b: Provide facilities and services to meet customer expectations.

6. DISCUSSION AND BACKGROUND

This project will provide for the construction of approximately 19 Americans with Disabilities Act (ADA) wheelchair access ramps at various locations citywide. As part of this project, detectable warning surfaces (truncated domes) will be installed per the American with Disabilities Act Accessibility Guidelines (ADAAG) requirements.

The City receives Community Development Block Grant (CDBG) funding from the U.S. Department of Housing and Urban Development for activities that primarily benefit Low and Moderate Income

residents. Construction of ADA compliant access ramps citywide qualifies for CDBG funding because the ramps benefit disabled residents that are considered to be Low Income.

Construction is scheduled to begin in January 2022 and is expected to be completed within 30 calendar days.

The proposed project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) under CEQA guidelines Section 15301 "Existing Facilities" Class 1 (c). The Notice of Exemption will be filed with the County Recorder's Office upon Council's approval of the plans and specifications

Specifications and cost estimates are available for review in the Public Works Department.
