Re: 363 S Main Street Women's and Family Center

Dear City of Orange Planning Commission Members:

On behalf of South Coast Midwifery and Women's Health Care,, we are pleased to submit this letter in support the 363 S. Main Street Women's and Family Center development.

Today's expecting mothers are looking for alternative delivery methods for bringing their children into the world. This new Women's and Family Center will provide a safe, clean, and supportive environment for expecting families, women in labor and the newborn children.

Perinatal education for expecting families, a women's clinic focusing on expecting and new mothers, birthing rooms, and various other services will help fill the City of Orange's unmet demand to keep our women and family healthy.

We ask the Planning Commission to approve this project to support the City of Orange's expecting families, mothers, and newborns.

Sincerely,

Lorri Walker RN, NP, CNM
Founder and Executive Director of Midwifery
