I wanted to see what the process would be to get a stop sign installed on my street. I live on the corner of S Pixley and W Culver and there is no stop sign for either of those streets. On a daily basis there are people speeding, and near-miss accidents. Just in the last month my husband and I witnessed a car traveling at such dangerous speeds (heading north on Pixley) that when they hit the dip on Pixley the entire vehicle went airborne. Fortunately they did not lose control of their vehicle but if they had there was a neighbor walking their dog right there! Due to there not being thru traffic on S Parker (another issue that I think should be addressed), and the businesses allowed on S Montgomery Way there is an excessive amount of traffic that comes down S Pixley and in order to keep the kids, pets and resident safe there needs to be a stop sign, at the very least, on Culver, but preferably on Pixley as well to combat the speeding that goes on.
