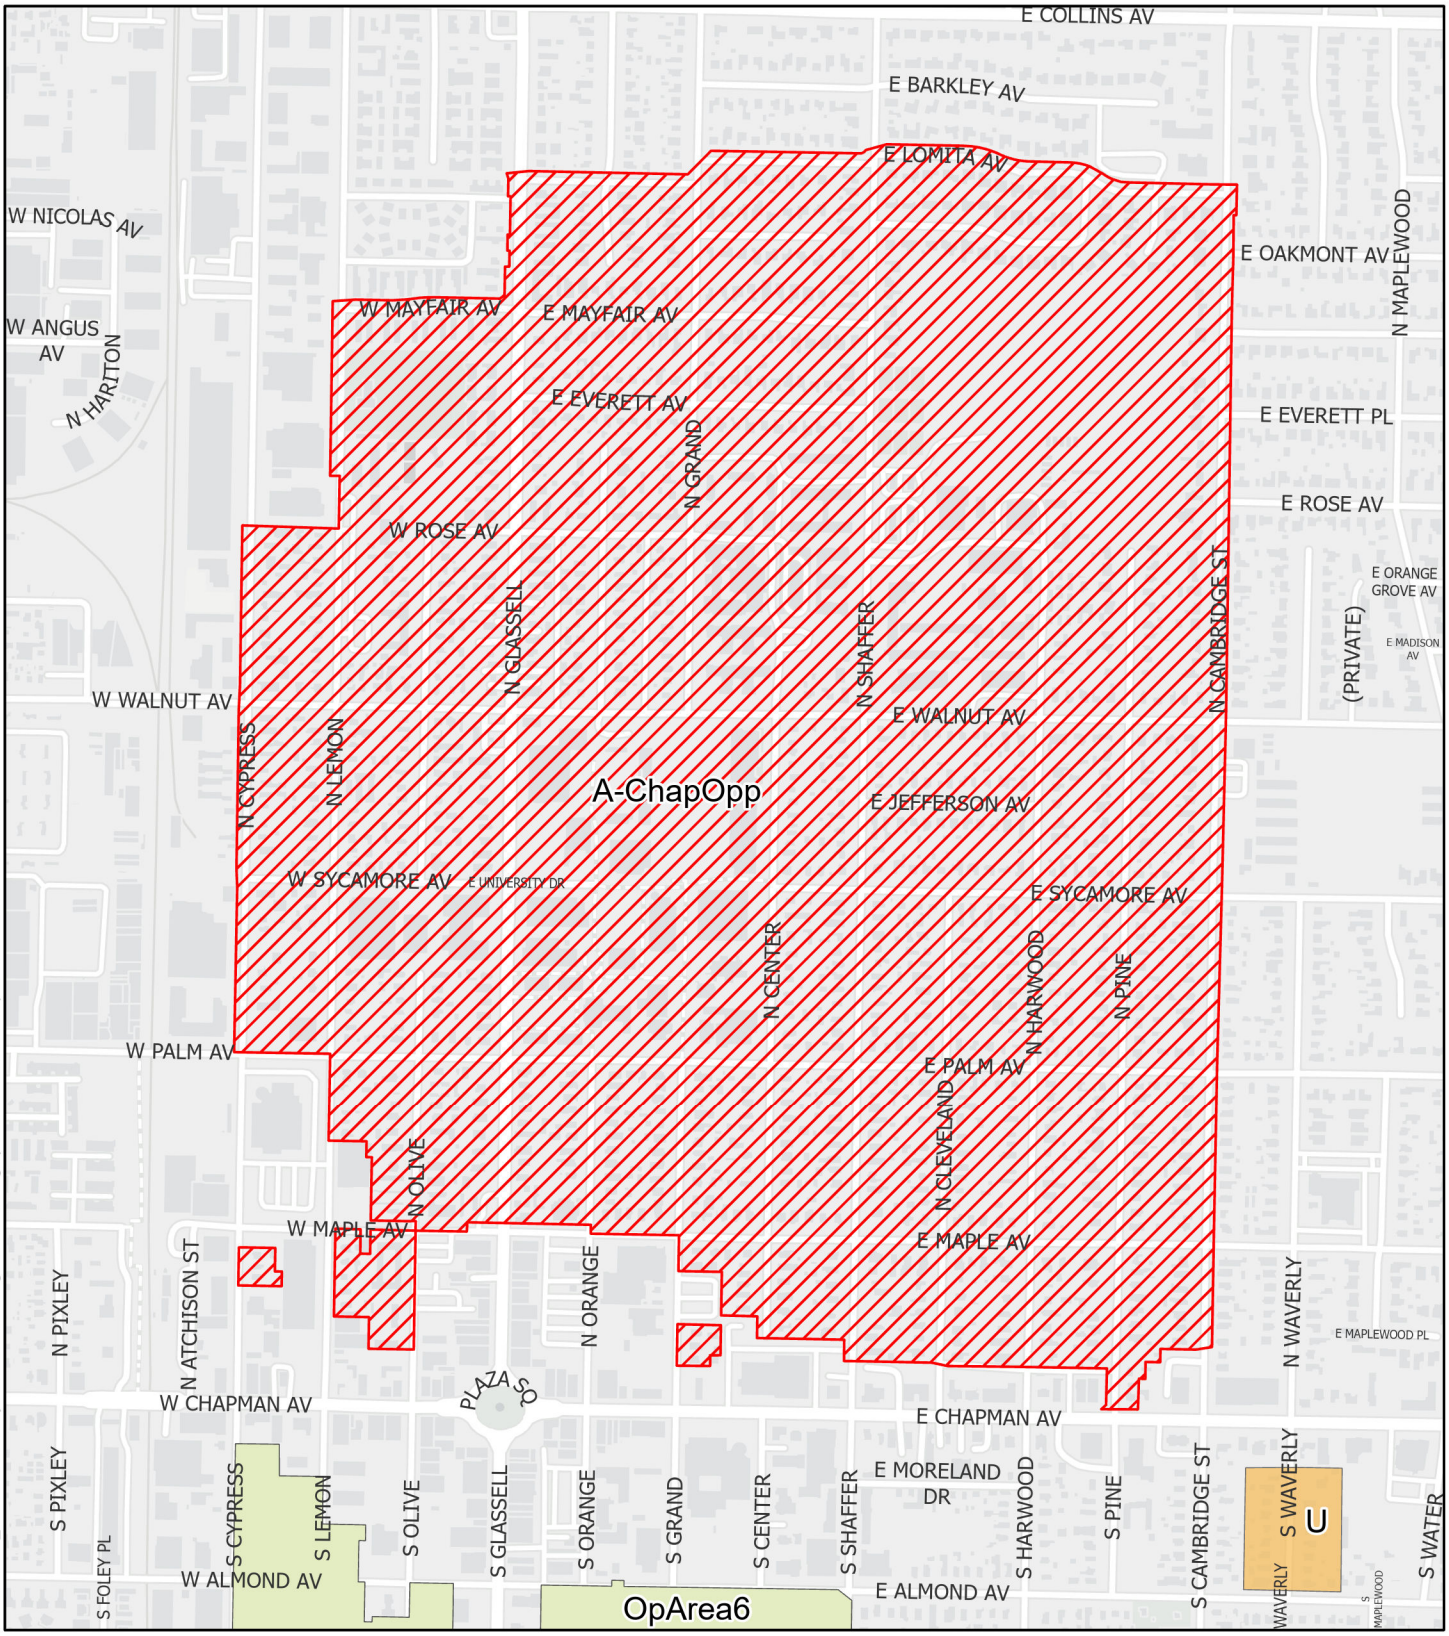
OPPORTUNITY AREA "2"

To the north, Opportunity Area "2" is comprised of the area bounded by, but does not include, the Santiago Creek Bike Trail. To the west, Opportunity Area "2" is comprised of the area bounded by, but does not include, Cambridge Street. To the south, Opportunity Area "2" is comprised of the area bounded by, but does not include, the 22 Freeway. To the east, Opportunity Area "2" is comprised of the area bounded by, but does not include, Tustin Street.

OPPORTUNITY AREA "3"

To the north, Opportunity Area "3" is comprised of the area bounded by, but does not include, the Walnut Avenue. To the west, Opportunity Area "3" is comprised of the area bounded by, and inclusive of, Wayfield Street from Walnut Avenue to Palm Avenue and Wayfield Street from Chapman Avenue to the northern terminus of Wayfield Street. To the south, Opportunity Area "2" is comprised of the area bounded by, but does not include, Chapman Avenue. To the east, Opportunity Area "2" is comprised of the area bounded by, but does not include, the 55 Freeway and Le May Court.

OPPORTUNITY AREA "4"



To the north, Opportunity Area "4" is comprised of the area bounded by, and inclusive of, Trenton Avenue. To the west, Opportunity Area "4" is comprised of the area bounded by the western property line of 331 East Trenton Avenue. To the south, Opportunity Area "4" is comprised of the area bounded by the prolongation of the southern property line of 1411 North Shaffer Street and 1412 North Shaffer Street. To the east, Opportunity Area "4" is comprised of the area bounded by, but does not include, Cambridge Street.

OPPORTUNITY AREA "5"

To the north, Opportunity Area "5" is comprised of the area bounded by, and inclusive of, the south side of Meats Avenue. To the west, Opportunity Area "5" is comprised of the area bounded by, but does not include, Cambridge Street. To the south, Opportunity Area "5" is comprised of the area bounded by, and inclusive of, Del Mar Avenue and the southern terminus of Greengrove Street. To the east, Opportunity Area "5" is comprised of the area bounded by, and inclusive of, Greengrove Street.

OPPORTUNITY AREA "6"

Opportunity Area "6" is generally bounded by Almond Avenue to the north, Cypress Street to the west, Palmyra Avenue to the south, and Shaffer Street to the east, as shown in Exhibit I.

City Traffic Commission

Item #: 4.3. 2/11/2026 **File #:** 26-0066

TO: **Chair and Members of the City Traffic Commission**

THRU: **Larry Tay, Deputy Public Works Director/Traffic Engineer**

FROM: **Maria Flores, Assistant Engineer**

1. SUBJECT

Request for permit parking on both sides of Fairmont Way from La Veta Avenue to Delia Lane

2. SUMMARY

A request for permit parking on Fairmont Way was made and evaluated in accordance with the City's Neighborhood Permit Parking Program. The request meets the intent and minimum requirements of the permit parking program and has received the necessary support from affected property owners.

3. RECOMMENDED ACTION

1. Approve the implementation of permit parking on Fairmont Way from La Veta Avenue to Delia Lane.
2. Forward recommendation to City Council for final action.

4. FISCAL IMPACT

None. Implementation involves minimal staff time and minimal expenditures that have already been approved in the City's operating budget.

5. STRATEGIC PLAN GOALS

Goal 5: Improve Infrastructure, Mobility, and Technology

6. DISCUSSION AND BACKGROUND

Background:

A property owner on Fairmont Way submitted a request to initiate the process of permit parking on Fairmont Way. The subject street is outlined and shown on the attached Area Map. In accordance with the City's Neighborhood Permit Parking Program (NPPP), staff preformed an initial screening of the study area to determine the following:

1. Whether the street is eligible for permit parking; and
2. If so, does said street lie within a City-defined permit parking opportunity area with a streamlined implementation procedure.

Since Fairmont Way qualifies for permit parking but isn't in a designated permit parking opportunity area, it must meet both the minimum parking occupancy level and receive sufficient support from

property owners before a permit parking recommendation can be made. The details of the request are outlined below.

Parking Occupancy Study:

Staff mapped and counted the number of legal parking spaces for each of the streets in the study area. The proponent provided staff with the days and times when parking demand in the neighborhood was believed to be at its highest. Staff then conducted the parking observations during those reported hours. Based upon the City's NPPP, a street parking occupancy rate of 75% is required to qualify for permit parking. Fairmont Way met the requirement with a 75% parking occupancy.

Petition Result:

Because the parking occupancy met the minimum required threshold on Fairmont Way, petitions were circulated for the residents on the street. The petition letter and a list of permit parking advantages and disadvantages were provided by the Traffic Division to each resident property owner on the street. The table below shows the results of the neighborhood polling.

Affected Street	Household In Favor		Household Opposed		Unreturned	
Fairmont Way	11	79%	0	0%	3	21%

The results of the petition process indicated that Fairmont Way meets the required minimum 75% of property owners in favor of the permit parking program.

Findings:

Since the level of parking demand and stakeholder support meets the minimum requirements under the City's NPPP, permit parking is recommended.

The following should be kept in mind:

1. Under the NPPP, property owners on any adjacent street experiencing spillover may request to initiate permit parking within a year without having to pay the application fee. Parking occupancy, petition thresholds, and other requirements in effect at the time will still apply.
2. Any vehicle parking in a designed parking-by-permit area without a permit is subject to citation. Parking permits do not supersede the street sweeping restrictions in the neighborhood.

7. ATTACHMENTS

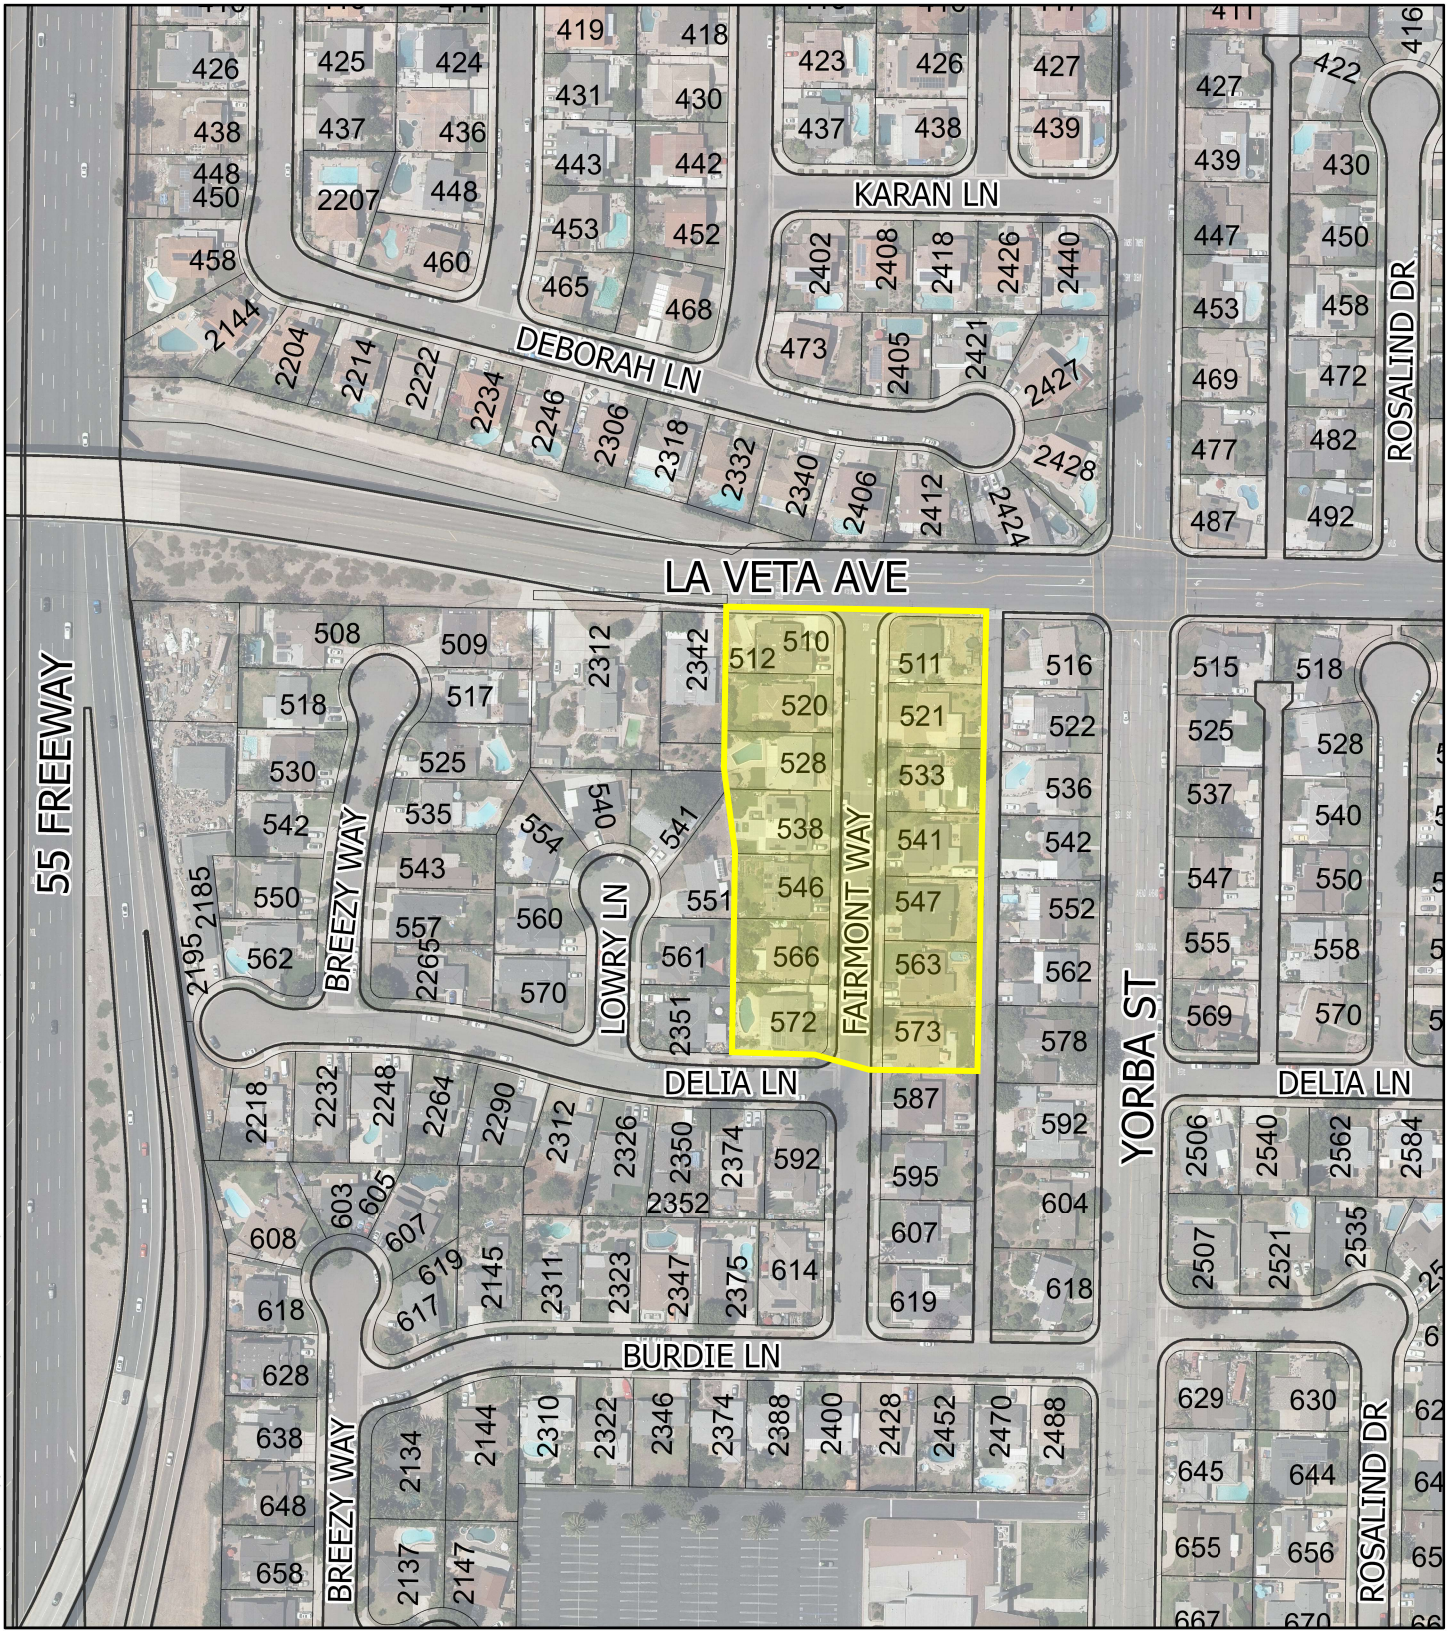
- Letter of Request
- Area Map
- Site Sketch & Petition Area Map
- Notification Letter

Dear City of Orange,

My name is Brock Fedden and I am the homeowner of [redacted] My neighbors and I have noticed a huge influx of cars parking on our street from the apartments over the hill located on La Veta Ave named Arroyo Casa Apartments. We expect the parking problem to increase with the two new apartment complexes that are currently being built. The cars start arriving around 5:00 pm and some will leave the next day around 3:00 pm. Although there have been many times when the cars will stay on our street for 2+ days. They block our mailboxes, leave piles of trash out of their vehicles on the curb before they pull away, we have even had the car owners get violent with neighbors when asked if they lived on the street.

The neighbors from [redacted] were given a notice by me and have all agreed that parking by permit is the way to go.

The neighbors across the street from [redacted] were also given the same notice and have agreed with the parking by permit.



I know that we have to provide a $500 petition fee. I have included a check. If you need to get ahold of me please email [redacted] also CC [redacted] or call [redacted]

Dear Resident/Property Owner:

This letter is to inform you that an item will be presented to the City Traffic Commission regarding:

- **A request to add a Neighborhood Permit Parking Program on Fairmont Way from La Veta to Delia Lane.**

The matter will be considered at the **February 11, 2026,** meeting of the City Traffic Commission. The meeting is scheduled at **5:30 p.m.**, in the **City Council Chamber**, located at 300 East Chapman Avenue.

You and any other interested party are encouraged to attend this meeting and express your opinions and/or concerns regarding this issue. Please feel free to contact Maria Flores at (714) 744-5525 or mpflores@cityoforange.org if you have any questions.

Sincerely,

Larry Tay, P.E., PTOE
Deputy Public Works Director/
City Traffic Engineer

MINUTES - DRAFT

City of Orange

City Traffic Commission

February 11, 2026

The Traffic Commission of the City of Orange, California convened on Wednesday, February 11, 2026, at 5:30 p.m. for a Regular Meeting in the Council Chamber, 300 E. Chapman Avenue, California.

1. OPENING/CALL TO ORDER

Chair Feliz called the meeting to order at 5:30 p.m.

1.1 PLEDGE OF ALLEGIANCE

Commissioner Sean Chavarria led the flag salute.

The meeting was paused at 5:31 p.m. due to technical issues and resumed at 5:51 p.m.

1.2 ROLL CALL

Present: Ricci, Barbeito, Hamilton, Chavarria, Redding, and Feliz
Absent: None

2. PUBLIC COMMENTS

None.

3. APPROVAL OF MINUTES

3.1. Approval of minutes of the City of Orange Traffic Commission Regular Meeting held on December 10, 2025

A motion was made by Vice Chair Ricci, seconded by Commissioner Chavarria, to approve minutes as presented. The motion carried by the following vote:

Ayes: Ricci, Barbeito, Hamilton, Chavarria, Redding, and Feliz
Noes: None
Absent: None

4. NEW BUSINESS

4.1. Proposed installation of rectangular rapid flashing beacons on White Oak Ridge approximately 260 feet east of Deep Spring Road

Transportation Analyst Jose A La Torre provided a brief staff report utilizing a PowerPoint Presentation.

A motion was made by Vice Chair Ricci, seconded by Commissioner Chavarria, to approve rectangular rapid flashing beacons on White Oak Ridge approximately 260 feet east of Deep Spring Road. The motion carried by the following vote:

Draft

Ayes: Ricci, Barbeito, Hamilton, Chavarria, Redding, and Feliz
Noes: None
Absent: None

4.2. 3-hour time-limited parking on the north side Katella Avenue, adjacent to the commercial frontage of 1249 E. Katella Avenue (APN: 375-461-48)

Transportation Analyst Jose A La Torre provided a brief staff report utilizing a PowerPoint Presentation.

The Commission considered the request for time-limited parking and discussed related concerns in the area. Staff provided clarification on the various types of time-limited parking that have been implemented historically based on land use needs.

A motion was made by Chair Feliz, seconded by Commissioner Hamilton, to: 1. Approve installation of 3-hour parking on the north side of Katella Avenue, adjacent to the commercial frontage of 1249 E. Katella Avenue. 2. Adopt Resolution TC 01-2026. A Resolution of the Traffic Commission of the City of Orange for the Establishment of 3-Hour Time-Limited Parking on the North Side of Katella Avenue, Adjacent to the Commercial Frontage of 1249 E. Katella Avenue (Assessor Parcel Number 375-461-48). The motion carried by the following vote:

Ayes: Ricci, Barbeito, Hamilton, Chavarria, Redding, and Feliz
Noes: None
Absent: None

4.3. Request for permit parking on both sides of Fairmont Way from La Veta Avenue to Delia Lane

Assistant Engineer Maria Prado provided a brief staff report utilizing a PowerPoint Presentation.

The Commission inquired about available mechanisms to address concerns about potential spillover of permit parking into adjacent streets. Staff clarified that a program is available allowing residents impacted by spillover to apply for permit parking without paying the application fee.

Public Speakers
Garrett Terlaak and Rachael Fedden spoke in favor.
Mark Rosales spoke in favor but expressed concerns regarding potential spillover of vehicles onto Delia Lane.
Anna Illif spoke in opposition, citing concerns about spillover of vehicles into the surrounding neighborhoods if the request is approved.

A motion was made by Commissioner Hamilton, seconded by Commissioner Chavarria to: 1. Approve the implementation of permit parking on Fairmont Way from La Veta Avenue to Delia Lane. 2. Forward recommendation to City Council for final action. The motion carried by the following vote:

Ayes: Ricci, Barbeito, Hamilton, Chavarria, Redding, and Feliz
Noes: None
Absent: None

Draft

4.4. Discussion of potential operational changes to the signalized intersection of Tustin Street and Briardale-Taft Avenue

Senior Civil Engineer Martin Varona provided a brief staff report utilizing a PowerPoint Presentation. Staff recommended modifying the traffic signal to serve east and westbound traffic separately rather than together.

Public Speakers

Mike Brydges supported the proposal with the suggestion that eastbound through traffic be permitted and requested speed humps and no through traffic on Briardale Avenue.

Nora Wolkoff spoke in favor of the proposed changes.

Vera Mater spoke in favor of the proposed changes.

Bill Chavez, Ryan Helms, and Cindy Ellington, spoke in favor of the proposed changes and also supports implementing permit parking on Briardale Avenue.

The Commission inquired about the potential tradeoff's of adding an additional phase to the signal. Staff clarified that the proposed change is expected to have a minimal impact on overall traffic flow.

A motion was made by Vice Chair Ricci, seconded by Commissioner Chavarria to approve the implementation of a signal sequencing strategy that involves serving east and westbound traffic from Briardale Avenue in series, rather than in parallel. The motion carried by the following vote:

Ayes: Ricci, Barbeito, Hamilton, Chavarria, Redding, and Feliz
Noes: None
Absent: None

5. ADJOURNMENT

There being no further business, the meeting was adjourned at 6:40 p.m.

The next Regular City Traffic Commission Meeting will be held on Wednesday, April 8, 2026, at 5:30 p.m., in the Council Chamber.

Agenda Item

Orange City Council

Item #: 10.4. 3/10/2026 **File #:** 26-0092

TO: **Honorable Mayor and Members of the City Council**

FROM: **Jarad Hildenbrand, City Manager**

1. SUBJECT
City Charter Discussion

2. SUMMARY
California Government Code Sections 34450-34462 set forth the procedures to adopt a city charter. There are two approaches. First, the City Council may place a question on a special or general election ballot asking voters to approve the creation of a charter commission. If approved, the charter commission would develop a draft charter that would later be placed on a subsequent ballot for voter consideration. Alternatively, the City Council may draft a charter and submit it directly to voters at a special or general election.

In recent years, several California cities have explored charter status to evaluate potential flexibility in areas such as public contracting, fiscal policy, and local governance. On January 13, 2026, the City Council directed staff to develop a draft City Charter. The draft City Charter is presented for City Council discussion, and staff seeks direction on how to proceed.

3. RECOMMENDED ACTION
Review and discuss the draft City Charter and provide direction to staff.

4. FISCAL IMPACT
None.

5. STRATEGIC PLAN GOALS
Adoption of a City Charter could support or affect multiple goals outlined in the Fiscal Years 2025-2030 Citywide Strategic Plan.

6. DISCUSSION AND BACKGROUND
The following provides an overview of the similarities and differences between general law and charter cities. Additionally, this analysis details the procedures to adopt a city charter.

General Law vs. Charter Cities

California law authorizes two legal structures for municipal organizations - general law or charter law. General law cities (i.e., the City of Orange) draw much of their authority from State of California (State) statutes. Charter cities derive *select* authority from a locally adopted charter as authorized in Article XI of the California Constitution. Cities often pursue charter status to gain greater local control over municipal affairs, particularly in areas such as public contracting, municipal finance, and local governance structures. Charter authority can allow a city to tailor policies to local priorities while remaining subject to state law on matters deemed to be of statewide concern.

It is also important to note that charter authority is not unlimited and has been narrowed over time by legislation and court decisions, particularly in areas such as labor standards and housing policy that are often deemed matters of statewide concern.

General Law Cities

Most cities in California are general law cities. Of the 482 cities in California, 121 have adopted local charters with 10 of those being from Orange County. As a general law city, Orange is bound to State law even if an issue is exclusively local. Under a general law structure, a city's police power comes entirely from the California constitution with all other municipal authority deriving from State statute.

Charter Cities

Alternatively, the California Constitution authorizes municipalities to function as a Charter City. Often referred to as "home rule," the logic underpinning the Charter City concept is that a city is best suited to manage local affairs with the State retaining authority over those matters deemed a Statewide concern. This means that a Charter City's local laws prevail over State laws when the issue at hand is determined to be a "municipal affair."

Municipal Affairs vs. Statewide Concerns

The distinction between municipal and statewide affairs is an important aspect to consider. If an increasing number of City functions are determined to be a matter of Statewide concern, then the benefits of becoming a Charter City are diminished. This points to the crux of the issue and begs the question, *"What is a municipal affair?"*

Generally, two sources have defined municipal affairs - the California Constitution and the courts. In beginning with the former, the term *municipal affair* is referenced in the California Constitution; however, it is not clearly defined. Article XI, section five, subsections (a-b), of the California Constitution discuss the general notion of self-governance while detailing four broad categories of municipal affairs. These four categories include:

1. City Police Force.
2. Subgovernment in all or part of a city.
3. Conduct of city elections; and
4. The manner in which municipal officers and employees are elected or appointed.

Aside from these general categories, the courts determine whether a matter is a municipal affair. When making this determination, the facts of the case are evaluated through a four-part test developed by the California Supreme Court. This has resulted in case law supporting a non-exhaustive and fluctuating list of what are deemed to be municipal affairs.

As an example, charter cities previously retained significant authority over land use matters or could exempt the city from prevailing wage requirements. Charter city authority over these matters has since been reduced through a combination of court actions and legislation that have deemed these matters a Statewide concern, thereby preempting what a city's charter may say on these issues.

For reference, provided below is a general overview of matters categorized as a Statewide concern vs. municipal affair*.

Municipal Affair	**Statewide Concern**

Police authority	Traffic control
Municipal elections	Tort claims against public agencies
Local fiscal matters	Prevailing wage law
Qualifications for local officials	Brown Act, California Public Records Act, Political Reform Act
Public contracting and contractual services	Numerous housing laws

*Attachment 2 details pros and cons of General Law and Charter Cities.

The Process to Adopt a City Charter

There are two pathways for the City to adopt a charter - a City Council-drafted charter process or a Charter Commission process. Each is briefly discussed below:

City Council-drafted charter

1. Initiate: City Council directs staff to prepare a draft charter.
2. Public Review: Publish draft; conduct community outreach and at least two public hearings.
3. Call Election: The City Council adopts a resolution submitting the proposed charter to Orange voters at a regular or special municipal election.
4. Voter Decision: Simple majority approval is required. If approved, the City will file the charter with the Secretary of State, at which point, it will become effective.

Charter Commission-drafted charter

1. Ballot Question: The City Council calls an election asking voters whether to form a charter commission (Commission) and simultaneously elects 15 commissioners.
2. Commission Work: If approved, the top 15 vote-getters serve on the Commission. The Commission would draft the charter, hold public hearings, and submit the proposed charter to the City Council.
3. Second Election: The City Council places the Commission's proposed charter on a subsequent ballot for voter approval.
4. Adoption: Simple majority approval is required. If approved, the City will file the charter with the Secretary of State, at which point, it will become effective.

Draft City Charter and Direction to Staff

On January 13, 2026, the City Council directed staff to develop a draft charter for City Council review and discussion. The draft City Charter (Attachment 1) is presented for discussion purposes only and is intended to begin a policy conversation regarding charter provisions. Staff seeks City Council direction on next steps and on several policy matters that could be addressed in a proposed charter, including which topics should be included, excluded, or deferred.

To become a charter city, the City must adopt a charter by a majority vote of its electorate. If the City Council's goal is to place a proposed charter before voters as soon as practicable, the earliest opportunity would be the November 2026 General Municipal Election. The most expeditious approach would be for the City Council to draft a proposed charter and submit it directly to voters.

Unlike other ballot measures, a proposed city charter requires additional procedural steps prior to placement on the ballot, including multiple public hearings and related noticing requirements.

If the City Council would like to proceed toward a November 2026 ballot, staff will need to begin the process immediately to meet required milestones over the next two months. Attachment 3 provides a draft timeline to support consideration of a November 2026 ballot measure. This timeline is preliminary and subject to change, including based on election deadlines issued by the Orange County Registrar of Voters.

Agenda Item

Orange City Council

Item #: 10.4. 3/10/2026 **File #:** 26-0092

TO: **Honorable Mayor and Members of the City Council**

FROM: **Jarad Hildenbrand, City Manager**

1. SUBJECT
City Charter Discussion

2. SUMMARY
California Government Code Sections 34450-34462 set forth the procedures to adopt a city charter. There are two approaches. First, the City Council may place a question on a special or general election ballot asking voters to approve the creation of a charter commission. If approved, the charter commission would develop a draft charter that would later be placed on a subsequent ballot for voter consideration. Alternatively, the City Council may draft a charter and submit it directly to voters at a special or general election.

In recent years, several California cities have explored charter status to evaluate potential flexibility in areas such as public contracting, fiscal policy, and local governance. On January 13, 2026, the City Council directed staff to develop a draft City Charter. The draft City Charter is presented for City Council discussion, and staff seeks direction on how to proceed.

3. RECOMMENDED ACTION
Review and discuss the draft City Charter and provide direction to staff.

4. FISCAL IMPACT
None.

5. STRATEGIC PLAN GOALS
Adoption of a City Charter could support or affect multiple goals outlined in the Fiscal Years 2025-2030 Citywide Strategic Plan.

6. DISCUSSION AND BACKGROUND
The following provides an overview of the similarities and differences between general law and charter cities. Additionally, this analysis details the procedures to adopt a city charter.

General Law vs. Charter Cities

California law authorizes two legal structures for municipal organizations - general law or charter law. General law cities (i.e., the City of Orange) draw much of their authority from State of California (State) statutes. Charter cities derive *select* authority from a locally adopted charter as authorized in Article XI of the California Constitution. Cities often pursue charter status to gain greater local control over municipal affairs, particularly in areas such as public contracting, municipal finance, and local governance structures. Charter authority can allow a city to tailor policies to local priorities while remaining subject to state law on matters deemed to be of statewide concern.

It is also important to note that charter authority is not unlimited and has been narrowed over time by legislation and court decisions, particularly in areas such as labor standards and housing policy that are often deemed matters of statewide concern.

General Law Cities

Most cities in California are general law cities. Of the 482 cities in California, 121 have adopted local charters with 10 of those being from Orange County. As a general law city, Orange is bound to State law even if an issue is exclusively local. Under a general law structure, a city's police power comes entirely from the California constitution with all other municipal authority deriving from State statute.

Charter Cities

Alternatively, the California Constitution authorizes municipalities to function as a Charter City. Often referred to as "home rule," the logic underpinning the Charter City concept is that a city is best suited to manage local affairs with the State retaining authority over those matters deemed a Statewide concern. This means that a Charter City's local laws prevail over State laws when the issue at hand is determined to be a "municipal affair."

Municipal Affairs vs. Statewide Concerns

The distinction between municipal and statewide affairs is an important aspect to consider. If an increasing number of City functions are determined to be a matter of Statewide concern, then the benefits of becoming a Charter City are diminished. This points to the crux of the issue and begs the question, *"What is a municipal affair?"*

Generally, two sources have defined municipal affairs - the California Constitution and the courts. In beginning with the former, the term *municipal affair* is referenced in the California Constitution; however, it is not clearly defined. Article XI, section five, subsections (a-b), of the California Constitution discuss the general notion of self-governance while detailing four broad categories of municipal affairs. These four categories include:

1. City Police Force.
2. Subgovernment in all or part of a city.
3. Conduct of city elections; and
4. The manner in which municipal officers and employees are elected or appointed.

Aside from these general categories, the courts determine whether a matter is a municipal affair. When making this determination, the facts of the case are evaluated through a four-part test developed by the California Supreme Court. This has resulted in case law supporting a non-exhaustive and fluctuating list of what are deemed to be municipal affairs.

As an example, charter cities previously retained significant authority over land use matters or could exempt the city from prevailing wage requirements. Charter city authority over these matters has since been reduced through a combination of court actions and legislation that have deemed these matters a Statewide concern, thereby preempting what a city's charter may say on these issues.

For reference, provided below is a general overview of matters categorized as a Statewide concern vs. municipal affair*.

Municipal Affair	**Statewide Concern**

Police authority	Traffic control
Municipal elections	Tort claims against public agencies
Local fiscal matters	Prevailing wage law
Qualifications for local officials	Brown Act, California Public Records Act, Political Reform Act
Public contracting and contractual services	Numerous housing laws

The Process to Adopt a City Charter

There are two pathways for the City to adopt a charter - a City Council-drafted charter process or a Charter Commission process. Each is briefly discussed below:

City Council-drafted charter

1. Initiate: City Council directs staff to prepare a draft charter.
2. Public Review: Publish draft; conduct community outreach and at least two public hearings.
3. Call Election: The City Council adopts a resolution submitting the proposed charter to Orange voters at a regular or special municipal election.
4. Voter Decision: Simple majority approval is required. If approved, the City will file the charter with the Secretary of State, at which point, it will become effective.

Charter Commission-drafted charter

1. Ballot Question: The City Council calls an election asking voters whether to form a charter commission (Commission) and simultaneously elects 15 commissioners.
2. Commission Work: If approved, the top 15 vote-getters serve on the Commission. The Commission would draft the charter, hold public hearings, and submit the proposed charter to the City Council.
3. Second Election: The City Council places the Commission's proposed charter on a subsequent ballot for voter approval.
4. Adoption: Simple majority approval is required. If approved, the City will file the charter with the Secretary of State, at which point, it will become effective.

Draft City Charter and Direction to Staff

On January 13, 2026, the City Council directed staff to develop a draft charter for City Council review and discussion. The draft City Charter (Attachment 1) is presented for discussion purposes only and is intended to begin a policy conversation regarding charter provisions. Staff seeks City Council direction on next steps and on several policy matters that could be addressed in a proposed charter, including which topics should be included, excluded, or deferred.

To become a charter city, the City must adopt a charter by a majority vote of its electorate. If the City Council's goal is to place a proposed charter before voters as soon as practicable, the earliest opportunity would be the November 2026 General Municipal Election. The most expeditious approach would be for the City Council to draft a proposed charter and submit it directly to voters.

Unlike other ballot measures, a proposed city charter requires additional procedural steps prior to placement on the ballot, including multiple public hearings and related noticing requirements.

If the City Council would like to proceed toward a November 2026 ballot, staff will need to begin the process immediately to meet required milestones over the next two months. Attachment 3 provides a draft timeline to support consideration of a November 2026 ballot measure. This timeline is preliminary and subject to change, including based on election deadlines issued by the Orange County Registrar of Voters.

7. ATTACHMENTS

- Attachment 1 - Draft City Charter for discussion and feedback
- Attachment 2 - General Law and Charter City Pros and Cons
- Attachment 3 - City Council Drafted Charter: Draft Ballot Measure Timeframe

We, the people of the City of Orange, seeking to strengthen our ability to govern ourselves locally, do hereby adopt this Charter under the Constitution of the State of California.

Article I
Incorporation, Succession, and Powers

Section 100. Name and Boundaries

The City of Orange shall continue to be a municipal corporation under the same name and possessed of all the property and interests of which it was possessed at the time the Charter takes effect. The boundaries of the City shall be the boundaries as established at the time the Charter takes effect, or as may later be changed in the manner authorized by law.

Section 101. Powers

The City of Orange shall have all powers possible for a Charter City to have under the Constitution and laws of the State of California as fully and completely as though they were specifically enumerated in the Charter, subject only to the limitations contained in the Charter.

Section 102. Ordinances, Resolutions, and Other Regulations

All lawful ordinances, resolutions, rules, and regulations, and portions thereof, in force at the time this Charter takes effect, and not in conflict or inconsistent herewith, are hereby continued in force until the same shall have been duly repealed, amended, changed, or superseded by proper authority.

Section 103. Continuance of Contracts and Public Improvements

All contracts entered into by the City, or for its benefit, prior to the taking of effect of this Charter, shall continue in full force and effect. Public improvements for which proceedings have been instituted under laws existing at the time this Charter takes effect, in the discretion of the City Council, may be carried to completion as nearly as practicable in accordance with the provisions of such existing laws or may be continued or perfected under this Charter.

Article II
Expenditures of Taxpayer Money

Section 200. Balanced Budget

The City Council must adopt a balanced budget each fiscal year. The adopted budget shall not provide for projected expenditures in excess of projected revenues. After adoption of the budget, in the event that revised estimates of expected revenues or expenditures, or both, show that expenditures will exceed estimated revenues, expenditures should be reduced or revenues increased, or both, to ensure that actual expenditures do not exceed actual revenues for that fiscal year. Nothing in this Section shall be construed to prohibit the adoption of a multi-year budget, provided that it is a balanced budget.

Section 201. Taxpayer Money Prohibited in Candidate Campaigns

A City officer shall not expend, and a candidate shall not accept, any taxpayer dollars or public moneys for the purpose of seeking elective office.

Section 202. Public Safety Funding

The amount allocated in the City budget to the Fire Department, Police Department, and Code Enforcement Division shall total in aggregate at least two-thirds (2/3) of the General Fund.

Section 203. El Modena Library Branch

The amount allocated in the City budget to the Orange Public Library must ensure the maintenance of at least one branch library within the portions of the City of Orange known as El Modena.

Section 204. Waiving of Fees

To support economic development, by ordinance, the City Council may identify temporary periods throughout the fiscal year where select fees may be waived.

Article III
Elections

Section 300. General Municipal Elections

General municipal elections for the election of officers and for such other purposes as the City Council may prescribe shall be held in the City on the first Tuesday after the first Monday in November in each even-numbered year and shall be consolidated with the statewide general election in the manner provided in the California Elections Code. However, in the event the State Legislature hereafter prescribes a different day for the holding of the statewide general election, general municipal elections shall be held upon such day in each even-numbered year as prescribed for the statewide general election.

Section 301. Special Municipal Elections

All other municipal elections that may be held by authority of this Charter, or of any law, shall be known as special municipal elections.

Section 302. Initiative, Referendum, and Recall

The powers of the initiative and referendum and of the recall of elected municipal officers are hereby reserved to the electors of the City. Unless otherwise provided by ordinance, hereafter enacted, the provisions of the Elections Code of the State of California, as the same now exist or may hereafter be amended, governing the initiative, the referendum, and the recall of the municipal officers shall apply to use thereof in the City insofar as such provisions of the Elections Code are not in conflict with this Charter.

Section 303. Council Districts

(a) The City Council shall consist of six members and a separately elected Mayor. The Mayor will be directly elected by the voters of the City. The other six members of the City Council shall be elected by districts in six single-member districts, meaning one member of the City Council shall be elected from each district, by the voters of that district alone.
(b) After each federal decennial census, the City Council shall adopt boundaries for all of the council districts of the City, a process that shall be known as "redistricting."
(c) After completing a redistricting pursuant to subsection (b), the City Council shall not redistrict until after the next federal decennial census, unless a court orders the City Council to redistrict, the City Council is settling a legal claim that the council district boundaries are unconstitutional or illegal, the boundaries of the city have changed from the addition or subtraction of territory causing a City population change of ten percent or more, or the number of council members elected by districts is changed.

Section 304. Ballot Designations

(a) Notwithstanding the Elections Code, a candidate for City elected office who holds a position as a City Commissioner, County Commissioner, State Commissioner, or Federal Commissioner at the time of filing candidate nomination documents may elect to designate their commission position as their principal profession, occupation, or vocation for purposes of Government Code Section 13107(a)(3). Nothing in this section shall be construed to prevent a candidate from:
    1) using their commission position in conjunction with one or two other principal professions, occupations, or vocations for their ballot designation
    2) electing not to use their commission position as one of their principal professionals, occupations, or vocations for their ballot designation
(b) The City requests that the Secretary of State, County Registrar of Voters, and any judicial officer deem a City Commissioner to be a principal profession, occupation, or vocation for purposes of Government Code Section 13107(a)(3) when an Orange City Commissioner is a candidate for a non-City office. The City declares that service on an Orange City Commission entails significant involvement on the part of the commissioners.
(c) Nothing in this section shall be construed to authorize the use of the word "retired" in conjunction with a commissioner ballot designation.

Article IV
Elected Officers

Section 400. Elected Officers

The elected officers of the City shall consist of a Mayor, a City Treasurer, and six City Council members. Subject to the provisions of this Charter, the Mayor, City Treasurer, and City Council

members in office at the time this Charter takes effect shall continue in office until the expiration of their respective terms and until their successors are elected and qualified.

Section 401. Mayor's Powers and Duties

The Mayor shall be the Chair of the City Council and shall preside over its meetings. Otherwise, the Mayor shall have the same rights, privileges, powers and duties as are held by members of the City Council and shall be regarded as a member of the City Council for all purposes except to the extent expressly inconsistent with any other provision of this Charter or other applicable law. Except as specified in this article, Article V, and Section 303, all references in this Charter to the "City Council" or to "City Council members" shall be inclusive of the Mayor.

Section 402. Mayor's Term and Election

The Mayor shall serve a term of four years and shall be elected at each general municipal election.

Section 403. Vice Mayor

Each December after the election of the Mayor, the City Council shall designate one of its members as the Vice Mayor, who shall serve at the pleasure of the City Council. The Vice Mayor shall perform the duties of the Mayor during the Mayor's absence or disability or at the Mayor's request.

Section 404. City Treasurer's Term and Election

The City Treasurer shall serve a term of four years. The City Treasurer shall be elected in the general municipal election held in any year evenly divisible by four.

Section 405. City Council Terms and Election

The members of the City Council shall serve a term of four years. Three members of the City Council shall be elected in the general municipal election held in any year evenly divisible by four, and three members of the City Council shall be elected in the general municipal election held in any even-numbered year not evenly divisible by four.

Section 406. Election Consolidation

Pursuant to Section 300, the general municipal election shall be consolidated with the statewide general election. There shall be no primary elections for the elected officers of the City. Nothing in this section shall be construed to prevent the City Council from calling a special municipal election to be consolidated with a statewide primary election.

DRAFT

Article V
Term Limits

Section 500. Mayor

No person shall hold the office of Mayor for more than two, four-year terms in a lifetime.

Section 501. City Council Member

No person shall hold the office of member of the City Council for more than three, four-year terms in a lifetime.

Section 502. Partial Terms

If a person shall hold an office for less than fifty percent of a term, then that term shall not be counted toward the limits in this article.

Section 503. Application

Pursuant to Government Code Section 36502(b), the limits in this article shall apply prospectively only

Article VI
Appointed Officers and Employees

Section 600. City Manager and City Attorney

The City Council shall appoint the City Manager and the City Attorney.

Section 601. Fire Chief, Police Chief, City Clerk, and Other Department Heads

The City Manager shall appoint the Fire Chief, the Chief of Police, City Clerk and the heads of other City departments

Section 602. Removal

The City Council may remove the City Manager and the City Attorney. The City Manager may remove the Chief of Police, Fire Chief, City Clerk, and heads of other City departments.

Section 603. Core Services Performed by City Employees

Firefighters, police officers, emergency medical services personnel, and librarians are deemed personnel performing core services of the City, which must be performed by City employees and may not be contracted out to other governments, private-sector companies, or nonprofit organizations. However, nothing in this section shall prevent the City from entering into mutual aid agreements, assistance agreements, and other specialized service agreements on an as-needed basis.

Section 604. Classification and Compensation Study

At least once every ten years, the City shall conduct a Classification and Compensation study to review significant changes in job duties, classification specifications, and compensation levels. The study shall also review changes in operations, organizational structure, reporting relationships, and staffing since the last such study.

Article VII
Vacancies in Office

Section 700. Permanent Vacancy

In the event of a vacancy in an elected office as defined under the California Government Code Section 1770, the City Council shall fill the vacancy by appointment within sixty days or call for a special election. The person appointed or elected to fill a vacancy shall serve the remainder of the unexpired term. Notwithstanding the Elections Code, a person appointed to fill a vacancy who seeks the same office in a general municipal election is not required to use the word "Appointed" in conjunction with the title of their City office in the ballot designation filed by that person in their nomination documents.

Section 701. Temporary Vacancy

Pending trial, the City Council may, by a three-fourths vote, suspend any elected or appointed officer, against whom prosecution has commenced in felony criminal proceedings. By a majority vote, the City Council may elect to end the suspension at any time, and the officer returned to office. However, the suspension must automatically end, and the officer returned to office, upon acquittal, dismissal of charges by the prosecutor, or dismissal of charges by the judge. By a three-fourths vote, the City Council may choose to extend the suspension in the case of a hung jury unless the prosecutor informs the City Attorney that charges will not be refiled against the officer.

Article VIII
Compensation of Elected Officers

Section 800. City Treasurer

The compensation of the City Treasurer shall be set by the City Council. The City Council shall vote upon any change to the City Treasurer's compensation no later than June 30 of the year in which the election for City Treasurer takes place, and any such change in compensation shall not take effect until the commencement of the City Treasurer's next term of office.

Section 801. City Council Member

Effective upon the operative date of this Charter, the compensation of City Council members is set at the full limit provided for in Government Code Section 36516(a)(2), as amended from time to time by the State Legislature. The compensation shall increase at an amount equal to inflation as specified in Government Code Section 36516(a)(4)(B), as amended from time to time by the

State Legislature, but not to exceed three percent (3%), or if necessitated by Government Code Section 36516(a)(3), as amended from time to time by the State Legislature.

Section 802. Benefits

The City shall the City Council members in the same health, dental, vision, and life insurance plans and same retirement plans, including, but not limited to, the California Public Employees Retirement System, that are made available and paid by the City for its employees. Nothing in this section shall prevent a City elected officer from deferring a portion of their own compensation into an alternative retirement plan.

Section 803. Exclusions

Any amounts paid by the City to reimburse a City elected officer for actual and necessary expenses incurred in the performance of official duties shall not be included for purposes of determining salary pursuant to this article. Any amounts paid by the City for a City elected officer's retirement, health and welfare, and federal social security benefits shall not be included for purposes of determining salary under this article, provided that the same benefits are available and paid by the City for its employees.

Section 804. Waiver of Compensation

A City elected officer may waive any or all compensation provided by this article.

Article IX
Appointive Boards, Commissions, and Committees

Section 900. Establishment

The City Council shall establish appointive boards, commissions, and committees by ordinance and shall specify in such ordinance the powers, duties, and membership of each, except as otherwise specified in this article.

Section 901. Planning Commission

The Planning Commission shall consist of seven members. Each member of the City Council shall appoint one Commissioner for a term concurrent with the City Council member's term of office. Any Commissioner may be removed by the City Council member who appointed that Commissioner or by a majority vote of the City Council.

Section 902. Public Library Board of Trustees

The Public Library Board of Trustees shall consist of seven members. Each member of the City Council shall appoint one Trustee for a term concurrent with the City Council member's term of office. Any Trustee may be removed by the City Council member who appointed that Trustee or by a majority vote of the City Council.

Section 903. Citizens Oversight Committee

(a) The Citizens Oversight Committee shall provide citizens' oversight in connection with expenditures of tax revenues generated by Article X.

(b) Any tax measure proposed to the voters shall include a Citizens Oversight Committee. The City Council shall elect as to whether the Committee specified by subsection (a) shall serve as the Citizens Oversight Committee for that tax measure. If the City Council elects to designate a separate committee for such measure, then such committee shall be structured as described in subsection (c).

(c) Any Citizens Oversight Committee shall consist of fourteen members:

1) Each member of the City Council shall appoint one member of the Committee for a term concurrent with the City Council member's term of office.
2) The Chief of Police shall appoint one member of the Committee for a four-year term.
3) The Fire Chief shall appoint one member of the Committee for a four-year term.
4) The largest association of businesses within the boundaries of the City shall appoint one member of the Committee for a four-year term.
5) Unless otherwise represented to avoid duplicate representation, the association representing the largest number of City employees shall appoint one member of the Committee for a four-year term.
6) Unless otherwise represented to avoid duplicate representation, the association representing the largest number of City management employees shall appoint one member of the Committee for a four-year term.
7) Unless otherwise represented to avoid duplicate representation, the association representing the largest number of City firefighters shall appoint one member of the Committee for a four-year term.
8) Unless otherwise represented to avoid duplicate representation, the association representing the largest number of City police officers shall appoint one member of the Committee for a four-year term.

Any member of the Committee may be removed by the person or entity who appointed that member or by a majority vote of the City Council.

Section 904. Continuation of Existing Boards, Commissions, and Committees

Subject to the provisions of this Charter, the ordinances regarding appointive boards, commissions, and committees in place at the time of the adoption of this Charter shall remain in effect and may be amended by the City Council in the standard manner that ordinances are amended, and their members shall continue in office until the expiration of their respective terms and until their successors are appointed and qualified.

Article X
Taxation

Section 1000. Transient Occupancy Tax

(a) The Uniform Transient Occupancy Tax Ordinance of the City in place at the time of the adoption of this Charter shall remain in effect and may be amended by the City Council in the standard manner that ordinances are amended, except as otherwise specified in this section.
(b) For the privilege of occupancy in any hotel with eleven or more rooms, each transient is subject to and shall pay a tax in the amount of fourteen percent of the rent charged by the operator.
(c) For the privilege of occupancy in any hotel with ten or fewer rooms, each transient is subject to and shall pay a tax in the amount of ten percent of the rent charged by the operator.

Section 1001. Large Parking Operator Tax

In any parking facility owned or operated by an entity that provides at least two hundred parking spaces within the boundaries of the City, each occupant is subject to and shall pay a tax in the amount of fourteen percent of the parking fee for the privilege of occupancy of the space.

Section 1002. Franchise Tax

A franchise tax of four percent of gross receipts shall be paid by any company granted a cable, fiber, telephone (including, but not limited to, cellular), Internet, trash disposal, or pipeline franchise in the City. A utility franchise tax of four percent of gross receipts shall be paid by any company serving as the City's gas, water, or electric utility.

Section 1003. Pursuant to Article XIII C, Section 3 of the State Constitution, the initiative power shall not be prohibited or otherwise limited in matters of reducing or repealing any tax specified in this article of this Charter. The power of initiative to affect local taxes shall be applicable to the taxes specified in this article of this Charter, and the signature requirement shall be the same as that applicable to statewide statutory initiatives.

Article XI
Political Reform

Section 1100. Electronic Filing

The City Council shall provide by ordinance for the electronic filing of campaign statements, reports, and other required documents. The City Council shall provide by ordinance for the electronic filing of statements of economic interests. Persons electronically filing documents shall not be required to submit paper copies of such documents, and wet signature requirements shall be waived for such electronically filed documents.

Section 1101. Campaign Contribution Limits

(a) No person shall make, and no City candidate or treasurer of a controlled committee of a City candidate shall solicit or accept any contribution aggregating more than $1,500.00 (one thousand, five hundred dollars) per election. In February of each odd-numbered year beginning in 2027, the City Council shall, by ordinance, adjust the contribution limit to reflect any cumulative increase or decrease in the Consumer Price Index for all consumers for the local metropolitan statistical area as announced by the United States government since the last adjustment. Such adjustments shall be rounded off to the nearest hundred dollars for the limitations on contributions.

(b) The contribution limitations of this Section shall not apply to a City candidate's contribution of his or her separate or community property funds to his or her own City Candidate Committee or campaign. Contributions by a spouse from separate property shall be subject to the limitations set forth in this Section. In February of each odd-numbered year beginning in 2027, the City Council shall, by ordinance, adjust the contribution limit to reflect any cumulative increase or decrease in the Consumer Price Index for all consumers for the local metropolitan statistical area as announced by the United States government since the last adjustment. Such adjustments shall be rounded off to the nearest hundred dollars for the limitations on contributions.

Section 1102. Gift Ban

For purposes of the Orange Gift Ban Ordinance, no item with a value of $25.00 or less shall be deemed a gift.

Article XII
Miscellaneous

Section 1200. Eminent Domain

The City may not exercise the power of eminent domain to acquire property from any private Owner thereof, without such Owner's consent, when the purpose of the acquisition is to convey the property so acquired to any private party. As used in this section, "Owner" means the owner of the fee title interest in the property to be acquired. Nothing contained in this section shall be deemed to prohibit acquisitions of property interests by eminent domain for the purpose of either:

(a) conveying such acquired interests to the owner of other property affected by a public acquisition of property in order to mitigate impacts of the acquisition or the project to be constructed on such other property; or

(b) the development of any facilities to be operated by the City or any facilities of which the City is or shall be an owner.

Section 1201. Sales of City Assets

Pursuant to Government Code Section 37350, the City may purchase, lease, receive, hold, and enjoy real and personal property, and control and dispose of it for the common benefit.

Section 1202. Public Utilities

DRAFT

Pursuant to Public Utilities Code Sections 10051, 10061(a)-(b) and (d)(e), the City Council may sell and dispose of any public utility that the City owns. Public Utilities Code Sections 10052-10060 and Section 10061(c) shall not apply in the City of Orange.

Article XIII
Legal Provisions

Section 1300. Violations

A violation of this Charter or of any ordinance of the City shall constitute a misdemeanor and may be prosecuted in the name of the People of the State of California or may be redressed by civil action filed by the City. The maximum fine or penalty for any violation of a City ordinance shall be the same as established by the general laws for a misdemeanor.

Section 1301. Amendment

(a) Amendments to this Charter shall be proposed and submitted to the electors of the City in the manner provided by the Constitution of the State of California and Section 1104 of this Charter.
(b) Notwithstanding subsection (a), in the event that the Legislature renumbers a section of state law referenced in this Charter effective on or after January 1, 2026, the City Council may, upon advice of the City Attorney, amend this Charter to reflect that renumbering, but such amendment must be approved by a unanimous vote of all City Council members with no abstentions or absences.

Section 1302. Definitions

Unless the provisions or the context otherwise requires, as used in this Charter:

(a) Whenever the term “City” occurs in this Charter, it means the City of Orange, and whenever the term office, department, agency, board, commission, officer, or employee, as the case may be, is used, it means an office, department, agency, board, commission, officer, or employee of the City of Orange;
(b) “Shall” is mandatory, and “may” is permissive;
(c) “State” is the State of California;
(d) “Federal” is the United States of America.

Section 1303. Effect of Invalidity in Part

If any section, subsection, sentence, clause, or phrase of this Charter, or any amendment thereto, is for any reason held to be unconstitutional or otherwise invalid, that decision shall not affect the validity of the remaining portions of this Charter. The people of the City of Orange hereby declare that they would have ratified and adopted this Charter and each section, subsection, sentence, clause, and phrase thereof, and any amendment thereto, irrespective of the fact that any one or more other sections, subsections, sentences, clauses, phrases, or amendment be declared unconstitutional or otherwise invalid.

Section 1304. Effective Date

This Charter shall take effect on January 1, 2027.

DRAFT

Attachment 2 – General Law City and Chart City Pros and Cons

Type	Pros	Cons
General Law City	**Clear statewide framework:** Operations are guided by the California Government Code, reducing ambiguity in interpretation and implementation. **Lower administrative complexity:** Fewer city-specific governance documents or procedures to maintain. **Lower legal exposure:** Following established state rules minimizes litigation risk around governance authority. **Cost-efficient:** No need to draft, adopt, or amend a city charter; avoids election costs. **Predictable processes for staff:** Standardized rules streamline training, onboarding, and compliance.	**Limited local autonomy:** Must adhere to state-mandated procedures even when they do not align well with local priorities or operational efficiency. **Less flexibility in procurement and contracting:** Required to follow Public Contract Code rules that may slow project delivery. **Governance rules are fixed:** Changes to council structure, election sequencing, or administrative organization are constrained by state law. **Innovation constraints:** Difficult to pilot or tailor policies because statewide uniformity often limits local customization.
Charter City	**Greater control over municipal affairs:** Ability to create local rules for elections, contracting, governance structure, public works delivery, and other local functions. **Local procurement flexibility:** Cities may adopt alternative bid thresholds, design-build processes, and other tools that can accelerate projects and reduce costs. **Governance customization:** Can adjust council size, district election structures, term limits, or the form of government through the charter.	**Higher legal risk:** Cities must continually assess whether a given issue is a “municipal affair” or a “matter of statewide concern,” which can lead to litigation if unclear. **Requires significant legal and administrative capacity:** Drafting, maintaining, and interpreting a charter will demand more time from the City Attorney’s Office. **Costly to adopt or amend:** Charter processes require voter approval, specialized drafting, and extensive community engagement.

Attachment 2 – General Law City and Chart City Pros and Cons

	Policy innovation: Ability to design tailored programs reflecting local needs rather than applying statewide norms. **Opportunity for cost savings:** More flexible public contracting rules can improve efficiency in capital projects. **Stronger local identity:** A charter can codify community values and governance priorities.	**Not exempt from matters of Statewide Concern:** Despite broader autonomy, state mandates still apply in areas such as housing (RHNA, SB 35), environmental laws, ethics, transparency, elections administration, and labor standards. **Ongoing maintenance:** Charters often need periodic updates as legal standards evolve, creating long-term administrative obligations.

Attachment 3 – City Council Drafted Charter: Draft Ballot Measure Timeline

City Council Drafted Charter: Draft Ballot Measure Timeline	
Step	**Deadline**
Draft Ballot Measure	March Through Early April
Notice First Public Hearing	April 9, 16, and 21, 2026
Conduct First Public Hearing	Tuesday, May 12, 2026
Notice Second Public Hearing	May 21, 28, 2026 **and** June 2, 2026
Conduct Second Public Hearing	Tuesday, June 23, 2026
Conduct Vote to Submit Charter Measure to Voters	Tuesday, July 14, 2026
Signed Resolutions Sent to the Orange County Registrar of Voters	Friday, July 17, 2026
Last Day to Submit Direct Arguments and Impartial Analysis	Friday, July 31, 2026
Election Day	Tuesday, November 3, 2026
