

Previsión y Protección S.C.
Bomberos Queretaro

Querétaro, Qro, México, September 17th, 2021

Sean deMetropolis
Fire Chief
City of Orange Fire Department

Dear Chief,

As you know, the City of Orange and the City of Queretaro, Mexico have been sister cities since 1973. During that time, the relationship between our Fire Departments has been key in making sure our department has the needed equipment to provide service to a population of over two million people. With a very limited budget we have proficiently used the donations provided in the past.

Currently, the Queretaro Fire Department services the City of Querétaro and provides mutual aid to the Metro Area in the State of Queretaro with 6 Fire Stations, running around 4000 Fire and Rescue calls yearly. Due to the continuous growth of our city's population and our objective of decreasing our response times to comply with International standards, we have started the projection of a Station 7 in the north-west part of the city.

It has come to our attention that a reserve Fire Engine of the Orange Fire Department will be coming out of service, therefore would like to respectfully ask to be considered as a donation recipient of it, as well as outdated and no longer in use personal protective equipment, fire hoses, tools and miscellaneous equipment.

Always grateful with the support received from the City of Orange Fire Department, we hope for yourself and your fellow Firefighter to be able to come and visit us again in the near future.

Sincerely,

CP Myriam Vallarino Hernando
President
