

Notice of Pass Through Increase

Resolution No. 11046 authorized annual adjustments to the water service rates. The cost increases incurred by the City from the providers of wholesale water are to be passed through as modifications to the water rates. The amount of pass-through adjustment accounts for the difference in actual wholesale water purchase costs and projected wholesale water purchase costs. The pass-through adjustment applies only to the consumption charge on a customer's bill.

The Pass-Through adjustment incorporates cost increases from the following agencies:

- **The Municipal Water District of Orange County (MWDOC)**, our regional water wholesaler for imported water.
- **Orange County Water District (OCWD)**, our basin storage management and pumping of ground water.

As calculated, a pass-through adjustment of \$0.06 per billing unit (1 unit = 100 cubic feet = 748 gallons) will be added to the water consumption charge effective January 1, 2022. The new rate schedule is presented in the table on the reverse side of this notice. Please note that the new rate schedule includes a 5% increase that was adopted as part of the resolution.

If you have any question regarding this notice, please contact the City of Orange Water Billing Office at (714) 744-2233.

Water Consumption Charge (bi-monthly)

This charge is based on water usage. The metered water usage is billed in units of 100 cubic feet (1 unit = 100 cubic feet = 748 gallons) as applied to a tiered rate structure. For more information on water rates please visit our website at www.cityoforange.org.
